

MINING, BUSINESS AND STOCKS.

THE WEEK ON THE EXCHANGE.

Prices Generally Show a Slight Shrinkage.

VICTOR STRONGER TODAY.

Ontario Active—Uncle Sam a Little Firmer—May Day and Ajax Weaker.

The week's business on the mining exchange closed this morning with the sale of \$1,190,000 shares for the sum of \$26,962.63. The sales for the five business days of the week amounted to \$23,390,000 shares, which represented a selling value of \$566,640.25. Prices with few exceptions were much weaker today. The principal exceptions were Ontario and Victor. The former sold at \$10.90, while the latter climbed to 33, after slumping to 25 earlier in the week. Carissa was much weaker today, selling as low as \$1.32, though it reacted to \$1.57 at the close of call. May Day softened to \$1.49, while Tesora dropped to 72. Uncle Sam was a little firmer, selling between \$1.82 and \$1.85. Star Con. sold as low as 37, while Ajax was traded between \$1.02 and \$1.04. Engle & Blue Bell sold down to \$1.64. Utah let go 100 at 68. Century was firm around \$3.20, while Little Chief hung around \$4.00. Tetro declined to 54. West Morning Glory sold at 5 and Joe Bowers softened to 74. Little Pittsburg was active at 1.

The week has been notable for its decline in prices though sharp rallies have occurred. Most of the stocks show a shrinkage of about 10 cents per share, while Lower Mammoth, which sold at \$2.30 on Tuesday, was offered today at \$1.15. May Day has declined about 12 cents a share, while Tesora has shrunk about 15 cents a share in the past few days. Uncle Sam has declined about 10 cents in spite of the posting of a dividend. Century sold down to 4, but immediately reacted to \$1.42. West Morning Glory is not quite so strong. Sacramento is a little firmer while Tetro shows a loss of about 3 cents a share. Boss Tweed weakened to 4, but it closes the week a little stronger.

Closing quotations were posted as follows:

Table with columns: Stock, Bid, Asked. Lists various mining stocks like Ajax, Albion, Alice, Black Jack, etc.

STOCK TRANSACTIONS.

CAPT. DE LAMAR'S BIGGEST MINE.

Said to be Netting Him Over \$125,000 Per Month.

THE BEN BUTLER TROUBLE.

Surveys Show Trespass—Returns From Annie Laurie—El Dorado Looking Well.

Prof. E. P. Jennings, the well known mining expert, has returned from a trip of several weeks in Shasta county, California. He gives a very cheerful account of the operations at Capt. De Lamar's Bully Hill mine. According to Mr. Jennings' observations the mine is piling up wealth from the Bully Hill at the rate of upwards of \$125,000 per month. Mr. Jennings went all through the smelter, but did not go underground. He says about 100 tons of 12 per cent copper ore is being smelted daily. From this is obtained about 12 tons of bullion, which, owing to the gold and silver values presented, is valued at \$500 per ton. The production of the mine is about \$125,000 per month. Mr. Jennings' opinion of the net earnings of the Bully Hill will run near \$150,000 per month at \$100,000. The smelter has been in operation almost four months and not a pound of bullion had been shipped when Mr. Jennings visited the property. The intention is to ship a ton of bullion to the New Jersey refinery. Already bullion to the amount of about \$50,000 is said to be stored at the smelter and the railway. It represents less than four months of production, yet it would be a big fortune to most people. In Mr. Jennings' opinion the Bully Hill mine is one of the biggest things in the country. Beside it the Golden Gate at Mercur is rated to comparative insignificance as a wealth producer. In view of the above facts as given by Mr. Jen the captain's latest move towards building a refinery on Staten Island, as told by a New York paper recently, is easily explained. His interests are becoming so vast, that a large plant will be needed to refine the base bullion from his various Utah, Nevada and California mines.

Ben Butler Report.

The report of Surveyor Browne in the suit of the Liberal owners against the Ben Butler Mining company was made this morning as expected. It showed that the Ben Butler company had trespassed one foot over the property. This had been followed a distance of 25 feet along the line. On this showing the court granted a restraining order. It was stated this afternoon that about 60 tons of ore had been marketed from the Liberal claim.

Work Started on Copper Vein.

Don Maguire came down from Ogden this morning on business. He reports a force of eight men employed on the big copper vein on the company's property in the mountains north of Ogden. The vein outcrops on the surface a distance of 4,000 feet. A number of small shafts will be sunk on this vein to determine the depth of the vein and to lead into the ledge. Of the lead vein in the property, Mr. Maguire reports very cheerful developments. A 20-foot body of ore has been exposed in an upraise from the face of the vein. The face of the vein is within 100 feet of cutting the vein on its dip. The ore is not high grade, but Mr. Maguire says he could make a great deal of ore if he could get anything like the price paid by the Seiby smelter in California, to which some El Dorado ores have already been shipped. The long railroad haul takes the gilt off, however. A force of 15 men is employed at the property.

Annie Laurie Looking Splendid.

Joe Dederichs, the well known mill builder, returned from Gold Mountain last night, after examining the Annie Laurie mill in company with Messrs. W. L. Kimberley, W. J. Filer and Willard F. Snyder, who are expected to start this evening. Mr. Dederichs says the mill is handling 150 tons of ore per day with perfect ease. It runs with clocklike regularity. The dust trouble has been reduced to a minimum and everything is reported to be very fine in the mine, where the ore bodies are in the very best condition. The new 200-ton leaching tanks are nearly finished and when they are done still better results are expected in the extraction.

Conditions at the Mammoth.

Samuel McIntyre, Jr., came in from the Mammoth last evening. He reports the mill running away as usual on a good quality of mill ore, of which there is an abundance in the mine. Shipping ore is, however, a little scarcer than it has been for some time. This is due to a consideration of the ore bodies below the 1900 level, which are large and good. Mr. McIntyre says the shaft should be put down 200 feet deeper to get under the ore exposed on the 1900 level, and it is probable that this work will shortly be started.

Items from Bingham.

In its weekly review the Bingham Bulletin says: At present the Mascot and St. Joe properties are paying higher wages than any other in the camp; machine men \$3.50, muckers \$3.

Specimens of solid native copper weighing six to ten pounds are coming from the lower workings of the Neptune and Kempton. They are very suggestive and the vein where they came from is said to be well loaded with truck of the same sort.

The Copper Boy Mining company is grading a site for a mill in connection with its Pine canyon property, also building a boarding house and preparing quarters for the winter. Lumber is being delivered for the building. It is stated that the company has large areas of low-grade milling ore in sight, as a result of the past season's work. A force of about fifteen men is now employed. The St. Joe tunnel made 210 feet in August and is now in over 300 feet. Seven to eight feet. In very hard rock, are now being added daily, using Leveyer drills. The company has entered into contract to develop the deep tunnel, ground of the National company—a group of five claims lying to the northeast. A branch tunnel will be run along footwall of the Buring-

South Main street addition; lots 1 and 2 Cummings subdivision and a strip of depth. The branch tunnel will be something over 200 feet in length and indications are that it will open up good territory.

Mining Deeds Recorded.

Prove, Sept. 7.—A mining deed from Prussian P. Wilson and Geo. A. Wilson of Eureka to Sam H. Nelson of Eureka, has been filed for record. The deed assigns the rights of the grantors to the Ohio mining claim situated in the North Tintic mining district for a consideration of \$1,000.

A quit-claim deed from George A. Wilson and Prussian P. Wilson, his wife, of Eureka, to Sam H. Nelson of Eureka, has also been filed, quit-claiming the Illinois mill site in North Tintic mining district for a consideration of \$500.

E. M. Yocum et al have filed notices of location of the following mining claims in Silver Lake mining district, facing Milk Mad gulch: The Birthday Gold King, Elmo and Elsinora.

Examine Golden Reef Claims.

Richfield, Utah, Sept. 6.—Some of the officers of stockholders of the Golden Reef mining company who had been out to examine the property and commence active work thereon, returned to Richfield Wednesday elated over the promising condition of their property, which is located in Beaver county, about six or seven miles north of Frisco.

Mining Notes.

A car of ore was marketed today from the United States of Bingham.

The Grand Central of Tintic had five cars of ore on the market today.

The Eagle & Blue Bell of Tintic reached the market today with a car of ore.

Hon. O. J. Salsburg has returned after a visit to Haystack, Idaho, where he owns valuable mining interests.

The Taylor-Branton sampler reported a car of ore from Tintic, six from Frisco, and one from Bingham today.

Foreman James of the Sacramento mine has been appointed to succeed I. X. Benner as superintendent of the mine.

Tomah Bonanza: The Salt Lake capitalists who recently purchased the Clifford group of mines, consisting of the Wandersley, Liberty Jim and Stone Cabin locations, will immediately commence the sinking of two vertical shafts to a depth of 200 feet, the ledge will be crosscutted and their values ascertained. There is no doubt in the minds of all practical mining men who have inspected this promising property but what it is gilt-edge.

BUSINESS NOTES.

The end of September and the first of October being the dividend periods of so many local stocks, a general scarcity all along the line is noticeable. Institutions which make their regular quarterly disbursements to their stockholders on September 30th, are Utah Sugar company 3 per cent, Co-op. Wagon 2 per cent, Utah State 2 per cent, Heber J. Grant & Co. 2 per cent, The Home Fire and Zion's Savings Bank & Trust company pay 2 per cent on October 1st, and the Deseret Savings and State Bank follow early in the same month. Only a few changes of stocks are reported, and those at figures given below.

Sugar stocks are somewhat quiet.

The fact that the amount of cane sugar expected to start up next week, and Ogden are expected to start up next week. The sugar market is steady and an advance in the price of certain grades took place in New York. The demand for sugar is very strong all over the country, which induces the belief that there will be no change in prices at present. Utah is now consuming a great quantity of California beet sugar. The amount of cane used being insignificant. The price of granulated sugar remains the same as last week. Following are the latest quotations of local stocks:

Table with columns: Stock, Price. Lists local stocks like Deseret National Bank, Utah Sugar Co., etc.

BONDS.

Church Bonds ... 104.00
St. L. City Railroad Bonds (taken up in 1903) ... 103.00

The Salt Lake bank clearings continue to be heavy in volume and to show very large increases over the clearings for the corresponding time of last year. As no particularly large transactions have been going through the clearing house, but a great volume of small checks, the report of the clearings may be taken as a good indication of the general prosperity in this State and the free circulation of money.

For the week ending September 6th, the bank clearings amounted to \$3,010,974, an increase of 87 per cent over those for the corresponding week of last year. This rate of increase is exceeded by New Haven only, with 105 per cent. Salt Lake has led the country all summer in the rate of increase of clearings and in volume. The banks of Toledo, O., Seattle, Richmond, St. Paul and St. Joseph. The clearings here have generally exceeded Denver, Los Angeles, Washington, Portland, Scranton and other cities in the summer.

Today's bank clearings exceeded those for the corresponding day of last year by \$397,423.33, the former amounting to \$2,613,551.44, and the latter to \$2,216,128.11. For the week ending today amounted to \$2,473,811.89, as against \$1,612,808.33 for the corresponding week of last year.

An amendment to the articles of incorporation of the Utah Foundry and Machine company giving notice that hereafter the capital stock of the company is assessable, has been filed with the county clerk. The amendment was adopted by the stockholders at a special meeting held last week.

A sheriff's deed for \$23,165 feet of ground fronting west on N street, north of South Temple, was yesterday to Peter Brennan of Butte, the assignee of Edward McGurran. The property was sold to McGurran under foreclosure of a mortgage for \$1,500 on Dec. 18, 1899, as the property of Christopher McCann and others at the suit of D. O. Mahoney. The time for redemption lapsed a year ago.

The deed conveying the one-half interest in the Fisher Brewery owned by Aaron Keyser to Albert Fisher has been filed with the county recorder. The deed conveyed an expressed consideration of \$50,000, a one-half interest in all of block 43, plat C, the brewery siting on 16th road east of the brewery; lot 7, block 1, and lot 10, block 2, plat A.

Building permits for the week ending Sept. 7: A. E. Showell, 424 South Third East, two brick cottages, \$42,000; Mrs. E. B. Springer, 958 Sixth East, brick cottage, 1,000; E. G. Woolly, corner F and Second streets, brick cottage, 2,500; S. J. Simpson, Sixth South, between Third and Fourth East, double brick residence, 3,000.

WENT DOWN WITH A THUD

Wall Street Prices Go Glimmering on Account of the Crime of Czolgosz.

Railway Stocks Were Especially Sensitive to the Tone of the Market

—Flurry is Momentary.

New York, Sept. 7.—The market opened with general declines. First sales of Canadian Pacific at 68 compared with 70 1/2 last night. This was quickly followed by quotations of Missouri Pacific at 101 compared with 109 last night, Rock Island sold at 140 and St. Paul at 160 compared respectively with 144 1/2 and 165 1/2 last night. Union Pacific opened at 97 1/2 to 98 as against 100 1/2 last night.

WAS AWAKE EARLY.

New York, Sept. 7.—Wall street was astir early today with preparations to meet the exigencies precipitated upon the financial world by the shooting down of the President at Buffalo yesterday. As London was closed all efforts were concentrated to meet the effects which would converge upon the New York stock exchange.

The news from Buffalo of the President's condition this morning was considered favorable as mitigating the first moment probability of the President's death.

The announcement by the clearing house authorities before the market opened that the associated banks had the situation of the clearing house in the first sales recorded on the tape. Influence of the supporting orders in the market made itself quickly felt and there were immediate rallies of from 1 to 2 points. The heavy blocks kept coming out, however, and the market maintained its feverish and excited tone.

CLOSING STOCKS.

New York, Sept. 7.—Close: Southern Railway, Reading, 100; Rock Island, 134; Pacific Mail, 28 1/2; Amalgamated Copper, 111 1/2; T. C. & I. 61; Atchafalpa, 73; do. preferred, 94 1/2; Sugar, 12; Heading preferred, 74; Leather preferred, 8 1/2; N. Y. C. & N. H., 159 1/2; St. Paul, 157 1/2; U. S. Steel, 41 1/2; Pennsylvania, 14 1/2; People's Gas, 108; Metropolitan, 162 1/2; Washab preferred, 37 1/2; Southern Pacific, 54; W. U. 21; Missouri Pacific, 94; B. & O., 79 1/2; Manhattan, 114 1/2; B. & O., 97 1/2.

CHICAGO LIVESTOCK.

Chicago, Sept. 7.—Cattle—Receipts, 200. Nominally steady. Good to prime, heavy beef steers, 23 1/2@47 1/2; cows, 16@20; 5.00; stockers and feeders, 2.25@4.25; cows, 2.50@4.75; heifers, 2.40@5.00; calves, 1.00@2.35; Texas fed steers, 4.10@5.10; good to choice heavy, 4.60@5.70; rough heavy, 3.50@4.35; light, 3.50@5.75; bulk of sales, 3.25@6.75.

DENVER LIVESTOCK.

Denver, Sept. 7.—Cattle, Receipts 500. Easy; beef steers, 23 1/2@47 1/2; cows, 16@20; 5.00; feeders, freight paid to river, 3.00@4.00; stockers, do. to 3.00@4.00; bulls, stags etc., 2.00@2.50.

SAN FRANCISCO GRAIN.

San Francisco, Cal. Sept. 7.—Wheat—No sales. Spot market, 73 1/2. Corn—Large yellow, 1.45@1.55. Barley—No sales.

CHICAGO NERVOUS.

Chicago, Sept. 7.—All grains opened nervous and at a decline. December wheat was 1/2@ 1/2, and at 70 1/2@70 1/2 on reports. In the first hour it rose to 71, but then reacted to 70 1/2.

ST. LOUIS WOOL.

St. Louis, Sept. 7.—Wool—Steady; territory and western medium, 14@16 1/2; fine, 11@15 1/2; coarse, 12@15.

FINANCIAL WORRY.

Chicago, Sept. 7.—W. S. Warren, president of the Chicago Board of Trade said this morning: I do not expect this great crime to affect grain prices at all. The assassination of President Garfield twenty

years ago did not influence the produce market appreciably.

Prominent bankers expressed a similar opinion.

Arrested for Fraud.

New York, Sept. 7.—Robert A. Ammon of this city, has been arrested on a warrant brought by Secor & Bull, stock brokers of Toledo, Ohio, to the sum of \$6,300, which they claim is due them for the purchase of stock in the New York Electric Brake and Coupler company. The plaintiffs claim that the company was the outcome of a conspiracy by the defendants to defraud the public by inducing brokers to purchase the stock in the company which was valueless. The scheme, the plaintiffs charge, was to put up a certain amount of margin for the purchase of stock, and then leave it in the brokers' hands. Ammon was released in \$9,000 bail.

Review of Week.

New York, Sept. 7.—The growing closeness in the money market has been the dominant influence on stocks during the first days of the week. The large transfers of currency to the interior caused a continued heavy demand upon the money market made by treasury operations has caused anxiety as to the relief which would be offered by gold exports and by possible new measures by the treasury department to make the surplus available to the circulation. The course of exchange neglected the usual prelude to an inmost movement of gold, but no stimulating effect was caused by the steel market. The prosperous conditions reflected on the earnings and confidence in the early ending of the steel strike caused an undeterred firmness in steel stocks and offerings were very light even on declines.

BANK STATEMENT.

Table with columns: Item, Amount. Lists bank statement items like New York, Sept. 7.—The statement of the associated banks for the week ending today shows: Loans, \$88,145,500; Deposits, \$97,692,100; Decreased, \$20,229,300; Circulation, \$9,568,400; Increased, \$71,660; Legal tenders, \$73,091,000; Decreased, \$3,445,000; Specie, \$171,755,000; Decreased, \$6,556,200; Total reserves, \$24,323,900; Decreased, \$19,111,500; Reserve required, \$26,923,025; Decreased, \$1,074,475; Surplus, \$1,196,475; Decreased, \$5,084,050.

COMMITTEE WILL PERSIST.

Movement Against Open Saloons on Sunday Gathering Strength.

The committee representing the Deseret Sunday School has called on all the Christian organizations to join with it in its effort to put a stop to the selling of liquor on the Sabbath day. Formal invitations have been sent to the presidents of the Y. M. C. A., the Methodist association, the Y. P. S. C., E. the W. C. T. U., the Utah Sunday School association, and the Y. M. and Y. L. M. A. Secretary Felt has received acknowledgments of the receipts of his letter from most of the organizations, but they have not stated what they will do. On Monday the matter will be brought before the Ministerial association, and the other societies will hold meetings to determine what course to pursue in the matter.

TRIED TO KILL HIS WIFE.

A Drunken Book Agent Commits Serious Crime at Gunnison.

(Special to the "News.") Gunnison, Utah, Sept. 7.—Last night B. C. Carroll tried to kill his wife, he came home from a saloon intoxicated and tried to strangle her. He was arrested by the police, and the doctor, Dr. Samuel Edwards, hotel proprietor, informed that Carroll drew his gun and threatened to kill them both, but was finally overpowered and put in jail. Carroll's home is in Edwards' hotel, and is a traveling book agent. He had not taken to the county jail at Mantle today.

A PLEASANT TIME.

Pioneer Day, Fasting and Feasting at Iosepa.

Iosepa, Tooele County—Thirty miles from any town, forty miles from a railroad, surrounded by miles and miles of granite wood, isolated from all the world is Iosepa, the Hawaiian colony. Like a hive of bees in a wilderness, it is a community of and by itself. Governed by laws of tacit understanding, mutual agreement and brotherly love, the law of the land is so seldom appealed to and so infrequently broken that it has no officer there to enforce it and no lawyer to interpret it.

Riding into the townsite one is impressed by the neat homes surrounded by good fences and fine shade trees. The streets are fairly wide and the blocks are good. The air is pure and the order prevail almost everywhere. In fact, it is a typical "Mormon" settlement, but everyone you meet is a dusky Hawaiian.

Gathered to Utah from the Sandwich islands during the years since 1820, President Cannon was on a mission there in 1889, they were sufficient in numbers to warrant removal in a company away from the serious influences of city life. President Joseph F. Smith and others organized a company which purchased the ranch and much of the range where from 1862 until the death of Capt. W. H. Hooper had been cattle herded in summer and fed in winter. Here a townsite was laid out and lots taken up by the islanders who also own shares of the stock of the company formed.

Here, with Bro. Thomas A. Waddoups as their presiding elder and manager of the company, they live in their own homes, under their own vines, in harmony and happiness. On the farm of the president, in the orchard lately set out among the cattle, all owned by the company, each individual is furnished with labor almost every working day in the year. His pay in the company's own medium of exchange, that calls for farm products, merchandise or cash as the needs of the individual requires and the ability of the company allow it to pay.

The community has its regular religious organizations. Its female religious society, cultivates melons, gleans wheat, makes quilts, etc., and has a large credit with the company and from which it supports its aged and indigent. Its Y. M. and Y. L. M. Associations meet all through the year. Its Sunday school has enrolled almost every member of the ward and its Sundays are wholly devoted to worship.

August 23 last was the anniversary of the settlement of the place and Sunday last was the last day and ward quarterly conference day. It was decided to celebrate and observe all these things on Sunday.

The brethren, John T. Calne, Albert W. Davis, Albert J. James, Will G. Farrell and Robert W. Taylor, of the city, and Brother James H. Gardner and wife, of Lehi, were present as missionaries and visitors.

Everybody fasted until after the last meeting of the day was over.

The morning meeting, which commenced at 10 o'clock, was occupied by the missionaries and pioneers. Elder Gardner, who had not spoken the language for seventeen years, expressed himself with the facility of a native.

Elder Calne's speech made in English, was translated by one of the young natives.

In the afternoon the sacrament was administered, the general and local authorities were sustained and speeches of encouragement were made. Attention was called to these facts. A communion numbering some less than a hundred is raising peaches, grapes, plums, apples, melons, etc., more than enough for community consumption. Have put up for the company over half a thousand tons of hay and the grain will aggregate a number of thousand bushels. Corn, squash, cabbage, potatoes, etc., are to be harvested in great abundance. Every member is well fed and well clothed. There is not a sick person in the ward. Every organization is active for good and the people are showing what a community can do to obtain spiritual and temporal success.

THE CITY'S HEALTH.

The report of the board of health for the week ending Sept. 7th: Births reported, males, 11; females, 12; deaths reported, males, 16; females, 5; bodies brought here for interment, 7; bodies shipped away for interment, 5.

Contagious diseases—Smallpox reported during week, 2; now under quarantine, 3; increase of one case.

Scarlet fever reported during week, 12; now under quarantine, 21; increase of eleven cases.

Diphtheria reported during week, 3; now under quarantine, 4; increase of three cases.

Infectious diseases—Typhoid fever reported during week, 11; now in city (based on reports), 25; increase of twelve cases.

Whooping cough reported during week, one case.

No Settlement Today.

Pittsburg, Sept. 7.—The Amalgamated association executive committee resumed its sessions this morning with a full attendance of members. President Shaffer said there would be no settlement today.

Bombardment Begun.

Washington, Sept. 7.—The Colombian legation has just received the following cablegram: "Willemstad, Curacao, Sept. 7. "Venezuelan fleet is bombarding Rio Hacha. (Signed), BECERRA." Dr. Becerra was formerly Colombian minister in Washington.

Rio Hacha is an important town on the north coast of Colombia.

"THE GREAT SALT LAKE PRESENT AND PAST."

By James E. Talmage, Ph. D. F. R. S. E. F. G. S., professor of geology, University of Utah, a book of 115 pages, beautifully illustrated. The first complete and authentic work on the renowned saline sea. Price 25 cents, postage prepaid. For sale by the Deseret News and all news dealers.

NEW CATALOGUE OF CHURCH WORKS.

Just issued by the Deseret News. Send for a free copy. Special terms to dealers, agents and canvassers.

ARTISTIC JOB WORK.

And printing specially attended to at the Deseret News Office. Estimates promptly furnished. Rush orders a specialty.

DIED.

CUNNINGHAM—At Lewiston, Cache Co., Utah, Sept. 6, Mrs. E. Matilda Rawlins Cunningham, aged 53. She was the wife of the late Bishop Andrew Cunningham of the Fifteenth ward, and mother of J. Cunningham and Mrs. J. W. Ure. This was her last illness. Funeral services will be held in the Fifteenth ward meeting house, Monday at 10 a. m. Friends are invited to attend.

H. S. GODDARD, Bartender.

LAST SEASON IN SALT LAKE. Pupils prepared for Opera, Concert and Church, according to the Italian school. Applications for instruction should be made as early as possible. If good hours are desired for terms, etc., address studio, Constitution Building, Salt Lake City.
