THE PAVING OF CITY'S STREETS.

Moran Awarded Contract for the Work on First Between State and A.

A NEW SOUTH TEMPLE TANGLE.

Alleged Ambiguity May Make it Necessary to Re-advertise for Bids-Investigation Under Way.

As stated in yesterday's "News," the lowest bid for paving First street beween State and A, was submitted by P. J. Moran, and at its meeting yesterday afternoon, the board of public works awarded the contract to him. in the matter of the paving of South Temple street, however, for which the Street Improvement company of San Francisco was the lowest bidder, some complications arose which may make it necessary to readvertise for bids for that particular piece of work, the bid for which was \$105,859. The make it necessary to a piece of work, bids for that particular piece of work, bids for that particular piece of work, the bid for which was \$105,859. The bids for which was \$105,859. The bids being that the contract specified bid being the work as its working days to Seventh East. These fares were considered ambiguous and the specifications as set forth in the advertisement for bids. The matter was referred to the city attorney for an opinion as to what "working days" might mean, and whether or not the contract would be legal without tating some definite time in which the work would be finished. Another obstacle in the way of awarding this part of the paving was that representations had been made to members of he board that the Utah Light & Rallway company is contemple there. Should this be done, it will make about twenty feet more in width of paving to be done on that thoroughfare, and consequently the entimate on which the assessment was based will be too low to raise the necessary funds for completing the job.

etimate on which the assessment was based will be too low to raise the neces-say funds for completing the job. Chairman E. A. Wall and W. W. Riter were deputed by the board to call on the management of the street railway company and ascertain definitely whicher it really intends to move its tracks from South Temple street. If it dos, it will be necessary for the city council to levy another assessment for uncil to levy another assessment for e paving of that street. The matter il receive further consideration from the board on Friday afternoon at 3

Mr. Moran's bld for the First street paving was \$17,361.20.

FEWER PRECINCTS NOW.

County Commissioners Reduce Them in Number from Thirty-Eight to Eleven.

The board of county commissioners, at its meeting yesterday afternoon, passed a resolution making 11 precincts of the county instead of 38, as heretofore. The reason for the change is because of the fact that under the statutes each precinct is entitled to a justice of the peace and a constable, for whom there has been so little business in the past that it was impossible to secure competent persons to do the work. The resolution does not affect the other officers. As is well known, the city is comprised of 52 election districts which is made one precinct under the resolution. The other 10 comprise the resolution. The ot the following districts, Precinct No. 1.-Election districts Nos. 55, 62, 64, 88 and 89.
