

caused of what he was required to meet. When such a charge shall have been made I will call upon the park keeper to confront his accusers, but not until then.

In regard to the other matters of the resolution I ask that a committee, composed of one councilman from each precinct, be appointed to make an investigation and report the results to the Council.

Moran moved that the communication be received and filed.

Lawson said he did not understand why Moran had made such a motion. The charges in the communication were all true. Besides that he knew that there were a great many other charges against the present park-keeper which could be substantiated by a visit to the park. He would take pleasure in taking the Mayor down there and show him that his statements were not reckless.

Wantland moved that a special committee of five, one member from each precinct, be appointed to investigate the charges. Carried.

**MORE POLICEMEN.**

The following from the Mayor was also read:

To the President and City Council:

Gentlemen:—I hereby appoint M. Cantlon as policeman on the police force in place of C. L. Ford; also B. F. Walker in place of Dan Carson; also W. F. Hill and Al Estes as patrolmen on the regular police and respectfully submit these appointments for confirmation.

In this connection I call your attention to the third section of an act amending incorporated cities, page 55 of revised ordinances; which provides that the Mayor shall have power to appoint by and with consent of the council, the regular police, the number of which may from time to time be presented to the City Council.

After diligent search I have been unable to find any ordinance, resolution or motion, fixing the number of the regular police. The requirements of the police service demands at least five more regular policemen in addition to the number which will compose the force after the confirmation of the persons above appointed. The confirmation by the Council will cause the omission by the Council to fix the number, yet I think it would be better for the Council, by ordinance or resolution, to fix some limit. Respectfully submitted.

**Committee on police.**

**JANNEY'S RESIGNATION.**

The resignation of Edgar M. Janney as city marshal and jailor was read.

Lawson moved to refer the matter to the committee on police.

Moran moved to amend by accepting the resignation. He took it for granted that when a man tendered his resignation he meant business.

Rich said he didn't comprehend why some of the gentlemen were so ready to snap at the bait offered. It should go to a committee for investigation. He didn't believe in kicking a man when he was down.

The resignation was accepted on a vote of eight to five.

**PLEAS FOR HOME PAVING MATERIALS.**

Inasmuch as the Wasatch Asphaltum company by the success of its asphaltum paving on Richards avenue and elsewhere has proven that its Utah material is well fitted for this kind of work, and as the success of this enterprise will afford employment to home labor exclusively and cause the development by bona fide citizens of an important mineral resource of the Territory, the

undersigned abutters on the property about to be paved respectfully urge that this material be used exclusively in the asphaltum pavement of Salt Lake City in future, provided it is satisfactory to the city engineer and the board of public works. Having to pay for these improvements ourselves, we believe we have a right to influence the choice of materials used.

**DON'T COME FROM SOUTH AMERICA.**

W. H. Rowe and others also submitted a similar petition, in which they urged that home material be given the preference. The Culmer-Jennings Paving company was a purely local firm of contractors, and they thought that the people who will have to pay for the improvement should have some voice in the selection of the material to be used. The Culmer-Jennings Paving Company also protested against the use of Barber asphalt. The home company showed that it had done good work in various parts of the city; that the Barber people brought their asphalt from South America; that it has never spent one dollar in the development of the city or county. On the other hand if the contract was awarded to the home company the money would be spent here. The home company had spent \$50,000 in putting in a plant, and it thought the citizens would all prefer that the work be given to Salt Lake people.

**MORE REASONS WHY.**

The Culmer-Jennings Company's protest and the offer of the business men to make the difference between the Culmer-Jennings Company and the lowest bidders were also read.

Then came another lengthy communication, asking that home material be used, signed by F. Coalter, Obarles R. Snelgrove, Utah Book and Stationery Company, D. M. McAllister, I. M. Waddell, S. W. Darke, P. T. Nystrom, S. B. Newman, George Openshaw, George D. Alder, George D. Alder & Son, Robert Cleg-horn, George Arbogast, A. W. Taylor, Heber Young, Fuller & Young, David Evans, E. J. Swamer, Nathan Sears, Webb & Feveryear, John H. White, Jacob Alt, Union Meat company,
