BURGLARS CAUGHT REDHANDED

Policeman Morrissey Surprises Four Burglars and Captures One After Lively Chase.

SHEEP POISONED IN TRANSIT.

Tabernacle Services—County Teachers Employed—Japanese Killed on Railroad—News Notes.

Ogden, April 28.—While making his rounds shortly after midnight Saturday night Officer R. M. Morrissey discovered four men at work at the rear of the Watson Tanner clothing company's store, making preparations to burglarize the place. The officer ran on to the quarter very unexpectedly and could not retreat to get help, as at about the same moment that he discovered the men they saw him and began to run. He followed them west through the alley at the rear of the stores. When the men came to the opening west of the Independent Telephone company's office they darted out into Twenty-fourth street and then scattered into four different directions. Mr. Morrissey continued the chase after one of them and succeeded in overtaking him near the corner of Grant avenue. He took the would-be burglar to the police station, where he gave his name as Charles Johnson, and is 48 years of age. When he was searched the desk sergeant found a loaded revolver, brace and bolt, a jimmy and other things used by a burglar in breaking into stores. He was booked up and a search instituted for the other members of the gang, but they had made good their escape. A search at the rear of the store revealed the fact that the men had made a hole in the door and were about to break it open when the officer appeared. It is evident there is a large gang of burglars and others who are continuing their operations. The gang is composed of professional crooks as is evident from the tricks they have already turned. A search of the room occupied by Johnson revealed a quantity of burglar's tools.

HEAVY LOSS OF SHEEP.

Thomas Smart Loses \$2,000 Through Muttons Dying in Transit. Ogden, April 28.—Thomas Smart, a well-to-do sheep man from Logan, who has been in Ogden the past week with several car loads of sheep, has suffered a loss of nearly \$2,000 through the sheep dying. The sheep were loaded with care for shipment to Ogden. On their arrival here it was evident there was something the matter with them, as when they were unloaded, many showed signs of being sick. He immediately sent for a veterinary surgeon, who examined them carefully, and said they had been poisoned in some way, but what it was he could not tell. He prescribed medicine which was administered. Mr. Smart had hope of saving at least 80 per cent of the flock, but instead he stated yesterday that he had been able to save only about 10 per cent and some of those yet alive are quite sick and may yet die.

HOME OF H. O. OLSEN BURNED.

Miss Dahlquist Recital—Light Vote at School Election. Special Correspondence. Logan, April 28.—The residence of Henry C. Olsen on Fifth East, between Center and First North streets, was almost completely destroyed by fire Saturday afternoon about 4 o'clock. The fire is supposed to have started from sparks from the chimney of the kitchen stove, catching in the roof of the main building. The fire department in receiving the alarm was immediately called and went to Olsen's, near the Fifth ward meetinghouse, instead of the Seventh ward meetinghouse. In consequence of which the fire was beyond control when they reached the scene. Neighbors had succeeded in removing the entire contents of the house, so that the building only was destroyed. There was no insurance on the property. The baseball game Saturday afternoon between the B. Y. college and the Logan team resulted in the defeat of the visitors, by a score of 6 to 0.

SCHOOL CLOSING EXERCISES. Hospital Patients—New Pumps Installed—Fros Damages Fruit.

Lehi, Utah Co., April 26.—Closing exercises of the public schools, except the eighth grade and the high school, were held in the new tabernacle and the morning hours of the school day. The school participated in the excellent program. The tabernacle was filled with students and school parents. The eighth grade pupils will finish their work by next Friday and the high school will close May 17. About 50 will be graduated from the eighth grade. This afternoon sports and a dance were given in the city pavilion and grounds. Great preparations are being made for the Utah county high school to be held here May 4. A program will be given in the morning in the new tabernacle at which prominent educators will be present. In the afternoon a number of interesting athletic events will be held on the city ball grounds, which have been put in fine shape for the occasion, and in the evening a grand ball will be given. The following present teachers will not teach here next year: Supervisor G. N. Child, Mrs. May Baker, Effie Warrick, Annie Sharp, Mrs. Adamson and Amy Shurtliff. Mr. Child, who has been principal of the public schools and high school for a number of years, and through whose untiring and efficient labors the school system has reached its present high standard, has accepted the position as cashier of the Bank of Lehi. Mrs. Baker, who has been supervisor of the primary department for a number of years, has sold her home here and will remove to Salt Lake City to teach.

NEW PUMPS INSTALLED.

The two new pumps have been installed at the mouth of the Jordan, making a total of seven to be operated there, and active work is being done in enclosing the pumps with a brick house. The pumps will not start up for some time as the lake is so high that the natural flow of the river supplies Salt Lake county with enough water. William A. Knight has charge of the pumping plant and his assistants will be Edward Miller and Ernest Devey.

HOSPITAL PATIENTS.

John J. Jones, while going to Idaho to see his son, last week was taken very sick in Salt Lake and had to go to the L. D. S. hospital where he underwent an operation. His condition is reported to be quite critical. Sam Hammer is in the L. D. S. hospital where he has to undergo an operation for removal of gall stones. Mrs. John Chilton is home from a Salt Lake hospital where she underwent an operation. She is doing nicely.

FROST DAMAGES FRUIT.

The frosts have done a great deal of damage to the fruit here, and it is feared the peach, strawberry and cherry crops, especially, will be very light. The young beets here were not injured at all by the frost.

RICHFIELD.

SEVIER RIVER RESERVOIR. Proposition to Irrigate 20,000 Acres More Land. Special Correspondence. Richfield, Sevier Co., April 27.—The stockholders of the Sevier Valley Canal company held a meeting today at which it was decided to subscribe for \$10,000 of the stock of the proposed new reservoir to be built on the Sevier river in Utah county. While this is not as large a subscription as had been expected from this company in view of the amount of land without water now under this canal, yet it is believed that the building of the reservoir is practically assured. The prevailing sentiment appears to be in favor of making the present terminus of the Sevier Valley canal permanent as far as this corporation is concerned, and that the new reservoir be constructed to take stock in the proposed reservoir and let it extend the canal. It is estimated that the new reservoir will store water sufficient to irrigate 20,000 acres.

BLOOMINGTON.

Frost Kills Much of Dixie's Early Fruit Crop. Special Correspondence. Bloomington, Washington Co., April 27.—The weather has been very changeable for some time—warm and cold waves frequently alternating. Considerable of the early fruit has been disposed of by the cold frosty nights, but there will perhaps be enough for home consumption.
