CORRESPONDENCE.

INCONSIDERATE EXPOSURE CONDEMNED.

SALT LAKE CITY, May 27, 1884.

Editor Deseret News:

It has been remarked by many Gentiles that you have shown more consideration for some unfortunates than have the other papers of this city. I refer to those who have gone beyond the bounds of prudence in indulging, and when arrested, their names have appeared in full in the papers referred to, while the News has considerately refrained from mentioning names.

I have been induced to make this communication on account of one circumstance, and there are probably many equivalent ones. The one I refer to is a young man who was arrested and fined, and his name appearing in the *Tribune*, caused him to lose a good prospective situation, and worse than all, the girl whom he had loved and to whom he was engaged.

There are many arrested for drunkenness who richly deserve it, and who do not care a straw if their names appear in print or not, yet there may be others who, like the young man mentioned, may for the first time have been intemperate, and through the very inconsiderate meanness of some of the journals referred to, have their prospects ruined, and hopes of happiness destroyed.

GENTILE.

POINTS FROM PAROWAN.

PAROWAN, May 26th, 1884.

Editor Deseret News:

The burden of all the communications from different parts of the Territory that you have published lately has been "high waters," and this place is no exception in that respect. Part of the time this spring we have had seven times our usual quantity of water, and we look for more high water next month. Through the constant watchfulness of our watermaster, Alander Orton, and our putting in stitches in time, we have got along pretty well so far, though the grist mill company had their works at the head of their long flume (36 yards long) washed out three times in the last six or seven weeks, but we have got them now in better repair than ever. Little Salt Lake is about a mile and a half wide by four or five miles long, and fast growing larger from surplus water that runs into it.

Yesterday morning (Sunday) the people had the pleasure of witnessing the best

SUNDAY SCHOOL JUBILEE

ever held in Parowan. Nearly thirty pieces were rendered by the children, including songs and choruses, recitations, readings, etc. Questions were put by the Superintendent and answered in concert and with great promptness by the school. The improved and cultivated singing gave great satisfaction. This result is due to the zeal of the superintendents and the labors of Prof. Durham and Brother Lars Mortensen, leaders of the Sunday School Choir. And I might add a growing interest among the people to train their children as the children of Latter-day Saints should be reared. The Superintendent of the School, Brother M. Richards, Jr., stated at the close of the jubilee that he had had charge of the Parowan Sunday School ten years, and that it never before had been in so prosperous a condition as at the present. He gave credit to his assistants Brothers Lars Mortensen and Peter M. Jensen; also all the teachers of the School.

When Apostles Moses Thatcher and F. M. Lyman held meetings with us three or four weeks ago Brother Thatcher paid a high compliment to our choir by stating that he

ADMIRED THEIR SINGING

and testified that they sang with the spirit. Could a higher compliment be paid to any company of sweet singers among the Latter-day Saints than to have an Apostle testify to them that they sang with the spirit. Surely all the sweet singers in Israel should sing with the spirit, and with the understanding, for God has said that the song of the heart is as a prayer unto him.

The prospect for an

ABUNDANT HARVEST

is all that could be desired, so far, of all kinds of small grain. Our fruit trees are covered with blossom, excepting peach and apricot trees. We have never yet been troubled with the codling moth. This may be accounted for from the fact that some years the frost takes our fruit and perhaps the worms too.

Very respectfully,
WM. C. MCGREGOR.

Slavery bids fair to soon be a thing of the past in Cuba. Sixteen years ago a law was past providing for the gradual manumission of slaves on the island, of whom there were at that time about 385,355. So well has this law been administered, the planters in many cases showing a willingness to act even in the anticipation of its provisions, that 285,000 slaves have been already set free, and there are good grounds for hoping that during the year the frade will be entirely wiped out.

The schooner had almost reached the Shetland coast when she was driven to Iceland.

In the course of the 52 weeks that ended on Dec. 29th last there were 133,656 births registered in London, the population in 1883 being estimated at 3,955,814. In 1882 the births reached 132,200, so that the actual increase has been only 456; and if due allowance be made for increased population, the birth-rate will show a slight decline—namely from 34.3 to 33.9. There was also 80,678 deaths recorded in London in 1883, against 82,005 in 1882. The death rate thus falls from 21.4 to 20.4, the lowest one yet given for the metropolis. There were 10,487 deaths of infants under one year, and 19,467 of adults aged 60 and upwards.

TUTT'S PILLS

TORPID BOWELS and DISORDERED LIVER.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, fullness after eating, aversion to exertion of body or mind, Exhaustion of feed, Irritability of temper, Low spirits, a feeling of having neglected some duty, Dizziness, Fluttering at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body. TUTT'S PILLS cause no nausea or griping nor interfere with daily work, and are a perfect ANTIDOTE to MALARIA.

PRICKLY ASH BITTERS

The majority of the ills of the human body arise from a derangement of the Liver, affecting both the stomach and bowels. In order to effect a cure, it is necessary to remove the cause. Irregular and sluggish action of the Bowels, Headache, Sickness at the Stomach, Pain in the Back and Loins, etc., indicate that the Liver is at fault, and that nature requires assistance to enable this organ to throw off impurities.

Prickly Ash Bitters are especially compounded for this purpose. They are mild in their action and effective in a cure; are pleasant to the taste and taken easily by both children and adults. Dose according to diseases. They are a safe and pleasant cure for Dyspepsia, General Debility, Habitual Constipation, Diseased Kidneys, etc., etc. As a Blood Purifier they are superior to any other medicine cleansing the system thoroughly, and imparting new life and energy to the whole. It is a medicine and not an intoxicating beverage.
