POLITICAL WOES OF KANSAS.

TOPEKA, Kan., Feb. 15.—Governor Lewelling has called out the state militia to eject the members of the Republican house from the hall of representatives, they having just effected a forcible entrance through the doors

barred by the Populists, by means of sledge hammers. A riot is imminent.

Later—A riot is imminent between the Republicans and Populists in the hall of the house of representatives, and there seems no way to avoid a dangerous clash.

When the Republicans went to the hall this morning they found the doors barred by the Populists. After a short consultation the Republicans resolved to force an entrance. Sledge hammers were brought into play against one of the side entrances with such good effect that the doors were soon demolished and the Republicans quickly fled into the hall. Had the Populists been in session, a conflict would surely have resulted, but fortunately the Populist house adjourned yesterday till 1 o'clock this afternoon.

As soon as the Populists learned what had been done Governor Lewelling was notified. He promptly called out the militia, instructed them to proceed to the hall and eject the Republicans from the floor. The soldiers started on their mission, and the Republicans, learning of the governor's action held a hurried consultation as to the course to pursue. No definite plan was decided on but individual Republicans are trying to induce the Santa Fe railroad to call out its shopmen.

Other industries known to be in sympathy with the Republicans are also asked to furnish men for the same purpose. In the mean time the Populists are not idle. Company C of the local militia responded promptly to the call, having been notified by Adjutant General Artz last night to be in readiness. They marched to the capitol grounds, took up their position awaiting orders. Orders were also telegraphed to Holton and Harion for companies D and G. It is reported that they are on their way on a special train.

In the hall of the house the Republicans are making a show of doing business. Great enthusiasm and loud cheers were evoked by the presentation to Speaker Douglass of the sledge hammer with which entrance was effected into the hall and which Douglass subsequently used in place of the gavel to call the house to order. A resolution was passed electing Chief Clerk Rich, of the Populist house, Howard, Briedenthal and Scott to appear before the house for contempt for resisting the process of the house yesterday when an attempt was made to arrest Rich. There were twenty-four assistant sergeants-at-arms in the house when the Republicans forced their way in, but they did nothing to prevent it except to warn the Republicans that they were destroying state property and would be held accountable for it.

The only weapons shown by the Populists were one Winchester and a couple of revolvers in the hands of a young man who made no attempt to use them. They were captured by the Republicans and are to be preserved as trophies.

This morning the Santa Fe train from Atchison and other places brought seventy-five Republicans to act as sergeants-at-arms, and other trains are expected to bring additional reinforcements. The Republicans, anticipating trouble, telegraphed for help last night.
