To Cut Grade-One question before the Second Avenue club is a proposi-tion to cut down the grade of the roadway six feet or more on the hill. How-ever, there is a strong opposition to this on the part of abutters, as they would have not only to put in retain-ing walls, but use step ladders to reach the street from the sidewalks, and the approaches from the cross streets would have to be cut down also. City officials say the change will never be made against the protests of property

IT IS DANGEROUS TO NEGLECT A COLD. How often do we hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. This is of such common ce-currence that a cold, however elight, should not be disregarded. Chamberlain's Cough Remedy counteracts any tendency of a cold to result in pneumonia, and has gained its great popularity and exten-sive sale by its prompt cures of this most common aliment. It always cures and is pleasant to take. For sale by all drug-gists. ANNUAL CONFERENCE.

Committed Two-Two insaulty ex. aminations were conducted by County Physicion Whitney and Dr. Van Cott yesterday afternoon before Judge Armstrong and in both instances the pa-tients were ordered committed to the State Mental hospital at Provo. Mrs. Hannah Anderson, who resides on north Second West street, was committed upon complaint of her husband. The other examination was that of Stoica De Hatzeg, an Austrian laborer who wandered into the police station on Sunday in a demented condition.

Critchlow Returns-Manager J. Q. Critchlow of the Credit Men's associa-tion returned last night, from a three weeks' business trip through the north and west, and found conditions good all through Idaho. In Portland, Mr. Critchlow found that real estate had doubled in not a few localities, and many San Francisco people have pitch-ed their tents there. Notwithstanding che of the Portland papers printed a long interview with him, Mr. Critchlow says he never saw a reporter to talk with him, so that the "interview" was a fake.

Changes Fosition-John S. Weisch has been supervisor of reading in the University training school for some time, has resigned to accept a position as supervisor of reading for the gram-mar grades of the public schools. Mr. Welsch has been employed on acscount of the large increase in the number of teachers employed, and Supl. Christensen finds it impossible to do justice to all the work. At the training school Mr. Weisch has changed the reading work so that it includes the masters, instead of being made up of short exercises from second words workers grade writers.

No Serious Damage-Capt. No Serious Damagesscapt. G. A. Hammond of the reclamation bureau has been up on the North Platte in Wyoming, and says that the reported destruction of a \$100,000 dam on that stream amounted to just the washing out of 200 sacks of sand. When the captain left that region, the ther say subming 7.000 second fast river was running 7,000 second feet. He haves shortly for the west, on gov. ernment business, and will visit the Salton sen. The Colorado river is now running at its highest and the full heavy stream is emptying into the great sink. The sea ought now to be rising at the rate of six feet a month.

It would be a good thing, I beieve, to consolidate with the other exhibits in a Main street location. We have got to get together, and be more aggressive. We have got to get over these small ideas of doing business. and do things on a big scale if we ex-pact to make Utah what she deserves to be. We must make this a jobbing conter, a wholesale center, a manufac-turing center. We have got to band

together to do this. We will bring 10,-000 people to Salt Lake next month. There will be prominent business men merchants, capitalists and officials from other states in Salt Lake in greater numbers than were ever seen before when the Six-Shates Business Men's ex ursion is run in here.
