

saster would accrue probably to a larger extent to "Non-Mormon" than "Mormon" business circles by the turning over of the control of the local government to comparatively irresponsible persons.

Very Bad.—The Denver Tribune

Although not generally known, it is a fact that many of the people recently vaccinated in the city are suffering from the application of humanized virus. The evils attending the use of humanized virus are something dreadful. The transmission of the scrupulous and hereditary blood diseases by this cheap vaccine has often occurred in the history of medical practice but despite the awful afflictions which ensue, physicians continue to solicit the scabs from youthful patients and apply them as a cheap substitute for the bovine virus.

Within a few days past several cases in which the terrible results of such vaccinations were becoming manifest were brought to the notice of a Tribune reporter. In one instance the symptoms developed in the victim, a young lady of nineteen were of a most extreme nature.

Unruly Youths.—At a concert held at the 16th District Schoolhouse, on Wednesday evening, a number of boys are reported to have collected at the door of the building and behaved in a boisterous and unruly manner, using very disrespectful language. Two of the school trustees, Brothers Summerhays and Schoenfeld, being there to see that order was maintained, made complaint against four of the most conspicuous peace breakers, and had them arrested. Brother Summerhays has, we are informed, been asked by the boys to withdraw the charge, but refused, on the ground that he believed a few examples would be a public benefit by deterring youths from conducting themselves disrespectfully in future.

Certainly if the boys have broken the law they should be handled accordingly. As moral suasion does not appear to have the desired effect, the application of some more effectual means is a necessity. The cases were to be tried this afternoon.

Proposed Quarantine Law.—We understand a bill providing for quarantine in the several counties of the Territory is being prepared, and will soon be presented to the Legislative Assembly. A measure of this kind is an absolute necessity, and we have no doubt the one proposed, or something like it, will pass both branches of the Legislature and receive the executive signature.

The proposed bill, as it will be introduced into the Council, provides for the appointment, in each county, of a quarantine physician. The county court associated with this official, shall constitute a board of quarantine, which shall have authority to select grounds and other conveniences to which persons affected with any contagious or infectious diseases can be taken and properly cared for. This board is also given authority to institute whatever quarantine regulations may be deemed, in its judgment, needful in any part of the county, for the prevention of the introduction or spread of contagious or infectious diseases, the carrying out of the measures to be, as a matter of course, in the hands of the physician.

The Reason Why.—There has been considerable talk for some time about parties who have done work on the Salt Lake and Western Railroad not having received their pay. Some have been inclined to censure the company for this condition, which, however, we understand to be entirely undeserved. The company let the work to contractors, who in turn sublet to others. The original contractors are paid 90 per cent on the preliminary estimates monthly, with the understanding that the balance will be paid 20 days after the completion of the whole job, and whatever else may be due on the final estimate. Sub-contractors who take small jobs and finish them early, have to remain to a large extent out of their money for a considerable time, owing to the original contractors' job being a long way from completion, and they in consequence, not having received but a limited proportion of their pay. We understand, however, that the 25 mile contract, from which much of the dissatisfaction has arisen will be finished next week, and the railroad company, instead of waiting the usual twenty days, which they have a right to do,

according to agreement, will pay on the final estimate at once, seeing that the contractors are in need of the money.

The Talk of the Country.—This morning we had the pleasure of meeting Brother Nephi Johnson, of Kanab, who returned last night from Washington, whether he had been summoned as a witness for the prosecution in the "Star Route" trial. His testimony related to the mail route between Toquerville and Pahrump.

In mixing among the officials of the government, especially in the postoffice department, he had a good opportunity of hearing expressions of opinion regarding the present crusade against the "Mormons." He heard men of considerable prominence speak very highly of the ability of Delegate Cannon, the only objection against him being that he is a "Mormon."

A few of the Congressional crusaders are exceedingly rabid, one having gone so far as to say that the "Mormons" would have to go or fight. On being told they did not intend to fight, he stated that if they would, the question would soon be disposed of.

Brother Johnson visited several of the larger eastern cities, and wherever he traveled, the "Mormon" question was a general topic of conversation. The opinions regarding the situation are very much mixed. While a few are rabid and vengeful, a very large proportion of people express the view that the Latter-day Saints are greatly maligned, are as moral as any other community, and should not be interfered with.

BURIED ALIVE.

A FAMILY OF SEVEN KILLED BY A SNOWSLIDE IN BIG COTTONWOOD.

Yesterday evening John Bamberger conveyed word to Argenta, Big Cottonwood, that a fearful catastrophe had occurred near Mill A, in the South Fork, about a quarter of mile above Batesville and 11 miles from the mouth of the canyon. In going there on Wednesday, Mr. Bamberger discovered that there had been an extensive snowslide, which probably descended on Friday or Saturday. He was horrified also at discovering that W. C. Teckett, who had been engaged for some time cutting timber, and his wife and five children were all buried beneath a great depth of snow.

Justice William McGhie, of Butler Precinct, was at once communicated with, and he took such steps for the recovery of the entombed bodies as seemed best, and in the meantime he and Constable S. Jones came to the city for the purpose of conferring with Judge Elias Smith regarding what further steps should be taken, and returned again this afternoon.

A party of men are now hard at work digging for the bodies of the unfortunate family. Among those who are thus engaged are: John Bamberger, Jas. T. Monk, Chas. R. Whitney; John James, George Norton, Alva Butler, Richard Miller, Ed. Spillet, N. Butler, and three sons of Justice McGhie, John, Thomas and Alexander.

Mr. Teckett is said to have been a native of Alabama, and his wife is from a family named Hale, who reside in Hooper, Weber County, to whom Constable Jones has communicated the sad news by letter.

The inquest over the bodies, when recovered, will be held by Justice McGhie.

FROM SATURDAY'S DAILY, FEB. 25.

Information Wanted.—Wm. R. Levick of Cucamonga, San Bernardino Co., California, wishes to learn the whereabouts of his father's sister, who married Geo. Sanders or Sanderson, in Yorkshire, England. He says the last he heard of her she was in Illinois, and he has since been informed that she has emigrated to Salt Lake City.

Address Mr. Levick at Cucamonga, San Bernardino Cal., care of Jno. Smith. Other papers in the Territory please copy.

More Hoodlumism.—A small band of hoodlums were deprecat in the 20th Ward last night. During the absence of Brother David Hilton they carried away the front gate of that gentleman's premises, and placed it about a block distant. Brother Hilton requests us to state that he will pay \$5 for information that will lead to the arrest and punishment of any of the parties,

A gate belonging to another party was also carried away and placed in front of Mr. Dye's premises.

The boys guilty of this senseless conduct are pretty well known, but unfortunately they were not caught in the act. Probably will be if they do not desist.

Arrest and punishment appears to be the only effectual remedy, which should be applied until the nuisance is abated. It is to be hoped the lesson which Justice Pyper gave yesterday to the four boys who made a disturbance in the 16th Ward will not be lost on others of similar inclinations.

A Tempest.—A case that has been creating some small stir is to be tried before United States Commissioner Pearson on Monday. The substance of it is that one George H. Carney circulated a petition to be sent to Washington for the removal of Gen. Bane from his official position in the Land Office in this city. The grounds given for desiring Bane's official decapitation were alleged manipulations in certain mining matters in which the General was charged with using his official position to his personal advantage. These allegations are not only stoutly denied, but General Bane had Mr. Carney placed under arrest for libel. The case has been hanging fire for several days, but is set for Monday sure. A formidable array of witnesses has been summoned, and the tempest in miniature has only but begun, but when it will end no man knoweth. Should General Bane succeed in establishing his point in the criminal suit, he will likely turn in on a suit for damages.

A Great Danger.—The evidence given by Mrs. Wisner, at the inquest held over the remains of the girl Hurst, who committed suicide on Wednesday last, caused a considerable sensation. We refer to her averments to the effect that the deceased had communicated to her the revolting fact that she and eight other girls had been violated in one night at a surprise party. It was hoped that this statement was untrue, for if otherwise is revealed a greater danger to the morality of young women than was supposed to exist in this city. From reliable information we learn beyond doubt that surprise parties of the disreputable character defined in Mrs. Wisner's testimony have been actually held in, or at least on the outskirts of this city.

This fact shows the great necessity for the throwing around the youth, especially the girls, every possible safeguard against the designs of a nest of vile, detestable, cowardly, corrupt villains who enter into combination to despoil the virtue of the innocent.

Parents should make it their business to know the nature of the associations of their children.

Emigration.—By letter from President A. Carrington, we learn that the first company of this season's emigration from Europe, is expected to leave Liverpool on Wednesday, April 12th, per S. S. Nevada. This vessel has been thoroughly refitted, had new engines put in, and is in every way considered a very fine steamer.

It is expected that for the first company the fares will be the same as last season, \$74.50 for adults; from Liverpool to Salt Lake City; half fare for those over five and under twelve years of age; \$10.65 for children over one year and under five; \$5.00 for infants under one year. The two latter classes are free on the railroads.

It should be distinctly understood that the above rates apply only to those who are members of the Church, as the contracts made with the Steamship company do not include those who are not in the church, and all such will have to pay the usual sea fare.

James H. Hart, the emigration agent, will shortly leave for New York, to arrange for railroad fares. When arrangements are made they will be duly announced.

THE RECENT SNOW SLIDE.

THE BODIES OF THE VICTIMS FOUND.

By courtesy of Mr. Alva Butler, we are enabled to present some additional facts regarding the fatal snow slide in Big Cottonwood. The parties who were searching for the bodies of Mr. and Mrs. Teckett and five children were successful in finding them on Thursday last,

They were under four feet of snow, packed solid. They were not frozen, but natural as they lay in bed. The husband and wife and an infant child were in one bed and the other four children, two girls and two boys, were in another. The eldest child, a girl, was eleven years, and the others were graded down at intervals of two years between.

The slide, in all probability occurred a week ago last night, at which time a terrible wind storm prevailed. Mr. Teckett was aged about forty years and his wife thirty-five.

The snowslide came down the mountain about half a mile and in its descent was divided by a huge rock, the larger half striking the old Bates' house and demolishing it. The inquest was held to-day and the burial will probably be conducted at 1 p.m. to-morrow.

FROM MONDAY'S DAILY FEB. 27.

Priesthood Meeting.—The regular meeting of the Priesthood will convene in the Assembly Hall, on Saturday, March 4th, at 11 a.m. WILLIAM W. TAYLOR, Clerk.

Committed.—The boy John Nash, who attempted to shoot a lad named Pettit, on Saturday, has been committed to jail, to await the action of the grand jury, in default of \$500 bonds.

Seventies Meeting.—The Seventies will please take notice that their meeting will be held on Wednesday evening at 7 o'clock at the Council House.

ROBERT CAMERON, Clerk of First Council of Seventies.

Caught and Committed.—Last week, James Johnson and Frank Lindquist, of Almy, went to Evanston to dissipate. While Johnson was drunk, Lindquist robbed him of his money and started west on a U. P. train. He was caught at Echo, and taken back to Evanston, where he was committed, in default of \$500, to await the action of the grand jury.

The U. & W. Railroad.—It appears from the following, from the Evanston *Chief*, that the railroad referred to is not a dead issue, as has been generally supposed of late:

"The Utah & Wyoming Railroad will be laid with steel rails weighing fifty-six pounds to the yard, or ninety tons of rails per mile. Mr. J. D. Negus, manager, has returned from New York, and is now at his home in Ogden."

That Accident.—The full name of the carpenter mentioned in Saturday's News, as having broken his neck by falling from an ice house, the roof of which he was shingling, at Wagener's brewery, was Fritz Kammerli. An inquest was held on Saturday evening by Coroner Taylor, the verdict being in accordance with the facts. The body was conveyed to the First Ward and confided to the care of the wife and family of the deceased. He was 52 years old, and a native of Germany.

The Howlers Howling.—Last night an anti-"Mormon" meeting was held in the M. E. Church. It was characteristic of such gatherings in general. The Rev. McNeice was the first speaker. He appeared to be fired up with the spirit of his religion, being slanderous, abusive and even vulgar, even devoting a portion of his remarks to the subject of carrots.

Governor Murray let off some rhetorical fire-crackers about the stars and stripes, and also talked in the spirit of bitterness, like a man with a disordered spleen. He evinced an overplus of words and a dearth of ideas that was not entertaining.

Ex-Judge Boreman, principally conspicuous for his insignificance, was exceedingly personal and abusive. The little red-haired man used such expressions as "white-haired villain," etc. Nobody, however, pays much attention to this sort of nonentity.

General Bane was more baneful than ever before. This peculiarly pompous individual was appointed by the Government to look after land office business, but devotes a very large portion of his time to abusing people that are much better than himself.

An explanation was made to the effect that it was thought at first advisable to confine the voting upon some crusade resolutions inimical to the "Mormons," to members of the Anti-Polygamy Society. It was decided, however, to accord the privi-

lege of voting to the whole meeting. The motion, on the adoption of the resolution was carried. When the contrary vote was called, about half a dozen negatives responded. This enraged some of the large-souled, magnanimous minded liberals to such a degree that some of them called for the opposition voters to be "put out." One of the latter, a young fellow, remarked that if that was going to be done now was the time to start in. But the bouncing business was not resorted to.

It is a curiosity to note the political status of the four speakers at this anti-"Mormon" pow-wow:

First—McNeice, sectarian preacher and reputed Federal office seeker.

Second—Eli H. Murray, Federal office holder.

Third—Jacob S. Boreman, ex-Federal office holder.

Fourth—M. M. Bane, Federal office holder.

PERISHED IN THE SNOW.

About 35 miles from Taylor, Apache County, A. T., at a place called Phoenix Park, Brother James Hamer, a young man who was in the employ of Nelson Beebe, went out hunting on the 13th of January, in company with Daniel Camp. After an unsuccessful trip they decided to return home. It was snowing at the time and the two, in hopes of finding some turkeys, took different paths around a hill, agreeing to meet in the valley beyond. Camp arrived at the point they were to meet at but Hamer did not, and the former returned to Phoenix. A number of men started out to hunt for Hamer, and after several days' search, failed to find him. More help was got from Taylor and the hunt for the missing man was kept up without ceasing for thirty-eight days, but no trace of him has been discovered.

William Beebe, one of the searchers, returned to Taylor on the night of the 13th inst., it having been concluded to abandon the search until the snow leaves the ground. The efforts made to recover Brother Hamer have been very praiseworthy, the boys having endured considerable hardship, traveling about upon pack animals, over the hard crusted snow.

James Hamer was 22 years of age, and has four brothers and one sister living in the vicinity of Provo, Utah. The family emigrated from Pennsylvania to Utah about five years ago.

We are indebted for these details to Brother Lorenzo H. Hatch.

BURGLARS FOILED.

G. F. CULMER'S STORE ENTERED BY BURGLARS, WHO MAKE AN INEFFECTUAL ATTEMPT TO DEMOLISH THE SAFE.

About four o'clock this morning, Mr. Charles Auer, of the firm of Auer & Murphy, First South Street, heard a peculiar report, like a heavy thud, in the vicinity of the premises. He seized a pistol and a light and went to the rear, but seeing no person around, he concluded that the noise had been caused by the fall of a barrel.

When Mr. G. F. Culmer, proprietor of the Teapot store, near Auer & Murphy's place, opened his premises this morning, the cause of the peculiar noise was explained. The place had been entered by burglars. The objective point aimed at by the robbers was the safe, into the door of which they bored a small hole, near the lock. Into this aperture they placed nitro-glycerine, using some putty as tamping. A fuse was attached, and lighted, an explosion which damaged the lock and started some portions of the safe, being the result. Luckily the injury was not sufficient to open it, so that the burglars were foiled.

The combination of the lock being displaced by the explosion, it could only be opened this morning by breaking the door into fragments, this being the only loss sustained by Mr. Culmer, which will probably be covered by \$50.

The burglars entered by a small window in a high position in the glass warehouse in the rear. In descending from it they stepped upon a table, upon which are the prints of bare feet. After gaining the interior the robbers opened an east window and door, by which latter way they left the premises. They were evidently hungry, as they opened several sardine boxes and a jelly can and consumed the contents.
