Experts at Bronx Zoo Puzzling Over Strange Arrival From Java.

HAVE SEEN NOTHING LIKE IT.

Supposed to be Some King of a Gibbon-Prof. Hoggerty of Harvard To be Asked to Talk to It.

New York, Oct. 12 .- The experts a the Bronx zoo are puzzling over a strange new monkey from Java, which is the nearest so far seen here to the long sought "missing link," the dream of science ever since the Darwin theory of evolution was propounded.

The simian in question was brought to New York a day or so ago by the captain of the steamship Clan Mac-Donald. It was taken off the ship in the Hudson and conveyed to the zoo in a stout cage. The captain said he had never seen any monkey like it in all his travels in the East Indies.

The folks at the zoo have never seen anything like either. "The creature is supposed to be some kind of a gibbon. It stands three and a half feet high and has an unusually with long black hair. -Prof. Melvin Hoggerty of Harvard

|Lord Bacon Said, "Digest" This is the Secret of Life in Business or in Health. It is claimed that Lord Bacon struck the prime keynote of life when he rote: "Some books are to be tasted,

its to be swallowed, and some few o be chewed and digested." He wrote of books; many who have ollowed him have written likewise of iffe. The man who digests his business makes success: the actor or actress who digests his or her art brings fame: he man who lives life and digests i he should lives as was the intention e should live. It is not the food you swallow of taste that brings happiness to you; it is the food you digest. If you swallow and taste and don't digest and chew, Nature cannot give you health, for you do not furnish the ammunition. Stuart's Dyspepsia Tablets contain in pure, concentrated form the essences which, when they reach the stomach, turn dyspeptic conditions into those of healthy digestion. These little tablets are dissolved in the month by solver, they mix with

the mouth by saliva; they mix with this fluid and are passed down into the stomach, where they immediately set to work upon the food and digest it. They are many times more powerful han the human digestive fluids, and hus replenish Nature with those juices which sickness, abuse or wrongful cat-

which siekness, abuse or wrongin cat-ing have exhausted. The world's best chemists in Europe and America agree on the ingredients best adapted to perfect digestion. Stu-art's Dyspepsia Tablets are these in-gredients presented to the stomach in the most pleasant and lasting form. Powders and liquids soon lose their effectives for the open of the details. factiveness through chemical actions and decay. Stuart's Dyspepsia Tab-lets are made under terrific pressure, and their qualities are thus made last-

Mann as the person who had purchased the strangler's cord. He declared that he could not be mistaken. A lady's watch, with the monogram letters "D. P." on the back of it, is also another important clue. The po-lice declare it belonged to the murdered woman. The letters on the watch cor-respond with the letters found on the handkerchief stuffed in the murdered woman's mouth.

DROWNED IN WINE.

Mrs. George Colicr Falls Into Huge Wine Vat.

Santa Rosa, Cal., Oct. 12.—Mrs. George Colier, wife of a rancher of Oc-cidental, was drowned yesterday in a vat of wine. The woman was visiting the winery on the Colier ranch and had climited to the edge of a large vat, partly filled with wine. In some man-ner undetermined, but probably through being overcome by the fumes, Mrs. Collier lost her balance and fell inside the huge receptacle. Before as-sistance reached her she had been suf-'ocated.

DESIGNS FOR NEW POSTAGE STAMPS READY

Washington, Oct. 11.—The bureau of engraving and printing has com-pleted designs suggested by Postmastof engraving and printing has com-pleted designs suggested by Postmasi-er-General Meyer for a new Issue of United States postage stamps. The new stamps will be of the fol-lowing denominations: One cent, 2, 3, 4, 5, 6, 8, 10, 15, and 50 cents and \$1. The \$2 and \$5 denominations will be put on the market. However, the 2-cents stamps will be first dis-tributed, and it is expected shipments to postmasters will commence some-time in November. The new issue has been designed with the object of obtaining the greatest simplicity commensurate with artistic results. The profile has been taken in each instance instead of a full view, giving a bas-relief effect. All the stamps are of a similar design, containing a head in an ellipse, the only decora-tion being laurel leaves on either side of the ellipse.

DISCOVERY OF AMERICA.

South Chicago Celebrates Anniversary

In Grand Manner. Chicago, Oct., 12 .- The anniversary of

Chicago, Oct., 12.—The anniversary of the discovery of America supplied the occasion for the largest celebration yesterday which South Chicago ever had and at the same time the most marched. It ended with the formal Christopher Columbus which has been seen in this city for years. The celebration started with a parade in which it is estimated 5,000 persons warched. It ended with the formal opening of the Drake Memorial foun-tain of Columbus, which was moved recently from the old city hall site to Calumet square, at Commercial and

Whitney's History of Utah at Half Price.

The Deseret News takes pleasure in announcing that it has secured the sole rights to the HISTORY OF UTAH, by Orson F. Whitney, originally published by the George Q. Cannon & Sons Co.

This work, which was begun in 1890, and printed in three large volumes (the fourth volume issued being biographical, and not a part of the direct history of Utah), is one of the largest and most exhaustive histories ever compiled of any western state. The three volumes bring the history of the state from the foundation down to the year 1890, at the time of the issuance of the manifesto, and includes the history of the Church from its organization in New York. The first ten chapters are devoted to this subject.

In the three volumes are included 235 full page steel plates, mostly portraits of leading figures in the history of the State, originally obtained at a cost of many thousand dollars. The volumes each contain approximately 800 pages, a total of 2,351 pages in the three. The binding is quarto size, full morocco with gilt edges, no other style of binding being issued.

The three volumes were originally sold at \$30.00, and several thousand sets were placed throughout the state at that figure. The "News" having obtained the unsold copies of the edition, will place them on the market at the coming October Conference and sell to the first comers at HALF THE ORIGINAL PRICE, OR \$15.00 FOR THE THREE VOLUMES. No single volumes will be sold. Without doubt many libraries throughout the country will avail themselves of this rare opportunity, and Utah people who desire to add this work to their libraries are urged to call at the Deseret News book store and inspect the work during Conference

The low price at which this rare work is offered will undoubtedly exhaust the edition in a short time. The work will then he our or PRINT, so that every book-lover should avail himself of this last chance.

The original subscribers, who already have the first three volumes of the History of Utah are entitled to the fourth volume (containing individual biographies) free, by addressing George Q. Cannon & Sons

The "News" has no interest in the fourth volume, the work being complete as above stated, in the three volumes, now offered at \$15.00.

street. The re-dedication of the water fountain was attended by more formal-ity than the original dedication of the gift of the late John B. Drake. In the list of speakers were John Drake, son of the donor: Commissioner of Public Works John J. Hanberg, Al-derman Alfred W./ Beilfus, head of the small park's commission: Congressman John R. Mann, George E. Clarke, of South Bend, Indiana, and John Byrnes, grand knight of the Calumet lodge of Knights of Columbus.

The alligator which was brought ashore by three life-savers, was bought from them by Dr. Robert Hubner, who took it to his home, where it now re-poses on a bed of sand slightly di-luted with water. The physician, who paid \$1 for the alligator, says that he intends to do his best to make a household pet of it. It is two feet long. Dr. Hubner thinks it is about two years old, and that it was carried to this port in some freight steam ship from whence it es-caped. caped.
