LOCAL AND OTHER MATTERS.

Goed North.—President W. Budge and Brother J. U. Stuckl left for Bear Lake this afternoon.

Benefit.—The Eleventh Ward benefit concert for the benefit of the Welsh fund netted eighty-one dollars.

Renovating.—The fine large hall of the First Ward school house is being renovated, the painters and carpenters being busily engaged in putting it in elegant trim. The work will be finished this week.

Hook and Ladder.—Members of the Eagle Hook and Ladder Co., Number One, are requested to meet at the Firemen's Hall tomorrow evening, May 25th, at half past seven, their regular monthly meeting.

A. F. BLONBERG, Secy.

Manganese.—A specimen of manganese ore, very rich, from Kane County, has been presented to the Museum. Manganese can be put to a great many useful purposes, and the discovery of the ore, which exists in a large body, may therefore be considered important.

Death on the Train.—Early yesterday morning a lady, named Turner, of Chicago, died on the east bound Central Pacific train, near the Fremont. The deceased had been residing in California for some months, in the hope of benefiting her health, being a consumptive. On reaching Ogden the remains were packed in ice and forwarded eastward to the care of her husband, who was at Omaha.

Western States.—Elder C. H. Wheelock wrote from Council Bluffs, Iowa, May 19, that there is a good field for missionary labor in Nebraska, Iowa, and adjacent States. About half a dozen people were ready for baptism when he was located at the time of writing. He had received an invitation from some people about thirty miles from Council Bluffs, with the assurance of a kind reception and a room to preach in. He expected to leave for Wisconsin as early as practicable.

Good For Man.—Brother James C. Brown, superintendent of the Manti Co-operative store, is forwarding a hundred dollars, in aid of the Welsh emigration fund, wrote as follows, on May 20th:

"The singers of Manti gave a concert on the 13th inst., and realized fifty-five dollars. The balance of the money has been paid over to me by individuals, as donations.

"Improvement is the order of the day here. Active labor is being performed on the Temple grounds. Our new Tabernacle is progressing nicely, and work has been resumed on the old one. There is a good feeling among the people of Manti and, with few exceptions, they are enjoying good health."

The Southern States.—We have been enabled to peruse a letter from Elder John Morgan, writing at Cassandra, Georgia, May 18th. According to the communication the missionaries from Utah have been distributed throughout the field as follows:

Elders Williams and Johnson, in Paulding County, south of Rome; Elders Babin and Rogers, Marshall County, Ala.; Elders Stevenson and Clark, Hickman County, Tenn.; Elders Morgan and Standing are laboring together.

Brother Russell Rogers walked a distance of 400 miles, from Mississippi to Georgia, to get a traveling companion. On the journey he found several good openings for preaching.

The manuscript for a brief pamphlet, on the first principles of the gospel, is about ready for the press. The opposition to the work in that part of the country has been persistent and bitter, but, thus far, has only had the effect of helping the good cause. Poverty, distrust, and dependency were prevalent among the people of the south.

Enjoyable.—Yesterday, the Seventh Ward Sunday school, with Superintendent McLaughlin, Bishop Thorne and a large number of parents and friends of the children, spent a pleasant day at Fuller's Hill Pleasure Gardens. After enjoying themselves freely all day, Bishop Thorne called the folks together in the bower, and made remarks upon the time of happiness they had spent the whole day; stated that he little thought a few years ago that the spot would be so enjoyable, and looking very desolate, would ever be converted into such a pleasant, verdant looking place as it is to-day, complimenting the proprietor on the well-applied labor every where manifest, and a vote of thanks was given for the use of the gardens.

On Wednesday, the Tenth Ward Sunday School, with the superintendent, teachers and Bishop Spens, had a day out.

To-day the Fourth Ward folks, with the school, have been enjoying the fine weather, and next Tuesday, weather permitting, the Eighth Ward Sunday School purposes occupying the "Hill" for recreation.

The New Colony.—We have been permitted to make extracts from a letter to President John Taylor, from Elder J. Z. Stewart, written at Conchos, Conchos County, Colorado, the place which the Salto who emigrated last year from the Southern States, are beginning to settle up.

"We have about seven acres of wheat sown, over an acre of potatoes and a considerable variety of vegetables." Nearly all of the company were still at Pueblo and vicinity, working for different parties, there being but one of them with Elder Stewart, taking care of the crop. Elder Stewart expected to return home as soon as matters were in pretty good shape. Before returning, however, he will probably visit some relatives in Illinois. Brother Peterson and Trujillo, with their families, had arrived at Conchos, from New Mexico. Brother Blear, of Bear Lake, is expected to reach there also on the date of the letter. The latter crossed from Sanpete to the San Juan country on the Spanish trail. He saw some splendid tracts of land on the journey.

Brother Stewart says there is a large breadth of good land unoccupied where he now is, and the Denver and Rio Grande Railroad will run directly through the valley, from one end to the other, the coming year. This will make the land still more valuable, and increase the population.

"The population at present are Mexicans. The seed sown by Brother Peterson, before he left this part is taking root. He has translated the Articles of Faith, from Brother O. Pratt's pamphlet, into Spanish, and wishes to have it published. It will not likely require a pamphlet of more than ten pages, to contain his selection." "The State officers of Colorado are quite anxious for a 'Mermon' emigration; so they have stated to me. The land and water are good, and timber plentiful, but the climate is cold; yet crops are generally raised, but are sometimes cut off by frost. The altitude is about 7,000 feet.

Base Ball.—Several hundred persons witnessed the contest yesterday afternoon between the Mutuals of Mill Creek and the Red Stockings of this city. The game resulted in favor of the latter by a score of 41 to 4.

The Mutuals appeared in their new and tasty uniform. Their second base man, pitcher and catcher deserve special mention, and the nine, although so badly beaten, should consider that their opponents are a leading territorial club, and that they were required to bat against Barker's pitching, which, probably is the swiftest of any one's in the city.

The fielding of the "Reds" was excellent, only seven errors being scored against them in the nine innings. Barlow's playing behind the bat was without an error.

To-morrow afternoon the Deerees play a match game with the Camp Douglas nine, on Washington Square.

"Pottengill's Directory."—Pottengill has published his *Newspaper Directory* for 1895, and in it shows not merely that his knowledge of American newspapers surpasses that of all his contemporaries, but also that there is a method of enabling every man who possesses a copy of the new book to utilize that knowledge profitably. The classification of newspaper lists is the most complete ever accomplished.

Nowman who is in the habit of advertising his business can be fully equipped for work without a copy of Pottengill's Directory. The science of directory-making is mastered in this latest of publications relating to newspapers. Of course much labor and great care have been bestowed in the preparation of this Directory. It brings the reader into immediate communication with 5,515 newspapers, in all parts of the country. It advises advertisers how, when and where to advertise so as to make their expenditures effective. There is no newspaper man, whether editor or publisher, in the country, who will not hail the advent of this newest and best of Newspaper Directories.

Information Wanted.—We are requested by A. E. Anderson to publish the following:

R. Walton would like to know the whereabouts of Nils Nielson, born at Christianstad, Sweden, traveling missionary in Christianstad and Blekinge. Address E. Walton, 711 Washington Avenue, Minneapolis, Hennepin County, Minn.

Andrew Olson, whose information concerning the whereabouts of Anders Anderson and Olof Anderson, born at Gunnarshog, Sweden; moved therefrom to Christiansia, Norway; emigrated to Utah. His address is, Andrew Olson, Hastings, Dakota County, Minn., box 524.

Steel Skins.—Mr. L. B. Mathison, of the "Blue Front," First East Street, has received a lot of steel skins, which are covered by letters patent, and can only be found on the Mitchell. These skins are strong and durable, being neither liable to displacement nor to become loose. They are receiving attention from farmers and freighters.

Out.—The Sixteenth Ward Sunday School went out to Lindsey's Gardens, this morning, where they have been pleasantly passing the day.

Returned.—S. W. Sears, Esq., who has been absent in San Francisco several weeks, returned home to-day.

Scene.—Teacher with reading class, Ray (reading): "And as she looked down the river—" Teacher: "Why are ships called 'ships'?" Boy (promptly) alive to the responsibility of his name: "Because they need men to manage them."

A Dissatisfied Witness.

She was a farmer's wife, and, as she took the witness stand in a case before Justice Brown, she had her hands clasped, her lips compressed, and the fire in her eye was evidence that she was burning to tell the truth.

"Well, tell the jury what you know about this case," said the lawyer.

"I was out to the barn to ask my husband if he thought it was going to rain, and he said he guessed not, and I said I guessed not when three or four men came in. They were jawing and swearing and it almost made my blood run cold."

"Never mind all that," interrupted the lawyer. "Did you see any one strike a blow?" "I guess I did see some one strike a blow, and three or four of them and I never was so frightened in my life and I wonder I didn't faint away and I think this man struck first and I'm almost sure of it and if I didn't know better I'd swear that Robinson struck the first blow."

"Yes, sir, I swear that I think Robinson struck the first blow, and I think the man who struck first and I'm almost sure of it and if I didn't know better I'd swear that Robinson struck the first blow."

"That will do," said the lawyer. "Why—why, I haven't hardly commenced yet, and I don't want to get all I want of such testimony."

"I guess it's a mean trick to bring me into the court room, and let me swear, and then not let me swear!" she exclaimed as she stepped down. "I guess I'm just as good as, same other folks out my way, and I guess I've got just as good an education for swearing in court, even if we haven't got upholstered chairs in the house!"
