

LOCAL AND OTHER MATTERS.

THEATRICAL.—The playing last night was quite spirited and satisfactory, both pieces being well rendered. Kate Denin and Mr. Wilson acquitted themselves in their usual excellent manner. Mr. Margetta and Mr. Graham were admirable in the "Golden Farmer," as "Harry Hammer" and "Jenny Twitchee."

To-night Kate Denin takes her benefit, and presents "The Field of the Cloth of Gold" and "A Husband at Sight." The first is an admirable burlesque produced here for the first time, and has lots of singing, dancing and the richest kind of fun; the latter in the tournament scene with its burlesque prancing steeds being side splitting. The cast is a strong one, Kate Denin playing "Daisy," and Mr. John Wilson "Francis." Miss Emily Denin will make her first appearance in the burlesque; and the cast includes Mrs. DeBae, Mrs. M. A. Romney, Messrs. Lindsay, Thorne, McIntosh and others. We expect a fine performance in this piece, and "A Husband at Sight," is a most comical two-act farce. We the lady will have the bumper house she deserves.

We notice that Mr. Margetta is underlined for a benefit on Monday night.

RE-ISSUE OF DAILY TELEGRAPH.—After a respite of about a month our cotemporary the Salt Lake Daily Telegraph made its appearance again to-day. With increased claims on it, once more hopes for a full share of public patronage and support.

THOSE BLESSED MAILS.—We extract the following paragraph from a letter of R. Warburton, Esq., of Tooele City, dated Jan. 25th: He says:

"How is it that No. 49 of the DESERET NEWS has never arrived here; were they mailed for Tooele? The people are very anxious for their papers. The Morgan city papers came here and a package for Springville. I do not know if the package addressed for Springville contained the DESERET NEWS, but that for Morgan city certainly did. Perhaps our papers have gone to some other settlement."

We think the last supposition very probable. This morning we received the Ogden Junction for the 22d inst. Where has it been the last five days? Really the carrying of the mails in this Territory is becoming a huge force. We had better return to the days of "fox team telegraphs and pony express."

FUNERAL OF THE LATE GOVERNOR DUNKLE.—The funeral of the late Governor Dunkle, took place at Kenosha on the afternoon of the 20th inst. All business in the city was suspended and every store closed. The day was very fine, and all the fire companies and other associations turned out. It was one of the largest funerals that ever took place in that section of the country.

NOTICE.—Elders in the States are requested to acquire as to the price of honey-bees in their several localities and to communicate any information they receive to bro. Wm. D. Roberts, Winchester, Scott County, Ill.

ENTREPRENEUR.—Brother William D. Roberts, of Provo, will start on the 5th of February from this city to the States, for the purpose of purchasing honey-bees. A number of brethren in Provo, convinced of the importance and value of cultivating the honey-bee, have arranged for him to go and make purchases for them. He will probably be on at least a car load, and he proposes to guarantee to those who wish to send for bees to deliver them a hive for \$25, paid in advance. For further particulars, apply to him at Provo, or to Bassett & Roberts, in this city, to whom payment may be made.

"SO SAY WE."—We clip the following from the San Francisco Call of the 19th inst., and heartily endorse its sentiments:

"Some days ago a large number of shoe-makers, employed by L. W. Wentworth, quit work upon being notified that their wages in future would be less than what they were in the habit of receiving. The workmen having thrown themselves out of employment, did not propose to remain idle and eat up their savings, and finding that there was no work to be had in the shoe-making line, they organized a co-operative society, raised funds, and immediately rented rooms, purchased stock, etc., and commenced work for themselves, and in a very short time will be able to give employment to persons who are not stockholders in the society. This is the right spirit. It shows that they are willing to work and are going to do it. If more of the mechanics who are out of employment would combine their capital and commence business for themselves, they would find that the public would render them a good pro quo for their labor."

WHITE PINE AND THE UTAH CENTRAL.—The Inland Empire is getting a little anxious on the railroad question, as is evidenced by the following paragraph published in that paper. Did we live in White Pine we have no doubt that we should feel the same as the folks there now do.

"Now that the railroad is completed from Ogden to Salt Lake, the parties interested in it are taking steps to once build a line further south. This extension will bring a north and south road to a point directly east of White Pine, from which we can connect, by a favorable route, this district with the East. By reference to the map it can be seen that this will be a most favorable route for Eastern travel and freight, and we can save many miles of railroad transportation and have about the same distance of teaming to do what we now have to do to Elko. The continuation of the road south from the Mormon city is a matter that every man in White Pine is interested in. Success to the enterprise."

HOWARD'S BILL.—The Territorial Enterprise of the 22nd inst. gives the following synopsis of Senator Howard's bill. We believe its information is in the main correct.

"Senator Howard has introduced a bill in Congress to regulate descent in the Territory of Utah, which was referred to the Committee on Territories. It provides that real or personal property in Utah, not disposed of by last will or testament, shall, upon the death of the owner, and subject to his debts, descend to his children born in lawful wedlock; or if he had none, to various other relatives who are specified minutely; and the bill provides that an intestate who has not been lawfully married to him, or who, not having been thus married to him, has cohabited with him or been considered by herself as his spiritual wife, according to the rites, usages and customs of the Mormons."

Some People "fly completely off the Handle"

When an article is said to do many things; now for our part we esteem and appreciate a preparation just in proportion to the amount of time and labor we can save by its use. The

RENOVATING MIXTURE

will remove with little trouble, every particle of Grease or Paint from your Coats, Vests, Pants, Hats, Dresses, &c., without injuring in the most remote degree, the finest fabrics. It is also very useful in removing the grease and dirt from doors and jambs much used by kitchen hands. Besides this it will kill Bed Bugs as well as their eggs and shampoos the head like a charm, creating a fine lather and removing every vestige of dirt and dandruff in a twinkling. It does the hair no harm being principally composed of Nitrogen—the element of which the hair most largely into the composition of hair.

WASHING COMPOUND

Causes a great saving of SOAP and LABOR as well as the wear and of clothing attending upon so much washboard rubbing as is usually necessary to bring the clothes to a proper degree of cleanliness. Some women are in the habit of using Turpentine, Alcohol, Ammonia, Camphor Gum, &c., for washing clothes, but none of them ought ever to be used for such purposes (one woman lost the use of her arm for six months by using a fluid containing Turpentine). The Turpentine and Alcohol especially tend to open the pores of the skin and thus render the person more liable to take cold as also to weaken the arms. This Compound does not fade but brightens Colours. It is well adapted for Washing Machines.

LIQUID BLUEING.

Most of the Blueing sold is poor stuff, leaving specks in the clothes. To avoid this, people should purchase ours, as it will be found much cheaper and more reliable. It is also a magnificent and durable BLUE INK. We desire our customers to understand, most distinctly, that we are not the persons to palm off on the public any spurious or inferior articles. To prove this we desire them to try our goods, and if they fail to give entire satisfaction, we here declare our perfect willingness to take them back and refund the means received therefor.

BUY THE BEST!

FLORENCE SEWING MACHINE

Has received the HIGHEST PREMIUMS at all important Fairs held in this country and Europe, where critical examination and PRACTICAL TESTS have been made by the highest standing, capable of giving an intelligent decision.

In addition to this, the Florence has received the verdict of

POPULAR APPROVAL

AID OVER THE WORLD.

As evidenced by its

IMMENSE SALE!

And Universal Favor.

There are three hundred Florence Sewing Machines in Utah Territory, sold by former agents, and by Chicago and St. Louis Agents.

In answer to advertisement offering to attend to any not giving satisfaction, free of charge, these Machines have been presented, needing slight repairs, JUST ONE IN ONE HUNDRED, after four years of service.

MRS. JOSEPH BULL, in the 17th Ward, has just purchased a Florence Machine. We are permitted to refer to her, and esteem her recommendation a mark of superiority, as Mrs. Bull has had much experience in the use of various Sewing Machines.

MRS. SPRING, Dressmaker, 14th Ward, says: "I have used a Florence Family Sewing Machine for several years past, having it almost constantly in use, and during that time it has never dropped a stitch, or been out of order a minute."

CAIT. HOOPER says: "I have a Florence in my family. For general family use the Florence is the best."

MRS. PICTON, living nine miles south on the State Road, says: "I have a Wheeler & Wilson. My neighbor, MRS. WEBSTER, has a Florence. When I go over, and see how much she can do with it, I feel like saying my Wheeler & Wilson away in the garret, so that none may know I have a Sewing Machine."

ALFRED BEST, after actual purchase, and fair trial of other first-class Machines, and the Florence, adopts the Florence as every way the best for family use.

MRS. WARREN HURSEY, after many years experience with various Sewing Machines, pronounces the Florence ahead of all others in all the requisites of a first class Sewing Machine. Simplicity, reliability, quiet and rapid motion.

MRS. SMITH, of W. F. & Co., purchased a Florence about two weeks ago. A few days after, MRS. MORF, purchased one, and now another of Wells, Fargo & Co., employees in about purchasing. Thus proving the practical test of the Florence Sewing Machine is its own best recommendation.

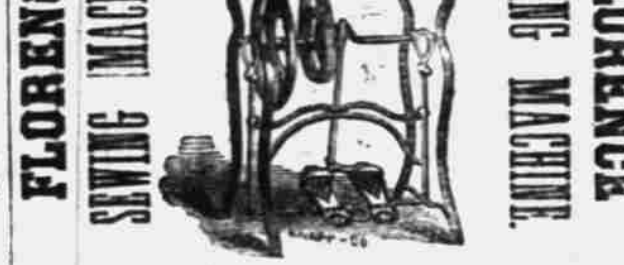

MRS. SHURTLEIFF, of Mill Creek, says: "I am delighted with my Florence. I don't believe anybody would purchase any other Machine if they would once give the Florence a fair trial."

COL. JACKSON, brought a Sewing Machine up from St. George, for repairs, but could find no one in Salt Lake able to fix it; took a new FLORENCE home with him last week, as he was determined to have a RELIABLE SEWING MACHINE, before leaving it to two hundred miles home.

MRS. STEVENSON and MRS. CRANDELL, of Springville, purchased Florence Sewing Machines last week, after carefully examining into the merits and demerits of the various Sewing machines on sale in this city.

DAVID MILLER, WILLIAM MILLER, MRS. SHURTLEIFF, and several others, at and near Farmington, have within the last few weeks purchased Florence Family Sewing Machines, after satisfying themselves of their great superiority.

MRS. JEREMY, WILLIAM SLOAN, MRS. STRABRIDGE, and W. D. BROWN, of Salt Lake City, have recently purchased Florence Machines.

The Florence is the latest improvement in Sewing Machines, embodying the good qualities of the older machines with other new and eminently useful features, the result of years of careful labor, making it a most COMPLETE and PRACTICAL Machine, easily managed, and requiring but little skill and experience to operate it successfully.

The Florence will sew everything needed in a family, from the finest to the lightest fabric, and it is seldom if ever necessary to make any change in the machine for different kinds of work. It is the only machine that can sew in either one direction, having a reversible feed. It is the only machine having a self-adjusting shuttle tension—a great improvement.

It is the only machine making more than one kind of stitch. It is the only machine that ties the thread at the end of a seam, doing it, better and quicker than a hand can do.

The lock stitch of the Florence (both sides of seam alike) differs from the lock stitch made by other machines in elasticity. The seam will stretch as much as the cloth, never giving in washing, which is of the greatest importance in the sewing for a family. The lock stitch of the Florence is more elastic than any other. Both sides being alike, either side may be the right side, and the fabric can be sewed either side uppermost, as most convenient.

The Florence is warranted to give satisfaction. Many not succeeding with others have no trouble with the Florence. All who could do well with any sewing machine, or who know how to do good sewing by hand, cannot fail to be pleased with it.

Nothing can exceed the care taken by the Florence Company in the manufacture of their machines, every part receiving a systematic and most faithful inspection, saving all trouble afterwards, no purchaser having paid a cent for repairs in the five years since its introduction.

It is reputation as being reliable and durable. So little attention do they need that we will fix any machine sold by us, for nothing, and pay freight both ways from any place within a thousand miles of Salt Lake City, if informed that it doesn't work well.

A careful examination will fully substantiate all we have claimed for it, and justify the assertion we now make, that it is the best Sewing Machine in the world.

We warrant every Machine to be all that we claim for it, and will give a written warranty if required.
