The Bad and Worthless

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole World that HOP BITTERS was the purest, best and most valuable family medicine on earth, many imitations sprang up and began to steal the notices in which the press and the people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

EVENING NEWS.

Thursday, - May 31, 1883.

CITY COUNCIL.

Proceedings at the City Council Tuesday evening, May 29, 1883. Mayor Jennings presiding.

A petition was presented from Susan E. Smith and W. N. Williams residents of the Seventeenth Ward, representing that they were desirous of obtaining water service at their residences and lots in said ward, and for that purpose were prepared to advance and deposit to the credit of the city, three-fourths of the necessary cost toward the laying of the mains and to lay their service pipes in connection therewith, as soon as said mains should have been laid. They therefore asked that the Council authorize the extension of the mains by having a four-inch pipe laid from the north side of South Temple Street along West Temple a distance of eighteen rods, at the earliest convenience of the city. Referred to the committee on waterworks.

A petition was presented from Henry Allsworth and 104 others, residents and taxpayers of the Sixteenth and Nineteenth Wards, protesting against the granting of the petition of the Standard Oil Co. for the special permission to complete a building in course of erection on the northeast corner of block 100, plat A, Salt Lake City survey, and to use the same for the storage of oils, in contravention of the ordinance. Laid on the table.

A petition was presented from J. P. Olsen and 24 others, residents of the Second Ward, asking the Council to forbid any person fencing in the sidewalks in the neighborhood of Fourth East and Eighth and Ninth South streets, and to order any fences that had already been or were being placed outside of the line of the lots, to be placed on the proper line, to correspond with the rest of the blocks as surveyed and plotted by the city surveyor. Referred to committee on streets and alleys.

A communication from Messrs. Smith & Doremus was submitted, representing that owing to specially arranged prices with manufacturers, induced by a desire to introduce their goods, together with special contracts with railroad companies for freight, they were enabled to name the following figures, which they deemed very low, on patent portable track and equipments for street grading purposes, delivered on the cars at the Utah Central Railway depot in this city, viz: For two miles of 30-inch gauge all-iron portable track of 16 lb. new "T" iron rail and cross ties in sections of 10 feet, with patent fastenings complete, together with 200 feet of curved track and four portable frogs additional; also equipment for same, consisting of 12 side dumping channel iron cars of 1½ cubic yards capacity, supplied with breaks and couplings complete the sum of $10,664. Or for same style and length of track, but of 20 lb. iron and cars of 1½ yards capacity, the sum of $12,896. Said track and equipments to be furnished from F. W. Corey & Co., of Chicago. Referred to committee on streets and alleys, with the Mayor associated, with authority to investigate the subject thoroughly and act as they deem to be in the interests of the city.

Alderman Dinwoodey, in behalf of the committee on finance, who were instructed to examine the financial condition of the city with a view to ascertaining if it would be advisable to purchase a portable railway track at an outlay of $10,000 or more,, reported that it would be necessary to borrow the money if the purchase be made. The report was received.

A petition was presented from E. A. Ireland, agent of the Standard Oil Company, asking the Council to exempt from the operation of an ordinance passed and now in force in relation to the storage of oil the following locations, viz.: the northeast corner lot of block 100, plat "A," Salt Lake City survey; the lot near the new building of the Continental Oil Company, and the lot near the Denver and Rio Grande depot. The petitioner asked that the Council consider their action in the premises April 17th, 1883, designating such places, and grant unto petitioner a permit to use and occupy the said premises for the storage of oils and the erection of oil warehouses. Received and laid on the table.

An application for license to do business as a retail liquor dealer at the corner of West Temple and Third South streets, for three months from the 1st day of June, 1883, was presented from L. Simon and granted.

She Salt Lake Jockey Club made application for license to do business as retail licquor dealers at the Salt Lake Driving Park, for three months from the 29th of May, 1883 Granted.

Councilor Watson petitioned in behalf of Elias Morris for the use of a portion of the street and sidewalk on First South, between East Temple and First East streets, upon which to place material for and during the erection of a building on said street. Granted under the usual restrictions.

The committee on streets and alleys, to whom was referred the petition of Stringfellow Bros. and 42 others, for repairs to Sixth South Street, east of State Road, recommended that the supervisor be instructed to carry out the same as soon after contemplated measures to acquire better facilities for delivering gravel on the street are effected, as the order of business will permit. Adopted.

The committee on streets and alleys reported that they had given consideration to the deed of conveyance submitted by Anderson & Pouroy, of a certain street in plat F, and recommended that the deed be accepted; and in relation to the petition of Messrs. Austin and Green on a similar subject the committee recommended that the city also accept the street running through block 4 plat B when the same shall be deeded by said Austin and Green, but could not recommend that the city adopt any amended plat of any part of the city, except where the original plat should be defective. The various recommendations were adopted.

The committee on streets and alleys, to whom was referred the petition of S. A. Woolley and thirty-four others in relation to repairs, etc., on Fourth South Street between Third and Sixth East Streets, reported that they had examined the same and recommended that said repairs be made and that the supervisor be instructed to cause the same to be done as soon as practicable. Adopted.

The committee on license recommended that $18.75 be appropriated for the relief of H. Armitage & Co., whose license to run a skating rink was deemed excessive. Adopted.

The committee on enrollment reported that "An ordinance relating to keeping and storing oils and other inflammable or explosive substances," passed May 22, 1883, had been properly enrolled, signed by the Mayor and published. Adopted.

Appropriations were made as follows: To street improvement account, $500; to the watermaster's contingent fund, $1,000; for the purchase of a tract of land upon which to locate a hospital for contagious diseases, $2,000; and appropriations to cover expenditures to the end of the present week upon Liberty Park, artesian well and canal accounts.

A loan of $1,000 made by the Mayor, from the Deseret National Bank was approved, and he was further authorized to negotiate for sufficient means to meet present requirements.

A motion was made and carried to cease operations at the artesian well for the present after the current week.

The city treasurer submitted for the action of the Council a communication which he had received from D. Bockholt, Esq., county clerk, calling attention to the requirements of a law pertaining to highways, involving the payment of certain poll tax moneys to the county which was referred to the committee on claims.

Councilor Taylor moved that the committee on finance be instructed to furnish the Council with an estimated statement of the revenue of the city for the half year ending November 30, 1883, and from what sources derived; also an estimated statement of expenditures during the same period and in what departments. Carried.

The recorder represented that Mr. Tullidge was anxious to begin the compilation of the history of Salt Lake City, and as the first step to be taken was the filing of a bond and its acceptance by the Council, he desired to have the proper party prepare the same in suitable legal form, etc. After consideration, Councilor D. H. Wells, in effect, stated that he would draft the bond, and the subject was dismissed.

A communication was received from Fidelia B. Hamilton in behalf of the ladies organ committee of St. Mark's Cathedral Parish, inviting the Council to be present at the first organ recital given under the auspices of said committee, on Thursday evening, May 31st, 1883. Invitation accepted with thanks, and courtesy acknowledged.

The testimonial of the Council and city officers to Hon. John T. Caine upon his retirement from office as recorder and auditor of the city was submitted for the signature of members. The testimonial was properly signed, and the Council adjourned.

TRUE Temperance

Is not signing a pledge or taking a solemn oath that cannot be kept, because of the non-removal of the cause—liquor. The way to make a man temperate is to kill the desire for those dreadful artificial stimulants that carry so many bright intellects to premature graves, and desolation, strife and unhappiness into so many families.

It is a fact! BROWN'S IRON BITTERS, a true non-alcoholic tonic, made in Baltimore, Md., by the Brown Chemical Company, who are old druggists and in every particular reliable, will, by removing the craving appetite of the drunkard, and by curing the nervousness, weakness, and general ill health resulting from intemperance, do more to promote temperance, in the strictest sense than any other means now known.

It is a well authenticated fact that many medicines, especially 'bitters,' are nothing but cheap whiskey vilely concocted for use in local option countries. Such is not the case with BROWN'S IRON BITTERS. It is a medicine, a cure for weakness and decay in the nervous, muscular, and digestive organs of the body, producing good, rich blood, health and strength. Try one bottle. Price $1.00.

NOTICE.

RE-ORGANIZATION

OF THE FIRM OF

Fish Brothers & Co.

TO THE PEOPLE OF UTAH

The Co-partnership between T. G. FISH, E. B. FISH *and* J. C. HUGGINS, *under the firm name of Fish Bros. & Co., expired by limitation on January 1st, 1883. At that date,* J. C. HUGGINS *retired from the firm* D. J. MOREY *and* S. S. LYON *purchasing his interest. In the re-organisation of the new firm of Fish Bros. & Co. which then took place, our Utah trade was thoroughly discussed, and we determined to give the Utah trade that attention in future which it deserves, and which was, to some extent, neglected in 1882.*

S. S. LYON, *one of the new members of the firm, who had been in the employ of the old firm many years, spent several weeks with Mr. Lowell at Salt Lake last fall, and gave his special attention to ascertaining all defects and all needed improvements in the* Fish Wagon, *to keep it in the future, as in past years, the* STANDARD WAGON *of Utah and adjoining Territories.*

Call on The John W. Lowell Wagon Company and examine this year's make of the Fish Wagon, for we assure you it will be found a BETTER WAGON THAN WE EVER SENT TO UTAH BEFORE. *We are selecting all the timber, and taking special pains in manufacturing all Wagons for Utah trade.*

Yours Respectfully,
