Submarine Cable Treaty—Hoar's friends Hope for Him—Samana Bay Treaty.

CHICAGO, 26.—Washington special says that the government has instituted measures to bring about a treaty between all maritime nations on the subject of ocean cables, and that instructions have been sent on this subject to our ministers in England, France, Germany, Spain and other countries. The government asks that no exclusive concessions shall be given to any party; that the government shall have the right to examine the telegrams, and that the cable shall have all the right of neutrality.

The death of Stanton has led some to believe that Hoar may now be confirmed as a Supreme Justice; their idea is to have Hoar appointed to a Northern Circuit. It is not probable, however, that this will succeed. Pennsylvania will present Judge Strong for the vacancy caused by the death of Stanton.

The Samana Bay treaty will be ready for presentation upon the re-assembling of Congress. The administration desires early action.

The Times special thinks there is no truth in the rumors that an attempt will be made to break up the Georgia Legislature for a few weeks, no matter what its political complexion now is. The State is forced to adopt the terms proffered by Congress.

Wilder first cut his wife's throat and then shot himself.

WASHINGTON.

Texas to be Divided—F. S. Cozens Dead. The Obsequies of Stanton.

A movement is on foot to divide Texas into three States, to be called respectively Houston, Lincoln and Texas; this to be developed when Texas is admitted to the Union.

The funeral of Stanton will take place at 12 o'clock tomorrow from his late residence in Franklin Square. At the request of the Justices of the Supreme Court, concurred in by the family, the arrangements are to be taken charge of by the War Department. But, in accordance with the wishes of the family, there will be no military display at Washington.

The commission of Stanton as Associate Justice, had not been signed at the time of his death; but in the course of the day the President signed and sent the commission to the widow as a mark of respect.

At a meeting of the members of the House of Representatives held yesterday, appropriate resolutions were adopted of respect and condolence. It was decided to attend the funeral in a body.

Frederick S. Cozens, the well known author, was buried to-day.

No business was transacted in official quarters to-day, owing to Stanton's funeral.

The funeral of Stanton to-day was largely attended. The services were merely those of the Presbyterian Protestant Episcopal Church, and were performed by the Reverend Dr. Stooker, of the Church of the Epiphany, of which the deceased was a member, assisted by Mr. Pinkley, of the church. Among those present were President Grant, officers of his household, with Vice-President Colfax, Senators and Representatives now in the city and members of the Cabinet and the Judges of the Supreme and District Courts, the officers of the army, of the War Department, the principal officers presiding in the naval and marine service. The diplomatic corps was represented by Minister Thornton and others, the City Council, members of the bar; a large number of citizens were also in attendance. Only a few intimate friends were privileged to see the face of the deceased previous to closing the coffin in the chamber where he died. The floral display was the finest ever seen here on a similar occasion. The coffin was covered with wreaths of bouquets of the choicest flowers. Many persons accompanied the remains with expressions of affection and condolence. The procession was not very large, through the prevalence of a rain storm. The remains were conveyed to Oak Ridge Cemetery for interment.

NEW YORK.—The last of the Spanish gunboats sailed yesterday.

Rev. Henry Ward Beecher eulogized Edward M. Stanton in his discourse at the Plymouth Church yesterday.

At St. James' Church, on Sunday, the evergreens and decorations caught fire, which created a panic in the congregation.

The last three of the Spanish gunboats lay off quarantine until some men can join them, as they are insufficiently manned.

A number of prominent citizens left for Washington last evening to attend the funeral of Stanton.

Geo. Francis Train delivered one of his characteristic harangues at Tammany Hall last evening.

A case has come to light, where an agent of a prominent South American Republic, who was deputed to come to this country and purchase gunboats has been swindled out of nearly a million dollars in bonds by a pretended ship broker.

A tug-boat blew up near the Atlantic Wharfen Friday night. Three men were aboard, two of whom escaped unhurt, although the boat was nearly torn to pieces.

General Hurlbut, the new American Minister, at Bogota, has been officially received. The speeches made on the occasion alluded favorably to the proposed Darien Canal.

An advertisement appears in this morning's *Herald*, headed "Northwestern Republic and Red River, British America," for capable men, soldiers preferred, as guides to parties leaving the United States. Written application only received at the American Annexation League, 445 Brown street.

The *Tribune* has a report from Washington, to the effect that the Administration has now under earnest consideration the propriety of changing its course in regard to Cuba, and its speedily recognizing the belligerent rights of the insurgents. This course is impelled by the feeling of the people and the temper of the majority in Congress. The report further states that Secretary Fish and Senator Sumner have expressed, within three days, such views as would indicate a change of policy towards Cuba.

SYRACUSE.—A most destructive fire occurred here to-day; seven large brick stores, on Salina street, owned by Gifford, Hamlet and others, were destroyed. The loss will be about \$450,000; insured to the amount of \$225,000.

PITTSBURG.—A large meeting of citizens was held at noon to-day, Mayor Bruns presiding, at which eulogies were pronounced and resolutions read in respect to the memory of E. M. Stanton, and manifesting sympathy for his family; between 12 and 1 o'clock the city bells were tolled, and business generally suspended.

A fire broke out on Fourth Street, above Market Street about one o'clock yesterday morning, which destroyed property to the value of nearly two hundred thousand dollars. The flames are supposed to have originated in the hardware store of Ruder & Thatcher, whose loss is \$50,000. The other heavy losers are B. E. Sutton, boot and shoe maker, \$20,000; Musselman & Kirk, wholesale dealer in carpet yarn, \$50,000; Thomas & Co., notion dealers, stock damaged to the amount of \$50,000; other firms lose more or less.

Another fire last night destroyed the four grain warehouses of Thos. Worley, with 80,000 barrels of flour. The loss falls short of \$80,000.

Later.—The fire is still burning. It is feared the adjoining warehouse, containing 6,000 barrels of whiskey and quite a large stock of flour, will also go.

Banks and Burnside's Coming Home—Card from the Harvards—Secretary Fish's Ideas on the "Alabama."

LIVERPOOL.—Generals Banks and Burnside left for their homes yesterday by the steamer *Cuba*.

The London *Times* to-day publishes a card from the Harvards, which lately appeared in the New York papers, explanatory of certain matters pertaining to the International race last August. The *Times* rejoices in the card, as it is an answer to all charges of English unfairness about the race.

The *Times*, to-day, on the *Alabama* claims, charges Fish with arguing that England should apply different principles to America than to any other nation; that Great Britain should have let the Union had arms and denied them to the rebels; and should have legislated, if necessary, against the latter. If the Union army was unable to repress the rebels at home, England was much less able to check them here. War is always a heavy burden on neutrals and the late civil war in America was a particularly grievous calamity to England.
