THE EVENING NEWS. GEOBGE Q. CANNON, EDITOR AND PUBLISHER.

- - June 12, 1873. Wednesday.

CONGRESS has adjourned, but previous to its adjournment the Sacramento Record speculated in this strain upon the doings of that body in reference to Utah matters

The Mormon Question In Congress.

The indications are that the present session of Congress will close before any legislation is effected touching the Mormon question. Voorhees' bill hangs in the House Committee, Butler, of all men living, being apparently the chief obstacle to a report upon it. In the Senate a similar inexplicable stagnation is manifest, and it is tolerably clear that for some reason there is an indisposition to adopt any legislation in this direction. The result will be that direction. The result will be that Brigham Young will secure another lease of power, that polygamy will be more firmly seated than ever, and that the animosities already existing be-tween the Gantiles in Utah and the Mormons will be embittered and aggra vated. The initial hunder was made by permitting the Utah Federal Judiby permitting the Otah Pederal Judi-clary to ride rough-shod over constitu-tional and legal exactments for the pur-pose of reaching the accused Mormons The policy selected was not only foolish and suicidal, but utterly unjustified by any real or imaginary necessity. It was as if a man possessing free access to a well-furnished armory should go out of his way to gather a stake from a hedge where with to do battle. No good could have resulted from the arbitrary course of Judge McKean in any event. It was, on the contrary, just the policy to

was, on the contrary, just the bolley to suit the Mormons, for they, """ were thus placed in the attitude of mar-tyrs, subjected to illegal and unconsti-tutional pains and penalties. The Ge-vernment has not only failed to meet the question or deal with it intelligentvernment has not only failed to meet the question or deal with it intelligent-ly, but it has given the whole issue a thrust back wards, and has enabled the polygamists to renew the combat from a stronger vantage ground than ever. The situation is rendered still more verations by the seeming absurdity of

verations by the seeming absurdity of the contest. On one side are arrayed a nundred the constitution, and on the flers of the Constitution, and on the ners of the Constitution, and on the other the representatives of forty mil-lions of people, all anxious for the sup-pression of polygamy; yet the "twin relic of barbarism" continues to main-tain itself, not only successfully, but even arrogantly. Congress has had plenty of time and opportunity to legis-late on this question.

The Record further goes on to say that it is discreditable to the national legislature that another session should pass away and nothing be done with LDO OID BO ng about a 'stain on the nation," "plague spot of immorality," "gross tyranny over the weaker sex," etc.; and concludes by stating that the spectacle of one personage "successfully keeping at bay the whole power of the United States government, and checkmating the nation at every turn, is one which is not calculated to put us in better conceit with ourselves, or to bring us more respect and esteem from abroad." The Record has some very sensible ideas concerning the situation in Utab, but in some respects does not look upon that situation from a proper point of view to gain the most symmetrically on Durham. Correct conception of the affairs of the Best 5 dairy cows Territory. We think Congress did yery well not Best 4 year old cow & We think Congress did very well not to pass any proscriptive, tyrannical bill to apply to Utah. So far as such legislation is concerned, "masterly inac-tivity" is the very best statesmanship. There is really no wonderful problem to be solved in relation to this region, or the inhabitants thereof, that we are aware of. If people will let people alone, there will be no putting pointscal problem to solve in Utah, nor anywhere else. It is the incessant intermeddling, the arrogant attempts to govern too much, by law or in defiance of law, that creates all these perplexing and exciting problems. Let everybody mind his own proper business, let everybody lat everybody alone, so far as unwarranted interference goes, and we shall have peace and good order. whether the inhabitants of the Territory are monogamic of polygamic. That's the correct view or the Utah matter

Editor Deseret News:

(barring which his communication

month to month, in their behalf, inrough the public prints. A man who resides in the 17th Ward of this eity has offered for sale "can-died honey," a sample of which I for-ward to you. He sold some at Cedar Fort at 50 eents per pound cash or its tequivalent, while the best California honey can be bought at 25 to 30 cents per pound in cans. A good many peop-le would be glad to learn what propor-tion of dirty brown augar was used and how much of the "julce of dead b es" was employed in the manufacture of this "pure" article of consumption. The same man has a "hive" popularly called a "box," made by himself, for-sale. The Bee Association recommending the Kidder hive and unreservedly con-demn the 17th Ward "box." Respectfully, &c., A. ridicule from intelligent splarians. He seemed to entirely overlook the fact that we are only giving instructions for each month, as the mosth comes round, and not for the whole supply them for the year. Should there be an isolated swarm without drones at this time of year, they will not swarm this year, therefore they need no drones at all, as drones are needed in no case except to pair with young queens. The half of a divided swarm without a queen, if left to themselves, will build a large amount
