IDAHO'S NEW SUGAR FACTORY

To be an Assured One.

Given Till May 15 to Obtain Necessary 4,000 Acres to Assure Plant For Next Year.

The sugar factory project has now reached that very satisfactory stage where it remains not with some slippery promoter to do his part but only for the people of the community to carry out theirs. At a meeting of those interested, held in Payette on Wednesday, the matter was finally threshed out to a finish and it was decided to accept the proposition offered the executive committee by George C. Parkinson of Preston, Ida., representing capital

of Preston, Ida., representing capital now largely interested in the factories in the southeastern part of this state at Sugar City and Idaho Falls, thereby rejecting that of the Colorado parties with whom the committee first entered into negotiations, but who had failed so far to furnish the bond required of them as evidence of their good faith in the matter.

Mr. Parkinson is himself a stockholder and director in the companies owning the factories at Idaho Falls and Sugar City and he and Thos. R. Cutler, general manager of these factories, figure as the principals in a bond for \$25,000 for the faithful performance of their part of the agreement, which was drawn up yesterday by the local executive committee and signed by Mr. Parkinson, who departed on the afternoon train, taking it with him to have it countersigned by Mr. Cutler.

As is generally understood, the Colorado proposition embraced three requirements of our people, namely: At least 20 acres of ground for a site, a cash bonus of \$10,000 and contracts calling for 4,000 acres of beets for the ceasons of 1906, 1907 and 1908, the factory to be established in time to handle the crop of 1906. The proposition from Mr. Parkinson is substantially the same with the important exception that it does not require the cash bonus—an ex-

the crop of 1906. The proposition from Mr. Parkinson is substantially the same with the important exception that it does not require the cash bonus—an exception which might be said to generally mark the difference between a bona fide proposition from business men and one offered by a mere promoter. There is also the difference in the propositions that the form of contract under the Colorado proposition provides that \$5 a ton shall be paid for beets on a sliding scale, based on the per cent purity, while that of Mr. Parkinson provides that a flat rate of \$4.50 per ton shall be paid, which is generally considered to be more satisfactory to the grower.

All this was thoroughly discussed at the meeting Wednesday and many important points were brought out which it is impossible to cover at this time. Mr. Parkinson was accompanied to Payette by Mark Austin, local manager of the factories at Sugar City and Idaho Falls, who was able to give much valuable information, arousing great interest among those intending to grow beets for the factory.

The committee is given until May 15 to get the contracts for the 4,000 acres of beets signed up by the farmers, and it is needless to say that they will do everything in their power to have the work accomplished by that time and it

verything in their power to have the work accomplished by that time and it is confidently believed that they will be able to do so. Under the contract the company will receive beets delivered at any loading station on a railroad with-in 25 miles of the factory at the stipu-lated price of \$4.50 per ton. B. P. Shaw-han of this city has been engaged to act as the representative of the intend. ing investors during the coming season for the mutual benefit of all concerned and he will look after the many details likely to arise, while C. S. Faurot of Caldwell, a beet sugar expert, has been engaged to act for the present as agricultural superintendent, it being the intention to have much of the ground prepared this season for next season's planting and to raise a small amount of beets this year for experimental

As there was considerable objection to a certain clause in the form of contract as at first accepted at the meeting Wednesday, making the contract a lien on all real and personal property of the respective parties, the Independent has been requested to inform its readers that upon this fact being made known to Mr. Parkinson and Mr. Austin, they at once agreed to have the objectionable clause stricken out and it was accordingly done.—Payette (Idaho) Independ. ingly done .- Payette (Idaho) Independ-

LEGISLATIVE DINNER.

Pleasing Function at Commercial Club

Given by Governor Cutler. Among the pleasant times which are

marking the closing hours of the Legis. lature some members will probably recall longest the dinner given by Governor Cutler at the Commercial club Saturday evening after the "saunter" from the legislative halls at 6 o'clock from the legislative halls at 6 o'clock. Among the toasts and speeches which followed the repast several senators and representatives spoke of long careers in public life of which the evening was the legal close, and to them apparently the final close. Senator Bennion cast a backward glance at six years of senatorial duty and referred fecilingly to the growth of the state in that time and to the future with which he expected to deal but as a spectator. he expected to deal but as a spectator. On the left of Governor Cutler sat ex-Governor Heber M. Wells, and ex-Secretary of State James T. Hammond. On his right were President Love, who officiated a stoastmbaster, and Speaker Hull. Governor Wells, touched appar-ently by the speech of Senator Bennion on the closing of his long experience in the senate, spoke of the future of the state which he considered to be unpar-alleled in promise, and which must come to its own independent of the me incident to steering the ship of state. He congratulated the Legislature on its work, and wished the party and Gov-ernor Cutier every possible success. His closing remark was to offer a standing

toast to the new governor.

In a final speech before adjournment
Judge Theodosius Botkin spoke of the
fact that Utah's state machinery is more expensive and elaborate than that of many state's with unlimited re-sources, and that the urgent problem now before her was to so administer the be kept down within the available

SUNDAY SAUNTER TO THE CUT-OFF

The Payette Proposition Seems Legislators Enjoy the Picturesque Surroundings of the Famous Lucin.

COMMITTEES NOW AT WORK PLEASANT STOP AT MIDLAKE

Two Hundred Persons Make the Trip And Return to Salt Lake Mightily Pleased With Same.

A pleasant saunter was that which the legislators and their families took across the lucin cut-off yesterday. The trip came when they were fagged out with end of the session worries, and the change of interest from appropriations to the wonders of the great engineering feat of making the track across the lake, was enjoyed to the full.

The trip was made on a special train, which left Salt Lake at 10 a. m. and returned at 6 o'clock in the evening, after making a quick run to the edge of the lake, and a slower saunter over to Hogup, where the train was turned around and started back home. At Midlake a stop was made to allow a close inspection of the great cut-off, and while the legislators were strolling while the legislators were strolling about the little strip of land and estimating that its value must be about the greatest ever per acre, the overland limited whizzed past, making, to the surprise of everyone, hardly any more jar than on solid land of indefinite width.

width.

In the party were over 200 guests, under the personal care of Asst. General Passenger Agent Dan Spencer. A buffet car was attached from which a little luncheon was served, and later in the afternoon a ladies' tea. Mr. Spencer made everyone feel an especial welcome, and his solicitude for the general comfort of his guests was responsible for a large portion of the enjoyable feeling which marked the trip.

At Ogden Fred J. Klesel and a party of prominent citizens, joined the excursion and continued on across the lake.
