## TAYLOR IRON LANDS.

Colorado Fuel & Iron Company Has Acquired Them.

When the Kimberly syndicate surrendered its option on the Taylor es-tate iron lands in Iron county several months ago, it was known that the Colorado Fuel & Iron company was ready to step in and purchase them at any reasonable figure. It appears that Mr. O.M. Ladd, the Utah representative of the Gland de Contraction of the state of t Mr. O.M. Land, the tran representative of the Colorado company has succeeded in this and that he now has a force of 60 men at work upon the properties tak-en over. Indications point very plainly that w iron mines of the south will not be tactive much longer. While it is not robable that Utah will get the bene-t of the building of great rolling mills, ories, etc., as projected by the Kim-y syndicate, yet there is this satisinduction left; the mines will be develop-and worked. It is quite certain that Elio Grande will push its Marys-branch onward to the iron fields

The ore and bullion settlements made yesterday through the banking house of McCornick & Co., amounted to \$45.is said that this understanding ben reached and that soon after completion the Colorado Fuel & a company will supply 1000 tons of 400, as follows: Base bullion, \$20,100; gold bullion, \$2,200; gold, Tead, silver and copper ores, \$23,100, Peter Weimer, superintendent of the
