

STILL THEY COME, THE PURPLE BAND

Big Delegation from Montana
Headed by Famous
Band.

SPECIAL ORGAN RECITAL.

Many More Trainloads of Elks Pass-
ing Through City Today—Salt Lake
City Off for Convention City.

The Montana Elks, in charge of
James D. Bryan, delegate to the grand
lodge, Charles Swartz and Thomas
Kigallan, and headed by the famous
Boston-Montana band of 42 pieces and
led by Conductor S. H. Treloar, and a
Texas delegation 125 strong, with a
scattering of about 100 eastern Elks,
swooped down upon Salt Lake City this
morning and all day were royally en-
tertained by the hard working bunch
of 55 who did not go to Los Ange-
les.

The Montana delegation consists of
500 Elks and 60 women. They were
whisked from the depot to the club
house in automobiles and a light lunch
served. The famous band with a
hundred or so following marched to the
club house, rendering sweet music
on the way. At the club house the
band rendered the new "Colonial"
march, and after refreshments the vis-
itors were escorted to the tabernacle,
where a special organ recital was giv-
ing. Prof. McClellan rendered four num-
bers on the great organ and the music
was a source of wonder and pleasure
to the visitors. Following the num-
bers on the organ the visiting band
rendered a medley of other organ re-
citals was given at noon.

MANY TRAINS TODAY.

Following is a list of delegations
passing through the city today:

100 people; leave 5 p. m. over Salt Lake
Route.

There were at least 2,500 visiting
Elks and their friends in the city yester-
day, and probably the most interest-
ing delegation was that from the
cotton states. They all had a royal
good time and left last evening over
the Salt Lake Route.

PLUMBERS ARE STILL OUT.

The master plumbers are still hold-
ing out determinedly against the de-
mands of the new law. They have
instead of \$5.20 as given heretofore.
The strike has been on for two weeks,
and the masters claim to have received
a number of additional men. They
claim to be doing the work, which has
helped to relieve the situation slight-
ly. They are still short handed, and
with the view of getting more non-
union men, one of the master plum-
bers will leave for the east today. He
will be absent about two weeks, and
he will be away it is expected that
he will be successful in inducing suf-
ficient men to come west to fill the
places of those who have struck.
The journeymen plumbers are holding meet-
ings but they are not doing much for
their side. It is known that they have
made no proposition for a settlement,
and it is said to be doubtful if any
settlement will be made. They are
working at the old wage would be en-
tertained by the masters, who are at
present confident of winning out in the
dispute.

WARD ENTERTAINMENTS

Eleventh Ward-A missionary fare-
well concert will be given in the Eleventh
ward assembly hall, corner First
South and Eighth East streets, on
Tuesday evening, July 13, in honor of
Elder J. Mazel Skoldfeld, who is about
to leave to fill a mission to Germany.
A splendid program of vocal and
instrumental music has been arranged
for the occasion in which the following
well known artists will participate:
V. Dore orchestra, Robert Siddoway,
Charlotte Stewart, Irma Pendleton, Jen-
nie Skoldfeld, Clifford Ashby, John
Robinson, Charles Shepherd, Horace
S. Ensign, Will Calder, Lizzie Thomas
Edward, Joseph Clive, J. Mazel Skol-
feld; Irene Done, accompanist.

THE LATE JOSEPH H. EVANS.

Joseph Howell Evans was born Aug. 12, 1826, at Llaelley, Carmarthen-
shire, South Wales. Baptized in 1850, and emigrated to Utah in 1854.
Filled a mission to Great Britain in 1882-1884. Worked from 1854 to com-
pletion of the temple in Church blacksmith shop. He died July 9, 1909.
He was the father of 13 children, six sons and one daughter survive, be-
sides 35 grandchildren and 27 great-grandchildren.

Governor Spry Asks Support For the Irrigation Congress

Governor William Spry issued a pro-
clamation today in regard to the
Seventeenth National Irrigation con-
gress which will be held a month from
today in Spokane, Washington. The
document urges the support of the
people to make it a success and asks
everybody to attend who can. The
proclamation follows:

"Impressed by the wonderful in-
fluence wielded by the National Irriga-
tion congresses in the development
of the upbuilding of the west, and real-
izing the great importance of the ques-
tions which will be discussed at the
coming congress, I, William Spry, gov-
ernor of the State of Utah, do hereby
direct the attention of the citizens of
this state to the Seventeenth National
Irrigation congress, to be held at
Spokane, Washington, August 9-14,
1909, and urge your thoughtful con-
sideration of its purposes: 'To save
the forests, to store the floods, to

reclaim the deserts and to make homes
on the land.' The wanton waste of nature's most
generous gifts is being noted the coun-
try over with regret and condemna-
tion. An effort toward the checking
of this waste is being put forth in the
national 'conservation of resources'
movement—a remedial campaign along
scientific lines for the preservation of
the forests and the reclamation of our
lands.

"The National Irrigation congress is
a potent factor in this national move-
ment, and in addition is one of western
origin."

"Utah has always taken an active
and prominent part in the delibera-
tions of these congresses and I earnestly
recommend the hearty support and
co-operation of the people of this
state in making the Seventeenth Irriga-
tion congress a pronounced success.
This support and co-operation can be
best given in a strong Utah delega-
tion at the congress."

Fine New Craft to Ply The Waters of the Salt Sea

Salt lake will have a new craft on its
waters next week, a light and staunch
launch named Victory, built in Salt
Lake City by W. H. Parker. Mr. Parker
has done a great deal of the work
on himself, being engaged on it more
or less since last August, and with its
completion he feels that he has a boat
which will weather any storm ever
seen on the lake.

The boat is 32 feet long by 7 feet 4
inches beam. The keel is made of a
piece of solid oak 4x5 inches. The hull
to a point about one foot above the
water line is seasoned oak and the
ribs are of the best white oak. Much of
the interior finish is also of quarter-
sawn oak. Before each plank was put
in place it was run over the jointer so
as to make a joint about 1-16 of an
inch and about 3-16 of an inch on the
outside so as to allow for proper caulking
of the seams. Each plank was painted
before it was put in place, and where-
ever there is any danger from salt wa-
ter, brass screws have been used, about
\$50 worth of them having been used al-
together in its construction.

There is very little deck, just a little
platform at each end, nearly the whole
of the boat is enclosed so as to form a
big water-tight cabin. It is inclosed by
26 windows and two doors, making in
all 30 lights of 4-inch plate glass used
in the windows of the cabin. All of the
uprights between the windows, which
form the roof supports, are also of
seasoned oak, though the roof itself

is built of soft wood. Spacious cabin
seats covered with hair cushions are
found in the cabin. The seats are all
to be made easily convertible into
bunks.

The motive power will be derived
from an 18-horsepower gasoline engine.
The propeller is 20 inches in diameter
and has three blades. It will make
800 revolutions per minute and the boat,
it is said by its owner, will develop a
speed of 15 miles an hour under pres-
sure, though the average speed will be
10 or 12 miles per hour.

Fitted in the bow is a water tank of
25 gallons, and a gasoline tank which
will hold 60 gallons. In addition there
is a storage tank in the stern which
will hold 100 gallons of gasoline. A
1,600 candlepower headlight, and a 38
candlepower light for the cabin will be
part of the equipment, using gasoline
for the illuminant.

The boat, which weighs about two
and a half tons, will be taken out to
Saltair on a wagon early next week.
It now lies at the mill, where the finish-
ing touches are being put on. The out-
side has been painted in white enamel
and handsomely decorated, especially
at the prow, where the figure of a mer-
maid is very conspicuous. The inter-
ior will largely be finished in natural
wood.

The boat will lie at Saltair, where it
will be in charge of Coxswain Watson,
who was at one time on the best ship
Oregon, and will be a creditable addi-
tion to the launches already lying on
the waters of Utah's inland sea.

London Exhibit to Contain Big Display From Utah

Utah will be well represented at the
Golden West exhibition, which is being
held at Earls Court, London, England,
when the exhibit of the Manufactur-
ers' association of this city reaches
London with the other exhibits which
are on the way. In addition to the
exhibits of a number of Utah manu-
facturers, an effort is being made to
send along a choice case of minerals,
which, taken together, is expected to
rival anything that will appear from
any of the states. Among the different
manufacturers who are contributing
are: The Pittsburg-Salt Lake Oil com-
pany, McDonald Candy company, Utah
Manufacturing, Howlett Brothers,
Utah Manufacturing & Packing com-
pany, Labra Oil company, Utah Sugar
company, Cache Valley Condensed
Milk company, Utah Condensed Milk
company, and Inland Crystal Salt com-
pany.

Quite a large lot of advertising lit-
erature has also been sent to the ex-
hibition by the Oregon Short Line Rail-
road company and the bureau of in-
formation. Among other things sent
by the bureau was a large number of
the excellent little book entitled "Utah,"
the new edition of which has been pub-
lished as a G. A. R. souvenir. With
this little work was also sent view
books and stereo views of Salt Lake
City as well as a number of souvenirs
illustrative of Utah.

The Oregon Short Line shipment con-
sisted of a number of the pictures on
Utah, and a lot of matter descriptive of
the sue, though the average speed will be
10 or 12 miles per hour.

The present shipment of exhibits and
advertising matter to the London ex-
hibition is the result of an appeal from
Alvin E. Jordan, who is at present in
London, and who, on investigation, con-
cluded that the "Golden West" show
afforded a rare opportunity for Utah
to advertise herself at the British metrop-
olis. The exhibition is to close about
the middle of October, so that the pres-
ent exhibits will get there in time to
be on show for over two months.

PLAN TO GREET WIZARD.

Committee Appoints Sub-Committee
To Greet Notable Visitor.

Arrangements for the entertainment
of the Wizard of the Wasatch were fur-
ther considered at a meeting last night
of the committee named for that pur-
pose. B. F. Redman, temporary chair-
man of the committee, presided in the
absence of J. C. L. Culmer, who was un-
able to attend. A sub-committee, consisting
of Fisher Harris, E. F. Colborn, H. Vance
Lane, and H. L. Culmer, was appointed
to draw up a tentative program and re-
port to the next meeting of the commit-
tee, to be held at the Commercial club
rooms next Wednesday evening, July 14.
It is proposed to form a parade of
citizens, which will go to the entrance
of one of the canyons of the Wasatch
east of the city, where the Wizard and his
retinue will appear and greet his ad-
mirers. Reception at the Commercial
club will follow, with appropriate
music, addresses, etc. It is thought no
attempt to hold an outdoor celebra-
tion will be made, owing to the
A. R. encampment, but it is planned to
get the thing started so that hereafter
it may become an annual affair. When
completed, it is the idea to have the
festival take form similar to the Mardi
Gras in New Orleans, the Rose festival
of Portland, the Akersden at Omaha.

hot days. Round trip 25c.

PICKPOCKETS KEPT BUSY.

Pickpockets were active among the
crowds at the depots and the resorts
last night, general complaints coming
to the police of robberies or attempted
robbery. One man, giving the name of
George Murray, was arrested at the
Short Line depot, after he had made
an attempt to snatch a diamond stud
from N. J. O'Keefe, an exalted ruler
of the Waterloo, Ida., lodge of Elks.
George Dorsey reported that his pocket
had been picked of \$35, while he was at
Saltair, and it is believed that the
confederate in his work the latter man
picked up yet.

A private safe may be rented in the
fire and burglar-proof vaults of the
Salt Lake Security & Trust Co., 22-34
Main street, \$2.00 per year.

JOB FOR KENNEDY DESPITE RECORD

Gets Two Extensions Regardless
Of Poor Work in South-
eastern Section.

NAMESAKE IN COMPETITION.

Pat Moran Has to Run Against Wil-
liam J., But Then Pat Bears
Official Stamp.

The James Kennedy Construction com-
pany, which has had so much trouble
and dissatisfied with its work
on sidewalk extension 108 in the south-
eastern part of the city, received two
contracts yesterday afternoon for two
more sidewalk extensions, compris-
ing 40 miles of walks in the Second
and Third wards. The bids amount
to \$17,917.40, which was considerably
below the other bidders and lower than
the city engineer's estimate by \$33,000.
The board agreed that the taxpayers
who were benefitted by these improve-
ments were obtaining cheap work. For
sidewalk extension 126, Kennedy's bid
was \$102,219.92, and on sidewalk exten-
sion 128, the concern's bid was \$74,-
860.48.

The bidders and their respective
tenders were as follows:
Sidewalk extension 128, Third ward—
James Kennedy Construction com-
pany, \$74,860.48; William J. Moran
of Ogden, \$33,200.63; S.
H. Smith Construction com-
pany, \$94,758.79; J. W. Mellen, \$92,-
941.38; Z. Miracle Concrete corporation,
\$85,917.57; Frank Doran, \$94,854.70;
Whitely & McBride, \$84,003.25. The en-
gineer's estimate for this work was
\$52,322.81.

Sidewalk extension 126, Second ward
—James Kennedy Construction com-
pany, \$102,219.92; S. H. Smith & Sons con-
struction company, \$180,775.90; William
J. Moran of Ogden, \$127,147.86. The
city engineer's estimate for this exten-
sion was \$115,402.

The other bidders were Whitely & Mc-
Bride, \$5,592.71 and H. J. Gilkerson, \$5,-
779.19. The city engineer's estimate for
this piece of concrete paving, which
appears as paving extension 58, was
\$5,900.

The board did not receive any bids
for the construction of conduits at the
intersections of North Temple street at
First West and Second West streets.
This work will be advertised again.
The engineer's estimate on the work is
\$3,000 for each intersection.

THE HEALTH OF THE CITY.

The monthly report of the city health
department for June showed 108 deaths,
with an annual death rate on an es-
timated population of 55,000 of 15.25, as
compared with a death rate of 11.30
for June of last year. This exceeds
all previous June records. The average
death rate per 1,000 population during
the month was 1.27. Thirty non-resi-
dents died in June of typhoid. There
were nine deaths from pneumonia, and
two suicides by poison. Births num-
bered 178 (all white), boys 92, and girls
86. Of contagious and infectious dis-
eases, 164 were reported, as compared
with 206 for May, with 56 cases of small-
pox, 55 of scarlet fever, 13 of measles,
and 29 of whoopingcough. There were
250 marriage licenses issued during the
month.

JUDGE SAYS SHE HAS ENOUGH

She, However, Thinks \$200 a Month
About Right for Her Needs—
The Friday Divorce Mill.

Mrs. Jennie B. Parsons, wife of C. C.
Parsons, an attorney for Samuel New-
house, failed yesterday in an effort to
secure an increase of \$75 a month in
her allowance, making \$200 a month.
Judge Morse, who heard the applica-
tion, stated that Mrs. Parsons had suf-
ficient means to live on and her testi-
mony that her health was failing and
she needed a change of climate, had
no bearing with the court. In answer
to this application, Parsons declared
that his wife was of a roving disposi-
tion, ill-tempered and not satisfied to
live in one place for any length of
time.

Parsons was called to the stand by
Atty. Willard Hanson, counsel for Mrs.
Parsons, and questioned him on his
salary. He said that his income
amounted to \$500 a month. Of this
amount he showed that \$300 was con-
sumed in expenses. More than \$50 a
month was spent for club dues which
he said that his position demanded.
Some light was also thrown on social
