MINING, BUSINESS AND STOCKS.

SENSATIONAL MARKET TODAY

Trading Was Very Big and Prices Went Skyward.

CONDITION MUCH IMPROVED

On Market—Heavy Outside Buying Responsible for Enlarged Business and Better Prices.

The mining share market this morning was nothing short of sensational. Big trading, higher prices and general activity were the ingredients that made up a most interesting session. Features were not scarce and began with Ajax which was traded in to the extent of over 25,000 shares at prices between 33 and 39. The report that the mine is looking much better than reported had some effect but the rise of over 6 cents is attributed to big buying orders from eastern investors. Carisa was the next to be carried skyward and closed at 36¼ after sales totaling 16,500 shares had been recorded at prices between 32 and that figure.

Consolidated Mercur was traded in around $1.89 and 1,000 Yankee came out to a bid of $2.65. Daly-West at $29.00 was traded in and on the curb 100 shares brought $28.90. May Day, Century and some others were much stronger and the call closed with the following quotations recorded.

DIVIDENDS TO COME MONTHLY

Con. Mercur Directors Will Meet Today to Authorize Change.

AMOUNT WILL BE $30,000.

Beginning with April Dividend—The Great Property Has Paid Nearly $3,000,000 to Owners.

The directors of the Con. Mercur will meet this afternoon to authorize the change of dividend periods from quarterly to monthly. It is stated that there has been expressed an unanimous desire among the stockholders for such a change which will accordingly be made. As to the amount, various figures have been mentioned ranging from 3 to 5 cents monthly. Though it cannot be positively stated just what amount will be decided upon by the directors it is upon good authority stated that 3 cents, or $30,000 will be decided upon. A prominent mining man said today that such an amount paid monthly would make Con. Mercur one of the best and safest mining securities in the country, as it is paying its dividends so satisfactorily for years. The great gold mine has already paid about $3,000,000, and it is stated that beginning with an April dividend other monthly ones will follow.

TO CONCENTRATE ORES.

Ontario Mill May Resume After Some Remodeling.

An opinion from a source that we consider altogether reliable is to the effect that within a year the welcome sound of the Ontario mill whistle will again mingle with those of the King, Anchor, Daly-West and other plants of this great old camp. Not, however, in its present state, but as it is converted into a modern concentrator. Reports are that work on the 1,700 of the Ontario has disclosed immense reserves of excellent concentrating ores, while the whole property is behaving in such a manner as to make reasonably certain such a proposition as above mentioned. Nothing of an official nature has, of course, been given out to this effect, but it is thought to be no mere probability.

F. W. Sherman, foreman of the Daly-West mill, was on Tuesday granted a patent for an ore pulp distributor. The device is one that Mr. Sherman got up some years ago, and for which a patent has been pending a good while. Mr. Sherman has some other clever mill devices that are now in the hands of the patent office, and from which he is expecting to hear favorable reports any time.—Park Record.

PARK CITY SHIPMENTS.

Tonnage Not So Great Last Week as Those Preceding.

The Park City mines shipped 5,319,600 pounds of ore last week as compared with over 6 million pounds during each of the few weeks preceding.

From the Mackintosh sampler report shipments were made as follows:

Daly-West	1,269,000
Quincy	825,000
Ontario	848,000
Anchor Con	328,000
Total number of pounds	3,750,000
Silver King	1,569,600
Grand total	5,319,600

TINTIC SHIPMENTS.

Fourteen Companies Sent Out 98 Cars of Ore.

Shipments from the mines of Tintic were heavier than usual last week due principally to the increased tonnage from Silver City. The Bullion-Beck, Grand Central and Mammoth shipped considerable ore and it is stated on good authority that very much greater tonnage will come from those properties in the near future.

The several mines shipped as follows:

COPPER MT. WORKINGS.

Beaver County Property Said to be Looking Fine.

B. T. Lloyd, manager of the Copper Mountain of Beaver county, returned to the city yesterday with a bag of fine samples from the 300-foot level of the mine. The ore is very pretty and goes about 30 per cent copper. Speaking of the property, Mr. Lloyd said that with depth the workings are becoming damp and in all probability water will be encountered in the near future. Between the two and three-hundred foot levels, crosscuts were made and a fine current of air is now coursing the workings either in one mass or ore, Mr. Lloyd said.

DISPLAY IN ST. LOUIS.

Mining Exchange Fostering Plan For Representation at Exposition.

The following resolution drafted and approved by the members of the Salt Lake mining exchange will be presented to Gov. Wells some day this week, it being hoped that satisfactory arrangements may be made for the representation of the great mineral industry of the state at the St. Louis exposition:

Whereas, There will be held in the city of St. Louis, Mo., in 1903, an international exposition to commemorate the purchase by the United States government of the property known as the "Louisiana Purchase," and to celebrate the great industrial growth of the nation; and

Whereas, The State of Utah is vitally interested in the success of such exposition and will derive great benefit therefrom, if properly represented by a creditable exhibit of its resources, both agricultural and mineral; and

Whereas, There will be no opportunity for state aid in making the success of the Utah exhibit an assured fact for some time to come; and

Whereas, The Salt Lake mining exchange is desirous of doing all in its power to assist and bring to the attention of his excellency, the governor, and the people of Utah the importance of taking a prominent part in the aforesaid celebration, and securing an exhibit worthy of the great State of Utah and its manifold resources; now, therefore, be it

Resolved, That the board of governors of this exchange be authorized and directed to take such steps as it may deem proper and requisite to bring to the attention of Gov. Heber M. Wells and the people of this state the necessity and importance of being represented at such celebration and to use all proper means to bring about a creditable and worthy exhibit at said exposition of the resources and diversified interests of this state.

That the governor will join the exchange in a movement that must commend itself to every public-spirited citizen the members feel assured.

Will Sink Well.

Special Correspondence.

Provo, Utah, March 24.—J. M. Miller of Colton, one of the directors of the Carbon Oil company, informs the "News" representative that his company has let a contract for sinking a well 2,000 feet on the oil lands of the company, situated 12 miles east of Colton, and three miles northerly from the terminus of the Willow creek branch of the R. G. W. railway. The work of sinking is to commence by June 1.

Eclipse Gold Mining Co.

Ogden, Utah, March 24.—Articles of incorporation of the Eclipse Gold Mining company have been filed with the county clerk. The capital stock of the company is $200,000 divided into 200,000 shares of the par value of $1 each. The property of the company is located at Tuscarora, Nevada. The officers of the company are: President, J. F. Snedaker; vice president, S. H. Hobson; secretary and treasurer, Jesse J. Driver, and they with George J. Kelley and Charles H. Hussey form the board of directors.

Manti Mining Company.

The I. X. L. Mining company of Manti, Sanpete county, filed a copy of its articles of incorporation with the secretary of state this morning. The company is capitalized for $50,000, which represents 500,000 shares of the par values of 10 cents each. Joseph Snow is president, A. H. Christensen, vice president, and W. C. Snow is secretary and treasurer. The property of the company consists of the I. X. L., Rising Sun, Lucky Bishop, Winslow, Maud S, Marysvale Spur and St. Patrick's lode claims, all situated in the Mt. Baldy mining district, Piute county.

MINING NOTES.

Eleven cars of South Swansea ore will be on tomorrow's market.

The Conklin sampler was in receipt this morning of eleven cars of ore from Tintic.

The management of the Grand Central has six cars of ore ready for marketing.

John B. Boyle, superintendent of the Valeo of Park City, is in the city on a visit.

The Taylor and Brunton sampler reports the receipt of 17 cars of ore from the Tintic district.

W. W. Armstrong of the Park City bank and treasurer of the Quincy company is in the city today.

Manager Coleman of the Newhouse interests has returned from a visit to the Cactus in Beaver county.

H. A. Cohen, manager of Capt. De Lamar's interests, returned from De Lamar, Nevada, this morning.

Ore and bullion settlements in this city on Saturday amounted to $95,500. T. R. Jones & Co., $55,500; McCornick & Co., $39,000.

Shipments from the Bullion Beck are becoming quite frequent. Five cars of ore reached the sampler in this valley this morning.

A. F. Holden of the U. S. Mining company has returned from Park City where he went to look over the Daly West-Quincy grounds as expert for the first named company.

A. H. Morse is suing the Gold and Copper company of Bingham to quiet title to the areas in conflict between the Burro and Beaver lodes, and between the Nixie and Mabel lode claims situated in the West Mountain district.

The news comes from Grand Encampment, Wyo., that the construction of the lengthy aerial tramway from the Ferris-Haggarty copper mine at Battle Lake to the smelter, is progressing rapidly. Thirty towers have been put up over a distance of two miles and work is being pushed on the ore bins and terminal facilities at the smelters.

George Wilson, who has been in the Tonopah country for Wm. H. Childs and others returned this morning. While in Nevada Mr. Wilson visited Colonel Sparks' Wedekind property and also the Sheba in which local men are interested. He reports both properties to be looking fine with good indications of becoming great mines.

MARKET OPENED SOME HIGHER.

Amalgamated and U. S. Steel Preferred Showed Declines.

GAINS MET BY REALIZING.

Some Pressure Against Western Stocks—St. Paul and Sugar Forced Down—Bonds Irregular.

New York, March 24.—Prices were quite uniformly a small fraction higher at the opening of the stock exchange today. The only important stocks to show declines were Amalgamated Copper and U. S. Steel preferred, which lost a fraction each. The improvement in prices was met by realizing in some of the prominent stocks and their relapse affected the entire market. Minor stocks were supported. Amalgamated recovered to above Saturday's price. Michigan Central sold at 150, compared with 155½, the previous sale. The pressure against the western stocks lightened, but there were no material recoveries. North American jumped 5½. St. Paul and Sugar were forced about a point under Saturday.

Bonds were irregular.

The Readings re-acted under realization, but advanced again to the highest, the common touching 57⅞. Other active stocks firmed up slightly but there was considerable irregularity. Anaconda, Illinois Central and International Pump scored net losses of a point or more. Colorado Fuel recovered to 104⅜, while Northwestern lost 1ff and rubber preferred a point. The general market was dull and very sluggish. Amalgamated yielded to below 62.
