Washington, Sept. 7.—The brief of the United States government, which has intervened in the suit of Kansas against Colorado, in which Kansas seeks to secure an injunction prohibit ing the diversion in Colorado of water from the Arkansas river for irrigating purposes, was filed in the supreme court of the United States today. The grounds upon which the United States claims the right to intervene are set forth in the brief. The government maintains that in the watershed of the Arkansas in Colorado and western Kansas, the federal government possesses 100,000 acres of unsalable lands which can be reclaimed by diverting the water from the river, and also 60,-000,000 acres in the arid zone which can be reclaimed by diverting waters from other rivers. A DANGEROUS SEASON

The Fall and Early Winter Months Are the Most Dangerous in All the Year to Sufferers From

Catarrh, Asthma and Lung Trouble. This is the Season When Consumption Begins Its

Carnival of Death-And Picks Its Victims From the Ranks of Catarrh Sufferers.

IF YOU HAVE CATARRH--NO MATTER HOW MILD--DO SOMETHING NOW.

DEATH BLOW TO "DOPE" PILE "CURES."

Here is the Plain Anti-Dope Law Recently Passed By Congress. "Any preparation is illegal if the Package falls to bear a statement on the label of the quantity and proportions of any morphine opium, occains, heroine, alpha or beta eucaine, chloroform, canastis-indica, choral, choral hydrate or any derivitave or preparation of any such substances. Any mixture of drugs is unlawful if it hears any Device, Design or Statement on the package which is false or misleading in any particular.

Above are the poisons entering into all pile medicines EXCEPT E-RU-SA PILE CURE. If the "dope" preparations are not isbeled they are likegal and if truthfully labeled they are unlawful, because they claim to cure piles, whereas a standard medical authority, viz: "United States Dispensatory says it is false, as follows: "They (narcotics) are not supposed to exercise any specific curative influence. In Piles ergot probabily acts ONLY in producing severe local inflammation. Ergot is highly dangerous even when the quantity used is so small that no immediate effects are perceptible. The chief action of conium is upon the motor nerve, which it paralyze. Acetate of Lead may give rise to chronic Lead Poisoning."

Not one syllable in this standard medical authority justifies the claim the any of the old pile medicines cure. They destroy vitality.
