

"CAPTURED, BUT NOT CONQUERED."

INSCRIBED BY A FRIEND'S AFFECTION
TO ELDER JOHN NICHOLSON, A
PRISONER FOR CONSCIENCE'S
SAKE, OCTOBER 13TH, 1885.

"Captured, but not conquered!"

Triumphant words of truth—
Let them blaze in golden letters
In the eyes of age and youth!

They were words of mighty meaning,
As they fell from lips of one
Who had borne the brunt of battle
Till the victory nigh was won.

Overwhelmed by force of numbers,
He was carried from the field,
But the brave heart never faltered
And the strong soul would not yield.

From his lips in tones of thunder,
While his eyes shot living flame,
Leapt those words of heroism,
To immortalize his name.

And there rose a shout of triumph
From his comrades brave in arms,
As they closed their ranks of valor,
Undismayed by war's alarms.

And they swore with solemn fervor,
By the God of truth and right,
Ere His cause they would surrender,
They would perish in the fight!

Or, if crushed by weight of numbers,
And to fettered hells consigned,
They would pray that Truth might triumph
Until chained the power of mind.

And they praised the captive hero
Who had spurned the tyrant's rod,
Who was "captured, but not conquered,"
By the foes of freedom's God.

AMERICAN.

PORTLAND, Maine, 15.—The *Argus* states that Hugh Thompson, the cashier of the Grand Trunk freight department in this city, left town about a month ago to be gone on a vacation of two weeks. He did not return, and something wrong was suspected. His books were overhauled and he was found to be several thousand dollars short in his accounts. It is supposed that he lost large sums in betting on the *Genesta-Puritan* yacht race, and took the money for that purpose. It is not known where Thompson is.

New York, 15.—A new indictment has been found against Ferdinand Ward, on which he will be tried next week. He was arraigned to-day in the court of Oyer and Terminer and pleaded not guilty.

Staunton, Va., 15.—Wm. M. Brown, a prominent citizen of this city, was shot and killed in the rotunda of the fair grounds to-day by Stewart Kainer. The killing grew out of an alleged grudge. Kainer is in jail and the jail is guarded to prevent lynching.

CINCINNATI, O., 16.—Complete unofficial returns of the whole of the ticket in Ohio have now been received. The counties not given last night are Brown, 800 plurality for Hoadley; Hamilton, 300 for Hoadley; Ottawa, 1,159 for Hoadley. This makes the total 53,201 for Foraker, 35,513 for Hoadley. Foraker's majority, 17,688.

MINNEAPOLIS, Minn., 16.—The American Woman Suffrage Association adjourned yesterday after a three days' successful session. The Church of the Redeemer was crowded, many being unable to get standing room. Fifteen States and Territories were represented. Mrs. Julia Ward, of Oregon; Mrs. Ada C. Bowers, of New York; Rev. H. B. Blackwell, of Boston, and others, made addresses.

Resolutions were adopted, defining the principles of the Association, and laying out a plan of work.

LIMA, via Galveston, 16.—A dispatch from Puente-Pedras announces the death of General Lorenzo Yglesias, brother of President Yglesias and commander of the expeditionary force, while on his return invalided to the city. Colonel Rebayez has taken temporary command of the forces. Further details of the fighting at Cajamarca say the battle lasted several hours and was desperately contested. The Monteneros, who were in large numbers, completely surrounded the city, but were repulsed by the government troops, who captured large quantities of arms and ammunition.

CITY OF MEXICO, via Galveston, 16.—The President has granted a full pardon to all the political prisoners, except Editor Chevarri of the *Monitor Republicano* and Editor Carrillo of the *Correo de Lunes*. The prisoners pardoned include a number of newspaper editors and students. This action is hailed with great satisfaction by the people. The Gonzales newspapers are now cordially supporting the administration, and the hopes of the Church party that the Liberal party would go to pieces, are not to be realized.

HAZLETON, Pa., 16.—By the explosion of an overloaded gun in the hands of Edward Burtly here this afternoon, Robert Fichter, his companion, was instantly killed, a large piece of the exploded barrel penetrating his head. Burtly's right arm was blown off, and Thos. Scott, another companion, was

so severely injured that he will probably die.

NEW YORK, 16.—The *Journal of Fabrics* and the *Dry Goods Bulletin* tomorrow will print an elaborate report of the wool situation. Since August 1st the prices have advanced 15 to 30 per cent. in domestic wools from the lowest point touched for many years. The qualities chiefly affected were mediums and low grades. The despondency of wool men in Europe and Australia over the results of the last London sales is very great, especially so in fine wools. Low as the prices ruled before the London sales, they suffered a decline as the sales proceeded. The principal support to the English market came then from America. A cablegram just received from Australia states that the auction sales of the new clip have opened at a decline of 5 to 15 per cent. With such a tone in the wool centres of the world, it is useless to speculate on the continued rise, or even a sustenance of the present prices for any long period.

LINCOLN, Nebraska, 16.—The house and cattle-barn belonging to Peter Hengen, living near Ithaca, twenty-five miles north of here were burned last night. Hengen was away from home. The remains of his wife and daughter were found in the ruins. The body of his brother was found in the barn. Wild rumors are afloat as to the cause of the tragedy, but there is no real clue. The prevailing opinion is that young Hengen murdered the woman and child, fired the premises and then suicided.

ROSEBURG, Oregon, 16.—A gang of eight tramps came to town last night and drank freely. One of their number named Sullivan sold a watch for four dollars and refused to divide with his companions. They thereupon beat him to death with clubs and stones and then filled his body with pistol shots. This was about half a mile below town. One of the tramps confessed, and he with three others was arrested. The remainder escaped.

HAZLETON, Pa., 16.—Two brothers who had lived in a frame shanty about one mile from Seybertville for 30 years, were killed last night. They gained a livelihood by cultivating a small patch of ground and doing odd jobs for neighboring farmers, and by economy managed to accumulate several thousand dollars, which was generally supposed to be secreted in the house. With them lived John Kester, jr., an illegitimate son of the elder brother. When the young man returned to the house about 9 o'clock last night, he was horrified on discovering the dead bodies of his father and uncle lying on the floor. He quickly alarmed the neighbors, who hurried to the scene of the tragedy, and an examination showed that John had been shot through the head and William had been beaten to death with a heavy club, his skull being horribly crushed by repeated blows. Several times yesterday several tramps were noticed lurking in the immediate vicinity, and the police say they have convincing evidence that they are the parties who committed the crimes. A search is now being made for them. The trunks in the house had been ransacked, showing the object of the murderers was robbery, as it is supposed that the tramps had heard that money was hidden in the house. Young Kester says the money was secreted in the house, and that the murderers did not secure it.

SIOUX CITY, Iowa, 16.—The most horrible murder that ever disgraced Woodbury county occurred at West Fork Township last evening. James and John Johnson, brothers, lived together on a farm. John was married and James was a single man about 28 years old. Yesterday they had a house raising, after which a keg of beer was tapped. The two brothers quarrelled, and James was ordered from the house. He went out on the prairie and remained till about 11 o'clock. He then returned to the house and found his brother John asleep in bed. Taking an old army rifle he loaded it, placed the muzzle to John's head and blew his brains out. Not satisfied with this fiendish work, he loaded the gun again and fired another charge into his brother's head, scattering the blood and brains over the walls of the room.

The murderer remained at the house and then informed the neighbors that his brother was dead. He was immediately placed under arrest and subsequently made a confession of the horrible crime. On the way to this city with an officer they met a wagon with a coffin for the murdered man and Johnson being told that he would never see his brother again, replied: "Yes I will, I will meet him in hell." The wife of the murdered man stood by and saw the crime committed agreeing that it was the proper thing to do. She has not been arrested.

OTTAWA, 17.—Sir A. I. Galt will give the necessary notice in the *Official Gazette* to-morrow that he will apply to Parliament next session for a charter to construct a railway from the coal fields in Manitoba to the international boundary line in the direction of Fort Benton, Montana. Up to the present time Parliament has refused to ratify any railway charter which would admit of a railway being constructed beyond 50 miles north of the international boundary, but now that the Canadian Pacific, whose interests government was endeavoring to protect, is about completed. It is understood government will offer no opposition to Galt's scheme.

CINCINNATI, 17.—Three Democratic clubs held meetings last night and adopted resolutions charging gross frauds by Republicans in the recent election in Hamilton County; in de-

bauching judges and clerks, and in purchasing votes. They declared in favor of prompt prosecution of the offenders. To this end the Jefferson Club appropriated \$2,500, the Duckworth Club \$3,500, and the West End Club \$1,500.

CITY OF MEXICO, 17.—The Cabinet and Congressional discussions on the tariff reform measures give rise to many rumors. A recent editorial of the *Boston Herald* creates much comment. It hints that a loan to Mexico might perhaps be raised in the United States, the government of the latter country guaranteeing the interest thereon, in consideration of certain trade concessions. A scheme for free trade between the two republics, the United States to pay Mexico \$15,000,000 annually, is being talked up. European mercantile interests are opposed to the project on the ground that such a treaty would destroy all the European importing business. Among the Americans the plan is thought to be a wise one, as it would lead to a great increase in trade, opening up the entire Mexican market to American manufacturers and bringing the two countries into very intimate and friendly relations. The Mexican editors who recently traveled in the United States believe in a close commercial connection with that country.

CINCINNATI, 17.—The attorneys of the Committee of One Hundred engaged in the prosecution of the offenders against the election laws, appeared in the police court and preferred charges to-day against Edward Hudson, Chief of Police, for dereliction of duty in failing to serve warrants placed in his hands by the Committee on October 8 and 9 for the arrest of seven men charged with the violation of the registry laws. The attorneys stated that one of the men against whom the warrants were issued is now a policeman, another served as a special policeman on election day, and one or two of the others are well known to Colonel Hudson and the police. Col. Hudson explained that he gave the warrants to the lieutenants. The court ordered the lieutenants to be brought in to answer and continued the cases against Hudson until Monday.

John Birmingham and John Tasney, two of the democratic judges of election at a precinct in the Fourth Ward, were arrested this afternoon on warrants charging them with illegal voting. The policeman who made the arrest was at once suspended by Inspector of Police Mullen, who was in the magistrates office at the time they were brought in. Frank Kelly, chief deputy Sheriff and a son-in-law of Sheriff Beresford was arrested this afternoon on the charge of procuring illegal votes. It is alleged that Kelly led a gang of repeaters on election day. Pat Kelly and John Miner waived an examination on the charge of taking the ballot box from the 19th ward, and were bound over.

TORONTO, Ont., 17.—This afternoon, while the wife of Jean Baptiste Romilly, residing ten miles from here, accompanied by her two-year old child, was feeding her fowls, a large bald-headed eagle swooped down and bore the little one off in its talons. The neighbors turned out with shotguns, but the only effect of their firing was to accelerate the eagle's flight. The bird alighted on the top of a barn a mile away and was seen to make several strokes at the child's head with its beak. The neighbors had got pretty close by this time and succeeded in frightening the eagle away. The child's body was recovered, but life was extinct, a hole having been made in its skull and a portion of its brains devoured by the bird.

MONTREAL, 17.—Ambrose Choquet, of Rochester, N. Y., who has been mentioned as taking a prominent part in the agitation for Louis Riel, is a member of the American bar. He was formerly a resident of Montreal. Some time ago Choquet informed L. O. David, of this city, that an intimate friend of President Cleveland had promised on behalf of the Chief Magistrate, that as soon as the naturalization papers of the half-breed leader were produced an effort to persuade the Dominion authorities to hold a new trial and appoint a medical commission would be made. Mr. David, it is asserted, lately obtained the necessary papers and forwarded them to Choquet.

BALTIMORE, 17.—Capt. Trenery of the steamship *Baltimore*, which arrived here to-day, reports that on the 3d inst., at 11 o'clock at night, while in latitude 50 degrees, 50 minutes, longitude 17 degrees, 40 minutes west, he passed a ship on fire. He steamed all around her, burned night signals and sounded his whistle many times, but could discover no signs of any persons or boats in the vicinity. The ship was a mass of fire to the water's edge, from her stern to the foremast which was the only mast standing. Captain Trenery judged from the smell of the smoke that the ship's cargo was of vegetable matter, such as wood or cotton. The wind was blowing heavily at the time and he could not get close enough to secure means of identification.

GALVESTON, 18.—A special from Laredo to the *News* says: A courier who arrived this evening from down the river reports that two Mexican women were murdered about noon to-day on a rancho 16 miles from Laredo. He could give no particulars. Officers have started for the scene.

WASHINGTON, 18.—The final report dated October 1st, describing the gradual subsidence of cholera at Marseilles and Toulon and its disappearance from Celte has been received by the Secretary of State from the United States consul, Frank H. Mason. The

most fatal day at Marseilles was on the 21st of August, with a death record of 69. The greatest number of deaths in Toulon was on the 7th of August, on which date 42 were recorded. Subsidence of the scourge has been gradual and the deaths now occurring are nearly all among the fugitives who have returned to their homes without due precaution in respect to ventilation and disinfection, or have been imprudent in their diet or habits. The epidemic of 1885 had it is claimed in Marseilles from its outbreak down to the date of the report 1230 victims.

This is an unusually fatal record, or a secondary visitation at Marseilles. The mortality of these secondary outbreaks having been uniformly less than half that of the preceding summer. It is a pleasure to be able to close the record of this epidemic without including among its victims the name of any citizen of the United States. This is more gratifying in that the malady was, particularly in its earlier stages, peculiarly fatal to foreigners. It is notable in two American vessels which were in port during the early and most fatal stage of the epidemic. There were in all on both vessels nine cases, including both captains, of acute choleraic diarrhoea. Consul Mason says that he prescribed the remedy of a New York doctor with more than ordinarily good results. Its formula is, tincture of rhubarb ten parts, laudanum sydenham four parts, camphor one-half part, syrup of ether fifty parts, syrup of bitter orange peel fifty parts, one teaspoonful in a little water and repeat until symptoms cease. He adds: It is doubtful whether final statistics will show that any substantial progress has been made in treating the most malignant forms of the disease, or that the proportion of deaths to cases have been reduced so much as one percent by all the experience of these two sombre years. The only effective treatment for Asiatic cholera is to avoid it.

PITTSBURG, Pa., 18.—A crowd of 20,000 people, among them a large number of roughs, gathered on the wharf this afternoon to join an excursion to Davis Island Dam, where captain Paul Boynton was advertised to give an exhibition. The officers of the steamer were overpowered and their boat loaded to the water's edge. On this account they were afraid to make the trip and announced that the exhibition would be given before the wharf. The announcement led to a riot, during which roughs, with axes and other implements, almost cut up the excursion barges *Edna* and *Alice* and compelled the officers to jump into the river to save their lives, because they would not refund money taken for tickets. A large force of policemen was ordered to the wharf, but order was not restored for a long time. The ringleaders were arrested. Only one man was slightly injured.

JERSEY CITY, N. J., 18.—The southern express on the Pennsylvania road ran into an immigrant train to-night near Hackensack river bridge, several persons were killed and many wounded. The cars are now burning. All ambulances in the city have been called out for the relief of the wounded.

Some of the dead and injured are being taken to Newark. Two men and a woman were killed and three of the wounded have been brought to this city. The accident occurred to the western express and southern express.

PHILADELPHIA, 18.—It is announced here that after the southern express ran into the immigrant train this evening near Jersey City, a Lehigh Valley train dashed into the wreck.

The passengers on the Lehigh Valley train was brought to Jersey City on a relief train sent to the scene at midnight. The fog was still prevailing on the meadows and it is feared that others will be found beneath the debris. The full extent of the disaster will not be known till morning.

EIGHT PASSENGERS REPORTED KILLED.

New York, 18.—The *Tribune* of this morning has the following additional particulars of the wreck on the Pennsylvania road. Four cars of the Pennsylvania and a locomotive and two cars of the Lehigh Valley train were wrecked. S. A. Bowers, fireman of the Pennsylvania, is among the wounded, some of whom it is believed will die. The accident occurred on the meadows in a desolate place, not near any habitation. The train which took out the physicians carried also a large number of railroad men. Before its return, ambulances from the city hospitals and St. Francis and Christ hospitals had been summoned and were in waiting in the Pennsylvania station at Jersey City. Ulinas Arnaes was taken to the St. Francis hospital and died immediately after reaching there. Railroad officials were reticent about the accident. It was stated that a number of the wounded had been taken to Newark. The wreck made a terrible scene, all the tracks being littered. Travel was not interrupted as there are four tracks at this point. Two of them were blocked. The latest information is that there were eight killed. Owen Hall, engineer of the Lehigh Valley train had his leg broken and was taken to Newark.

THE ACCOUNT.

Jersey City, 18.—Supt. Crawford of the New York division, furnishes the following official report to the Associated Press. The particulars regarding the accident are as follows: About 8:35 to-night Pacific Express No. 3, west-bound, ran into the rear end of an extra train consisting of seven cars, loaded with luggage, and eight cars

carrying emigrants, at the west end of Hackensack River bridge, throwing the rear car of the latter over on the Lehigh Valley road's track. Before the track could be protected a Lehigh Valley east-bound passenger train, (No. 19) ran into the wreck. Three emigrants were killed and four emigrants and three employees were injured. The employees were passenger conductor E. R. J. Ubenrath, wrist fractured, L. V. engineer, Owen Hall, injured about the mouth and legs, and L. V. fireman, S. A. Bowers, cut about the head and neck. Damages to the engines and cars were not heavy. The injured were brought to Jersey City and taken to various hospitals here. The cause of the accident has not as yet been fully determined. There was a dense fog at the time.

(Signed) JOSEPH CRAWFORD,
Supt. of Penna. Railway.

JERSEY CITY, 18.—On the meadows, four miles west of this city, a collision occurred between two trains this evening, which resulted in the death of four persons and the injury of several others. The Pacific Express, leaving here at 8:15 o'clock, ran into a western bound emigrant train which had stopped at a coal chute on the east side of Hackensack Bridge, knocking a portion of the latter across the track of the Lehigh Valley road. Shortly afterwards a Lehigh Valley train, eastward bound, came thundering along and crashed into the wreck. The dead were all on the emigrant train, as were also the injured. The brakeman of the latter train was among the victims. The wreck is the most frightful on the road in years. Three dead bodies have been brought to Jersey City, they are a man and a woman, both decapitated and terribly mangled, and a boy of about twelve years who had both legs cut off. Their names have not yet been ascertained. It is impossible now to obtain a full list of the injured. It is said there are more under the wreck. The latest information places the number killed at eight.

Jersey City N. J., 18.—The emigrant train was just pulling away from the coal shutes, when the accident occurred. A dense fog prevailed at the time. The bodies of the man, woman and boy which were brought here were taken to Speer's morgue. They have not yet been identified. The wounded were brought to the Jersey City depot, where available ambulances were waiting, and were conveyed thence to the St. Francis Hospital. They were Eulena Arnaes, a Norwegian, aged 35 years, en route to Madison, Wis., both legs cut off and injured about the head; she died ten minutes after her arrival; Marinus Klingner, Norwegian, aged 18, en route to La Junta, Col., where his uncle resides, crushed about the head and shoulders, he died at midnight. Christian Masted, Norwegian, 30 years of age, en route to Minneapolis, sustained a compound fracture of both legs, probably fatally hurt. Steward A. Bower, fireman of the Lehigh Valley train, aged 35 years, married, resides south of Easton, Pa.

PITTSBURG, 18.—A Uniontown, Pa. special says: Two murders were committed in this (Fayette) County last night. Two brothers named Tasker, while intoxicated attacked a house occupied by Ira Tate, at Haydowntown and threw clubs at Tate's wife severely injuring her. Tate fired at them with a shotgun and Hal Tasker was instantly killed. Tate surrendered himself to the sheriff to-day.

The other murder was also part of an attack on a house. Four negroes broke down the door of a house occupied by Michael Borrillo on the outskirts of the town. Borrillo resisted and was shot and killed by one of the negroes named Robert Scott. The murderer has not been arrested.

MONTREAL, 18.—For the week ending Friday night there were reported by the authorities of the Roman Catholic cemetery 293 deaths from smallpox in the city: 29 at St. Come, 14 at St. Henri, 7 at St. Gabriel, 25 at St. Jean Baptiste, 23 at St. Louis.

NEW YORK, 18.—Final arrangements for the Irish demonstration to be held at Tammany on Wednesday evening have been completed. Mr. Charles A. Dana has been asked to preside. It is expected that \$15,000 will be realized as a fund to help Parnellite candidates in Ireland.

BUFFALO, 18.—The second trial of the celebrated case of the people vs. Lorenzo Dimmick, charged with grand larceny in the first degree, was brought to a close to-night. The jury, after being out twelve hours, brought in a verdict of guilty with a recommendation to mercy. Dimmick, who was of the firm of Dimmick and Crosby was charged by the Thomas and Mersey Insurance Company with transferring the insurance originally placed in other companies to that company, after reports of the losses of the vessels. It appeared that other companies paid him larger commissions than Thomas and Mersey and that he favored them in this way.

CONCORD, N. H., 18.—An accident on the northern division of the Boston & Lowell Railroad, by which three persons were killed and five others were injured, occurred this morning between East Andover and West Andover. The Chicago fast freight left here with the double-header and when it reached West Andover where it was to be sidetracked for the down passenger train, it was discovered that the train had been broken in two and the engineer, John P. Emerson, started back in search of the missing cars. The passenger train men were informed of the mishap to the freight train. The express stopped at Andover Centre t
