Colonia Juarez, Chibuahua, Mexico March 17 .- The recent visit of Elder Tanner and Summerhays has indeed been to us a season of refreshing. Dur ing the Stake Sunday school confe ence held on Saturday and Sunday jupassed, the words of instruction an encouragement given by them wer gladiy received by a large and appreci-ative audience. All the wards in the Stake, both of Chihuahua and Sonora eight in number, were officially repr sented, and the reports were very satis factory. There were no children ov 8 years of age unbaptized in any war except one, in which were two, recent arrived. Almost without exception of icers and teachers observe the Word o Wisdom and obey the law of tithing and with few exceptions this is true of

the pupils. When is considered the distance delagates from Oaxaca and Morelos, ou Sonora wards, have to travel to attend a Stake conference, a distance in the round trip of about 300 miles, ove mountains and uninhabited country. camping out and enduring the vicisi-tudes incident to such a journey in a wagen, no one can doubt their earnestness and zeal in the holy labors of the Sunday school work.

The exercises during conference were varied and pleasing, reports from th various wards alternating with class exercises, addresses by our visiting brethren and local authorities, and songs by the Sunday school choir, led

by Chorister Nathan Ciayson. The officers, teachers and pupils of the Sunday schools in the Stake ber 1,701, distributed among the following wards:

Juarez, 301; Dublan, 400; Diaz, 337; Garcia, 110; Pachico, 122; Chuichupa, 110; Oaxaca, 121; Morelos, 200. The last three named are of recent settlement consequently weak in numbers, but are reasing in population as their fac tles for home-making are becoming

In answer to the query "what inducenents are used to get children to attend the Sunday school," the answer from every ward was identical-"No inducements are employed, because none are needed."

PREVALENCE OF DROUTH. We are suffering from a severe and long continued drouth, which makes pasturage for stock very scant, there having been no rain this winter nor this spring, thus far; but as the rain-bow has not as yet been removed from

the heavens we expect to reap a har-vest this year as in times past. HYDROPHOBIA SKUNKS.

Their visit here created great interest among the farm-ers, and they will, no doubt, use more care in the selection of the best of grains and vegetables for seeding. At close of meeting the visitors were thanked by a rousing vote for their tended to them to come again. No snow here. The farmers are busy disking the upturned sod for spring planting.
