

Tarrant's Seltzer Aperient.

Continues to hold its own against all of the imitations that its great success has encouraged other manufacturers to put upon the market. For years this mild, wholly uninjurious and efficacious preparation has enjoyed the confidence of the public, until it has become one of the most indispensable and most trusted of known medicaments. From one end of the country to the other it is in constant demand, and even abroad it has a reputation scarcely less decided. Physicians prescribe and recommend it, and it is not ranked by them among what they know and oppose as patent medicine. It has none of the unpleasant effects upon the health that attach to the numberless purgatives and cathartics that are scattered widespread through the land. On the contrary, Tarrant's Seltzer gently assists nature, and does not violently attack it. Its services in most of the lesser complaints that are a source of general trouble, give to it a wider sphere of usefulness than is covered by any similar aperient. These comments are unnecessary to those who have ever given this seltzer a trial, and are intended solely for those who, suffering from the troubles which it inevitably remedies, have not yet sought in it a relief from such ailments.

Rev. C. A. HARVEY, D.D., of Financia, Educational Secretary of Howard University, certifies that he has been acquainted with the Safe Kidney and Liver Cure for two years, and "in some cases of Bright's Disease, which seemed to be in the last stages, and which have been given up by practitioners of both schools, the speedy change wrought by this remedy seemed but little less than miraculous."
