**Schenck's Pulmonic Syrup, Sea Weed  
Tonic, and Mandrake Pills.**  
These deservedly celebrated and  
popular medicines have effected a  
revolution in the healing art, and  
prevented the failure of several max-  
ims which have for many years ob-  
scured the progress of medical  
science. The false supposition that  
"Consumption is incurable" de-  
ceived physicians from attempting  
to find remedies for that disease,  
and patients afflicted with it recon-  
sidered themselves to death without  
making an effort to escape from the  
snare which they supposed to be  
unavoidable. It is now proved,  
however, that Consumption can be  
cured, and that it has been cured in  
every great number of cases (some  
of them apparently desperate ones).  
By Schenck's Pulmonic Syrup  
and in other cases by the use of  
Schenck's Sea-Weed Tonic and  
Mandrake Pills, one of both, ac-  
cording to the requirements of the  
case.

Dr. Schenck himself, who enjoyed  
a distinguished good health for more  
than forty years, was supposed at  
one time to be at the very gates of  
death, his physicians having pro-  
nounced him case hopeless, and  
predicted that he would die. He  
was cured by the use of both, and  
now, and since his recovery, many  
hundreds similarly affected have  
used Schenck's preparations  
with the same remarkable success.  
Full directions accompany each,  
making it not absolutely necessary  
to consult a doctor. Dr. Schenck, un-  
derstands his patients wish their lungs ex-  
amined, and for this purpose he is  
professionally at his principal office,  
corner Sixth and Arch Streets,  
Philadelphia, every Monday, where  
all letters for advice must be ad-  
dressed.

Schenck's medicines are sold by  
all druggists.

subject. He also makes the application of the events of secular history, showing, by the latter means, the literal fulfillment of what has been foretold by inspired writers and speakers.

Yesterday President Young's school-house, Eighteenth Ward, was crowded beyond its seating capacity, on the occasion of Elder McKennzie's second lecture there, on the before-mentioned theme, his discourse being listened to with the most marked attention.

**A Public Improvement.**—A very excellent public improvement has been erected on First South Street, in the vicinity of the City Hall, in the shape of a drinking fountain, from which a continuous stream of limpid water will flow, where man and animal will be able to drink. More of these conveniences would be very acceptable to the public.

One was also recently erected on Third Temple Street, at the end of Fifth East Street.

**Sanpete.**—Mr. John Reading, of the 13th Ward, has just returned from a visit to Sanpete. We learn from him that in some parts of that valley the roads are quite dry, and the people are somewhat anxious for rain, as the mountains being covered in the mountains being covered insufficient to insure an abundance of water during the coming season for irrigation. Stock is, however, doing very well, and the people are generally prosperous and happy. Brother Reading went over the ground that he trod when on the Indian war expedition, in 1866, which revived recollections of that time.

He visited the coal mines on Huntington Creek, twenty-one miles, by road, from Fairview, and twelve miles, over the mountains from Mount Pleasant. The company who are operating the mine are manufacturing coke of good quality, at the rate of ten tons a day. When the facilities for transportation are improved the concern will pay well. The body of coal there is "simply immense," the vein being twelve feet thick, and believed to extend a very long distance.

**A Shooting Scrape.**—Late on Saturday night a man went to a disreputable house on Plum Street, near Commercial, and a disagreement ensuing between him and some of the female inmates, the latter turned him out. When at the door he suddenly turned and fired a shot from a pistol at one of the women, the ball passing over her head and through the hat of a man named Gaines, who happened to be inside. The party who fired the shot then fled, but was subsequently captured by the police. He gave his name as being John P. Jones. This morning Justice Pyper fined him \$100. The fine was paid by some of his friends and he was released.

Two women who were in the house at the time of the occurrence were arrested by the police on a charge of keeping a house of ill-fame. Their names are Bristow, alias Smith, and Bonay.

**Salt Lake and the Mormons.**—The *Morley* (Yorkshire, Eng.) *Observer* contains a brief report of a lecture in the Odd Fellows' Hall, in that town, recently, by Professor C. D. Evans, upon "Salt Lake and the Mormons." Elder Evans himself writes as follows—

**"Editor Deseret News:**

"The enclosed clipping from the *Morley Observer*, a paper of no small influence, will serve to show that we are determined to bring "Mormonism" to the front in the Leeds Conference. A more respectable and attentive audience I have never had the pleasure of addressing, and am happy to inform you that several wealthy and influential citizens of Morley expressed themselves, to the President of the Branch, as being highly satisfied with the lecture, the more especially so as their views had been corrected on several very important matters connected with our history and persecutions. The report of the lecture is a very fair one, a few errors excepted.

"I am announced to lecture in other places in the county. We shall thus have the opportunity of representing ourselves rather than of being misrepresented by a hiring clergy, although there is little doubt that if they dare not oppose us openly they will do all they can to alienate us. These lectures pay the expenses of hiring halls and advertising. I am gratified in informing you that several are being added to the church in this conference, and more about being baptized."

**Personal.**—Mr. Edward S. Baker, travelling editorial correspondent of *The Resources of California*, called in to-day. He is on a tour eastward in the interests of the journal named, which is a large eight page monthly, published in San Francisco, and filled with useful matter of the nature indicated by its title.

SEVERAL REQUISITES  
OF several Instruments!

The MAISON & HAMLIN ORGAN CO. have the honor to announce that the Organ has been unanimously assigned "THE FIRST RANK" in the SEVERAL REQUISITES of instruments at the CENTENNIAL EXHIBITION at Philadelphia, 1876, and are the ONLY INSTRUMENTS OF THIS GENERAL CLASS AWARDED THE FIRST RANK. This is after the severest competition by the best makers before one of the most competent juries ever assembled.

They have also received the MEDALS, but as is well known, medals of equal rank have been awarded all articles deemed worthy of recognition; so this it will be easy for many makers to advertise that they have received "first medals."

The differences in competing articles and their comparative excellence, are recognized in the Reports of the Jurors from which the following is an extract:

"THE MAISON & HAMLIN ORGAN CO.'S exhibit of Road Organs and Harmoniums shows instruments of the FIRST RANK IN THE SEVERAL REQUISITES OF INSTRUMENTS OF THIS CLASS, viz.: Smoothness and equal distribution of tones; brilliancy and variety of tone; quality, freedom and quickness to action; range and bell-toned, with thoroughness of construction, combined with simplicity of design."

(Signed by all the Judges.)

The Mason and Hamlin Organs are thus declared to rank first, not in one or two requisites, but in ALL THE REQUISITES of such instruments, and they are the Only ones assigned this rank. This triumph was not unopposedly won. The Mason & Hamlin Cabinet Organs have undergone the severest tests in all the competitions in America; there have been scarcely six exceptions in hundreds of competitors. They were awarded highest honors and
