

BY TELEGRAPH.

GENERAL

NEW YORK, 29.—Greeley's death is expected momentarily, both by his relatives and physicians. Yesterday false reports were current in many quarters that his disease had terminated fatally, and people besieged the *Tribune* office to ascertain the true state of affairs. Greeley is at Tarrytown, but his whereabouts are kept from the public and many of his friends. Yesterday, at a medical consultation, it was said that it was doubtful if he could live more than a few days. Dr. L. Hammond, one of the physicians, said: "I doubt if he will live forty-eight hours longer, and I should not be surprised at his death to-night." While at his bedside, R. M. Weed, an old friend of Mr. Greeley's, wishing to test Mr. Greeley, I said, "Mr. Greeley, do you know Weed?" Mr. Greeley stared vacantly, and answered that he had not met him in his life before, and that he had never heard the name of Weed before. The doctor described Mr. Greeley as talking incoherently all the time, and being quite obstinate. He says he does not know his own daughter. Between eight and ten last evening his condition was less favorable. His physicians did not anticipate any important change within twelve hours.

MILWAUKEE, 29.—The Cunnings Daglier manufactory, three or four miles north of here, exploded yesterday afternoon, killing four persons and badly wounding a fifth.

CHICAGO, 29, 11:30 a.m.—A private dispatch from New York says that Greeley is dead.

WASHINGTON, 29.—The German minister denies the story, telegraphed hence, that his government had taken measures for the prevention of emigration.

Gen. Horace Porter has been elected vice President of the Pullman Palace Car Company.

General Sherman's report shows that the actual force of enlisted men in the army is 29,336; commissioned officers 2,104.

ROCHESTER, N. Y.—The examination of Susan B. Anthony and fourteen other women, charged with illegally voting, commenced this afternoon before United States commissioner Storrs. The defendants, through their counsel, Judge Sheldon and Mr. Van Voorees, admitted the facts alleged, and based their defence on the right to vote on the fourteenth amendment to the constitution.

NEW YORK, 29.—It is said that the Mexican Border Commission demand that Gen. Cortina be court martialed, that the Mexicans be held responsible for the damages, also that the Texan frontier be patrolled by soldiers.

An application to the United States authorities to reduce the bail of Woodhull & Claflin was refused to-day.

Evening.—Horace Greeley died, conscious and peacefully, at 6:50 p.m.

Horace Greeley's life was insured for \$100,000 for the benefit of the *Tribune* association. It is announced that the Chappaqua homestead of Mr. Greeley will be abandoned by the family, and that the property will be auctioned to-morrow.

The twenty years' litigation for the possession of Jackson Hollow, the famous squatter locality in Brooklyn, is ended by the decision of the Court of Appeals in favor of the purchasers under the execution sales, and against the survivors of the Jackson family. The property is valued at \$300,000, and was purchased for \$3,000.

Pollock's hotel, Guttenberg, N. J., burned early this morning. Flames spread to Bull's ferry docks, which were also burned; loss \$40,000; insured. Believed incendiary.

CLEVELAND, O., 29.—At two o'clock this morning the Cleveland rolling mills company's spike and nut factory, foundry, pattern shop and office located at Newberg, Ohio, were destroyed by fire. Loss \$100,000; insured \$60,000.

NEW YORK, 29.—Some of the evening papers publish extended sketches of Greeley's history.

CHICAGO, 29.—This morning Geo. Driver, a carpenter, shot, it is feared fatally, his divorced wife, who refused to give money to continue yesterday's drunk, and then fled.

The boiler of the rolling mill, near Springfield, exploded this morning; two men were killed and four wounded.

The weather is the coldest of the season; three below zero.

NEW ORLEANS, 29.—The epizootic is raging here; nearly all the street cars are stopped.

FOREIGN NOTES.

The Vermont Legislature has by a large majority refused to pass a bill abolishing capital punishment.

Two country boys had a fight about a girl, at Harvel Station, Ills. the other day. John Harvel tried to make peace, and in doing so killed one of the boys.

In some epizooted cities the milk men use oxen instead of horses for the distribution of their supplies. It would be as easy to bring the cows themselves to their customers' doors, but the pump—aye, there's the rub!—*Detroit Advertiser*.

It would make some of our fine ladies stare to see Lady Dufferin promenading the streets to-day, doing her shopping. She dresses plainly and sensibly, wears thick-soled boots, and does not fear a walk from one end of town to the other, or to face the muddiest crossing on Sparks street.—*Ottawa (Can.) Citizen*.

Germany claims that she will soon be independent of America as regards petroleum. The crude material has been recently discovered in Galicia in great abundance, and extensive preparations are making to fit it for market. In one single village twenty refineries are in operation. As yet all the productions have been from surface borings, but when the wells are sunk to the depth of those in this country the production, it is estimated will be sufficient to supply a large part of Europe.

Two years ago, with a great flourish of trumpets, the London School Board commenced its operations, proposing to immediately put in force the system of universal and compulsory education sanctioned by Parliament. It now turns out that the Board have expended £40,000 and that of this sum only £15. 16s. 7d. have been laid out in reference to schools—the other £39,984 3s. 5d. having been spent in salaries, printing, advertising, etc. This state of things excites great indignation; several members of the Board have resigned in disgust, the others continually quarrel among themselves, and the Board is in danger of becoming a first class nuisance.

A contract has been made by Hooper's Telegraph Works (limited) for the construction of a steamer specially designed for the laying of submarine telegraph cables. This will be the first cable steamer specially built, and it is contemplated that a considerable saving will be effected in the cost of laying future submarine cables by its use. The vessel will be capable of taking 3,000 to 4,000 miles of cable in one length, and will be employed in the submergence of the Great Western Telegraph Company's cable, and of which about one thousand miles have passed the tests of Sir William Thomson and Professor Fleming Jenkin, the engineers of the company.

It is announced that the Russian government has issued an order recalling the expedition against Khiva. This follows closely upon the information that the khan of the invaded country had built a fort at Djarkah and proclaimed his purpose to resist the advance of the Russian troops. The efforts of the empire of the north to reduce this bold and independent little principality to submission have all been attended with ill success. Thirty years ago the father of the present czar sent an army of ten thousand men upon this errand, and after five thousand of them had perished in the snow, the survivors returned home.

The German army is about to be equipped with a new weapon, which is represented to be superior to either the Werder or the Chassepot gun. It is said that this gun will do execution at a distance of 1,700 yards, and can be discharged twenty-six times per minute. The arm is light and simple in construction, and this, in connection with its great range and the rapidity with which it can be fired, probably renders it the most effective infantry arm in the world. The care taken and the energy displayed by the German government in this matter, and in the reorganization of the army would indicate that Bismark's confidence in the permanent peace of Europe is not of the strongest.

A plumber had an Irish lad in his employ, and one day having occasion for a piece of zinc, ordered him to get one ten inches square.

"Yes, sir," said Pat, "tin inches square, but how long?"

THE CELEBRATED

HOME STOMACH BITTERS.

Are indorsed and prescribed by more leading Physicians than any other tonic or stimulant now in use. They are a SURE PREVENTIVE for Fever and Ague, Intermittents, Biliousness, and all disorders arising from miasmatic causes. They are highly recommended as an anti-dyspeptic, and in cases of indigestion are invaluable as an Appetizer and Recuperant, and in cases of General Debility they have never in a single instance failed in producing the most happy results. They are particularly BENEFICIAL TO FEMALES, strengthening the body, invigorating the mind and giving tone and elasticity to the whole system. The HOME BITTERS are compounded with the greatest care, and no Tonic Stimulant has ever been offered to the public so PLEASANT TO THE TASTE, and at the same time combining so many remedial agents, indorsed by the medical fraternity as the best known to the Pharmacopoeia. It costs little to give them a fair trial, and

Every Family should have a Bottle.

We ask every one to read the following Certificates from many of the most eminent Physicians in the United States:—
St. Louis, July, 1870.—JAMES A. JACKSON & CO.: Gentlemen—As you have communicated to the medical profession the recipe of the "Home Bitters," it can not therefore be considered as a secret or patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly Tonic, Stimulant, Stomachic, Carminative and slightly Laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy: Having used them, seen its effect in our private practice, we take pleasure in recommending them to all persons desirous of taking Bitters, as being the best Tonic and Stimulant now offered to the public.

L. CH. BOISLINIERE, M. D. F. G. PORTER, M. D.
ALFRED HEACOCK, M. D. C. GERICK, M. D.
DRAKE McDOWELL, M. D. C. A. WANE, M. D.
J. C. WHITEHILL, M. D. C. A. CLARK, M. D.
Dr. C. V. P. LUDWIG, M. D. S. G. MOSES, M. D.
W. A. WILCOX, M. D. HUBERT PRINCE.
U. S. MARINE HOSPITAL, St. Louis, Mo., Oct. 8, 1870.—JAS. A. JACKSON & Co.: I have examined the formula for making the "Home Stomach Bitters," and used them in the Hospital for the last four months. I consider them the most valuable tonic and stimulant now in use.
St. Louis, July 6, 1870.—JAS. A. JACKSON & Co.: Having examined the formula from which your celebrated "Stomach Bitters" are prepared, and having witnessed the method of combining the different ingredients, we can safely recommend them as the best tonic with which we are acquainted. From the great care with which they are compounded and from the choice materials which enter into them, we have no doubt that they will prove, as they deserve to be, the most popular tonic and stimulant in use. Respectfully yours,
T. J. VASTINE, M. D. T. G. COMSTOCK, M. D.

We cheerfully concur with every word contained in the above testimonial.
JOHN CONZELMAN, M. D. JOHN HARTMAN, M. D.
CHAS. VASTINE, M. D. JOHN T. FEMPLE, M. D.
G. S. WALKER, M. D. E. C. FRANKLIN, M. D.
CINCINNATI, Oct. 19th, 1870.—Messrs. W. B. KENNEDY & Co., Agents "Home Bitters": Gentles—Agreeable to your request, I have examined the formula of the "Home Stomach Bitters," and find the remedies it contains such as are in general use by the Medical profession. They are very scientifically and pleasantly combined, and as stimulating tonics will be found especially adapted as corroborants to the treatment of low or debilitated stages of the system, whether arising from impaired digestion, or from malarious diseases.

Dr. J. L. VATTIERS. L. A. JAMES, M. D.
R. S. WAYNE, Chemist. C. T. SIMPSON, M. D.
W. T. TALLAFERRO, M. D. S. P. BOWEN, M. D.
J. J. QUINN, M. D. C. S. MUSCROFT, M. D.
J. H. BUCKLE, M. D. G. W. BIGLER, M. D.
W. R. WOODWARD, M. D. G. A. DOWERTY, M. D.
CHICAGO, Sept. 30, 1870.—J. L. SMITH, Esq.: We have examined the formula of the "Celebrated Stomach Bitters," and find it to be composed of articles that are considered the best tonics used by the Medical profession, and one of the best bitters we know of now in use. Very respectfully,
H. S. HAHN, M. D. R. MCVEAR, M. D.
J. B. WALKER, M. D. G. A. MARINER,
NORMAN S. BARNES, M. D.

For Sale by all Druggists and Grocers,
Jas. A. Jackson & Co., Proprietors
Laboratory 105 & 107 N. 2d Street.
ST. LOUIS, MO.
