When one marriage may be lightly set aside and another entered into, re shall have reached the condition of the Mormon, with this sole dif-ference, that his polygamy is simul-taneous, and ours consecutive.

This is a terrible showing of social ly superior to themselves. . There is life in those States which claim to be the foremost in education and the refinements of modern "Chris-tian" life. From that quarter proceed the most virulent attacks upon "Mormonism," and particularly against its system of marriage. The congressional legislation intended congressional legislation intended to suppress plural marriage, from the law of 1862 down to the latest piece of puritan presumption and oppression, has been presented and champlened by New England Sen-

There should There should be less of this among the people of this Territory, the "Mormon" section is referred ators and Representatives. They pretendeto be working in the interests of morality. They are very anxious to put down extra marry-ing in Utah, but are wilfully blind to the social irregularities, yea, the filthiness and foul corruption of so-clety where they live and move and have their being. Dr. Dix will bring a storm around his ears that will not be very pleas-ant to endure. If he had pitched into the "Mormons" or deplored ests of morality. They are very to of course) than elsewhere. into the "Mormons" or deplored the licentiousness of the heathen in foreign lands, he would have gain-ed the applause of the smug and self-satisfied, kid-gloved and perfumed, church and, chapel going easy-di-vorce Christians of down east. But to tell them of their own sins and point to them their own social in-iquities is entirely unorthodox, and there is no wonder that he has related a cyclone of indignation.

there is no wonder that he has raised a cyclone of indignation. The force of the Doctor's phillipics is in their trath. He has figures and facts to siduce which cannot be blown away by the breath of anger or explained out of sight by pious denunciation. And what will be done about 1: by those lo-gicians(?) and moralists who trace every transgression of law or de-cency in "Mormondom" to the re-ligious system pravailing here? If an occasional case of impurity in ligious system prevailing herer if an occasional case of impurity in Utah proves that "Mormon" is vile, what must be said of the orthodoxy of New England where such a condition of society exists, increasing in degradation every year, as described by the learned lecture?

induces a second by the second by the second lecturit? But the gentleman evidently mis-understands the "Mormon" situs. tion, for which he is no more to blame than hundreds of other eler-gymen and public speakers. By discarding one wife in order to get another, the New England "Chris-tian" would not in any way approx-imate to the condition of the "Mormon." The Bible says God "hates putting away;" it nowhere says he disapproves of adding wives to a man's household. Marrying two or more wives and loving, cher-ishing and proyding for them and
