

HOT BALL CROWD; ROASTED UMPIRE

Latter Was Openly and Vehemently
Accused of Throwing Game
To Butte Team.

PROTEST WAS MADE TO LUCAS

Tables Were Turned Yesterday in
Spite of All and Salt Lake
Won the Game.

There was a lively time at the ball grounds on Saturday afternoon, and for a time the sky looked black for Jack Houston, who was brought here to act as umpire in the Pacific National league game. It has been notorious for a long time that Houston has openly favored Butte every possible play that could count materially in the game, and on Saturday his work was so coarse that every person in the grandstand and bleachers could detect it, and it may result in protesting the game.

At the conclusion of the game, a bit of a riot of angry fans surrounded Houston and expressed their opinion of him. The expressions were personal in their nature and were couched in such language that Houston could not misunderstand them. The crowd followed him from the field, up the street to the car and stayed with him until it reached town. They kept up a volley of jeers and "hail outs" all the way.

But Houston was wise enough not to make reply. One word from him would have provoked a physical assault and Houston would have been counted out before he had time to get to the car.

But for Houston the game would have been numbered among the successful ones of the season, but his work made it a howling failure. His hostility to Salt Lake was marked from the first. When he gave the home team a decision it was always on plays that could not have affected the result. On every play that meant an advantage, he promptly awarded it to Butte.

That the Butte players appreciated it was evident from the fact that two husky miners escorted him from the ball grounds to his hotel while the crowd booed him and threatened dire vengeance. An example of his rank work: In the sixth inning with Butte at bat, one man out and two on bases, Donahue made a successful stop of a grounder and threw to Weed on second. The latter was 30 feet ahead of the runner and Houston gave him the base.

The runner would have scored on a throw that followed but for the splendid hit from Doug left by Flannery. In the next inning Flannery tried to score from third and Shea had the ball waiting for him. The runner did not attempt to sneak or slide or anything of the kind and Shea had him out a mile. Houston said "safe." There was plenty more of the same sort of stuff and resulted in Butte winning (7) the game by a score of eight to three. The summary follows:

SALT LAKE.

SALT LAKE WON YESTERDAY.

In a brilliant game yesterday afternoon Salt Lake carried off the honors by a score of three to two in spite of Houston, and that in a 14th inning game. Messrs. Wilmot, the elongated pitcher who knows how to win games for Salt Lake, and Donahue, were the stars of the game. It was a hard struggle from Alpha to Omega, neither team getting a big lead. Wilmot kept the miners puzzled as best he knew, and Donahue landed the hits that scored the necessary runs to win. In the fifth it was one to nothing in favor of the locals. Quick singled and Shea followed with another. The runners advanced a base on a throw and Donahue came to bat. He was cheered and felt encouraged. He swung the bat and when he got a nice one he landed it over second and the runners galloped home. The teams then tied until the first half of the tenth inning, when two safe ones landed the winning run.

The victors got their first run in the third by Henry's hit, followed by Ward's, and scoring on Larocque's two-bagger. In the sixth they got another by a hit a sacrifice and a two-bagger. It looked dark in the ninth. Butte had two men out but Larocque drilled out one for three bases. Shaffer was fanned by Shea dropped the ball and the fans felt safe. But Mr. Shea managed to get the ball to Davis in time to save things. The summary follows:

SALT LAKE.

CLIFFOR-QUEENAN FIGHT.

Considerable Interest Being Taken in the Bout at Ogden This Evening.

Jack Clifford and Perry Queenan, who are to box 20 rounds in the decision in the Ogden Opera House tonight, say they are in fine fettle and ready for the tap of the long. Both declare they will put up a good fight and will not let the public run for their money. There is a great deal of interest in the fight and the betting is heavy. Both boys are down to the required notch—145 pounds.

SPORTING NOTES.

The next team to visit Salt Lake will be the Seattle crowd. The team will play a series of six games with Salt Lake and the locals will have a chance to even matters up. There will be no game here until Wednesday, as the northerners will not be able to reach the city until then. It will be a double-header some day this week.

Paris, Aug. 16.—A new cycling record for one hour was made at the Parc des Princes today. M. Danguy covering 31 kilometers, 10 meters (31.038 miles) in that time.

If the rumor that Jody Kostal is to be lured to pitch for Salt Lake materializes, many local fans will be pleased. Jody is a little but no less a thing or two about hitting and running.

Antonia, Ore., Aug. 16.—The crews representing the racing clubs of Vancouver and Vancouver, B. C., arrived tonight to take part in the annual regatta, which commences Wednesday. With the attendance of the warships and elaborate preparations that have been made, together with indications of fine weather, the regatta this year gives promise of being the most successful ever held here.

Manager Reynolds of the local ball team is anxious to secure a larger attendance of the fair sex, and as an inducement has announced that the price of admission for ladies from now on will be 25 cents instead of half a dollar. Fifty cents has been the rule through the league, but Mr. Reynolds thinks he is doing right by cutting the price in two.

Jack Johnson, the colored heavyweight fighter who whipped George Gardner in California several months ago, arrived in Salt Lake last evening from New York. Johnson is accompanied by his wife and he started for San Francisco to see the big fight, but was delayed several times during the journey. He promises to go after Jeffries and secure a match with him.

Astoria, Ore., Aug. 16.—A telegram was received by the regatta committee today from Rear Admiral Glass, notifying it that the cruises Concord and Marblehead will arrive tomorrow afternoon under command of Commander Perkins. Though not yet sighted, the training ship Alert, which has been expected from San Francisco for several days, will probably arrive about the same time.

That it is sometimes expensive for one ball player to laugh at another, or at the umpire, is evident from the following. During the game between Dayton and St. Joseph yesterday Umpire McCarthy was hit by a pitched ball. Eyler was in the box and laughed as he watched throw made connections with the man whom a number of people thought was making his last bid in the league. McCarthy fined the Denver pitcher \$10 for laughing at him. This is the most expensive smile bar none. Eyler has ever indulged in. For shouting at him from the field McCarthy also penalized Belden for the same amount.

WAS BALD SIX YEARS.

Three Months of the New Scientific Treatment Restored His Hair.

Baldness is caused by dandruff, which is caused by a germ. Kill the germ and it is almost certain that hair will grow again. If the follicle has not been totally destroyed, Nelsa Peterson of Lime Spur, Mont., says: "I had been bald six years, and had tried all kinds of 'cures,' but without any benefit whatever, until I tried Herpelde. November 16, 1899, I began using Herpelde, and in three months a fine growth of hair covered my head completely." Ask your druggist for Herpelde. Everybody can have luxuriant, glossy hair, if Herpelde is used thoroughly. Take no substitute. Sold by leading druggists. Send for sample to the Herpelde Co., Detroit, Mich. For sale by Z. C. M. I. Drug Dept.

BRUTAL MURDER OF A LITTLE BOY.

Abducted by a Stranger Who Committed a Most Heinous Crime Upon the Child.

WAS SHOCKINGLY DISFIGURED.

Walter Jackson of Missoula Held Responsible by Coroner's Jury—Preparing to Lynch Him.

Stevensville, Ont., Aug. 16.—The body of the six-year-old boy named Buck, who it was believed had been abducted by a stranger two days ago, was discovered near here today by a searching party. The lad had been made the victim of the most heinous crime ever committed in the international country. His body was shockingly disfigured with a knife.

This afternoon the coroner's jury returned a verdict that the boy had been murdered, and holding Walter Jackson of Missoula as responsible for the boy's death. Jackson is now in jail at Hamilton.

Citizens of Stevensville are highly wrought up over the affair, and it is said are preparing to lynch Jackson tonight. An angry crowd has congregated on the streets of Stevensville and apparently the only thing lacking to complete a lynching party is a leader. The parents of the murdered boy, who was only six years old, are doing their utmost to prevent mob violence and thus far the mob appears to be respecting their wishes, though indignation at the heinous crime charged to the prisoner is running high. The nature of the crime has aroused the people to almost a frenzy. Sheriff Todd of Hamilton has sworn in 10 extra deputies and they are now on guard at the Hamilton jail.

Thomas Baird made the gruesome discovery of the boy's body while wading in a slough. He was one of a party of 10 men engaged in the search. The boy had been carefully hidden and his discovery by Mr. Baird was the merest accident. The remains were found with the face lying downward in the mud and slime. Witnesses have positively identified the body as that of the missing boy. The search of the slough was made by Mr. Baird and his discovery by Mr. Baird was the merest accident. The remains were found with the face lying downward in the mud and slime. Witnesses have positively identified the body as that of the missing boy. The search of the slough was made by Mr. Baird and his discovery by Mr. Baird was the merest accident.

TO STRANGLE IOWA IDEA.

Tariff Advocates Supplying Press With "Plates" Ridiculing Revision.

An Omaha, Neb., special to the New York Times says: It is apparent to western readers that eastern advocates of a high protective tariff are greatly alarmed over the growth of the "Iowa idea" in the western states. The growth of this policy, championed by Gov. A. B. Cummins of Iowa, candidate for the Republican nomination for vice president, has been startling. Its power will model the attitude of western Republican conventions without doubt, just as it compelled the administration to yield to the tariff revision, to yield to Gov. Cummins in the late Iowa convention.

The evidence at hand shows that the high-tariff advocates are to be found in articles now appearing in a number of small country newspapers. These articles are "plate" matter furnished in stereotyped plates to the country press. Several Iowa and Nebraska Republican papers were put into these plates for one or two issues, having been induced to believe that the argument was purely Republican. But a number have discovered that the purpose of these articles, which are accompanied by cartoons holding the "Iowa idea" up to ridicule, is to destroy the growth of this principle, and they have ceased using the plates.

Notwithstanding the efforts of the western supporters of a high tariff to destroy the growth of feeling in favor of tariff modifications, the western states will appear in the next Republican national convention determined to press the matter to an issue by the demand for the adoption of the "Iowa idea" in the platform.

The Seashore Route.

Atlantic City, Cape May and New Jersey Coast resorts are seashore terminals of Pennsylvania Short Lines. Ask L. R. Dering, A. G. P. Agt., No. 2 Sherman street, Chicago, about quick time to the Seashore from Chicago and the west.

HOPPERS VS. SAGE HENS.

Latter Killed by Hunters and Former Destroying the Ranges.

Reports come from Cheyenne of the devastation of the ranges along the Laramie and Big Platte by immense swarms of grasshoppers, whose prolific production is due to the shooting of sage hens and prairie chickens. Hunters have practically killed them all off and now there are grasshoppers to pay for this foolishness. Local ranchmen now realize this, and are proposing to raise prairie chickens and get them on the ranges again. Moreover, the ranchmen will ask the Legislature for an act protecting the chickens at all times during the journey. The chickens have kept down the plague and preserved the ranges from destruction.

FRESH WATER FOR LAGOON.

Mr. Bamberger Announces His Intention to Build Big Swimming Pool.

President Simon Bamberger of Lagoon announces that next season fresh water bathing will be one of the features at the Farmington resort. Just as soon as the present season closes work will be commenced on excavating for a big pool directly west of the beach house. Carpenters will also be put to work on the erection of the necessary dressing rooms so that all will be in readiness next spring. It is expected that the innovation will cost in the neighborhood of \$15,000. The pool will be 300x500 feet in dimensions and of a depth varying from two to five feet. In addition there will be a deep pool walled off for the accommodation of good swimmers and those who delight in diving. This will be fitted up with the necessary spring boards and chutes, after the fashion in vogue in the famous baths at San Francisco. The bottom of the pool will be covered with sand. Bath houses for the accommodation of 500 people will be provided and the entire pool will be fenced off with wire netting from the rest of the resort. A charge of 25 cents will be made and it is anticipated that the only fresh water bath pool in the state will be well patronized.

Mr. Bamberger states that he is especially satisfied with this season's business. "While it has not been so large as on former years," he said, "at the same time we have secured a better class of patronage which has been of the class we want. I have made up my mind once for all never to reduce the fare to Lagoon from 50 cents, even when we get the electric system installed, as we shall maintain the price."

TRAINLOADS OF G. A. R. VETERANS

All Expected to Arrive in San Francisco For Encampment By This Evening.

PENSION COMMISSIONER WARE

Tells of Applications For Pensions—Many Distinguished Members Are Already Upon the Ground.

San Francisco, Cal., Aug. 17.—For the next 24 hours every train that enters this city will contain veterans who are coming to the National G. A. R. encampment. Every arrangement is being made for the speedy transit of the soldiers and it is expected that every special now on the way will be here no later than this evening. Many favorable comments have been heard on the streets from the visitors upon the handsome decorations in their honor and the excellent opinion that they have never seen anything equal to them.

A distinguished visitor to the encampment in United States Pension Commissioner Ware, at Kansas City, Mo., speaking about the pension department he said:

"Following the Spanish-American war, the department received 75,000 applications for pensions and it now has on its roll 3,200 men of that war and 3,862 widows. There
