

**POSTMASTERS HAVE HARD TIME**  
Oro in Goldfield Uses Salary to Maintain and Improve Service.

**NO WAY TO REIMBURSE HIM.**  
In Mining Regions of Rocky Mountains Hard to Keep Employees Because of Low Salaries.

Washington, Nov. 6.—First Asst. Postmaster-General H. H. Cook has returned from an extended trip through the west, which he took with a view of ascertaining at first hand the conditions that prevail in the postal service in that part of the country.

Difficulties have been experienced by the postoffice department for a considerable time in retaining the services of efficient and experienced employees, especially clerks and carriers, in many western offices. This condition prevails particularly in the mining regions of the Rocky mountains, where in the past few years towns have sprung up almost overnight and either have grown in a few months. In these places prices of everything, including labor, are high. In many instances the expenses are two-fold higher than in the middle west and east. The postoffice employees simply could not afford to work for the salaries paid by the government.

In several instances, said Mr. Hitchcock, it is found that postmasters paid considerable sums of money out of their own pockets to maintain the postal service in their towns. At Goldfield, Nev., for instance, the postmaster, Edward C. Collins, has paid out in this way more money than he has received in salary. He has done so to the performance of what he believes to be a patriotic duty. He said to me: "I found this condition when I came into the office, and now I purpose to see it through."

"That was a manifestation of pure American grit, but it is unfortunate that such a situation should arise. There is no way by which postmasters can be reimbursed unless Congress should pass a special act for his relief."

It is Mr. Hitchcock's purpose to advocate the adoption by Congress of an amendment to the graded salary law providing that, in exceptional instances, postmasters on a proper showing to the department may be allowed to pay salaries to clerks and carriers as of a higher grade than they hold, in order that their services may be retained.

When you are sick, out of sorts, take Hollister's Rocky Mountain Tea. It most effectively cures. Relieves when others fail. You be the judge, try it. 35 cents. Tea or Tablets, Z. C. M. I. Drug department, 112-114 Main street.

**HELEN MALONEY CAUSES LOTS OF TROUBLE**

Philadelphia, Nov. 6.—The Inquirer tomorrow will say: Although all persons concerned maintain their policy of silence it is asserted that members of the immediate family of Helen Maloney, the millionaire financier, assembled here tonight to arrange an adjustment of the affairs centered around the marriage of Helen Maloney to Herbert Osborne, which became public after Miss Maloney's engagement with Samuel Clarkson, a young Englishman, on Oct. 4.

Neighbors and others who know the Maloney family declare that Mr. and Mrs. Maloney, Andrew Maloney, a brother of Martin Maloney and Mrs. Carberry Ritchie, a sister of Miss Maloney, were at the Maloney home in west Logan Square today, and that Miss Helen Maloney subsequently was brought to the house by her uncle, Andrew Maloney, in a chariot. Her arrival was followed tonight by that of young Osborne and his attorney, William J. Fanning of New York, who reached the house about 9 o'clock.

The house is closed to all inquirers, but it is asserted that Osborne said to a friend of the Maloney family that he had not embraced the Catholic faith, but that matters would be satisfactorily adjusted. No authorized statement has been secured from any member of the family.

**NEW CURE FOR DIPHTHERIA.**  
Munich, Nov. 6.—Prof. Rudolf Emmerich, professor of hygiene in the University of Munich, declares that he has a cure for diphtheria, which is effective even in the most dangerous cases in a very short time after its application. This remedy is called "pyocyanine," and is obtained from the stimulation of the pyocyanous bacilli developed in liquid cultures. This matter is blown into the patient's throat and completely destroys all the diphtheria bacilli.

**RUN OVER BY A HORSE.**  
San Francisco, Nov. 5.—Gavin McNab, the well-known attorney and prominent politician of this city, was run over by a runaway horse late this afternoon at Third, Kearney and Market streets, and seriously injured. Mr. McNab was walking across the street near Lotta's fountain when a horse attached to a light wagon suddenly became unmanageable and galloped, running down Mr. McNab, who seemed to be preoccupied and did not notice its approach.

He was picked up bleeding and unconscious and immediately hurried to the Central emergency hospital, where at first it was thought that his skull

**FOLGER'S Golden Gate Coffee**  
will never vary if you grind it at home. The grocer grinds all kinds of Coffee in his mill—you grind but one in yours. See the Point? Aroma-tight tins—Never in bulk.

J. A. Folger & Co., San Francisco

was fractured and that he was fatally injured. Tonight, however, Mr. McNab regained consciousness, and the attending physicians stated that they had been unable to find any fracture of the skull and, while seriously hurt, did not believe that his injuries were dangerous.

Gavin McNab for 10 years has been the recognized Democratic political leader of San Francisco and took an active part in the campaign that ended in yesterday's election.

Don't be discouraged if other remedies have done you no good. Try Hollister's Rocky Mountain Tea. The cure is certain. 35 cents. Tea or Tablets, Z. C. M. I. Drug department, 112-114 Main street.

**UPTON SINCLAIR.**  
Denies There is Any Estrangement Between Him and Wife.

Battle Creek, Mich., Nov. 6.—Upton Sinclair, the author, who is here with his wife, today indignantly denied reports about the estrangement between himself and Mrs. Sinclair, who has been a patient at the sanitarium here since Aug. 15, recuperating from a dangerous attack of appendicitis. Mr. Sinclair added: "More complete sympathy and understanding could not exist between two human beings that exist between us, and there never has been any estrangement, but perfect devotion between us. Rumors to the contrary are grotesque and absurd falsehoods."

**OKLAHOMA BANK ROBBED.**  
Guthrie, Okla., Nov. 7.—A telephone message to Under Sheriff Robert Myers, from Marshall, Okla., at 9:25 this morning, stated that robbers last night dynamited the safe of the Farmers' State bank, securing all the money and valuable papers in the vault.

It is utterly impossible at this hour to find out details of the robbery. The amount secured is not known, nor if any person has been injured. A strong posse is now preparing to go to the scene of the robbery.

**FIVE MEN KILLED BY BOILER EXPLOSION.**

Steubenville, O., Nov. 6.—By the explosion tonight of a dinky engine boiler at the Labeled Iron works here, five men were killed, three perhaps fatally injured and a portion of the plant, directly opposite the explosion, was wrecked.

**THE DEAD.**  
Harry Andrews, engineer, aged 22 years.  
Charles Reed, engineer, aged 22.  
William Smith.  
Daniel O'Brien, aged 30.  
William Scott, aged 35.

**THE INJURED.**  
William Carahan.  
James Sanders.  
James Edwards.  
All the victims lived in this city.

**STEVE ADAMS' TRIAL.**  
Spokane, Wash., Nov. 6.—Mr. Darrow, in the Adams trial at Rathbun, finished with Mrs. Thomas shortly after court convened in the afternoon. John R. Thomas, father-in-law of the defendant, testified that the skeleton found on Marble creek was identified by him through an enlarged joint on the little finger, a part of a shoe and a blue and white handkerchief. Callouses on the feet of the dead man were also means of identification. A telephone call containing the skull and effects of the dead man were introduced as evidence, but Mr. Darrow objected to their admission, saying he would like to have his rights. The rest of the afternoon was devoted to questions about the peculiarities of the body of Tyler.

A pair of shoes in the collection of exhibits, Thomas said today, were too small for Tyler. "The skeleton has a waistline that the boots accidentally got into the effects on exhibit. Court then adjourned until tomorrow morning.

**SECY. ROOT TALKS TARIFF.**  
Washington, Nov. 6.—Secy. Root today discussed the question of the adjustment of tariff cases between America and France with Ambassador Jusserand and Secy. Cortelyou. The French ambassador has a proposition to submit in this government, but its nature could not be learned. Officials of the state department declare that they are not now in a position to discuss the situation.

**PURITY CONGRESS FAVORS UNSEXING CRIMINALS.**

Battle Creek, Mich., Nov. 6.—The National Purity congress adopted a platform today. There was a very warm argument over a resolution favoring the unsexing of criminals, which was finally adopted, the most ardent votaries largely against and the women favoring it.

Another resolution adopted demands strict personal and domestic purity. The National Purity congress, which convened here Oct. 31, closed tonight and adjournment was made that Friday a voters club would be organized in this city to make a purity campaign along the lines brought out by the congress.

The closing sessions were marked by addresses by L. L. Pickett of Louisville, recently a candidate for governor of Kentucky, and Bolton Hall of New York City. Mr. Pickett advocated the national prohibition law and predicted that the wave of prohibition that has swept over the south would soon reach the north as well.

He spoke on the topic, "Wages and Prostitution." He attributed much of the social evil to low wages, as small incomes prevented young men from undertaking the responsible life of marriage and "even at the price of shame women would have their little amusements and their attractions of dress and even of education."

If they were content to exist on a mere living wage they would drag down with them our standard of living," he said. He attributed the poverty of Irish women to the prevalence of early marriages in Ireland.

Mr. Hall's plan for eradicating the social evil was by a purity campaign. With plenty of hand available for those who can use it, he said, business is good and wages are high, but speculation and restriction keep down the wages and then come hard times, low wages and fewer marriages. He advocated a radical altering of the general conditions of living.

Mrs. Mary Church Terrell of Washington, honorary president of the National Association of Colored Women, tonight said that her remedy for the social evil was by the employment of white women in the south referred to many white homes, but she had not intended to include them all.

**I SCRATCHED DAY AND NIGHT.**  
With a sculp humor until cured by Cuticura.—Ada C. Smith, Jersey City, N. J.

All wall papers 25 per cent off. W. A. Duvall, 110 West Second South.

**Ask your grocer to send you Royal Bread. It is made in a clean bakery and the crown label is on every loaf.**

**HEARST CHARGED WITH CRIMINAL LIBEL.**

New York, Nov. 6.—William R. Hearst appeared before Justice Wyand, in court of special sessions, for a hearing on the charge of criminal libel brought against him by former Congressman William A. Chandler. Chandler alleges that the libel was contained in a recent article appearing in the New York Evening Journal concerning the case of Raymond Hitchcock, in which Mr. Chandler's name was mentioned.

The witness stand today and denied absolutely that he had ever been at Hitchcock's house when young girls were there. He also denied that he had ever ridden in Hitchcock's automobile at any time. Mr. Chandler said that Hitchcock for the past two years had owned a home near his own at Great Neck, Long Island, and that he knew the actor quite well.

At the conclusion of the hearing, counsel for Mr. Hearst moved that the case be dismissed and that Mr. Hearst be not held for the grand jury, on the ground that his proprietorship of the paper had not been proven and that the article in question had not been shown to be of a libelous character.

In this connection it was testified by an employee of the Evening Journal that Mr. Hearst never wrote for that paper, and that his only interest in it was in a financial way. Justice Wyand gave the opposing counsel until next Monday to file briefs and said that he would render a decision next Wednesday.

**STRIKE CALLED OFF.**  
Chicago, Nov. 6.—At a meeting of the Commercial Telegraphers' union, held here today, it was decided to call off the strike of the operators. About 300 men applied to the companies today for reinstatement.

**CURED OF BRUITS' DISEASE.**  
Mr. Robert O. Burke, Elmore, N. Y., writes: "Before I started to use Foley's Kidney Cure I had to get up from twelve to twenty times a night, and I was all bloated up with dropsy and my eyesight was so impaired I could scarcely see one of my family across the room. I had given up hope of living, when a friend recommended Foley's Kidney Cure. On 10 cent bottle worked wonders and before I had taken the third bottle the dropsy had gone, as well as all other symptoms of Bruits' disease." For sale by F. J. Hill Drug Co., "The Never Substitutes."

A delicious luncheon with prompt service at all hours at the Royal Cafe. A good place to eat.

All wall papers 25 per cent off. W. A. Duvall, 110 West Second South.

**VON BUELOW NOT RESPONSIBLE FOR HARDEN'S ATTACKS**

Berlin, Nov. 6.—"The charges against me are absurd and untrue," said Prince von Buelow, the imperial chancellor, in court today, during the trial of a journalist, Herr Brand, on the charge of calumniating the chancellor by intimating that he practiced infamous vice similar to those referred to in the Muller-Holen case. Brand, a sickly-looking young man, formerly an anarchist, has already been sentenced three times to imprisonment for calumnies and publishing indecent literature.

The chancellor further denied all responsibility for Herr Harden's attacks upon Gen. von Moltke, Prince von zu Eulenburg. The prince, who was summoned as a witness, appeared in a very broken condition of health. He required a quarter of an hour to drag himself up the steps.

After the prince had testified that he knew nothing to support the charge against the chancellor and that as for himself he was innocent of the offenses charged against him by Herr Harden, Brand was sentenced to 18 months' imprisonment.

**NORDICA SEEKS ADVISER.**  
Munich, Bavaria, Nov. 6.—Mme. Nordica has invited Ernest von Posnart, director of the Bavarian court theater, to become her artistic adviser during the construction of the Austrian theater, and manager of the first season, the engagement to begin next April. Herr von Posnart is disposed to accept the offer, but has asked for time to consider it until Christmas.

**MYSTERIOUS MURDER.**  
Tacoma, Wash., Nov. 6.—The body of a young man, 22 years old, was found today by the watchman in the hold of the Chilean bark Adela, which is on the drydock at Quarters harbor. The body was in a horribly mutilated condition and had the appearance of having been cut with a sheath knife and a hand saw. The man is a stranger in

**CERTAINLY WORTH TRYING.**

Says Many Persons Here Can Be Made Happy Again by Using This.

There is so much Rheumatism here now that the following advice by an eminent authority will be highly appreciated by those who suffer. Get from any grocery store one-half ounce Fluid Extract Dandelion, one ounce Compound Karsan, three ounces of Compound Syrup Sassafras. Shake them well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home-made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids and waste matter, which cause not only Rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffers from any urinary trouble whatever, should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Quartermaster and was not a member of the crew.

**MISSOURI REPUBLICAN CLUB ENDORSES TAFT.**

Kansas City, Nov. 6.—The Missouri Republican club, the oldest Republican organization in Missouri and the only incorporated Republican club in the state, tonight unanimously adopted a resolution endorsing Secy. of War William H. Taft for president of the United States, and Atty.-Gen. Hadley for governor of Missouri.

**THE NEW PURE FOOD AND DRUG LAW.**

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is now made by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. For sale by F. J. Hill Drug Co., "The Never Substitutes."

**TAMMANY LEADER DEAD.**  
New York, Nov. 6.—Daniel F. McMahon, who was leader of Tammany Hall with Charles F. Murphy and Louis Haddo, and who retired two years ago from the chairmanship of the executive committee, died today at Atlantic City. Richard Croker regarded Mr. McMahon as one of his closest political friends.

**DOMINION PARK BURNED.**  
Montreal, Nov. 6.—Dominion park, a pleasure park, destroyed by fire today, the damage being about \$300,000.

**WHAT IS "SOLID GOLD?"**  
Congress May Take Steps to Abolish Meaningless Term.

The term "solid gold" has been the cause of much discussion on the part of manufacturers of gold articles and of much misapprehension on the part of the public for some time past, and the recent law fixing the commercial definition of the phrase is welcomed on all sides.

According to this law, says the Los Angeles Times, ten-carat gold is the commercial "solid gold," and all articles containing more alloy than this, State of Ohio, City of Toledo.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State of Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sworn to before me on the 6th day of December, A. D. 1888.

A. W. GLEASON, Notary Public.

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system. Send for testimonials free.

# SOME STATEMENTS REGARDING NEW THEORY

Followers of Cooper and His Novel Ideas Give Reason for Their Belief in Him.

With a theory that human health is dependent on the stomach and with a medicine which he says proves this theory, L. T. Cooper, a comparatively young man, has built up an immense following during the past year.

Cooper has visited most of the leading cities of the country, and in each city has aroused a storm of discussion about his beliefs and his medicines. Wherever he has gone, people have called upon him by tens of thousands, and his preparation has sold in immense quantities.

The sale of this medicine has now spread over the entire country, and is growing enormously each day. In view of this, the following statements from two of the great number of followers which he now has, are of general interest.

Mrs. Agnes Vigenhouser, of 942 St. Louis avenue, Chicago, has the following to say on the subject of the Cooper preparations: "For more than ten years I was broken down in health, I could not sleep and I was very nervous. Gradually I began to lose my memory, until I could not remember things from one day to another. I had severe pains and cramps in my body, and I would at times see dark spots before my eyes. I was unable to do any work whatever, as my strength was failing. I had no appetite, nor could I take any medicine."

"I had about given up hope of ever being well again when I read of Mr. Cooper's remedies. I decided to try them on a trial, and I began to feel better at once. After taking the medicine for two weeks I can say that I am a new woman. I can eat with enjoyment, the pains in my body have left me, and I am stronger than I have been for years."

"I cannot say enough for Mr. Cooper's remedies. They are wonderful, for they have done everything claimed for them in my case."

Another statement by Mr. W. B. Stewart, 109 W. Madison street, Chicago, is as follows: "I have had stomach trouble for years, and anyone who is afflicted this way knows what an awful distressed feeling it causes. Many a time I have felt that I would give most any price to be cured. It was by accident that I heard of this man Cooper's remedies. I immediately made up my mind to buy a treatment of him. I used it for about two weeks, and it is impossible to tell how much good it has done me. I feel altogether different. I have more life and energy than I have had for years. This medicine certainly does stimulate and strengthen the whole system. I feel that the weak condition of the stomach has been completely passed away. I feel well again."

We sell Cooper's celebrated medicines which have made this wonderful record in all parts of the country. F. J. Hill Drug Co., 80 West Second Street.

# Good Money to Be Picked Up At Gooding

OME place in southern Idaho there will be built a great city. The location of this city will be determined by the opportunities offered. Gooding has the opportunities in greater abundance than any other locality and if there is anything in signs, and there is, GOODING will be that town. GOODING is located in Lincoln county, Idaho, 16 miles west of Shoshone, the county seat. Big and Little Wood rivers both flow by the town. It has an altitude of 3,600 feet. Besides its natural advantages it is backed by a company of the strongest and most substantial men in Idaho, among them being Governor F. R. Gooding, D. C. McWatters, general manager of the North Side Twin Falls company, and Pentress Hill, personal representative of the Kuhn Brothers, the financial backers of the North Side Twin Falls company and also the Great Shoshone Falls Power company.

Irrigation is building up a new empire in the Snake river valley. It is the greatest body of irrigated land in the United States. GOODING is the only new town in this empire which is located on the main line of the Oregon Short Line railway. South of the townsite lies the lands of the North Side Twin Falls project with its 150,000 acres, the South Side Twin Falls project with its 240,000 acres of irrigated lands and to the south of this lies the Salmon River and Cedar Creek projects with a combined acreage of another 200,000. GOODING is in the center of the 70,000 acres to be reclaimed by the Big Wood River Irrigation company and north of GOODING lies the great Camas Prairie with its more than 150,000 acres of agricultural lands, surrounded by one of the best grazing countries in the west.

Through the center of these projects flows the mighty Snake river which furnishes more water for irrigation, at its minimum flow, than any other stream in the whole of the arid portions of the United States.

Along that portion of the Snake river lying within these irrigation projects there are more natural water falls than in any other river in the United States. Dry Creek falls are a short distance below the great Milner dam and are 70 feet high. A few miles lower down are the Twin Falls, 175 feet high, three miles below them are the famous Shoshone Falls, 210 feet perpendicular fall, five or six miles further down the river are the Auger falls, 184 feet high, and still within the limits of these irrigated lands are the upper and lower Salmon falls each some 80 feet. In the vicinity of the Salmon falls are found the Black Canyon, the Thousand Springs and the Malad river. At each of these points there is a possible electrical power of from 20,000 to 50,000 horse power and the volume of water in the river is doubled by these tributaries within a space of 15 miles. At the Thousand Springs and also at the Malad power plants are now in the course of construction. The Great Shoshone Falls Power company has its plant at Shoshone falls installed and in operation and it at work on its Salmon falls plant.

GOODING is located within from fifteen to thirty miles of these great power plants. An electric railway is now being built from Milner to connect with the main line of the Short Line at GOODING. This electric railway is the first unit of a system which will thread this new empire with a network of trolley lines and will have a trunk line south to connect with the Southern Pacific and the Western Pacific systems in the Nevada mining region and will bring southern Idaho 400 miles nearer to San Francisco than it is at present. GOODING, remember, is the junction of this electrical system with the main line of the Oregon Short Line Railway and will be the outlet of southern Idaho for this system.

As a fruit producing section Lincoln county tops the market with all kinds of temperate zone fruits such as peaches, pears, plums, prunes and apples. Lincoln county apples brought as high as \$4 a box this fall in Chicago markets and produced as much as 1,000 boxes the acre of land.—Can you beat it?

**Do You Want a Chance to Make Money?**

We are going to give the other man a chance—This means YOU. Every man who invests a dollar in GOODING will have a chance to make money. The price of lots has been placed so low that there is a good investment for every man who buys one. The terms are: One-fourth down and the balance may be paid in installments of one-fourth each year for the next three years.

A domestic water supply is of prime importance in all new sections. At GOODING wells of never failing mountain water may readily be obtained at a reasonable depth and the sources that follow the use of impure water will pass GOODING by.

The fertility of the lands has already been proven beyond a doubt as the old ranches surrounding the town testify. Alfalfa, fruit, vegetables and all farm products grow in the greatest profusion.

**TOWNSITE OPENS NOVEMBER 14, 1907.**

Sole Agents, Gooding, Idaho.

# RHEUMATISM CAN NOT BE RUBBED AWAY

Rubbing with liniments, blistering the affected parts, the application of plasters, and other means of external treatment, are usually helpful in relieving the pains and aches of Rheumatism, but such remedies do not reach the CAUSE of the disease, and are therefore in no sense curative. Rheumatism is due to an excess of uric acid in the blood, brought about by indigestion, poor blood circulation, weak kidneys, and a general sluggish condition of the system. The circulation deposits this irritating poison in the different muscles, nerves, tissues and joints of the body, and soon the painful symptoms of Rheumatism are produced. The pains at first may be wandering and slight; but as the blood becomes more fully saturated with the uric acid poison, the disease grows worse and after awhile gets to be chronic. The slight, wandering pains now become sharp and cutting at the least exposure to dampness or night air, or any constitutional irregularity, the bones ache, the muscles are not as free in action as before, and where the acid poison is allowed to remain in the blood the joints often become so clogged with corrosive substances that they are left permanently stiff and useless. Rheumatism can never be rubbed away, nor can it be conquered and driven from the system until the acid-laden blood has been cleansed and purified. No other medicine does this so effectively as S. S. S. It dissolves and removes the impurities and sends a stream of rich, strong blood to the affected parts, which soothes the irritated nerves, inflamed muscles and flesh, and the sufferer obtains relief that is permanent because the real cause of the disease has been removed. Special book on Rheumatism and any medical advice desired free.
