SPUR FRANCHISE PASSES COUNCIL

Rie Grande Western Gets Permission to Operate Track One Hundred Years.

WINDW'S PROTEST IS FILED

Newhouse Application Comes Up Next Week-Board of Public Works Must Explain.

At the adjourned session of the city council last evening the franchise granting the Rio Grande Western Railway company permission to construct and operate for a term of 100 years a spur track on Sixth West and South Temple streets connecting its line with the San Pedro road, was passed unanimously. The protest against the franchise submitted by Mrs. Jane Evans was filed, as the curvature of the track had been changed to satisfy the protestant. NEWHOUSE APPLICATION.

The Hartenstein resolution instructing the committees on streets and mucipal laws to take up the application Samuel Newhouse for a light and or samuel Rewholse for a light and power franchise for consideration on Wednesday evening, May 3, was adopted after some little discussion. Hartenstein said that he thought a vote of thanks should be extended to Mr. Newhouse for offering to build a light and power plant, thus enabling the council to get valuable concession from the Utah Light and Railwa ompany which it could not have got-

RESOLUTION OPPOSED. E. H. Davis and Wood thought that the resolution was uncalled for as the committees could take the matter up whenever they wanted and Mr. New-house would be invited to attend the meetings without the necessity of the council instrucing the committees on council instrucing the committees on that point. Fernstrom said he was willing to take the franchise up when-ever the members of the committees were ready. He agreed that the peo-ple of Salt Lake City owed a vote of thanks to Mr. Newhouse for the rea-sons stated by Hartenstein, but he did per think if proper at this time to avnot think it proper at this time to ex-tend such a vote. Precee favored the adoption of the resolution. Upon a roll call the resolution was adopted by a vote of 12 to 1, E. H. Davis voting against it,

AFRAID OF LITIGATION.

Tudenham introduced a resolution requesting the board of public works to explain its action in ordering P. J. Moran to proceed with watermain extensions Nos. 74, 81 and 89 and 97 under his 1904 contract, when the contract for such work done this year had been awarded to P. P. Ford of Denver. Tuddenham and Fernstrom both contended that the action of the board might involve the city in litigation with Ford. and the city might have to pay both parties for the work. The resolution was unanimously adopted. CONTINGENT EXPENSES.

Upon recommendation of Mayor Mor-ris, the sum of \$2,000 was appropriated to the mayor's contingent fund, to be used for various contingent expenses of the office, among which is the pay-ment of freight on the carload of as-phalt just received. Hobday was the only one who voted against the appro-

INSTALLMENT PAYMENTS. The following resolution by Fernstrom was adopted unanimously: Be it resolved. That the city attorney be and is hereby instructed to draw up an ordinance for installment payments on all local improvements, according to

the jast legislative enactment, FAT JOB FOR SOMEONE.

Hartenstein introduced an ordinanc creating the office of purchasing agent for Salt Lake City, and fixing the sal-ary at \$150 per month. The duty of the ary at \$150 per month. The duty of the officer is to make purchases for all departments of the city of all materials and supplies for which requisitions have been granted by the council, and to keep account of the same and approve all bills for things purchased. The ordinance requires a bond in the sum of \$10,000, to be furnished by the agent. The matter was referred to the finance and municipal laws committees.

NEW LICENSE ORDINANCE. An ordinance amending the license An ordinance amending the license for circuses from \$400 per day to \$200 for the first day and \$300 each day thereafter, was introduced by Hobday, and was passed under a suspension of the rules.

RAISING OF BUCKWHEAT. Matter Discussed at Meeting of Salt

Lake Produce Exchange

The idea of raising buckwheat in this vally, first suggested in the "News," was brought up before yesterday afternoon's meeting of the Salt Lake Proluce exchange, and the raising of this valuable cereal was urged. C. H. Miller brought out the fact that buckwheat can be grown on lands that cannot be used for other purposes; that the seed can be planted late and only one or two good rains are needed to bring the grain to maturity; that as a weed exterminator no better plant grows than buckwheat, and last of all, while there is not a tremendous demand for buckwheat flour in Utah and the surround-ing country, some 300,000 pounds of it were brought into Salt Lake during the past winter and sold at good prices. The discussion following showed that The discussion following showed that the best quality of buckwheat could not be brought from the east, and the only way to get it was to raise it. Buckwheat averages nearly 30 bushels to the acre and weighs from 45 to 48 pounds to the bushel. Granting that as much flour can be made from a bushel of buckwheat as from a bushel of wheat, it would mean 200 pounds of of wheat, it would mean 900 pounds of flour to the acre.

It was considered too late to attempt to raise the grain this year, but the matter will be urged next winter and spring, so that a good start can be made then,

About Rheumatism.

There are few diseases that inflict more torture than rheumatism and there is probably no disease for which such a varied and useless lot of remedies have been suggested. To say that it can be cured is, therefore, a bold statement to make, but Chamberlain's Pain Balm, which enjoys an extensive sale, has met with great success in the treatment of this disease. One application of Pain Balm will relieve the pain, and hundreds of sufferers have testified to permanent cures by its use. Why suffer when Pain Balm affords such quick relief and costs but a trifle? UTAH IN THE EAST.

Senator Heyburn Says its Industrial Growth Attracts Attention.

Senator Heyburn of Idaho arrived from the east last evening, and is at the Knutsford until tonight, when he continues north to his home. The senator says that Utah is receiving marked attention in the east on ac-count of its industrial growth and the opening of the new railroad communi-cation with Los Angeles; and holds that the investigation at Washington in the Utah senatorial proceedings is having no effect on the development of the state. As to his position in this matter, the senator says he has taken no sides. He also states that the irrigation projects in Idaho will be pushed ahead with all possible speed. Murray, Utah, April 26 .- To the Deseret News: "If it happens it's in the Herald." That is, unless it happens to refer to Frank Cannon's sudden departure for Europe, concerning which the would-be newsy Herald maintains an ominious silence. Is it true that the Herald has been in secret sympathy with the Tribune in its smashup raid against Utah's peace and prosperity, that it now fears to hurt the feelings of that hyprocritical sheet by even an al-lusion to its enforced change of policy. The chivalrous Herald can pound poor old man Schettler on the back for weeks at a stretch, or fill column after olumn with apostate "Mormon" dia orlty of its subscribers, but it can even give the news if it would wound he feelings of an anti-Utah knocker Haul in your sign. WISHARD TELLS THE WAY.

Preached Last Night in the First Methodist Church.

Rev. Dr. S. E. Wishard preached fast right, in the First Methodist church, on the theme, "The Way to God." The speaker said: "When should we find the way to God? Here and now. Begin with known truths. Don't go about saywith known truths. Don't go about saying; 'If I only knew which church was right, I'd join it.' Don't begin piling up theological truths at the top and working downward. Remember it's the blood of Jesus Christ that cleanses and only through the blood will you find the way, whatever church you may join. The known truths with which to begin are: First, the admission that you are a sinner, and, second, the knowledge that Jesus is the Savior. Those seeking the way should start

formulas and other untruthful statements published concerning Doctor Pierce's World-famed Family Medicines the Doctor has decided to publish all the ingredients entering into his "Favorite Prescription" for women and his equally popular tonic alterative known as Dr. Pierce's Golden Medical Discovery. Hereafter every bottle of these medicines, leaving the great laboratory at Buffalo, N. Y., will bear upon it a full list of all the ingredients entering into the compound. Both are made entirely from native roots, barks and herbs. The ingredients of the "Golden Medical Discovery" being Golden Seal root, Queen's root, Wild-cherry bark, Mandrake root, and Bloodroot.

Why is it so many have been strengthened and benefited by the tonic effect of Dr. Pierce's Golden Medical Discovery? It is because at this time of the year people feel run down, nerveless, sleepless and worn out. Poisons have accumulated in their body during the long winter. The blood stores up a lot of waste product which poisons the system. That is why in the spring and early summer a tonic is almost a necessity. Dr. Pierce's Golden Medical Discovery being made of medicinal plants, is next to Nature and the best tonic vou can use. For the same reason that vegetables and greens are good for the system at this time of the year, so is it true that a tonic made up entirely of medicinal plants, without the use of alcohol, is the proper medicine to take at this time. It fills the blood with rich, red blood corpuscles. It gives you a feeling of strength, and it puts sunshine into your system as no other remedy can. That is why Dr. Pierce's Golden Medical Discovery has been such a favorite for the past forty years. He is not afraid to open his laboratory to the public, and he invites everyone to visit his Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., to see how systematically the sick are taken care of and cured, as well as looking over his huge laboratory and seeing the scientific methods of preparing this wonderful tonic. Neither man

To refute the many false and malicious attacks, bogus | nor woman can be handsome who has impurities in the blood, for it will show in pimples, boils, and eruptions, in the dark circles under the eyes and in the sallow complexion. After taking "Golden Medical Discovery" you are bound to have pink cheeks and a fresh complexion. The muscles get the good, rich, red blood, that puts on strength. It is a flesh builder, but not a fat builder.

As an example of the good results thus obtained, note the following letter:

"In the year 1899, I had an attack of indigestion and got so bad that my home doctor said he could not do me any good," writes Mr. G. Trent, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak I could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were strips of false membrane as large as a man's two fingers thrown off, and I had a great deal of misery in my stomach and especially in the lower part. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the 'Golden Medical Discovery' I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since."

Dr. Pierce's Good temper is largely a matter of good health, and good health is largely a matter of healthy activity of the bowels. Dr. Pierce's Pleasant Pellets cure constipation.
