Mr. Welby has been on what he termed "a ten days' leave of ab-sence" and spent his time on his farm "The Willows" near Sacramento. Rested and ready for his duties he is now hurrying back to his desk to entch up on the work that has piled up dur-ing his vacation. Mr. Welby is a fre-quent visitor to Sait Lake but this call has been the first for sometime so he was especially anxious to stop off here for a day and see how the im-provements being made by the Gould forces here are progressing. He spent the greater profilm of yesterday tramp-ing over the site of the proposed depot and terminals on Fouth west. This morning he went that conference with local officials of the Rio Grande and afterwards asserted that nothing but ordinary affairs had been gone over. Mr. Welby expressed himself as anx-ious to have, the proposed terminals completed as soon as practical and announced that no time would be lost in bringing this about. When asked for definite Information on various rallroad matters he pleaded ignorance explaining that he had laid aside all work while on bis trip. He laughed heartily when he was asked if his trip to the coast had anything to do with the Western Pacific. It has been the belief of many that Mr. Welby is to be given a berth among Western Pa-cific officials when the family is or-sanized but he has never met any questions regarding such rumors with anything but his hearty laugh and as-sertion that he knows nothing of any Sunday Here-Has Been on Coast. Mike Daily during the period with which he had been connected with the company-about 16 years. It was point-ed out that during his incumbency, the mine had paid dividends to the amount of something like \$12,000,000. As a testi-montal of their appreciation and esteem, the directors authorized the secretary to draw a warrant on the treasurer for the sum of \$4,000, pay-able to M. Daily's order. Mr. Daily is one of the most sucattended to, attention was called to the

tent, as well as one of the most suc-cessful mine managers in the state and the great success of the Silver King has been due very largely to his untir-ing efforts. The action of the directors last Saturday is worthy recognition of a faithful and efficient official.

In an endeavor to prevent the price exceeding that figure. The demands of consumers continued to be so argent that the price was forced up until it reached 25% cents in March of this year. At the time the Wall stress panic occurred purchases censed, consumers having bought the future products of the mines represent-ed by this company to the end of June. A nominal price of 25% cents was meanwhile maintained to protect con-sumers who had bought for future de-livery. After the end of June the price of the metal was reduced, there being no further colligation to consumers. This company has not been aggressive either in advancing or reducing the price of metal. David C. Dunbar, the famous tin-sign man of the "American" party, has forced his \$3.000 proposition through the council, in spite of the fact that the council has pending a street light-ing proposition which would cover the matter, free of cost to the city. David C., however, still wanted to demon-strate how a persuader persuades, and had the matter attended to. The bill will be paid after election to prevent it from becoming a tin-sign issue.
