FORTY-SIXTH CONGRESS

CONGRESSIONAL.

SENATE.

WASHINGTON, 24.—Hill's resolution for the appointment of Assistant Librarian for the Senate was discussed; after opposition by Edmunds, it passed.

Carpenter opposed the bill incorporating the National Educational Association as unconstitutional.

After the morning hour the Geneva Award bill was considered.

Carpenter submitted a resolution requesting the president to communicate to the Senate any unpublished correspondence between the United States and Spain regarding the fulfillment by the United States of the requirements of the ninth article of the treaty of 1819; adopted. Adjourned.

HOUSE.

WASHINGTON, 24.—The Speaker and Blackburn at once became involved in a discussion whether the first business was to approve yesterday's journal or vote correcting Monday's journal. The Speaker maintained it would be inconsistent to approve Tuesday's journal before Monday's.

Blackburn claimed that the rules provided for the reading of the journal of the preceding day immediately upon assembling.

Messrs. Reed and Garfield quoted rules and precedents sustaining the Speaker. After confused debate the Speaker submitted the question to the House.

Before the Speaker submitted the question Springer raised the point that the House could only decide the question by an appeal from the decision of the Speaker. The Speaker, however, said he desired a construction of the House as to whether yesterday's journal should now be read. The vote stood, yeas 115, nays 126; nearly a party vote, although 15 democrats voted with the republicans.

Knott raised a point that the reading of the journal could not be dispensed with except by unanimous consent.

The Speaker said the House had just overruled the point. He overruled all other points raised by the members, and amidst the greatest confusion directed the clerk to read McLane's proposition.

Turner, of Kentucky, here with violent gesticulations, moved successively to adjourn and take recess. Both were defeated. The clerk then read McLane's proposition taking erference from the committee on the revision of laws and giving it to the committee on ways and means.

In the course of the debate on McLane's proposition, Robeson exonerated Townshend from attempting to do a dishonorable thing. He said he acted under a mistaken idea of the effect of the rules and the sense of the House.

Springer said that the proposed action would set a revolutionary precedent.

Turner asked the House to drop the matter and consider the appropriation bills.

Mills strongly denounced the action of the ways and means committee as against the poor man and in favor of capital.

Kelley claimed that Townshend had evaded the rules of the House and boasted of it in the hall. In so doing he had violated the law and had assigned the unholy reason therefor, that a certain committee was not constituted to his taste.

The House, by a vote of 135 to 98, decided that McLane's proposition contained a question of privilege; 20 democrats voted with the republicans.

McLane demanded the previous question on his proposition and the democrats filibustered. He said as he didn't care to be kept here all night by obstructionists he would move to adjourn.

The House refused to adjourn, 109 to 84. Further filibustering and attempts at compromise ensued. At one time the Sergeant-at-arms brought before the bar of the House Davis, of California, Bingham, Richmond, O'Reilly and Herbert, who excused their absence on the ground of hunger, and were excused. The fun mounted to its height when Stell, ascending the clerk's desk, amid a shower of witticisms, recited "Tam O'Shanter," saying it would be as good as the House was likely to hear.

Singleton, of Illinois, inquired whether, prayer having been concluded, it was not in order for the journal to be read.

AMERICAN.

WASHINGTON.

Nominations.

WASHINGTON, 24.—The President has sent the following nominations to the Senate: James B. Angel, of Michigan, to be Envoy Extraordinary and Minister Plenipotentiary to China, *vice* Seward, recalled; John F. Swift, of California, and William H. Trescott, of South Carolina, to be Commissioners to China to negotiate a treaty.

S. Newton Pettis, of Pennsylvania, Associate Justice of the Supreme Court of Wyoming; John F. Tiffany, of New York City, agent for the Indians at San Carlos Agency, Arizona.

Mr. Angel, now President of the Michigan State University, is a native of New England, and was formerly editor of Senator Anthony's paper, the *Providence Journal*.

Mr. Trescott was Assistant Secretary of State under President Buchanan, and previously occupied the position of Secretary of the United States Legation at London. He remained in private life on his South Carolina plantation during the war, and has been employed by Secretaries Fish and Evarts in several matters of importance connected with the work of the State Department, thus he prepared the case for the United States, and acted as our attorney before the Halifax Fisheries Commission, and it is understood that he wrote for Secretary Evarts the long report on the Inter-oceanic Canal question, which was recently sent to Congress. He is a learned and accomplished man, of distinguished manners and presence, and appears to be about fifty-five years of age.

China—American Tea Trade.

General Staple, United States Consul at Hiôga, in a dispatch to the Department of State, dated January 29, transmits the annual report of the tea trade of that district, from which it is seen that 14,000,000 pounds of tea was exported from Hiôga during the year, and over 11,000,000 pounds were shipped to the United States and 2,500,000 to Canada. None was shipped to other countries. The report shows a large increase over the previous year in quantity and value, the prices being higher than in 1878, notwithstanding the great increase in production. Although all the tea shipped at this port went to America, yet more than four-fifths of it was imported by British and German houses, and less than one-fifth by Americans. The ports in the United States to which the tea was shipped were New York, 900,000 pounds, Chicago, 2,500,000 and San Francisco 50,000 pounds. The shipments to Chicago were an increase over the previous year, while those to San Francisco fell off.

Forfeiture of Railroad Land Grants.

Senators Davis, Garland and Carpenter sub-committee on judiciary committee to consider the joint resolution introduced by Morgan, and various similar measures, looking to the forfeiture of railroad grants, submitted a report to the full committee to-day, recommending the passage of a bill which shall provide authority for the Attorney General to bring suits for the forfeiture of the land grants of all railroad companies which have not complied with the requirements of their charters, and which are doing nothing in the line of construction; but including also the proviso exempting from the operations of the bill all such railroad companies as are now prosecuting the construction of their roads. The full committee discussed the report, but took no action to-day.

Our Trade With China.

Consul General Bailey, in a dispatch to the Department of State, dated Feb. 3d, transmits the annual trade report of China. His conclusions are that the trade of China never looked as promising as at the beginning of 1880. That it only needs an intimate knowledge of the requirements of the Chinese nation to enable the manufacturers of the United States to compete with the Chinese in the making of an infinite number of articles not now imported into China. The possibilities of the lumber trade, he says, are boundless, China having to look to the North Pacific coast of the United States for a supply of lumber. Navigation under the American flag still makes a poor showing in China waters, and a steam merchant marine is imperatively required.

Connected with the Mining Industry.

The House committee on mines and mining to-day authorized Berry to report with recommendation for passage the bill appropriating $250,000 to be forthwith expended under direction of the Secretary of War in the most efficacious manner to preserve the navigable waters of California from injury from deposits of mining debris and also to defray the expenses of further investigation of the whole subject by a commission to consist of two army engineers and one officer of the coast survey.

Representative Page to-day made argument before the House mining committee, in opposition to any change in the present law on ledge locations so far as California is concerned.

Hill's Persecutor.

Senator Hill and a friend have filed affidavits that Jessie Raymond was totally unknown to Hill, had no claim on him, was attempting to extort money by annoyance and threats to kill, that he believes the latter may be dangerous, asserting that she is an abandoned character, and requests that the police take action in the matter. His friend (Smalls) testified that Jessie had said that she would have $500 or Hill's life, if she hung for it.

Indian Committee.

The House committee on Indian Affairs, having concluded their examination of Ouray and other Ute chiefs, they will start for Colorado to-night.

Extension of Time.

The House committee on railway and canals to-day took up the bill which proposes to extend the time stipulated in their charter for the completion of the Washington and Cincinnati Narrow Gauge Railroad. The subject will be again considered at the next meeting.

Financial.

Secretary Sherman has accepted $2,000,000 bonds. The receipts in excess of expenditures and interest this month are $5,632,000; bonds bought, $8,000,000, premium to be added.

BUSINESS REPORT.

Increased Transaction, but Much Speculation.

NEW YORK, 24.—The *Public's* table, to be published to-morrow, will show that the clearing-house exchanges from all points indicate an increase of business transactions over the corresponding week last year. The following are the percentage of increase:

New York	30.3	Louisville	29.1
Boston	34.6	Milwaukee	22.9
Philadelphia	47.6	Providence	45.5
Chicago	18.7	Cleveland	48.6
St. Louis	31.4	Kansas City	85.7
Cincinnati	33.3	Indianapolis	32.3
Baltimore	34.1	New Haven	48.4
New Orleans	28.2	Lowell	29.1
Pittsburg	53.8	Syracuse	14.7

San Francisco shows a decrease of just 10 per cent. Only a small part of New York's increase is attributed to stock speculations, for after deducting on that account, her percentage would be over 74. There is a large speculative movement on products which has affected banking operations at some other cities as well as here, and the gain in exchanges elsewhere is not very much greater than the average advance in prices. The banks are carrying very heavy loads on account of speculation, and the sharp demand for money here is due in part, at least, to the requirements with which the condition of legitimate business has little to do; still there is evidence of very general and wholesome activity in every branch of business, and a further moderate reaction in prices if it should occur about this time, would probably prepare the way for much more solid prosperity in the near future. As matters stand there is a prevalent feeling that the monetary situation is not entirely safe, and the prices of some important products are so high as to check transactions.

Fire in the West Indies.

News was received to-day of the destruction by fire of the entire business portion of Samana, Santa Domingo, on the 9th inst. The loss is estimated at $150,000. The fire covered the space of six acres; no insurance. Nearly all the merchants are ruined. The poor would be on the verge of starvation were it not that the country around Samana abounds in fruit upon which all are subsisting. Most disgraceful scenes of pillage followed the fire. It is said the pillagers of the place quarrelled over the distribution of booty and several of them were killed in the fight that followed. The fire burned with great fierceness and the flames leaping across the street swept everything away to the Custom House. In the Custom House was stored a large quantity of tobacco, ready for shipment. All was destroyed. The Custom House stopped the further progress of the fire.

Collision.

The *Annex* steamer plying between Jersey City and Brooklyn came in collision with a schooner off the battery to-day and was badly damaged. One passenger fell into the river and was drowned.

Back to Work.

The strikers in two firms of the piano and cabinet makers resumed work this morning at the increased demand.

Railroad Intelligence.

The directors of the Chicago, Rock Island and Pacific Railroad propose the consolidation of all branch roads and other property of the company into a new corporation and to double the present stock.

The Chicago, Burlington & Quincy investment shares advanced to-day 7 per cent., and the Rock Island 8 per cent. on the reports of doubling stock or stock dividends.

The *World* says: The day has been an active one at the Mining Exchange, the sales amounting to 102,000 shares against 77,000 yesterday.

Cleveland, 24.—The Atlantic & Great Western Railroad Company has ceased existing and the New York, Pennsylvania and Ohio Railroad Company was finally organized in its place. The directors were elected and J. H. Devereaux was elected president. The capital stock of the consolidated company is $45,000,000.

Louisville, 24,—President Stanford of the Louisville and Nashville railroad, to-day resigned on account of ill health. H. Victor Newcomb, the Vice-President, was elected his successor. Several changes were made in the directorate.

St. Louis, 24.—Jay Gould has ordered a road of 150 miles long extending into the Western Missouri coal fields to be built. Work begins at once.

Strikes Ended—Anti-Third Termers.

The strikes are generally ended by mutual agreement.

At a meeting of the committee of which John B. Henderson is chairman, to-night, resolved to call a mass meeting of anti-third term republicans here some time in May. The call will be issued on Friday.

After an Embezzler.

OMAHA, 24. — W. A. Starnes, chief of police of Atlanta, Ga., and deputy sheriff H. L. Collier, passed through Omaha to-day for San Francisco, to bring back with them S. R. Hoyle, tax collector, who was recently arrested in San Francisco for the embezzlement of $219,000 at Atlanta.

Electric Process of Ore Reduction.

Col. A. C. Tichenor, inventor of the electric process of reducing gold and silver ores, which will revolutionize old methods, passed through to-day for San Francisco. He has already realized $200,000 from his invention, which has not been hardly introduced to the mining public.

Dix' Persecutor Caught.

BALTIMORE, 24.—The city post office authorities this afternoon arrested Eugene Fairfax Williamson, the originator of the late annoyance to Rev. Morgan Dix. Williamson confessed sending letters, cards, etc., and said he had been in New York twice, stopping at the Windsor Hotel. He does not know what prompted him, as Dr. Dix never injured him. He had no purpose to extort money. He was taken to New York to-night. He is a single man, aged 40, and a native of Baltimore. Detectives have been following him.

Wool Market.

BOSTON, 24.—There is very firm feeling and prices of all grades are well sustained. There is a confident feeling that wool will be no lower for some time. California is in moderate request, at 20 @ 38, with the stock considerably reduced and mostly of low grades.

A Soldier's Home.

TROY, 24.—By the will of the late Gen. Badger Tibbits, of this city, $100,000 is bequeathed with which to build a soldier's home in Troy, conditional upon $50,000 being secured within five years.

A Wife Murderer.

ELMIRA, N.Y., 24.—At Lawrenceville, Pa., Sidney Green killed his wife, and being pursued shot himself dead. His wife had only just returned from the West.

Heavy Snow.

DERBY LINE, Vt., 24.—A snow storm set in last evening, and 15 inches have fallen. It is still snowing, with heavy wind.

Reprieved.

BUFFALO, 24.—A reprieve of six weeks has been granted Carl Monks, sentenced to be hanged on April 2d.

A Strategist in Trouble.

CHICAGO, 23.—The *Inter-Ocean's* Washington special says: All last evening Townshend boasted of the clever way in which he had outwitted the ways and means committee; but to-day he paid the piper in the House by making a very lame defense of his action, and if he had been present on the ways and means committee when it discussed the subject, he would have had to fight each of its members as he did Reed and Garfield in the House to-day. The committee on the revision of laws is composed almost entirely of free traders.

DIPHTHERIA.

WHERE THERE IS NO CANKER THERE is no diphtheria. Hall's Canker Remedy never fails. Ask your neighbors. Sold by Z. C. M. I. Drug Department, wholesale and retail, Salt Lake City.

NOTICE.

THE SEMI-ANNUAL MEETING OF THE Stockholders of Zion's Co-operative Mercantile Institution, will be held in the Council House, in this City, on Monday, April 5th, 1880, at 2 o'clock p. m., for the transaction of such business as may be brought before the meeting.

Stock transfer books will be closed on the 1st of March and reopened on the 6th of April next.

EDNA G. WHITNEY, Secretary and Treasurer.

Salt Lake City, Feb. 19, 1880. td

45 Years before the Public.

THE GENUINE DR. C. McLANE'S LIVER PILLS

are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the Liver, and in all Bilious Complaints, Dyspepsia, and Sick Headache, or diseases of that character, they stand without a rival.

ACUE AND FEVER.

No better cathartic can be used preparatory to, or after taking quinine. As a simple purgative they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar-coated. Each box has a red-wax seal on the lid, with the impression, McLANE'S LIVER PILL. Each wrapper bears the signatures of C. McLANE and FLEMING BROS.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by

FLEMING BROS., Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.
