The progress of our City, State and Neighborhood, during point it is intended if satisfactory are rangements can be made with George Gould relative to traffic arrangements from Grand Junction to Salt Lake City, to build an independent road. Arrangements have been made with Sension Clark, Kenna and others in-tended. Clark, Kearns and others in terested in the new Salt Lake-Los Angeles road, which will insure direct railroad connection with the Pacific coast. The project is one of the most gigantic railroad schemes developed in the West since the construction of the first overland roads.

The Record Fractured.

The Rio Grande Western's gross earnings for November broke the No-vember record. They were \$452,600, an increase of \$54,600 over November, 1900. For the period of the current fiscal year from July 1st to November 30th, the gross has reached \$2,322,747, an increase of \$145,847. The figures back to 1894 were, 1901, \$452,600; 1900, \$398,000; 1898,

\$288,097: 1897; \$290,601; 1895, \$232,485; 1894, \$186,500.

They Feel Better Now,

Word from Omaha says that all the passengers who were tied up at Sher-man and Solon, Wyo., by wrecks at those places, have been refleved. No. 5, which was derailed at Ramsey, got started about midnight, after several hours' delay. A number of freight trains are still tied up on sidings, where they have been placed to clear the main line for delayed passenger trains. Rotary snow plows were put to work on the Wyoming and western Nebraska di-

visions after the snowstorm, and all the cuts have been cleared.

1902 Will be Phenomenal. The iron and steel demand continues, though less apparent, owing to the oversold condition of mills and fur-

races, says an eastern trade journal. I rices are high, and in some lines are threatening to advance. Rails are under active inquiry for next summer's delivery. The present orders on book are stated to be somewhere in the neighborhood of 1,600.000 tons. It is stated on good authority that rail makers have in sight contracts that will aggregate some three or four hundred thousand tons which they can have as soon as they are in a position to make satisfactory deliveries. The pressure for structural materials is even heavier now than two months ago. The avenues for the distribution of furnac

and mill products are widening, and the indications are that the year 1902 will be phenomenal in all respects. SPIKE AND RAIL.

Mileage scrip is to be issued by west-ern roads at a reduction of half a cent er mile. The Salida railroad hospital row has resulted in the removal of Dr. F. N. Cochens, chief surgeon.

The Pennaylvania road employs 7,-992 men in the Altoona shops, more tien than has ever been employed there before.
