

PIUTE COUNTY.

General Items.—Indians' Harvest of Fish.

From Brother J. A. Taylor, who is up from his home in Fremont, Piute County, we learn that the residents of that region have a good prospect for crops this year, having had plenty of water thus far without tapping Fish Lake, in which the water is held back to serve in case of a contingency. There are about fifty families in the ward, which has scarcely been organized one year yet, quite a number of families having settled there recently. Considerable sickness among children of the nature of whooping cough and measles has prevailed there during the last few months and five deaths there have occurred since February, but the epidemics have now abated and the general health of the people is very good. The postoffice of the place, which was discontinued some months since and through which the inhabitants were put to the inconvenience of going to Loa, a distance of five miles, for their mail matter, has recently been re-established with Hays N. Hansen as postmaster.

The Indians, under the leadership of Popah, the present genius of Fish Lake, have commenced their season's work of catching fish with baskets in that beautiful and productive body of water—a privilege the Indians reserve exclusively to themselves, and even they only exercise it for a few weeks during the summer. The old chief's front teeth are worn down on a level with his gums as a result, so it is said, of his practice of killing the fish caught by using them. The Indians of the Lake, quite a reverse, being the exact variety of red mountain trout which command a ready sale in the surrounding settlements.

IN CACHE COUNTY.

An Old Lady Found Dead at Hyrum.—Other Notes.

On Monday, between the hours of 7 and 8 a. m., word was brought to the corner that Mrs. Osborn had been found dead in her home. On examining the body it was found that death had taken place several hours before, as the body was stiff and cramped. Deceased was found lying upon her face on the floor at the foot of the bed.

An inquest was held at 8 a. m. before Charles C. Shaw, coroner. David Osborn was called as a witness, and said: I am eighty-one years old; the deceased is my wife; she is eighty-two years of age and has been ill for a week; I saw her alive yesterday; I do not stay there nights; I live with my children; last night I stayed at my granddaughter's; I came as usual to milk the cow; I always made it a practice to come in and see how the old lady was; this morning about seven, I called as usual, when I found her lying at the foot of her bed; she was cold in death.

Rebecca Osborn said: I have been kind to the deceased and brought her food and nourishment; I called on her last evening and she seemed much better; I had occasion to go up stairs for some underclothing for grandfater yesterday; she followed me up stairs; I saw she was much better or she could not have done this; when I saw her last evening she was cheerful and happy, and said: I will give you some few baskets for my mother-in-law. I saw her again this morning; she was dead.

Miss Winge, aged ten years, said: I stayed with grandma nights during the past week; on Sunday night she said she would go home to her mother; I saw her again this morning; she was dead. The yellow flag remaining at Hyrum will now be taken down. The body of the deceased, Mrs. Osborn, was taken to the mortuary at 10 o'clock. The body of the deceased, Mrs. Osborn, was taken to the mortuary at 10 o'clock. The body of the deceased, Mrs. Osborn, was taken to the mortuary at 10 o'clock.

Two Days' Meeting.

KAMAS, Summit Co., June 18, 1888.

The annual two days' meeting in this ward was held on Saturday and Sunday, June 16 and 17. But few of the people in this ward are present. The meeting was held for the purpose of giving a chance to those who cannot attend conference. There were present President W. W. Cluff and Counselor Ward E. Rack, besides the preaching, the most prominent being the care and training of our children and their education in the sciences and the philosophy of this world and of the heavens, which, if properly understood, will be found to be mutually harmonious.

It is sufficient to say that we had a splendid time. We have pleasant weather and enjoy general good health and prosperity. S. F. Atwood.

Brigham City Gas.

Some little time ago Mr. Ell Jensen began sinking an artesian well some two miles west of Brigham City. When a depth of 300 feet had been reached, a great deal of sand and water was forced up through the pipe. Upon removing the pipe, the stream reached a height of fully fifty feet.

The whole ground for a distance of 200 feet from the well in each direction is now covered or stained by the mud from this peculiar well. Mr. Jensen had sunk the well in a small hollow some sixty feet from his house, where he expected the water to form a little pond, from which he would draw for irrigation. This hollow has been completely filled with mud to a depth of nine feet. The gas escapes with such a force that the earth is jarred at a distance of twenty feet. Mr. Jensen sought to use the gas but the force was so strong as to break the elbow coupled on to the pipe which was again put in place. The pipe was then placed above the pipe to prevent the escape of the gas, but the water from the well rose and the clear gas now escapes with a motion similar to that of steam in a moving engine. A cask has been placed around the pipe to catch the water which runs to the outside of the pipe. From this, the gas is led by smaller pipes to the house of Mr. Jensen, where it does service in lighting the house, and where it is also used as fuel. When the full force is turned on from this cask a large fully a foot high will arise from the small gas jet in the house and burn brilliantly. The light from the small tubes in the grate inserted in the stove will rise six or seven inches above the stove upon removing the lids. The gas from the main pipe was once ignited and created such a large fire, following the course of the previously escaped gas for some distance, that it had to be put out. It is computed that a large amount of gas has been lost in this manner. The people of Brigham City talk of utilizing the gas for lighting purposes.—Ogden Standard.

TERRACE HEIGHTS.

The Auction Sale of Lots.—The Locality Described.

Salt Lake has had an exemplification of the manner and methods by which a tract of land is "boomed" and sold at figures which have been the subject of fabulous increase within a few months. The tract now called Terrace Heights is the same that was purchased from the city by Dr. Young several years ago, and on which was located the insane asylum built by the city. It lies at the foot of the mountain immediately east of Liberty Park, and is distant from the post office about six miles. Two or three years ago, before "boom" prices were talked of, from \$10 to \$15 per acre would have been considered a good price for this particular tract, while land contiguous to it, on the north, west and south, might have been bought for \$4 or \$5 per acre. The region is very poorly watered, and much of the land is dry and beautiful only, and captivated visitors.

Yesterday a person entered the D. & H. G. coal office and asked if there would be extra charge for delivering coal at Terrace Heights. A "prominent real estate man" present remarked: "You Terrace Heights people ought to make arrangements with Park City for coal."

Since the Terrace Heights "boom" began, neighboring farms have increased enormously in price, if not in value.

BIRTH.

HORNE.—In this city, June 19, to the wife of J. W. Horne, of Astoria, a son. Mother and child doing well.

DEATHS.

HOOK.—In this city, June 21, 1888, Arthur J., son of Louis and Amanda Hook, aged 3 months and 15 days.

SPECIAL NOTICES.

NOTICE.

AS MANY OF OUR CUSTOMERS WHO HAVE PURCHASED MACHINES from us, have reported to us that agents and salesmen of other machines have told them that they will not be able to get extras for their machines or will have difficulty in getting them, we have to take this public method of informing ALL INTERESTED that said statements are FALSE in every particular, as we have a good supply of extras on hand for the Deering Binders and Mowers, also for the Deering Mowers and also for the Star Mowers and Reapers and Mowers, and propose to see that none of our patrons suffer for lack of the same. It is indeed a high compliment they pay to the machines sold by us, when they can find no defects to talk about, but a very poor compliment to their own machines when they have to lie about others in order to sell their own. It would be well for intending purchasers to be careful how they trade with those who attempt to deceive them. We still have the celebrated Deering All Steel Binders and New Deering Mowers for sale, and will sell them as low or lower than other machines in the market. Buy the Deering and be happy, for it pays to buy the best.
