TELEGRAPH PAR WARTERS CRIES THE MORAPH LINE. FORTY - SIXTH CONGRESS. CONCRESSIONAL.

HOUSE.

Baker said that with a single ex-

appropriation bill. It appropriates \$32,404,000 as against \$29,266,000 last year. That increase has been necessitated by the large increase in the number of pensioners during last year. The bill was agreed to by the committee without amendment and, on being reported to the House, it passed.

The House then went into committee of the whole on the private calendar. The first bill on the calendar was one appropriating

20,000 as indemnity and compen-\$20,000 as indemnity and compensation to the widow and heirs of Henry Leef in consequence of the illegal seizure of the bark Mary Theresa by the United States consul at Bahai, Brazil. After a long debate, Smith, of Pennsylvania, asked McLane, who was advocating the bill, whether the government was responsible for the acts of its officers.

McLane replied it certainly was, but immediately wided it was not legally responsible. This was, however, he said, a claim appealing to the grace of Ungress. The claim had been before Ungress for 30 years, and had five times been reported favorably to the House by years, and had five times been reported favorably to the House by the committee on commerce. Finally the committee rose and reported the bill to the House, when it passed; yeas 125, nays 76, the opposition being led by Conger. Adjourned till Monday.

> CAPITAL GOVER. At Work in Enruest,

presidential race so far as congressional democratic support is con-cerned, appears now to be clearly defined. Mr. Bayard believes in putting the financial question in putting the financial question in front of all others, and of pushing it vigorously in behalf of what the great mass of the party in the East denominate "honest money." Speaker Randall's policy is to it.

by making the session a short one.

The republicans in Congress are as yet very quiet concerning the President's plane, but it is charged by some of Secretary Sherman's friends that one controlling motive of the very general agreement among republican politicians in Congress to avoid all finance agitation in the fear that discussions of financial topics would keep Sherman too prominently before the people, because, these friends of the Secretary argue, he has conducted the financial affairs of the government so wisely and successfully ment so wisely and successfully that his name comes first to mind whenever such questions are dis-

The New Becretary of War. Governor Ramsey, the new Secretary of War, took charge of his department to-day and quickly made a pleasant impression upon all who were brought into contact with him. He is a portly, goodnatured, but keen-witted gentleman, with gray hair and gold-rimmed spectacles. He has leased the fine mansion formerly occupied by Postmaster-General Creawell, and his family will take possession d his family will take po

consist its staff who called on him, to-day, remarked that in the east the new secretary was generally understood to be "down on the Indian." Secretary Ramsey is reported to have replied that his section was by no means hostile to the findians, or dispased to not with malignant feelings toward them; they had suffered a great deal by Indians, and it was true that they might regard the red man in a somewhat different light from the people of the East. This was natural, for they understood him better. They did not think it possible to make a white man of the Indian, and while treating him fairly they held that he should also be dealt with firmly.

Chi

Secretary Schurz this afternoon received a telegram from General Hatch dated Los Pinos, 10th, stating that the Indians, in their reing that the Indians, in their request to be tried at Washington, meant to be tried by the general government. They are willing to be tried anywhere out of Colorado. They stated through Ouray that they might as well be hung to trees at the agency as to be taken to Denver. Ouray says that the commissioner has dervanded a) the warriors mentioned by the wo

at the trial, but that proper persons will be secured and turned over as soon as it is ascertained who they are. They will turn over all the persons named by the women.

A Dispatch from Parnell. CHICAGO, 12.—Replying to a ca-ble message of inquiry as to the present condition of affairs in Ireland, and the hopes and expecta-tions of the agitators, the following dispatch from Charles Stewart Parnell, M. P., was received at the Daiy News office:
Dublin, December 12.

WASHINGTON, 12.—Morton presented a memorial from sugar importers and refiners, praying for an early consideration and revision of the sugar tariff.

The Senate joint resolution authorizing the Secretary of the Interior to negotiate with the Ute Indians for reliquishment of their reservation in Colorado, was taken from the Speaker's table and referred to the committee on Indian affairs.

Baker, from the committee on appropriations, reported back the appropriations, reported back the fortification appropriation bill, and the House went into committee of the whole upon that bill.

Repealers and Home Rulers are united and bave found a common platform in the watchword, "The land for the people." The government baffled in its attempt to grush the movement, may in desperation Baker said that with a single exception the bill was the same as had been reported for the last two years. The item for the armament of coast fortifications, including heavy guns and howitzers, powder, etc., had been increased by the sum of \$100, ooo, so that for the time present the bill amounted to \$225,000 in place of \$125,000 last year. The estimate of the Chief of Ordnance for that service had been \$1.067,000; the same as had been shown increased by the sum of \$100, or the determined action of the people. Threatened evictions are abandoned as a result of the success of the Balla Anti-Eviction meeting. There are no biddings for estates at sales in the landed estate courts, and tennants are allowfor that service had been \$1,067,000; courts, and tennants are allowfor that service had been \$1,067,000; the Secretary of War had reduced that estimate to \$500,000, and the committee had reduced it to \$225,000. The increase in the appropriation was for the purpose of converting smoothbore cannon into rifled guns. If Congress continued to appropriate \$225,000 a year for that purpose, it would be converted to arm the forts in the harbor of New York.

Reagan moved to amend by mak.

Reagan moved to amend by mak-ing an appropriation of \$50,000 for batteries for the defence of Galves-Messrs. Baker, Hawley and Clymer opposed the amendment. The latter said the committee was unanimous in the opinion that it was neither wise nor necessary at this time to enter upon any general system of sea coast fortifications.

Reagan's amendment was adopted.

The committee rose, reported the bill to the House and it passed.

The House then went into committee of the whole on the pension appropriation bill. It appropriates \$32,404,000 as against propriates been issued to stations in the South and West, and large levies of constabulary and recruits are just ordered, all indicating the determination of the Government to take advantage of the sufferings of the people and drive them to deeds of violence. No relief works have yet been undertaken, nor is there any prospect of State assistance. But orders have been issued to been issued to prepare additional workhouse accommodation. The

attitude of our people up to the present time is magnificent. They are telf-restrained and reticent, and resolved not to be betrayed into any precipitate or illegal action. An important meeting of the executive committee of the National Land League was held to-day; it was decided I should leave for New York with Mr. John Dillon, son of the late John B. Dillon, as soon as

CHARLES STEWART PARNELL Seamen Arrested for Murder. Baltimore, 12.—Abraham Annetta, a West India negro, and Francis Adams, a Manilla man (sailors) were arrested this afternoon by a Deputy United States marshal on warrants issued by the United States commissioner, on a charge of murder on the high seas and destroying, the schooner M. E. Henderson, of Philadelphia, bound to Baltimore from Buil River. The vessel went ashore Nov. 30th, near Kitty Hawk, and went to pieces. Annetta and Adams and another sailor were the only ones who escaped from the wirek, and as soon as they reached the shore started off without waiting for aid. Bodies

off without waiting for aid. Bod of none of the officers have be found, which led to the theory to they had been probably foully dealt with hy Annetta, Adams and the other survivor, who then beached the vessel in order to conceal their crime.

Another Southern Horrer, NEW ORLEANS, 12 .- The Corroll Washington, 12—The House of Representatives settled down to business in good earnest to-day, and besides devoting some time to miscellaneous matters, passed two of the regular annual appropriation lils. This exhibition of working activity on the part of the dominant party in the House is noted with special gratification by the friends of Speaker Randall, between whom and Senator Bayaid a contest in the presidential race so far as congres-

Speaker Handaira policy is to ignore the financial question alto-key 1 55 3 70 gether for the present, and win the good opinion of the country by cutting down appropriations, and by making the session a short Central M. E. chorch to-night, a
