

Saturday, December 10, 1870.

LOCAL AND OTHER MATTERS.

NOTICE.—Notice is hereby given that a general meeting of the Elder's quorum will be held in the Old Tabernacle on Monday the 12th inst., at 2 o'clock p.m. All Elder's in this city and vicinity who can attend are requested to do so.

BENJAMIN PEART, President.

NOTICE.—There will be a meeting of the Parent Society for the introduction of Stock, Bees, Fish &c., at the City Hall at six o'clock on Monday evening.

THEATRE.—The thrilling play "Uncle Tom's Cabin," will be presented at the Theatre to-night, when pathos and fun, in abundance, may be enjoyed by all who will attend. Mr. McKenzie personates "Uncle Tom," Miss Adams, "Eliza," Miss Deille Clawson, "Topsy" (for the first time), Mr. Margetta, "Phineas Fletcher," and "Gumption Cate," Mr. Graham, "Marks," other characters by the company. A splendid bill, and the company can do it justice.

THREATENED INDIAN DEPREHATIONS.—The following dispatch was received this morning:

St. George, Dec. 10.

Ed. Note:—Patrish, the Yampahtah chief who led the Navajos, who killed Dr. Whitmore and Robert McFerrin five years ago, has now crossed the Colorado with a band, and threatens the lives and property of the inhabitants of the southeastern frontier. The people of Kane, Washington, Iron and Beaver counties have been advised to keep a vigilant guard over their stock and be prepared to repel any attack that may be made by the Navajos and their allies.

Geo. A. Smith.

INDIAN MATTERS IN ARIZONA.—The Arizona Miner, in speaking of the doings of the Indians in that Territory, says:

The Mohaves and Pintos are preparing for another encounter. The former, who number of about 700 warriors, are encamped in a "fortified" village, watching with palpitating hearts, for the coming of their foe, the Pintos, who, it was said, were encamped on the Muddy, strengthening their ranks with recruits from other tribes. At latest accounts, the Pinto force was about 400. They claimed to have nearly 150 guns, a much greater number than the Mohaves had. But, the latter had plenty of ammunition, and were practicing every day. Both parties had been playing sweet to the whites—soldiers and citizens—who, with much good sense, had refused to take up the quarrel of either tribe.

The Miner thinks that the killing of a few hundreds of the belligerent red skins would greatly enhance the interests of civilization in that region, and expresses the hope that nothing will occur to prevent the conflict and that prodigies of valor will be performed on both sides. It will be seen by the dispatch, received from President George A. Smith, to-day, that some Indians, with hostile intent, had crossed from Arizona to the Utah side of the Colorado River. It is likely, however, that the forewarning of the brethren in that section will in a great measure if not entirely, prevent their depredations.

SANDWICH ISLANDS.—Elder Wm. King of Laie, Sandwich Islands, writing on the 22d ult., to Elder George Nebeker in this city, states that a great change had taken place in the weather. For nearly two years drouth had prevailed, but lately the other extreme set in, and the rain falls had been so heavy that the work on the plantation had to be suspended several days. The excess of rain caused temporary inconvenience, but, if not too long continued, it would prove very beneficial to the crops.

The priesthood and Saints generally were in the enjoyment of good health.

COAL.—From indications that are manifest throughout the Rocky Mountain territory there is every reason for the belief that it is one of the greatest coal regions on the continent. The Colorado, tributary of the 7th inst., has an article on the coal deposits of that State which shows that they are immense and rich. It says:

"Professor Hayden, who visited this Territory in 1863, and again this year, and explored the whole area, gives us his opinion that the coal region of Colorado east of the mountains occupy 500 square miles. While the openings already made and the outcrops, are most marked along the foot hills of the mountains from the northern to the southern border of the Territory, yet valuable mines are being worked seventy miles to the east, and there are evidences that immense deposits will be found west of the range almost to Salt Lake City."

The opening and development of coal mines in Utah is exceedingly desirable and we think that prospecting is at that direction would result profitably to those engaging in it. Coal and iron would constitute the back bone of wealth to any community. We have heard of several late discoveries of coal adjacent to this city but we are not yet aware that active steps are being taken to develop them."

ANCHORED AT LAST.—It is now decided that Pioche is in Nevada. According to telegram, under date of Dec. 4th, from Mr. James' surveying party, to Surveyor General Day, it is twenty-five miles west of the State boundary line. We presume that, from his antipathy to everything "Mormon," this settlement of the question will suit the *Eddy Record man*.

STREET MUSIC.—A large, diversified and splendid assortment of sheet-music, comprising the latest songs, quadrilles, waltzes, galops, polkas, etc., published by the eminent music firm of Fonda & Co., New York, is for sale. The establishment of Calder Bros., East Twenty-third Street. It is published in elegant style, and is offered to the public at half the publishers' price. Here's a chance to procure new music and songs for the coming festive season.

CHEYENNE ITEMS.—The following is from the Cheyenne Leader:

"The first of the artesian wells to be sunk along the line of the western part of the Territories, is to be at Crescent Station, which is two or three miles east of the continental divide. It is believed the experiments will be successful. If so, these wells will create small gushes in that desolate region. The trial of John Thompson, of company I, Ninth infantry, U. S. Army, for the killing of Sergeant Thompson, at Fort Russell, on the night of the 12th ult., occupied the attention of the U. S. Court, Hon. J. H. Howe presiding, for two days last week. Though the evidence was very strong against the prisoner, the jury failed to agree. Subsequently
