UTAL IS FORWARD.

The Nun set on the last day of the legislative season, and his parting beams, as they sweet ever the municipal to the last subject of the Utals, gave place to a wellight of peacetalises and rack. Part of the time white the law makes were sittle, introduced the ments distanced the surface, and meaning the welface of the communication of the welface of the communication of the welface of the communication.

weath by their afforts to tenew old corolitions.

But these elements were defented. The reign of a notice spirit, that has proved so bounded in the result of the reign of a notice spirit, the has proved so bounded for fair a decade, was not to be broken by them. The sid basses, as fraught with eithe and betterines, could not be revived. A just and sensitive sense of the results and when the critic was part, all above not right-in-thing citizens were gird that we said took the fair range flate and in brillian intings excepted a serious patif.

Again was the great truth emphasized that the destiny of Utab is invested by this perhaps in favire and the serious patification of the results of

TERRET'S ABST.

It seems to be a semicalized prevaient cention in Ruseis that the Greeke, if allowed to go to war with the Turks, would speedily be besteen, and this view appears reactionable whom the unitrary strength of the two centrities are compared. But the fast is that the Turkhan forces both as regarded quality and quantity are considerably been formulable than appears from foliating reports. A German military journal, the Astraceberistic, researing years a sum interesting illustrations retained to this subject.

the Jauresberkhite, recording gave some interesting inhibiterations relative to this sadgest. In 1808, its pointed out, when troops were being mobilized out second at the defentiances in Armonia, 25, our men of the fourth army storps and 20,000 of the fifth failed by respond to the mall, and of these bust indeed a rather were driven legalistics—7,000 deserted from the fourth and 2,000 from the fifth corps. Of Veelve hat tallows that were to be need for a unifiliary expedition, sight were always dissolved by describing. There was the destinate condition. For weather the exception were the condition of the condit
