

## COL. ROOSEVELT REACHES MOMBASA

He Landed in a Driving Rain but Was Glad to Get Ashore in Any Weather.

HE IS ANXIOUS FOR THE HUNT

Will Go by Special Train to Alfred Pease's Ranch on the Athi River.

Mombasa, British East Africa, April 21.—Theodore Roosevelt arrived here this evening on board the steamer Admiral. Mr. Roosevelt was in the best of health as were all the members of his party. The Admiral, named Kilindi harbor flying the American flag at her fore and mainmast. She dropped the German ensign while passing the British cruiser Pandora, whose rails and masts were manned by cheering sailors.

The people of Mombasa were in a great state of expectancy throughout the day and the first word of the sighting of the ship brought them in crowds to vantage points where they might catch a glimpse of the distinguished visitor.

The Admiral, however, came slowly up the harbor and it was dark when the ex-president, accompanied by his son, and the captain, made a landing. They were brought ashore in the commandant's surf boat and carried to a place of shelter in chairs on native's shoulders.

There was a deluge of rain, but Mr. Roosevelt said he was glad to get ashore in any weather. He added that the start for the hunting grounds could not come a minute too soon. The governor's aide boarded the Admiral and extended a welcome to Mr. Roosevelt, who received another cordial greeting on shore from the provincial commissioner who conducted him to the government house.

Mr. Roosevelt seemed highly pleased when he observed the military guard drawn up. The crowds on shore pressed eagerly forward to see him. These were composed of Europeans, Indians and natives, and presented a picturesque appearance.

The Admiral left Aden a week ago and the voyage to this port was interrupted only by a brief stop at Mogadishu, in Italian Somaliland.

The trip was without special incident, the most interesting feature being the captain's dinner to Mr. Roosevelt on Tuesday. In toasting Mr. Roosevelt, the captain wished him godspeed and a safe return to the United States. Mr. Roosevelt replied in English, German and French.

The party had intended to remain in Mombasa two days, but the floods have been heavy and a change was deemed advisable. The special train which

## SCENES IN EAST AFRICA, WHERE ROOSEVELT AND HIS PARTY BEGIN BIG GAME HUNT

The sporting goods house in London that furnished the camp equipment for Theodore Roosevelt's hunting trip in Africa has received a cable from Mombasa saying that the outfit arrived there safely. Col. Roosevelt and his party are scheduled to reach Mombasa on April 21. J. J. Cunningham, the expert hunter, who is making the arrangements for the hunt, has engaged porters and has everything in readiness for the arrival of the party. Col. Roosevelt will go at once to Nairobi, 227 miles up the Uganda railroad from Mombasa. Nairobi will be the base of supplies for the hunt. In that part of Africa there are two rainy seasons—one in the early spring and the other in the late fall. It is the intention of the Roosevelt party to hunt during the dry season of the summer and fall, proceeding to Port Florence in October. These pictures show the station at Nairobi, where the hunters will enter the jungle, a scene in Mombasa, and an American built bridge on the Uganda railroad.

will carry Mr. Roosevelt and his companions to Alfred Pease's ranch on the Athi river will leave tomorrow afternoon.

The acting governor of the protectorate, Frederick J. Jackson, entertained Mr. Roosevelt at dinner. Tomorrow morning the Roosevelt party will be taken in carriages about the town and as far as possible the governor and his associates will meet the special instruction from King Edward to show every consideration to the distinguished travelers.

F. C. Selous, the noted English hunter, was a guest at the dinner. He will accompany Mr. Roosevelt on his first shooting expedition at the Pease ranch.

## WILL DYNAMITE NIAGARA ICE JAM

It is Twelve Miles in Length and in Many Places Sixty Feet in Depth.

GREAT ELEMENT OF HORROR.

Is Week's Sewage from Villages Along Frontier—Fear is It May Give Rise to Pestilence.

Lawston, N. Y., April 22.—There is prospect of relief from the critical condition which for several days has threatened the towns along the Niagara river. The force of the river current, crowded with loose lumps of ice evidently has ground out a smooth subway for itself beneath the main mass of the flow, for the water in the collars rose only five inches during the night and receded an equal distance in the early dawn. The ice plowing the upper banks, uprooting trees and pulverizing docks and boat houses is still poised on its lofty level, but the middle line of scarp of the flow apparently has dropped a few feet. The jam is of an appalling proportion. It is 12 miles in length and in many places 60 feet in depth, and represents millions of tons and a strength power enough to annihilate the four villages along its border if it should start to go out all at once. Another element of horror is its pestilential nature. Mingled with the slushy ice cast high on the banks, is a week's sewage from all the cities along the Niagara frontier. The plan of Henry A. Kunze, assistant superintendent of public works, and Charles A. Tuttle, an expert on high explosives, who yesterday afternoon decided on a method of procedure and in the evening obtained the permission of the state to carry it out, is first to blow off the head of the ice pack now projecting into Lake Ontario by an enormous charge of dynamite. Other sections will then be successively separated from the whole and allowed to drift out into the lake. Three wagon loads of dynamite were sent from Buffalo last night for this purpose and are safe in Youngstown, N. Y., at the mouth of the river.

Capt. Mitchell, the officer in command at Fort Niagara, has offered the assistance of his 120 men. Capt. Nelson, in charge of the life-saving station at Youngstown, and his crew of seven men will also help in the breaking of the jam.

## TROUBLE IN GRADING CANAL ZONE SCHOOLS

Washington, April 22.—Many difficulties are being encountered, according to official reports from the Isthmian canal zone, in the grading of the public schools there. The point of view of people coming from hundreds of different places on educational matters has proved one of the greatest handicaps. Not only do the white children alone represent over 50 different schools and a score or more distinct educational systems, but the teachers themselves represent 16 different states.

The absence and tardiness among the white pupils is very mild, and among the colored children is described as chronic and under present conditions practically incurable.

The constant changing of places of residence is cited as another difficulty encountered.

## TO OPERATE ILLINOIS CENTRAL BY TELEPHONE

Chicago, April 22.—After today 775 miles of the Illinois Central railroad, from Chicago to Cairo and from Cairo to East St. Louis, will be operated by telephone instead of by telegraph.

Within a few weeks the system will be installed also on the Paducah, Mississippi and Louisiana divisions, a total of 527 miles.

## JUDGE COOPER WAS MUCH TOO GENEROUS

New York, April 22.—The affairs of William Cooper, a former supreme court justice of Tennessee and a close relative of Col. Duncan B. Cooper and

## MRS. S. E. DEAN WILL CONTEST HUSBAND'S WILL

Chicago, April 22.—After deliberating for five months, Mrs. Suzanne Ella Dean, widow of John E. Dean, who died Nov. 10, 1908, has decided to contest her late husband's will. She has brought suit in the superior court for her dower interest in her husband's estate, which is valued at \$125,000.

By the terms of the will she was to receive only \$25,000 and the income from \$50,000, the latter being conditional upon her acceptance of the terms of the will without a contest, and in accordance with an ante-nuptial agreement. The "Dean twins" well known in society, are daughters of Mr. Dean by a former wife.

## TO PARDON VON SCHILLER

New York, April 22.—After being confined five months in the military prison on Governors Island, charged with desertion, Baron Frederick von Schiller, said to be a grandson of Schiller, the poet, has been pardoned upon receipt of papers from Washington, when he will be released.

## GIRL GROUND TO PIECES BY A TRAIN

Frankfort, Ky., April 22.—In full view of dozens of horrified passengers who were looking out of the car windows, Miss Mattie Conway, a young and pretty telephone girl of this place, was ground to pieces by a Louisville & Nashville train from Louisville yesterday. The accident happened on a curve and all the passengers on one side of the train saw the girl killed.

## AUTOMOBILES CLIMB LOOKOUT MOUNTAIN

Chattanooga, Tenn., April 22.—A crowd of spectators numbering many thousands witnessed the Lookout Mountain Automobile race this afternoon. The weather was ideal.

Of the 15 entries, 16 are noted drivers, among them being Lewis Brannan, Louisville; Louis Chevrolet, Greiner of Chicago; Harry Tuttle and Bert Miller and F. W. Taylor of Louisville.

The start was made from the old blacksmith shop, the scene of the romance of "Al. Eino" and the goal was the Mountain House, on the top of Lookout mountain.

It was not a prepared course with cushioned curves. Along the route were points where danger of a fall to dizzy depths was imminent.

Foley's Honey and Tar is a safeguard against serious results from spring colds, which inflame the lungs and develop into pneumonia. Avoid counterfeits by insisting upon having the genuine Foley's Honey and Tar, which contains no harmful drugs. F. J. Hill Drug Co. (the never substitutes), Salt Lake City.

Pennsylvania Lines Stop-Overs.
