S.S.S. PERFECT TONIC

Something more than an ordinary tonic is required to restore health to a weakened, run-lown system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-cleansing and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and invigorating the system. The healthful, vegetable ingredients of which S. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful numerals, a safe and pleasant acting medicine for persons of every ags. S. S. S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, tones up the atomach, acts with pleasing effects on the nervous system, and reinvigorates every portion of the body.
