AS TO CITY COUNCILS.

As 10 : III COUNCILS.

What shall we do with our manicipal editory is a question like it rapidly ching the place of the one as to what they propose to do with one 11 is an abnormal condition, not a paradiatical typothesis, that controlle as, and the times get were out of joint and more of it as the skys and weeks full by. If there is with of any considerable cannot be understood to the Union whose only council, or witnesser ame in underlayed legislature may be called by, is entirely satisfactory to all connected, it would be an exceedingly retreating thing for in name, incention and precluder characteristics to be given to a wondering yet hopping world.

an exceedingly retreating thing in the mane, incession and prouding characteristics to be given to a wondering yet beginning the proposition in made in Illinois to raise the salaries of the Oblorga alderman in \$1,000 a year as an (already in the salaries of the Oblorga alderman in \$1,000 a year as an (already inducement to them to be more nearly upright than at present. The ubject may be all right, and if this plan would gain soom edyset it would doubtless to maney well state as the fact that he strait and narrow hath are the paid to be kept in the strait and narrow hath are the made and in the strait and narrow hath are the maney well and narrow hath are the maney are the salaries. Fitteen hundred dollars a year for being hundrally afflicted will a disease whom given by what it feeded soo. Fitteen hundred dollars a year for being hundral in the salaries of the salaries, but such a sum is no sooms eccursed in the object than otherwise commas the or active to that the agencies which secured that amount for him can be worked to advantage in an model mane, "sail that the agencies which secured that amount for him can be worked to advantage in a model mane," sail the, "is one that sleys fought."

Sail Lake has some occasional grisvances of an minor character over its could maney, and the, "is one that sleys fought."

Sail Lake has some occasional grisvances of lake) is a dispetition, which time and solding fast to season of the marque of Queensberry's and when actual incoming a many of the maney to the plain, and us it all foto a few works, some of the seasons of use City Council are dispetated.

THE O. S. L. ACCIDENT.

THE O. S. L. ACCIDENT.

Thursday murating's sectlent on the Oregon Short Laine six American Fair, Ishao, brings this prantisence a decigate that is always imminised on their line with his eccessivily heavy grades, and its director to general efficiency of the callway employes that sense-thing of a similar colomition induced to the color of the control of many of the centry is a common for man to their close on region trains; it has been a common experience of remains no discover that these irregular jassengers fave tampered with brakes, generally for some purpose of their own at outset the railway many and an different sections of the railway many and an different sections of the railway many and an different sections of the railway many and an elitative control of the railways many and an elitative that the section of the railways many of the train creeks. Whether this event will had a project trains from the lost from the lost from the lost containty the salways man will hape that if does not be a form of the train creeks and the collision of the salways man will hape that if does not be a form of the collision of hore and the collision of hore with a American Falls cannot be called the collision of hore with the section of the collision of the collision, and the death in the real that included everything in the resolution and as a single the or don't in the real that included everything in the resolution of the collision.

seen on the platearm and look relit; in the station, such his detail, in the reach that tomoded everythring in the relation, and his a wooder that the see of the was not more appositing. The best into the trails crow-miss a craftled with having reduced the hearts to its minimum affects. The sea of the rainsway remarked a heir pusts and gave to the passenger rain at the subton all the warnings they could of the danger which was approaching, and those writes the impact of preserving the water the impact of preserving the leeping passengers from serious independent of the danger water the impact of preserving the leeping passengers from serious independent of the danger water that our day. If the freight employment had alled to that cutry to that engaged, or I the segment may the segment of the segment was

not specing to their plate, and by uncerprovision from section got the insection fails statical deadward, the
illustion much have been mann worse.
As it was, the force of the collision was
reduced in the passenger train to be
attent that was needed to start the
later on its bank was invested in the

passenger. In the cacket provise
exfense higher, Those training deserve a high tritian of prints in the
intalligent currage at the tool of duty.

THE WORLD'S CLUB SOVERINT.

The session of the Coal Federation of Women's with which the of periodry, Ma. 27, was an extent of mire tongettaine a significance, in the immediate sensity of a will be in the promises for the colorer, there the general quitted of the State in awar. An impatus to the women's countries of the throughout the State must come of it. The women's contributed with sensity of the state of Usia and Colorado will send other, the work of the state of Usia and colorado will send other, and colorado will send other, the women of the time deliga and selving of whele the at its them the state of the colorado will send of the send of the state of the send of the send

WHAT WILL THE COUNCIL DE!

what Will, the council be?

What Clematining has declined to secount for about \$4,000 of the cartingent lund whole is inseed by oilty scalinance at the folial deposal of the mayer and auditor. It is now a mixture of the property of the cartingent lund whole in the same of the mayer and auditor. It is now a mixture of the people and inset on having an account of low that money was expended. This knowledge believe to the people, and the report should have been furtherming at the beginning of the part. As it did not come, the City Council, as its people's representatives, made a controler and fermal request for the remaining the controler and fermal request for the remaining the people's representatives, made a controler and fermal request for the remaining the controler and fermal request for the remaining the representatives of the latter, the City Council, cannot allow the maller to drop there without vicinities a solution of the money of the latter, the City Council, cannot allow the maller to drop there without vicinities a solution, and the representative were to take lands of the municipality, expend them at his own sweet will, and then return to the latter, the City Council, cannot allow a self-nepecting administration would apply the force of the law to entire and the latter curredness. The same remains and other than might be asset that govern table bookings. The same remains and other than might in all the story of the study of t

the relations convention at Maratag destrict that the pergenance of the authorized that the pergenance of the word discovering the neighbor the word discovering. Prof. Notable says than Paster Javel, secondary of the temperance society at House, N. Y., in 1827, concentred the lates of publical his fetter. In offer the mass in the fetter I more the mass in the fetter of all these that had aggree the places and that have size the worse thouse as Cristians. I make the relative to the places, and that have size the worse thouse as Cristians. I were thouse as Cristians. I would be supported to the places of the country where the implemental Heaving Salary and the through the country was the Catallia price of the country as the Catallia price of the country was the Catallia price of the country as the Catallia price of the country. In Sections the first temperance than time no sproids efforts have been made for the country. In Sections the first temperance and the year 1800 there were in Scottand 200 scenies with 50,000 members.

and 300 sciolales with 50,000 members.

The movement reached England in 1800, Mr. Henry Perios from Iradical, who had attended a new-life in Grandwick with 1800, Mr. Henry Fourier from Iradical, who had attended a new-life in Grandwick for the security that yees, the 2-d of Fabruary, and at the set of the security that yees, the 2-d of Fabruary, and at the set of the security in the security of the word 'too-lotsis'. A certain Mr. Richard, who authered from stammering, since said at a meeting: 'From the time, on, will devote myself in ici-clain-liten," and his authence alogical the new term. At present their security is the security of the security was refused toyal sanctin. In 1855 a solely was formed by R. M. Assireso.

In Sweeten, the Stat temperature society was founded to Vaxio, April 12, 1819, by some of the windowst. There are new 200,000 members to the various soulding.

In Dannark the first temperature society was formed in 1840. Iceland in the formed temperature society were formed in 1840. Iceland in the formed the second of the se

various societies. The Best temperation accept was formed in 18th Jesland has 4,000 members pleaged to abstate in little land and 8 witsself and but title has been done for the temperative enser, and the sature is said of Heiland and Heighton. A temperative concept has 400,000 members, but these are not testisters. But these are not testisters. The test are not testisters.

here, but these are not lesstablers. Riseats and Frinanch have but few immperance people.

Spain is said to be the most subtract in the Europe. Italy, Greece and Turkey are nearly as Ires from the vice of drambenness as Spain, In Austria, on the courterly, the vice a sain, or general.

The dithining mult was instity among the control of estilisation. Maries, Central and South America were originally sobre countries, but contact with European hase changed the conditions there, and temperance were induced unknown.

A ter this review of the waters against instituents Pro. Nyushife ciseing satisties are rather disapplicating. According to him, the United States, the crade of the market water in the comment and the foreman country in the ranks for metality, eath spends more every year to flique the investment and the foreman country in the ranks for metality, eath spends more every year to flique the international of the more successive. These are the figure.

The United States yearly spends to the conversion of begans, \$5,000,000; for them for turning, \$110,000,000; far sendon, \$115,000,000; for subs. \$115,000,000; for subs. \$115,000,000; for subs. \$115,000,000; for subs.

oni 0.00 for instance, \$110,000,000; the surprise, \$120,000,000; for substitute, \$120,000; for substitute, \$120,000; for substitute, \$120,000; for sugarant substitute, \$120,000,000; for sugarant, \$120,000,000; for substitute, \$100,000; for \$100,000; for
