It is asceretained that these papers were sent from Cuba to the de-partment at Washington, and charge the alleged defaulting postal employe with the embezzlement of a sum ap-proximating \$400,600. This alleged em-bezzlement consists in the conversion into cash of the \$400,000 worth of "sur-charged" Cuban stamps which were or-dered destroyed, and which were car-tified as having been destroyed by the committee appointed for that purpose of which Neely was the head. The above information comes from Edward K. Jones, special assistant to the U, S. attorney general in the Neely case. Neely, now confined in the Ludiow case.

DETAIL OF THE ADVANCE.

Something of Mateking's Relief-Gen. Warren Defeats Boers - 800 Roers Surrender-Baden-Powell Speaks.

[Afternoon Dispatches.] London, May 23, 2:06 p. m.-Once

more Lord Roberts is advancing in force. The walt at Kroonstad is over and already the main British army is about twenty miles north of its former resting place, judging from the dispatches of Lord Roberts at Honingspruit Station, while flanking him on either side of the railroad Gen. French's cavalry and General Ian Hamilton's mounted infantry are both slightly in advance of Lord Roberts, and threatening to envelop the Boer position, which extends for twenty miles due north.

Gen. French probably crossed the Rhenoster river near the junction with Honingspruit, which runs thence to Honingepruit Station. The main British army will probably advance along the railroad, while Gen. French converges from the west, and Gen. Hamilton from the east. Against this overwhelming force the Boers will probably follow their usual tactics of retir-ing to positions, which doubtless have been prepared in advance for their oc-

cupation. Gen. French and Gen. Hamilton are separated by about 40 miles, while Lord Roberts is within 12 miles of Gen. French and 30 miles of Gen. Hamil-

MAY BE FIGHTING NOW.

Since the last dispatch left Honing-spruit yesterday, Lord Roberts has doubtless still further advanced, and by now is either engaging or following the retreating Boers. Definite dispatches received this morning make it clear the Vanit diver has not yet been crossed Vaul river has not yet been crossed, is nearly 40 miles intervenes between t and Lord Roberts' advance flankers. The small number of casualties sustained by Gen. Hamilton in his occupa-tion of Heilbron bears out the theory that the Boers will make no strenuous resistance until the Vaal is reached, or

until even later. Dispatches to the Associated Press Heilbre

BADEN-POWELL REPORTS.

London, May 23, 11:50 a.m.—The war office issued a dispatch from Lord Rob-erts under date of Honingspruit, May 22nd, announcing the receipt by him of the following message from Maj. Gen. Baden-Powell:

"Mafeking, May 17.--I am happy to inform you that Mufeking was success-fully relieved today. The northern and southern columns joined hands on May 15th and attacked the enemy yesterday, and after a small engagement entirely defeated them with loss. The British casualties were three killed and wenty-two wounded.

"The relieving force marched into Mafeking at 9 this morning and the re-lief and defense forces combined and moved out and attacked the enemy's head laager. "We shelled them out and nearly cap tured Snyman and took one gun, a flag and a large amount of ammunition, stores, etc. Five dead and fifteen wounded Boers were found. The ene-

reat of the remainder. "Capt. MacLaren and Corp. Muray were found in the Boer hospital. They are doing well. The townspeople and the garirson of Mafeking are heartily grateful for their relief."

BROADWOOD CAPTURES WAGONS.

Lord Roberts' dispatch further says: "Ian Hamilton reached Hellbron this morning after a series of engagements with a Boer force under Dewet, who is retiring before him. Brondwood has captured fifteen Boer wagons. There have been seventy-five casualties in Hamilton's force to yesterday evening. We marched here this morning."

PURPOSE OF BOER ENVOYS.

Will Visit Leading Cities of the United States, Then Will Go Home.

cities of the United States and explain to the people whatever they might wish to know of their cause. They came to plead with the whole American people for sympathy and support. The cities which they will visit have not yet been determined upon, and in making their selections they will be guided by their friends. It is probable, however, that they will eventually reach San Francisco, stopping en route at Chicago, Milwaukee, St. Louis and Cincinnati. Other cities have also been mentioned. Mr. Fischer said they did 'dot contemplate making any set addresses but would give the people plain talks, the subjects of which would depend entirely upon what particular phase of the great question at issue the people desired to be informed upon. He wanted it distinctly understood that he and his friends particularly wished to avoid any partian demonstration that might be construed to mean that their sympathies with one political party in the United States were stronger than

But it Went Instead to the Motel, Where it Remained in a Scaled Envelope.

S. Wade Mosby, Burton S. Rimball, and William E. Jermaine filed a suit against the Western Union Telegraph company in the Third district court today to recover the sum of \$29,750, for failure to transmit a cortain telegraphic message.

The complaint sets forth that on September 11, 1899, and for a long time prior thereto, plaintiffs were owners of a twoyear lease on a valuable mine in Utah; that upon the mine deed under the lease they had expended large sums of moneywithout any return because of the great difficulties encountered in the attempted levelopment. The plainting thereupon decided to endeavor to secure a renewal of the lease for a period of four years, of the lease for a period of four years, and for that purpose sent Mr. Jermalne to Michigan and elsewhere at a great expense. On December 5, 1899, Jer-maine, it is alleged, succeeded in ar-ranging for the renewal and wired Mosby and Klinball, eare of Cullen House barrender, notifying them of his success and asking if they were ready to do business at once. The message was sent from Adrian, Michigan, but never reached the Cullen bar. Later, it was found in a scaled envelope with the clerk of the hotel, having been ad-dressed to "Mosby & Kimball, Cullen Hotel, Frequent calls were, it is alleged, Hotel, Frequent calls were, it is alleged, made at the local office, but no message

After Much Confusion the Minority Report to the Contrary Was Tabled, 365 to 288.

Chicago, May 23 .- The Methodist gen-

eral conference today voted to abelish the time limit on pastorates. The discussion this morning was mainly over the minority report of the committee which provided for a five year extension of the pastorate only on a three-fourths vote of a quarterly conference, which one speaker declared to be a "vicious proposition," and and an amendment offered by D. S. Monroe,

providing for a return to the three year time limit but with the provision that the pastorate may be extended by periods of three years by a majority

report of a quarterly conference. Dr. J. M. Buckley advocated as a compromise measure the adoption of the minority report with a majority vote of a quarterly conference instead of three-fourths as a requisite for ex-

tension. The previous question was ordered by the chairman, and Dr. S. F. Upham, chairman of the committee on itinerancy, closed the debate in a speech frequently interrupted by hand-clap-ping. He warmly advocated the ma-

jority report. Amid much confusion a motion was made to lay on the table the substitute (minority) report and all amendments. This brought things to a crisis, and a standing vote was called for, "The minority report is laid on the table by a vote of 365 to 288," an-

nounced Presiding Bishop Foss, amid great applause. Substitutes offered by various delegates were howled down. Demands for a vote by orders from ooth ministers and laymon were voted down, but a yea and nay vote was or-

BADEN-POWELL ON MAFEKING.

The first word received from Col. Baden-Powell at Mafeking heightens rather than diminishes the report here-tofore cabled of the gallantry exhibited by the garrison during the closing days the siege.

During an interview with the correspondent of the Reuter's Telegram com-pany, May 11, Col. Baden-Powell said My great endeavor is to prevent the elief force from trying to rush into the lace before they are strong enough to It would be better to make cer tain of relief in two months than to be beaten in an attempted relief in one month. You remember it was said in the old days in Zululand that the na-tives called me "umbala Panza" (the man who does not rush things). The knowledge that the whole empire was watching with appreciation the good fighting of the garrison has been worth an extra pound of rations a day to the garrison. It was difficult to per-suade the civilians of the necessity of submitting to martial law. We had our little difficulties, but later there was loyal acceptance of the military administration, and there was no trou-ble at all. The devotion of the nurses and the women generally was most marked."

PRAISES HIS MEN.

Referring to the requests of the newspapers for messages, Baden-Powell looked embarrassed and said:

"These chaps have got an exaggerat-ed idea of the importance of my per-sonality. I look upon myself as the figurehead of the good ship Mafeking. She had her stout canvas and her brace sailors, that really shoved the ship along and brought her safely through along and brought her safety through the stormy cruise. So, whenever I read nice things people say of me I take it that they are said of the garrison inasmuch as I am the head representative of the garrison,
