THE EVENING NEWS.

Thursday, - - - April, 6, 1871.

PRICE OF GOLD,

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers.

SALT LAKE CITY, April 5, 1871.

Buying at $1.08; Selling at $1.10½.

LOCAL AND OTHER MATTERS.

THEATRE.—In "The Lancashire Lass," last evening Mr. Waldron made a character of "A party by the name of Johnson." It was in his usually excellent taste. Mr. Graham, as "Spotty," was spirited and made several fine hits, causing good humor in the house. Mr. Margetts, Miss Adams and others, rendered their parts in a very creditable manner, but the house ought to have been better filled, the audience more appreciative and some of the playing with a little more sprightliness.

To-night, the thrilling drama, "Lonely Man of the Ocean," and "Make your Wills," bespeak a crowded house.

SEVERE ACCIDENT.—On Monday last, as we are informed by Bro. Thomas Rasband, as Bro. William McDonald, of Heber City, was going to his farm near that place, to roll a piece of land, his horses took fright and ran off; the lines broke and he, being caught by the rollers, revolved with them several times before he could extricate himself. He received two deep gashes on the head and his right ear was torn out by the roots. He was also severely bruised in various parts of the body, but no bones were broken. His injuries are not considered fatal.

TEACHER'S INSTITUTE.—At the regular meeting, last evening, in the large upper room of the Deseret University, Miss Ida Clark read a well written essay on "The Verb, illustrative of the "Object Method" of teaching grammar. Mrs. M. E. Randall followed, in an essay on "Reason," evincing a cultivated mind and good judgment. Dr. Benedict closed the literary exercises of the evening by a physiological dissertation on the circulation of the blood, illustrated by diagrams. He offered tangible arguments controverting the established theory of contraction and expansion of the heart as the sole motive power of the circulation.

The attendance was not so full as we should think the value of the exercises to teachers would induce.

HANDSOME.—Our excellent binder, Bro. John R. Kelly, showed us yesterday a design he had originated for the new hymn book, now being issued from this office. We readily conclude that where work can be done in a style so creditable there is no longer a necessity for having our standard publications issued from outside establishments.

DESERET UNIVERSITY.—The Winter term closed on Friday last. The spring term will commence on Monday the 17th inst. Changes highly conducive to the efficiency of the institution, we understand, are in contemplation.

ADJOURNED.—The meeting of stockholders of Zion's Co-operative Mercantile Institution, held in the Old Tabernacle yesterday afternoon at two p.m., was adjourned to Monday next, at 9 o'clock, a.m. It is desirable that there shall be a prompt and full attendance, so far as possible.

PROVO.—From L. J. Nuttall, Esq., we learn that the foundation of the county and city jail was completed last week. The building is to be 32 by 30, two stories, lower story of hammer dressed sandstone, with cells, the upper of brick, for residence of jailor, guard room, &c. It is contracted to be completed by the first of June next.

The roof of the Woolen Factory will be put on as soon as the felting arrives from the East. It is expected that the building will be so far completed and the machinery put in so as to work up the present year's wool-clip.

GET IT.—A message for Mattie Catlin, at Deseret Telegraph Office.

MURDER AT AUSTIN.—The Reese River *Reveille* of April 3rd contains the particulars of the murder of a tailor named Ellis Asher, in Austin, on the Saturday previous. He was found in his shop dead, having been killed by a blow from an ax. The murderer is yet unknown.

CONFERENCE AT NEPHI.—Hon. Samuel Pitchforth, of Juab Co., informs us that a conference of that Stake of Zion was held at Nephi on Sunday last, Prest. J. G. Bigler presiding. Representatives were present from Levan and Mona. Prest. Orson Hyde was also present and addressed the conference. The general church authorities were sustained. Branch conferences had been held at Mona and Levan the previous Sunday.

A new Court-House is in progress at Nephi, 47 by 47, the basement to be built of rock, with cells.

Prospecting for mineral continues vigorous; but the settlers, as usual, give their attention to their farms.

The Co-operative stores are prosperous.

CHANGE.—C. W. Penrose, Esq., editor of the Ogden *Junction*, has been appointed business manager of the establishment, succeeding James McGaw, Esq. We bid the new management good speed in recruiting the finances. The *Junction*, mechanically, is a neat sheet. Editorially it has made its local mark.

VISITING OUR CITY.—Among the names of arrivals at the Townsend House yesterday, we notice that of W. H. Seward, jun., son of the Hon. ex-Secretary Seward, accompanied by a small party on their way to the Pacific coast.

HIGH WIND.—During last night, strong, fitful gales from the South. This morning, a brisk rain-fall and cool air, with lowering clouds in the West and South.

FROM MANTI.—Hon. Geo. Peacock, of Manti, county seat of Sanpete county, informs us the settlers are busily occupied putting in their spring grains. A few grasshoppers have made their appearance, but not in such numbers as heretofore. The eggs seem to have been deposited in gravelly patches.

The lands of townships 18 and 19 south, including the towns of Manti, Gunnison and Fayette, have just come into market and the people are awake to the importance of securing their titles.

An Indian reservation, twelve miles square, established some years since. This reservation, according to the law, will be sold to the highest bidder and the proceeds distributed among the tribes in that vicinity, soon to be removed to the Uintah reservation. A party of government surveyors are now running the boundary lines of the reservation, that the settlers outside of it may know the limits of the lands subject to pre-emption.

Bishop Andrew J. Moffatt and Mayor Luther S. Tuttle, of Manti, are also in the city, the other gentlemen on special business with the Land office.

The co-operative store at Manti is doing a good and paying business, with no competition.

A very commodious stone building, 25 by 35, two stories, for county purposes,—the lower story being used for a jail, with strong cells, has been erected. The court-house lot has also been inclosed with a double fence and handsomely ornamented by shade and fruit trees, greatly adding to the attractiveness of the grounds.

The perseverance and enterprise of the people of Sanpete does not appear abated, notwithstanding the heavy losses they have suffered for successive years, from grasshoppers and Indians combined.

Sevier Valley, evacuated a few years since, on account of Indian hostilities, is being re-settled and is filling up rapidly. Good opportunities are offered for new settlers. Judge M. Morrison has recently re-organized the county, and there is now a fair prospect of success. The Indians of that region are peaceably disposed.

INFORMATION WANTED.—Charles Goldridge would like to learn of the whereabouts of Dr. Lewis Lane, who crossed the plains to this Territory, in 1851. Address P.O., Salt Lake City.

PEOPLE'S VERDICT

Over Half a Million sold and in use!

4,000 made and sold per week

SINGER'S

New Improved Silent

FAMILY SEWING MACHINES

ARE

The Best in the World,

Because all of them are in constant use, while a very large proportion of other makes are not used, owing to their being partially or utterly impracticable.

THE SINGER

NEW FAMILY MACHINE

Has been brought to perfection, regardless of time, labor or expense, and is now incomparably the best Sewing Machine in existence.

It is *simple, compact, durable, beautiful, quiet, light-running*, and capable of performing a range and variety of work never before attempted upon a single machine; using either Silk, Twist, Linen or Cotton Thread, and sewing with equal facility the very finest and coarsest materials, or anything between the two extremes, in the most beautiful and substantial manner.

The New Improved Attachments for Hemming, (any width) Braiding, Embroidering Magic Ruffling, Gathering and sewing on (at the same time) Self-Sewing, Cording, Tucking Quilting, Felling, Trimming, Binding, etc., are novel and practicable, and have been invented and adjusted especially for this Machine.

Folding Tops and Cabinet Cases.

New designs of the unique, useful and popular Folding Tops and Cabinet Cases, peculiar to the Singer Machine, are in every variety of Wood, such as black Walnut, Mahogany, Rosewood, Satinwood, and from low prices in the most elaborate pattern and finish. The Machines themselves are plain or highly ornamented with pearl and gold to correspond with their tables or cabinets.

In the Singer the work is fed or passed through the Machine in the natural direction, namely, *from the operator*, permitting her to sit in a natural and healthy position. In many other Machines the work passes from right to left, or the reverse, *compelling the operator to sit in a bent and unhealthy position, and thus causing weakness of the back, etc.*

The Singer uses a SHORT STRAIGHT NEEDLE, which is not liable to break or miss the stitch. Many other Machines use a long crooked needle, which is liable to break and to miss the stitch.

In the Singer Machine the Shuttle is carried, thus avoiding nearly all wear. It requires no oil, and does not soil the thread or goods. Other Machines drive their Shuttles, as a race, thus causing great wear, and requiring oil soiling the thread and goods.

On the Singer, the Tension on both the upper and lower threads is absolutely under the ready control of the operator, thus rendering the Machine always available for good sewing, which is not the case with any other. Many so-called cheap Machines are really worthless, and so are many of their new peculiarities and supposed advantages.

The SINGER is the

Oldest Practical Sewing Machine,

Being about twenty years in the market. Having been constantly improved by the employment of the most skilled ingenuity of the age and unlimited capital, it is now divested of all unnecessary parts and possesses All the Very Latest Inventions and Improvements. It is the only Machine sold on Honest Claims, as all its parts are Practical and will do all that is claimed for them. Some other Machines are Greatly Complicated, to do Useless and Silly things, and thus are rendered Liable to Constant Derangement. The Singer Seldom or Never gives trouble, but is readily and easily managed by those who utterly fail on other Machines.

SINGER'S

New Manufacturing Machines

Claim the same advantages over others of their class as the new Family Machines. These old and reliable Sewing Machines are applicable to *all kinds of Sewing and Light manufacturing*, as *Clothes, Leather*, etc., and run in the most perfect and reliable manner without trouble to the operator.

HAVE ARRIVED!

A Full Assortment of those

Beautiful and Unrivaled MACHINES.

(The numbers on which show a manufacture of between Five and Six Hundred Thousand.) Consisting of the Different Varieties made by the Manufacturing Company, and we shall sell at Eastern Prices, with addition of Freight only. To accommodate parties who cannot pay all down, we will sell on

EASY MONTHLY INSTALMENTS

So that all may possess one of these *Blessings*.

For the convenience of our Patrons we have employed the services of a gentleman of upwards of twenty years experience and is one of the most skillful experts in the world in repairing and adjusting Sewing Machines. He will put each Machine in complete and practical running order before it leaves the Institution and will also impart to purchasers all needful instruction, so that they can at once commence work.

We resort to no trickery whatever to sell Sewing Machines, but allow their Great Merits to recommend them. We can do this, as the demand for them is so great that although the Singer Company make more than all other first-class companies combined, they cannot nearly fill their orders, and are compelled to still extend their Gigantic Works.

We having been so fortunate as to secure the

General Central Agency,

For this Territory, we extend a cordial invitation to all to come and see the Machines, whether they wish to buy or not. See all others, but do not buy without you examine the Singer.

We Guarantee every Machine we sell to give entire satisfaction.

THE SINGER

BUTTON-HOLE MACHINE

Is the only Practical one in the World.

OTHER SEWING MACHINES REPAIRED on Reasonable Terms.
