For country people visiting the city, and strangers from a distance, the Townsend House was considered unsurpassed. Walker Bros., sald Mr. F. G., was the oldest mercantile firm in the city, was doing a large business in almost every kind of general merchandise, and was sure to be extensively patronized, as it sold many articles at very reasonable prices. "We must have plenty of nuts and some candy," said a chorus of the younger Goodcheers, and this brought up the name of Henry Wallace the principal confectioner in the city, at whose store may be found a choice and extensive variety of articles of that kind, much of it own-make. These fine, mild, beautiful days, Mrs. M. G. said, it was really a treat to ride by the street railroad up to the Warm Spring Baths and enjoy a bathe in their medicinal waters. To this Mr. P. G. and the boys readily assente", the latter observing that they could have a pinnge and a swim, and then go to the Hot Spring Lake and have a nhour or two at skating, and perhaps a ride in the icelost. SOME THINGS THAT MIGHT BE ASKED FOR. EVERY winter a self-constituted ring deputation from Utah marches off to Washington to urge con- gressional and other action in regard to this Territory, and the action urged is invariably of a pro- scriptive, anti-republican character. Some of the bills prepared by these deputations for Congress to swallow have been of a most outregeous, yea, infamous character, destruc- tive, absolutely annihilative, of the very foundation and distinctively guiding principles of American government. Most of these bills fail to pass, because of their very outrageousness and republic-sub- versive character. But a little is gained by these deputations ever and anon, and the common liber- ties of the people have been corres- pondingly abridged. All these bills are of a decidedly usurpative character, and there is not one of them that is not intended to be a direct blow at the rights and privi- leges of the people of the Territory,	terday, and \$42,700 was found in his possession.
