

## FLEET TO TRAVEL 'ROUND THE GLOBE

Naval Administrative Officials  
Plan to Complete Not-  
able Voyage.

### COALING QUITE A PROBLEM.

Stations to be Made of Honolulu and  
The Philippines—Port Said  
Must Furnish Some.

Washington, March 7.—Now that it has been practically determined by the president that the Atlantic battleship fleet shall return to the Atlantic by way of Suez, the near approach of the fleet to its original destination—the California coast—has made it necessary for the naval officials to arrange the details of the itinerary for the homeward movement.

#### BUYING COAL.

Already several conferences have been held upon this subject between the president and Secy. McCall, Admiral Pillsbury, chief of the navigation bureau, and Admiral Cowles, chief of the equipment bureau, the latter being specially charged with the duty of coaling the fleet. The last conference held yesterday was intended to place Secy. McCall in possession of full information as to what had been accomplished by the bureau chiefs in preparation for the return cruise. He was perfectly satisfied with the result. Admiral Cowles had already dispatched large stores of coal to the Hawaiian Islands and to Manila, and he has further ascertained just how much coal he can obtain at Port Said and the price he will have to pay for it.

This is as far as he can go in the absence of official instructions to purchase. It is the business of Admiral Pillsbury to prepare these orders, and he has already, after consultation with his assistants in the navigation bureau, been able to frame them and lay them before the president.

#### PLANS WORKED OUT.

So it is expected that in the course of a few days the formal orders will issue and immediately all of the plans that have been so carefully worked out for the fleet's return movements will be put in execution. The point of doubt is as to the disposition to be made of the ships upon their arrival in Asiatic waters, for while it is reasonably certain that some of them will be sent to Japan, it is not known whether the movement in that direction will be general or confined to about four representative ships.

### THREE QUARTER PRODUCTION.

Cotton Operators Curtail Output to Meet Prospective Demand.

Boston, March 7.—The principal cotton manufacturers throughout New England have decided to continue curtailment of production 25 per cent for another three months. This decision follows an inquiry into the demand for cotton goods.

It is stated that the mill men generally believe that any other course would mean lengthy shutdowns, with consequent loss to stockholders and distress to employees.

### LOOKS INTO THE FUTURE TO TALK OF SOCIALISM

New York, March 8.—Presenting his views on practical communism as a remedy for existing social conditions before the Civic Forum at Carnegie hall tonight, Friedrich Van Selden, the sociologist, poet and founder of the communist colony in Alaska, declared that common possession of the soil was utterly worthless unless the community to which the soil belonged was well organized.

He said further: "Private ownership in the hands of a good landlord is eminently preferable to common ownership in the hands of a badly trained and poorly organized community. "Organization, strict, powerful, functioning organization, that is the commanding code of communism and of land communism in the first place. In an absolutely perfect organization, in which the human race will perhaps adapt itself in a thousand years, the idea of private property or possession will have lost its meaning altogether."

## Yours and Ours

We supply to your children just as good food as we demand for our children.

We know that the wheat should be steam-cooked for six hours. So we do that.

Each berry should then be flaked so thin that the full oven heat gets to the center.

Then a fierce heat must be applied to break down the granules of starch. So we toast the flakes, for 30 minutes, at 400 degrees.

To make **Mapl-Flake** requires 96 hours.

There are many ways where this work could be slighted, and the taste would not show it.

Flaked wheat can be made, and is made, in one-fourth of the time we spend on it.

We could sell you the package for 10 cents instead of 15 cents, if we made those economies.

But we would not give half-cooked wheat to our children, so we don't to yours.

We know that starch, unless properly cooked, is insoluble. The particles are not separated so the digestive juices can get to them. So we spend 96 hours to get a food that's all food, all digestible.

And we flavor it with pure maple syrup, so that the food which is best for the child will be the food that it wants.

This flavor is expensive, of course, for we boil the pure maple syrup with the wheat when we cook it. But a child chooses food largely by taste. It is wise, for all concerned, to thus induce the child to eat the food it should have.

Mapl-Flake is the only wheat food which entirely digests. Our long process does all that is necessary. We use it in our homes. Please try it in yours.

The only food served in individual packages in hotels, clubs, cafes, and on dining cars.

Ask your dealer to send you

## HUSLER'S FLOUR

And the making of good bread  
will be an easy accomplishment.

## MAY READ THE LETTER

Lord Tweedmouth Has Promised to  
Explain to the House of  
Commons Today.

London, March 7.—No fresh light upon Emperor William's letter to Lord Tweedmouth, in which it is charged his majesty made an attempt to influence legislation upon the British naval estimates, is expected until Lord Tweedmouth makes his promised statement on the occurrence in the house of lords next Monday.

There is great curiosity as to whether the first lord of admiralty will read what Emperor William wrote. If the substance of the letter is inoffensive, the language may be so informal that the emperor would prefer that it be not spread before the eyes of the people at large. It is still held today that the immediate cause of the emperor's letter was another letter written to Lord Selkirk, who is a member of the entourage of King Edward, in which he showed his indignation.

There is not a man in Germany, from the emperor down, who would not welcome the fall of Sir John Fisher.

Sir John is senior naval lord of the admiralty. Hugh Cecil Lee, a Liberal member of parliament, has given notice of a question to the premier, asking whether he will "consent to lay the whole of the correspondence upon the table and explain fully the circumstances and facts contained within the proceedings." Several other members have given notification of similar questions. The incident of the emperor's letter has created a sensation throughout Europe.

A specific for pain—Dr. Thomas' Electric Oil, strongest, cheapest liniment ever devised. A household remedy in America for 25 years.

### ONLY SEVEN JAPANESE CAME IN LAST YEAR.

Washington, March 7.—The Pacific coast members of Congress have been informed that only seven Japanese, and these not laborers, have entered the United States this year, which is regarded as showing the effectiveness of the new emigration regulations which Japan has formulated and undertaken to enforce.

There is an apprehension that some Japanese laborers have entered the country through Mexico, but it is learned that Mexico is negotiating with Japan for practically the same regulations that have been applied to the United States.

### GRANTS BLANKET ORDER ENJOINING UNION MEN

Reno, Nev., March 8.—Judge Farrington of the United States district court has handed down his decision in the suit brought by the owners of the Mogers mine of Goldfield against the Miners' union, granting a blanket injunction against the miners. This is an unequal victory for the mine-owners.

The injunction covers practically all the grounds of relief asked for by the Consolidated Mines company and enjoins the miners from every act which by any stretch of construction might be construed as inimical to the interests of the mine-owners.

### SNAPPING COLD AT ST. PAUL.

Four Below There and Twenty-Six  
Under Up in the Dakotas.

St. Paul, March 8.—Extremely cold weather prevailed throughout the north-west last night and today, the warmest place in this region being St. Paul, where the temperature was four degrees below zero this morning at 8 o'clock.

Throughout North Dakota at that hour the temperature ranged from four below to 26 below. The crest of the cold wave extended from South Dakota to Winnipeg. The temperature rose slowly during the day.

## DARING OUTBREAK BY THREE LERS

Convicts at Deer Lodge Kill As-  
sistant Warden and Stab  
Warden.

### TWO PRISONERS WOUNDED.

Bleeding from Many Cuts from Pleas-  
ters' Knives, Conley Tells His  
Assaults With Revolver.

Deer Lodge, Mont., March 8.—Warden Frank Conley of the Montana state penitentiary was fearfully wounded this morning and his first assistant warden, John Robinson, was killed, when three life-convicts, George Rock, W. H. Hayes and another, whose name is not given, made a dash for liberty in the penitentiary about 8 o'clock. It is thought the warden will live. Robinson's throat was cut from ear to ear and his body was gashed and he was stabbed several times in the shoulder and groin before he was able to draw his revolver and shoot two of the assailants down. Convicts Hayes and Rock were both shot down by Conley after the latter had been wounded.

#### TRUSTED MAN A PLOTTER.

The attack on the prison authorities and a subsequent effort to escape has, according to the prison authorities this afternoon been long planned by Rock and Hayes, who were cellmates. Both were armed with pen knives, the blades of which were sharpened like razors.

The three convicts were brought to the office of the penitentiary in the courtyard this morning at 8 o'clock by Deputy Warden Robinson, to be tried for some trivial infraction of the prison rules, and Conley was waiting to sit in judgment. Hayes had for several months been "trusty" and had been given the position of turnkey. He had been placed in the same cell with Rock, because the authorities believed he would watch the latter, the most desperate convict in the institution.

#### CUTS ROBINSON'S THROAT.

The moment the men entered the office door, Rock turned swiftly upon Robinson, who was closing the door behind the men, and, quickly drawing out a knife, he began slashing at the deputy warden's chest. Robinson was unable to retreat or move before his throat was cut wide open and he sank to the floor, dying. At the same moment that Rock attacked Robinson, Hayes also pulled out a knife similar to that of Rock and started for Conley. The latter retreated to the rear of the office before the oncoming desperado. Before Conley could draw his gun, however, Hayes had slashed his throat, cutting him from the left ear to a point under the chin. The convict, seeing his intended victim getting away, grappled with him and stabbed him several times in the shoulder and the groin.

#### CONLEY WAS GAMB.

Although bleeding terribly, Conley managed to draw his gun from his pocket and fired four times with the weapon pressed against Hayes' abdomen. As Hayes sank to the floor, Rock rushed at Conley, who emptied the two remaining cartridges in his gun into Rock, and the latter also went down. The third convict, who had been called to the "carpet" took to his heels at the first of the battle, but was quickly captured and placed in his cell. The authorities refused to give his name until they had investigated whether he was concerned in the plot or whether he had merely been called to the office at the same time as the other two.

How the convicts, Hayes and Rock, secured possession of the knives is a mystery. The refractory of rules had been planned in order to reach the warden's office, where the convicts would have more chance in making a dash for liberty.

Rock was shot twice through the lungs, and Hayes three times through the abdomen. Both are badly wounded, but it is believed they will recover.

#### MY HAIR WAS RESTORED.

By Cuticura, after all else had failed.—  
A. W. Taft, Independence, Va.

### CHINA MAKES APOLOGY ON TATSU MARU AFFAIR

London, March 8.—A special dispatch received here states that China has apologized to Japan for hauling down the Japanese flag when the steamship Tatsu Maru was seized. The dispatch further states that China will later reply to the Japanese government regarding the seizure of the steamer and its cargo.

This statement was made at the Japanese embassy here today that China has expressed deep regret for hauling down the Japanese flag on the Tatsu Maru and has promised to punish the officer responsible for the act. It was further stated that China had promised to reply later concerning the seizure of arms.

### ARREST ALLEGED ANARCHIST.

San Francisco, March 8.—Acting under the order of the chief of police, policemen stationed at Walton's pavilion this afternoon arrested Carl Brown, son-in-law of George W. Conroy, army fame, and himself a noted socialist. He is being held on a charge of disturbing the peace. He was making an alleged inflammatory speech to a crowd of about 1,000 at the time of the arrest. The police have orders to bring in any persons who display any anarchistic tendencies or make public speeches of an anarchistic nature.

#### HOWELL MEETS EMANUEL.

Rome, March 8.—Vinc. Victor Emanuel today received in private audience William Dean Howell, the American novelist, entertaining him in a most cordial manner for half an hour. The king was deeply interested in the president's campaign in the United States and the cruise of the American fleet to the Pacific.

### BONAPARTE SEES NOTHING THAT SEEMS MYSTERIOUS

Baltimore, March 8.—Atty. General Bonaparte was asked today whether he thought the Western Maryland railroad receivership was due to the so-called "non-negotiable clause" of the Hepburn law.

"As to the cause of that receivership, I know no more than your readers generally," replied the attorney general, "but as the 'non-negotiable clause' is not altogether operative until May 1, I can not see how its effects can have prevented the company from meeting its obligations on April 1."

"The cause of the receivership does not seem to me, at first sight, especially mysterious. Apparently it is property could not earn enough to meet the charges with which it was burdened, and therefore the corporation was virtually and, indeed, literally, insolvent."

## BLACK HAND MET BY FIVE BULLETS

Member of Alien Band Takes the  
Missiles With Him to the  
Hospital.

### HE TRIED TO ROB A BANKER

Intended Victim Looked Down Barrel  
Of Italian's Revolver and De-  
cided to Use His Own.

New York, March 7.—Repulsing a daylight attempt of the Black Hand to rob his bank today at the point of a pistol, Pasquale Patti, who conducts a large banking and exchange business in the Italian quarter in Elizabeth street, in a pistol duel in which his son-in-law, Louis Cartier, joined, shot Francesco Pellaro, alias Giuseppe Sapio, who is dying tonight in a hospital with five bullet wounds in his body as a result of his attempt to hold up the bank. A second man, Michael Dogostino, whom the police believe is an accomplice of Pellaro, was arrested while running from the bank after the shooting.

For fourteen years, Patti told the police, he was constantly receiving Black Hand letters and only a month ago the front of his bank was blown up by a bomb and \$50,000 scattered in the street, which was saved by prompt work on the part of the banker.

The closing hour of the bank was near at hand today, and the streets in the neighborhood were teeming with people returning from a half holiday's toil, when Pellaro entered the bank.

#### FILLED FULL OF LEAD.

Patti was talking with his family when Pellaro, drawing his revolver, declared his intention of killing the banker. Quickly seizing a revolver on the shelf, Patti opened fire on Pellaro, while on the other side of the bank, Louis Cartier, who conducted the branch postoffice station in the institution, drew his revolver and also began firing. Pellaro fell to the ground with five bullet wounds in his body, and Dogostino was caught running from the bank.

Pellaro told the coroner tonight that he went to the bank to kill Patti, but fired no shots. The police have been unable to find Pellaro's revolver. Patti is held by the police pending further investigation of the affair.

### POLICE BAN ON EMMA STOPS ANARCHISTIC TALK

Chicago, March 8.—Emma Goldman, exponent of the doctrines of anarchy, did not make a public address in Chicago today, as it had been announced purpose to do. Strict orders issued by the police during the week to owners and managers of places of public entertainment to place in which to hold a meeting. To guard against a surprise, however, the police were detailed to watch all gatherings but reports tonight from all quarters indicated that no attempt was made by her to violate the police injunction against public speaking. Special attention was paid by the police to a concert and meeting held in a hall at North Clark and Erie streets, where many anarchists were known to be among the attendees. Some 30 members of the society gathered in expectation of hearing a speech by Miss Goldman, but knowing that permission to hold a meeting had been denied by the agent of the building. Upon refusal by some of the disappointed ones to disperse when ordered by the watchman to do so, the police were summoned and the hall was closed.

#### UNION RIOTER SENT UP.

Ashtabula, O., March 7.—John O'Brien of Cleveland, former representative of the structural iron workers' union, was sentenced to six years' imprisonment at hard labor in the Ohio penitentiary today. O'Brien was convicted of assault with intent to maim George Riley, a non-union iron worker, in a labor riot at Ashtabula Harbor, Feb. 5.
