

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

LEFT THIS MORNING.—Elder Albert Carrington left this morning for Liverpool, to assume the position to which he was appointed last Conference, as successor to Elder Horace S. Eldridge, President of the European Mission. Brother Carrington will stay a short time at Omaha, where he has gone one day ahead of Elder George Reynolds and the other missionaries, in order to make arrangements for the transit of the entire party from that point.

INFORMATION WANTED.—Mrs. Sarah Atkin wishes to know the whereabouts of her husband, William Atkin, who emigrated for Utah in the spring of 1868; also her son James, who emigrated for the same place in the spring of 1863. If they think anything of a sorrowful mother or wife, they will write to her immediately. Address 3, Court-street, Nottingham, England.—*Millennial Star*.

THE NEW MEAT MARKET.—Several men have been at work to-day removing trees from and otherwise preparing the site of the new Meat Market, on the corner of the Van Cott lot. We understand that the City Council has abandoned the idea of erecting a temporary market on the back part of the lot, but will put a permanent building on the corner. An effort will be made to have it completed within a few weeks.

THE ESCAPED PRISONERS.—The prisoners who escaped from Camp Douglas on the night of Friday last, have been heard from. They were seen in Parley's Park, on their way to Echo, on Sunday, by two gentlemen. Information of the fact soon reached Gen. Morrow who, at 8 o'clock that evening, dispatched a company of cavalry in pursuit. Marshal Patrick also left, by train, for Echo, at which place the prisoners were on Sunday night, and two of their number left on the cars for the East, yesterday morning. The others at last accounts were still in the vicinity of Echo, but there is every probability of their soon being retaken, as a number of the inhabitants of Coalville have turned out to assist in their discovery and capture.

LOGAN.—A Logan correspondent, Mr. William Palmer, writes as follows, under date of April 28th: "A progressive spirit is being manifested by the citizens of Logan which is truly commendable. Everybody seems to be busy, and to display a determination to beautify their dwellings, improve their gardens, and remove all obnoxious surroundings. The spirit of education is beginning to develop itself more freely among the people here. Parents are beginning to realize the necessity of securing the services of competent teachers, individuals of experience who are acquainted with human nature, and possess the qualification to discern the inclinations and capabilities of children, and who have the power to control and direct them; quick to check evil tendencies and as prompt to encourage what tends to the development of moral and intellectual facilities. It is an admitted fact that the earliest habits are the most lasting, hence the injunction of Solomon 'Train up a child in the way he should go, &c.,' and Pope says:

"Tis education forms the common mind,
Just as the twig is bent the tree's inclined."

These statements in connection with our own observation should prompt us to be very particular in selecting teachers and not engage individuals as teachers simply because they have a "book education" which, though necessary forms but a small portion of the accomplishments requisite for the performance of such an important duty as educating and instructing the young.

FROM WEDNESDAY'S DAILY.

SANPETE.—A gentleman writing from Spring City, April 29th says: "The weather is very cold for the season, with drying winds. The health of the people is generally good. Much small grain has been put in, but not so much as there would have been had there been no fear of grasshoppers. The fruit crops are probably killed by frost. Crops are late and backward. Mining is at a stand-still. Farming plowing and casting seed the order of the day."

A PROVIDENTIAL ESCAPE.—A most providential escape from serious injury, and probable death, was experienced this morning by a member of the family of Bro. William Derr, of the 16th Ward of this city. While Mrs. Derr was milking the cow, one of the children, in its night clothes, went towards her, when the cow caught and tossed the child into the air. Fortunately, little or no injury was inflicted, the little one seemingly, more frightened than hurt, being able to go and play shortly after the occurrence.

UTAH MANUFACTURED IRON.—Mr. A. G. Thornton, of Pinto, Iron Co., called last evening. He arrived in this city on Monday night, bringing with him a specimen of iron which was made at the Union Iron Manufacturing Company's works, which are situated about seven miles from the above named settlement. The pig which was shown us appeared of excellent quality, being pronounced by competent judges

as good as can be produced anywhere. The article is being run out at the works at the rate of about 100 lbs. an hour which, considering the limited means at the command of the company, is very good work. Mr. Thornton says that ore and fuel—cedar and pine, are in inexhaustible quantities in the immediate vicinity of the works. He also expresses the opinion that a little prospecting would develop the fact that coal exists in the same region to an almost unlimited extent, as evidences of such deposits are frequently found scattered all over that section of country.

ROBBED OF A WATCH.—A Caution. On Monday morning a stranger, apparently destitute, and who said that he had just arrived from the West, applied for work at a house in the 17th Ward of this city. The party applied to had no need of his services, but seeing his destitute condition, he was permitted to enter to have rest and refreshment. Sometime during last night an entrance was effected into this house and a watch, hanging on the wall, was stolen therefrom, and there is good reason to believe that the fellow who was relieved is the thief, as no other stranger had been around or knew anything of the place.

This little circumstance should be a caution to the citizens. It is a virtue to extend aid to the distressed, and it should never be refused when applied for; but to give a "deadbeat" like this an opportunity to enter a dwelling and take notes of its contents, that he may commit a burglary if so disposed, is anything but discreet.

SABBATH SCHOOL RECREATIONS.—Mr. C. D. Evans, our Springville correspondent, sends us the following, from that place, under date of the 1st instant:

"The Sabbath School, under J. P. Steel, Superintendent, assembled at the respective ward school houses, formed in line, meeting at the Canyon Road, east of Springville, where they afterwards formed into general procession and marched in order under the care of their teachers to the base of the mountain, east of Springville where, after forming a "hollow square," addresses were delivered by Superintendent Steel, C. D. Evans and Henry A. Sharw, of Paradise, Cache Co. After which they visited the Mammoth Cave, 1½ miles east of Springville, returning to what is known as Crystal Spring, where they found the cloth spread upon the ground laden with a sumptuous repast for the juveniles, who did ample justice to the same. After enjoying themselves in a variety of amusements they were again called to order and songs, duets, trios, recitations etc., were executed in a manner that was highly creditable. The procession then marched to the city, when it was dismissed by the usual ceremonies."

DOING WELL.—The Eleventh Ward Branch of Z. C. M. I. is doing a good steady business and is otherwise prospering. A dividend of 19 per cent, for six months was declared a few days since.

IN TOWN.—Major Powell, the Colorado explorer, accompanied by his wife and Mr. and Mrs. Thompson arrived in town last night. The two ladies are sisters, and they will reside in this city during the summer, while the Major and his party, of which Mr. Thompson is a member, will proceed to Green River, down which a descent will again be made to the scene of the Major's former labors. It is the intention to give the region between the Uintah mountains and mouth of the Rio Virgin river a pretty thorough exploration. The waters of Green River are much lower than the Major expected to find them at this season, and in consequence he will be detained a week or two before he can leave. From the Major's earnestness in the cause and his extensive scientific attainments there is good reason to expect that the result of this exploration will be that a fund of topographical information will be given to the world regarding this hitherto all but unknown country.

MARRIED.

In this city, May 1st, 1871, by Elder Geo. Q. Cannon, MR. GEORGE C. LAMBERT and MISS MARY ALICE NEEDHAM, daughter of James Needham Esq., of this city.

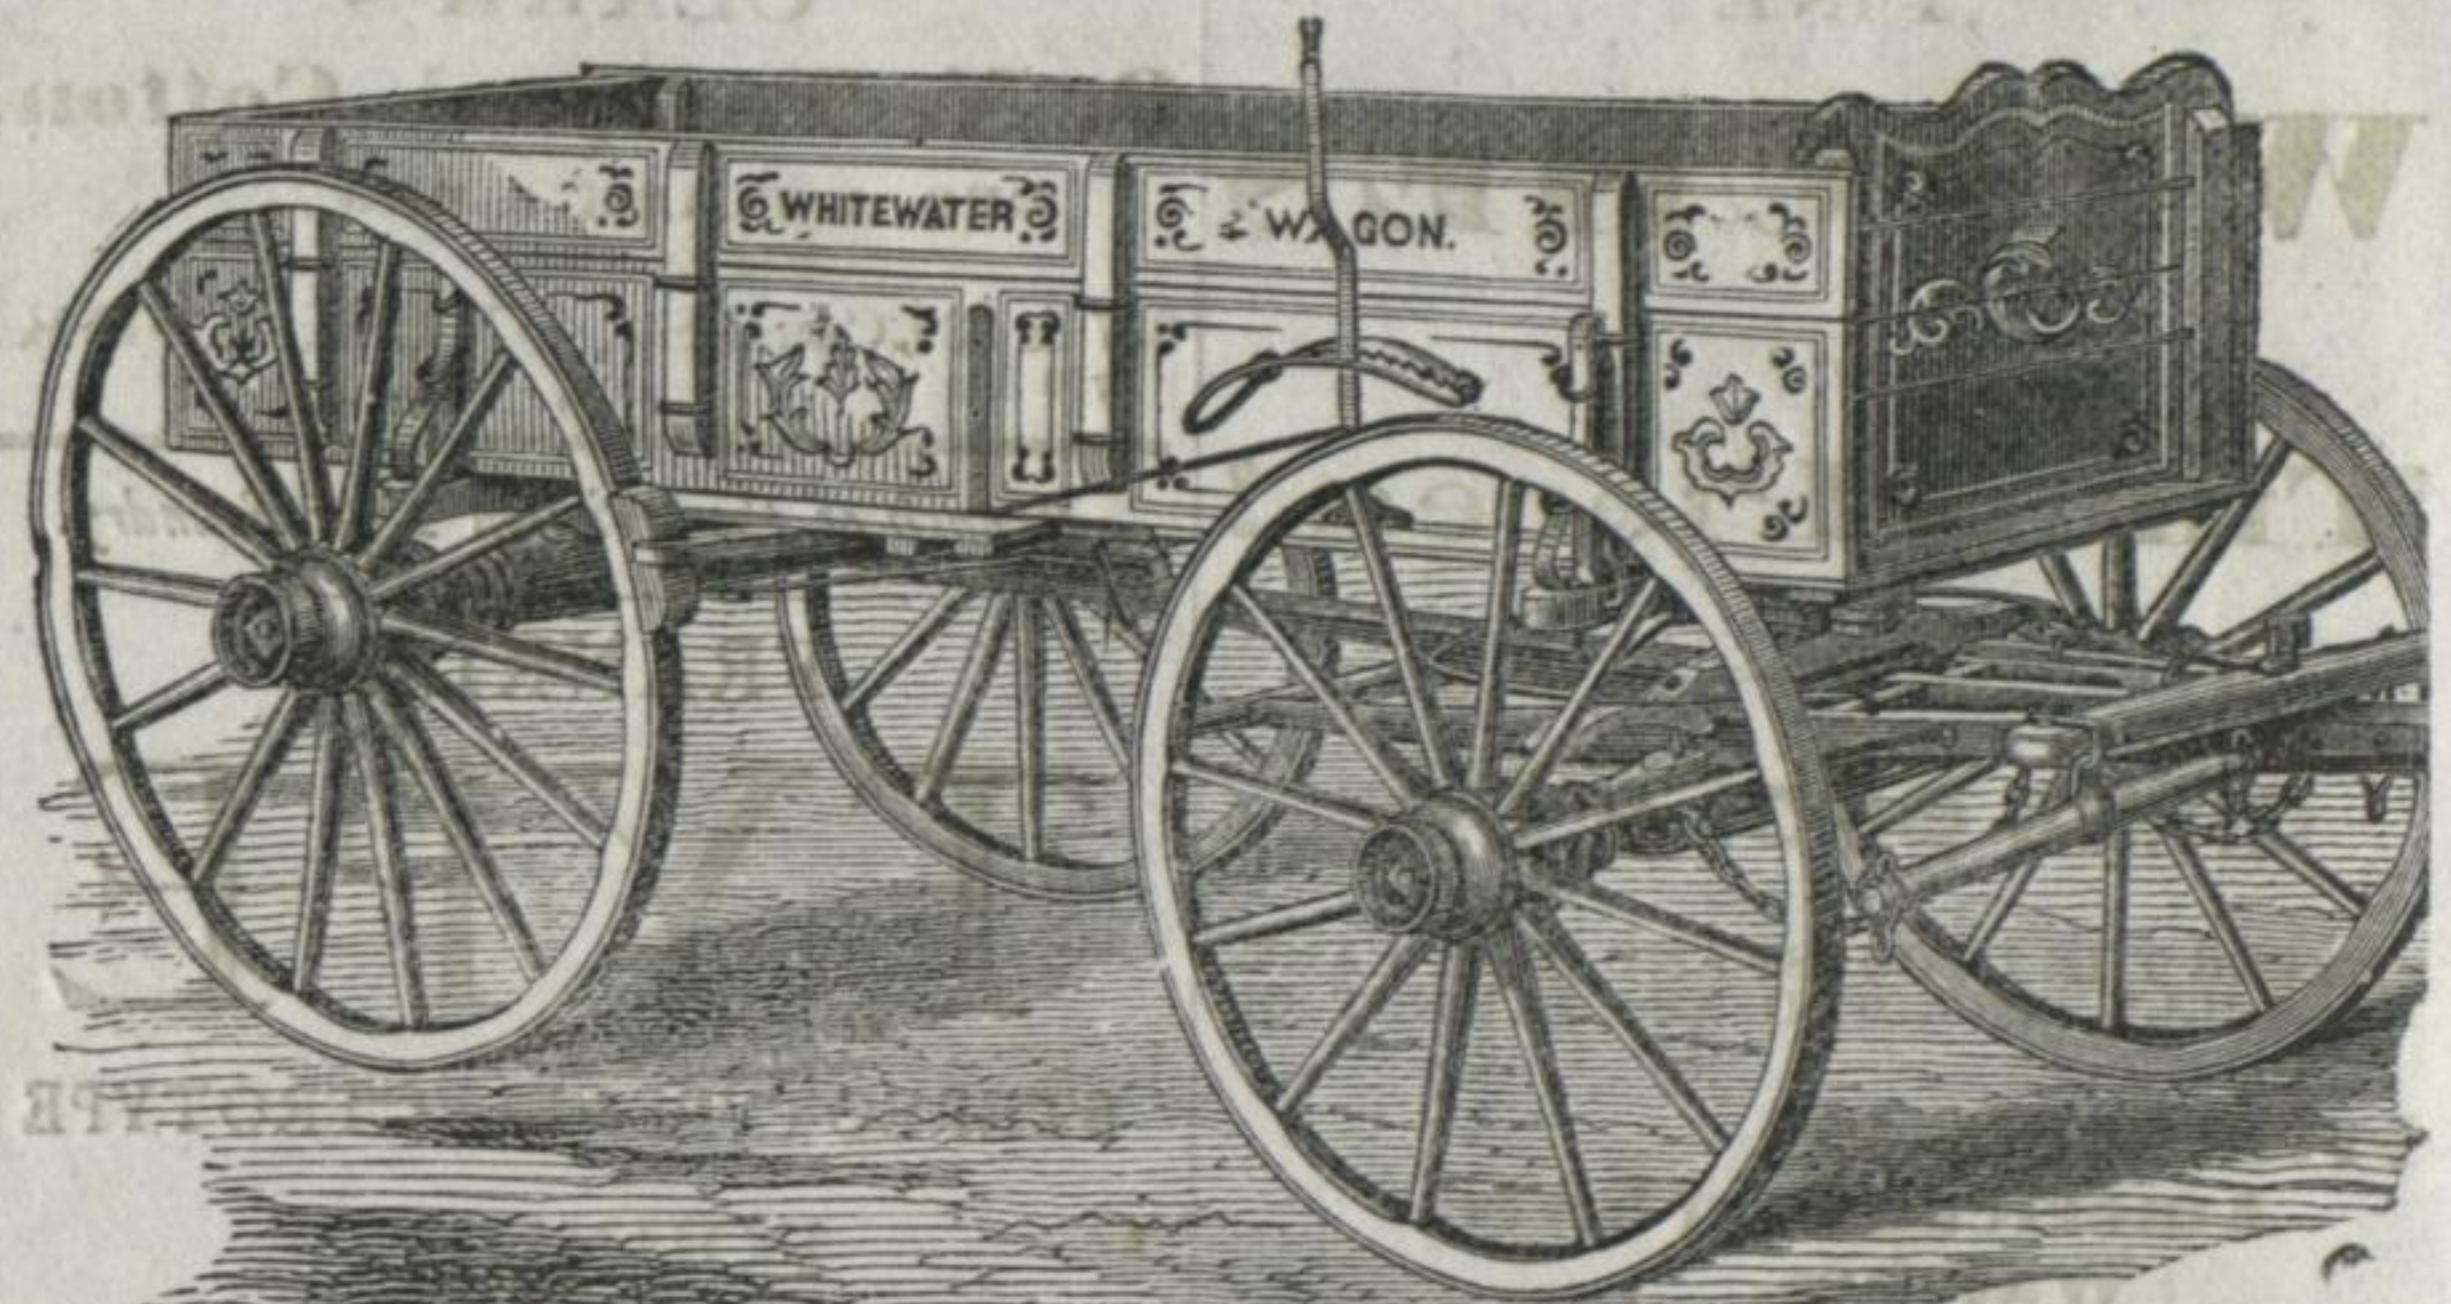

We wish the couple all the happiness that can fall to the lot of mortals.

At Lambeth, London, England, March 12, MARY ANN HOLMES YERRILL to THOMAS CANHAM.—*Mill. Star*.

OBITUARY.

Died, at his residence, in Ephraim City, Sanpete Co., April 8th, 1871, JAMES BAILEY, aged 67 years, 7 months and 7 days.

Deceased was a native of England; embraced the gospel in Birmingham in the year 1843. He emigrated to Utah in 1856, in Capt. Ellsworth's handcart company; arrived at Ephraim in November of the same year, and in the Fall of 1860 was attacked with rheumatism, which rendered him an invalid during the remainder of his days. He lived and died a firm believer in the principles of the everlasting gospel.—*Com. Mill. Star* please copy.

The Great Improvement in

ROOFING

H. W. JOHNS' PATENT

ASBESTOS ROOFING

This Improved Roofing Material is entirely different from any other, and is TEN TIMES STRONGER than any other Portable or Composition Roofing in use. It is adapted for steep or flat roofs in all climates, and can be readily applied by anyone.

From Certified Report of Judges' American Institute, Exhibition of 1870:

This Improved Roofing "is strong and flexible, unaffected by the sun's heat, practically fire-proof and water-proof, and is really an article of the first order of merit."

HORACE GREELEY, President, Signed, GEO. PEYTON, Recording Sec.,

SAM'L D. TILLMAN, Corresponding Sec. From Report of American Institute Farmers' Club, Dec. 6, 1870:

"This material constitutes one of unusual merit, much superior to any of the class previously brought to their notice, and worthy of trial by those who desire a durable, easily applied, comparatively inexpensive and safe roofing, the material having, in addition to the other merits claimed for it, that of being practically fire-proof."

JOS. B. LYMAN, Agricultural Editor Signed, JAMES A. WHITNEY, Editor American Artisan.

Also Manufacturer of

ASBESTOS ROOF COATING!

A fibrous water-proof material, which forms an elastic felt-like covering of any desired thickness. It can be applied with a brush, and is invaluable for restoring and preserving old shingle, tin and felt roofs.

ASBESTOS CEMENT, for repairing leaks of all kinds on roofs.

Roofing and Sheathing Felt, Building and Lining Paper, etc.

Full Descriptive Pamphlets, Price List and Samples sent free. H. W. JOHNS,

Sole Manufacturer, 78 William Street, New York.
