

UTAH SHEEPMAN IS MURDERED

**Peter Swanson Shot and Mortally
Wounded by Seven Masked
Men in Colorado.**

HIS COMPANIONS WERE BOUND

**Men Were on Their Way From Frisco,
Utah, When Attacked Near
White Water.**

Montrose, Colo., April 25.—While on their way to the sheep range in this county with a large herd from Frisco, Utah, three herders, Grover Cornett, Peter Swanson and Al Swanson, were set upon by seven masked men last night at White Water, Colo., 35 miles west of here.

Peter Swanson was shot and mortally wounded and his companions bound hand and foot and left helpless on the prairie. News of the shooting has stirred the cattlemen and sheep owners of this section to a high pitch of indignation and diligent search for the perpetrators of the outrage is being prosecuted.

DID GENERAL WOOD OVERSTEP HIS AUTHORITY?

Washington, April 25.—The question whether Gen. Leonard Wood overstepped the bounds of his authority in the matter of the court martial of Louis B. Brown is involved in a claim made by Brown for salary as first lieutenant in the volunteer forces of the United States army which today was submitted to the supreme court of the United States. The case grows out of a military trial of Brown held at San Luis in the military department of Santiago, Cuba, in November, 1898, when Brown was charged upon to answer a charge of conduct unbecoming an officer, consisting of gambling with the enlisted men. The court martial first returned a verdict of acquittal, but when the result of the inquiry was brought to the attention of Gen. Wood, in command of the department, he directed the reconvening of the court and upon the second trial and in the absence of Brown, he was found guilty and sentenced to dismissal from the service. Gen. Wood endorsed the second verdict and in accordance with his orders the sentence of the court was carried into execution. Brown, who is now a resident of Houston, Texas, filed a claim in the court of claims for compensation for the entire time between date of dismissal and the date of the institution of his suit, amounting to \$5,325, and the court allowed him \$353, being the amount he would have received from the time of his dismissal until the date of the discharge of the other officers and men of his command. Both Brown and the government appealed the case to the supreme court.

STUPENDOUS RUSH OF IMMIGRANTS TO AMERICA.

New York, April 25.—How stupendous is the rush of immigrants to this port this spring is shown in a tabu-

DELICATE CHILDREN

**Advice to Salt Lake City Mothers Who
Have Delicate Children.**

If we could only make all fathers and mothers in Salt Lake City regard what we say there would be fewer sickly, delicate children on our streets. Rapidly growing children need a great deal of vitality. They grow fast play hard, and work too hard at school and many such children are tired, thin pale and worn when they ought to be robust and rosy.

Every run-down, growing child in Salt Lake City should take Vinol, our delicious cod liver preparation without oil. It requires almost no digestion at all and cannot upset delicate, weakened stomachs as do old-fashioned cod-liver oil and emulsions. Vinol also contains peptonate of iron.

It strengthens the digestive organs, makes new vitality, sound flesh and muscle tissue, strong bone structure and pure, rich, red blood. Vinol fills out hollow cheeks and makes thin little arms and legs plump and round.

Said Mr. Draehl of Draehl & Frankent: "We cannot recommend Vinol too highly for puny, weak and ailing children, for build up the run-down, overworked, tired and debilitated, or to give renewed vitality to the aged, and we cheerfully refund the money in every case where it fails." Draehl & Frankent, Druggists; also Smith Drug Co.

NOTE.—While we are sole agents for Vinol in Salt Lake City, it is now for sale at the leading drug stores in nearly every town and city in the country. Look for the Vinol agency in your town.

tion that makes it appear that this month's arrivals here will total more than \$140,000. There are waiting in the harbor 10,496 men, women and children, chiefly Italians. When the 25 ships due here within the next few days arrive, there will be waiting in the harbor and at the piers about 49,000 prospective dwellers in our land. Farm hands and day laborers have been attracted by the stories of high wages and general prosperity that have been sent to the old country by relatives and friends. Besides the new immigration law will go into effect on July 1 and make it harder for laborers to enter the country, so there is a rush to get it before the new barriers are raised.

FOUR CITIES AFTER NATIONAL CONVENTION.

Chicago, April 25.—A dispatch to the Tribune from Washington says: Four cities, Chicago, St. Louis, Kansas City and Seattle, have already filed more or less formal applications for the honor of furnishing the accommodations for the next Republican national convention. Other cities will be heard from before long. suggestions having been made informally already. By the time the national committee meets in December, there will be at least a dozen cities, it is said, contending for the honor, and the fight is likely to be almost as serious in its way as that for the presidential nomination itself, on which it may have some bearing.

There is always a good deal of personal politics in selecting the convention city, and the indications are that this year will be no exception to the usual rule. At the time the national committee meets here in Washington next December the preliminary fight for the nomination will be getting hot. All the delegates are elected after that time, because until the call is formally issued, no district or state convention has any authority to prepare for the national gathering.

After the time and place for holding the convention have been fixed by the national committee, the actual fight for delegates begins, and it will continue up to within a few weeks of the convention itself.

IRATE HUSBAND ON THE WARPATH

**Held up a Dozen Streetcars to
Find Conductor Who Winked
At His Bride.**

HE INTERROGATED EACH MAN.

**Carried and Brandished a Big Club—
Finally Police Arrested
Him.**

Chicago, April 25.—A dispatch to the Tribune from Atlanta, Ga., says:

Armed with a heavy club, Oscar Huggard, husband of two months, held up a dozen trolley cars in Atlanta yesterday and demoralized the entire system in an effort to find a conductor who winked at his bride.

Huggard stationed himself on Whitehall street, a main thoroughfare, and as a car appeared he leaped aboard, rushed to the conductor and brandishing his club, cried:

"Are you the man that winked at my wife?"

"Winked at your wife?" the conductor said. "Why, I never saw you or her either in all my life."

After an argument of 10 minutes or more that brought all the men in the car to the platform, the motorman resumed his watch, waiting for the next car.

Five cars were held up in this manner without finding the "winker," and then Huggard brought Mrs. Huggard into action. Together they held up seven more cars without finding the conductor who winked.

By this time traffic on the Whitehall line was demoralized. The police arrested Huggard. He is a business man and promptly gave bond.

According to Mrs. Huggard, as she left a car she had been winked at by one of the conductors.

A LIVELY FIGHT ON THE SHIP, STAR OF FRANCE.

San Francisco, April 25.—A lively fight took place on board the ship Star of France this morning as she was hauling out from Green street wharf bound for the Alaska canneries. A number of Porto Ricans on board tried to leave the ship incited by a crowd of countrymen ashore. This was opposed by the ship's officers. A battle was precipitated in which men of all nationalities took part. The police responded to a riot call and after some vigorous work, in which revolvers were freely used, the tumult was quieted down. The ship left for her destination. Strange to say, no one was injured in the melee.

ECKELS' SUCCESSOR.

W. B. Ridgley, Comptroller of the Currency, Goes to Commercial Nat'l.

Chicago, April 25.—William B. Ridgley, federal controller of the currency, is to succeed the late James H. Eckels as president of the Commercial National bank, according to a persistent rumor which gained credence last night both in Washington and Chicago. No official announcement of the choice of Mr. Ridgley was given out by the directors of the bank, but many financial men were inclined to put faith in the report.

The Commercial National bank is one of the largest financial institutions of the city. According to the last statement it has a capital of \$2,999,000 and deposits of \$39,329,281.

"JUST FOR FUN."

**Girl Took Strychnine to Watch Effects
And Died.**

Chicago, April 25.—A dispatch to the Tribune from Sioux City, Iowa, says: Claiming that she did it just for fun and wanted to see how it would seem to watch the blood stop in the ends of her fingers and the nails turn blue, Carrie Mattison, aged 21 years, yesterday took strychnine and died within an hour.

The dead girl was the daughter of a farmer. She appeared in good spirits and had no love affairs or disappointments.

BRITISH BARONETAGE ON SHAKY FOUNDATION.

London, April 24.—Unlike the titles granted in some continental countries, those of the British aristocracy have always seemed to rest upon a solid foundation, based as they have been on royal decrees, patents and precedence and carefully enveloped in good tape.

It developed this evening, however, that there is alloy in the gold of the baronetage, for a special departmental committee has issued a report saying there is no doubt that a number of persons have assumed the title of baronet either wrongfully or upon the most doubtful basis. These cases approximate 1 or 2 per cent of the entire baronetage.

The committee recommends legislative action to create a tribunal that shall prevent the unlawful use of any title.
