

ing the emigrants were uninjured. No one was hurt and their baggage all safe.

ESCAPE OF CONVICTS.

FIVE PRISONERS BREAK OUT OF MALAD JAIL.

Last Tuesday morning, about two o'clock, the guards at the Malad jail discovered that five prisoners, Wm. Whitley, the man who shot Agent Green at Eagle Rock; Thos. Beach, for cattle stealing; Jones, Johnson and Campbell, sentenced for one year for breaking into the Eagle Rock jail to release prisoners, had escaped. The prisoners had cut a hole through the ceiling and roof of the jail, and all had on shackles at the time of their escape. Several other prisoners were attempting to escape when the guards found out the above five had flown, but on being threatened that if they did not get down from the hole in the roof, they would be shot, they did

The alarm was given and parties started in different directions to capture them. Sheriff Homer and lawyer Rich are among the number that are in pursuit. We understand a reward of \$300 is offered for their capture, but do not positively know. Oxford Enterprise, May 31st.

UNIVERSITY OF DESERET.

CLOSING EXERCISES OF THE LATE ACADEMIC YEAR.

The closing exercises of the University of Deseret for the academic year 1882-3 were conducted yesterday afternoon, at the University building, beginning at 2 o'clock. The proceedings opened with singing by a music class, conducted by E. Stephens. Prayer was offered by the Rev. John T. Caine. After the reading of the normal course of study, Dr. Park, the President of the University, made some explanations regarding the diplomas to normal graduates for the present academic year. The names of those whom diplomas were presented

Robert Salmon, Kate Snedaker, Mah E. Vincent, Rachel Edwards, Nels Jensen.

Miss Sarah E. Vincent, a normal graduate, delivered an excellent address, from which the following is an extract:

Our duty will be to direct the minds of children in their endeavors to obtain knowledge, which can be secured through perfect channels of communication with the world. Moral and physical training are to all as essential as mental culture, for intellectuality without morality to guide it is productive of no real good. Physical education is as necessary as moral; the body, which was formerly deemed unworthy of consideration, is now found to be the main and perfect avenue to our obtaining the images of surrounding ob-

jects. There are hundreds of minds in the Deseret Territory ready to receive the mental photographs of the world in all her wondrous beauty, and we have been selected as their agents in the mighty work. If we, the teachers, go forth well qualified, what can we not accomplish? In the schoolroom, is the reputation of a good teacher? What the influence upon the bodies as well as the minds of children? Compare the results of the present time with the results of our grandfathers' time; the change! Not only in the individuals themselves, but in the intellectual advancement of the whole race.

As education becomes more universal, peace, union and love increase abundantly on the earth. By the natural agents of this world we have been employed to save valuable time and greatly lessen the labor of man. Communication with even the most distant parts is almost instantaneous, and the world is gradually proving to be one of its great service in other respects.

Through knowledge that the world is a machine, have been contrived with which, at the trifling cost of a few dollars per day, the amount of work can be accomplished that formerly required hundreds of men. As a result of this, there is a reduction in the price of goods, and men, instead of being hard from mortification till night for a mere trifle, have ample time to improve themselves. Were it not for the educational advancement in this "age of inventions," what

would be the result upon the gradually increasing population of the world. What the social condition? True education improves society, enlightens the mind, elevates the soul and teaches us the way to our God.

Addresses suited to the occasion were delivered by Hon. L. John Nuttall, Territorial Superintendent of District Schools; T. B. Lewis, Superintendent of District Schools for Salt Lake County; Hon. Geo. Q. Cannon, Chancellor of the University and Hon. John Taylor, ex-Superintendent of District Schools.

After singing and benediction an adjournment was taken until August 20th, at 9 o'clock a.m., in the same building.

FROM SATURDAY'S DAILY, JUNE 2.

The Mammoth Property.—Those holding accounts against the company owning the Crismon Mammoth property in Uinta District, will be delighted to learn that Mr. Goodhart, an eminent English barrister, interested in it, arrived last night, and proceeded to the mine to-day to investigate the situation.

The Murder Case.—This morning Justice Spiers recorded a decision as the result of the investigation of David Gallifant on a charge of the wilful murder of Richard Fowler. The Court held that the evidence warranted the belief that the grand jury would find an indictment for murder in the second degree, and the prisoner's bonds were placed at \$5,000. The security not having yet been given, Gallifant is still in jail.

Indian Farm at Deep Creek.—This morning we learned from Bro. R. L. Bowen, one of the missionaries at the Indian farm on Deep Creek, that the oats and wheat, amounting to about 100 acres, sown this spring, look well, considering the late time the crops were put in the ground. The Indians located there number 75, and they generally show great willingness to work and improve. Besides Brother Bowen, Brother O. H. Barris and Jno. Erickson are laboring to teach the Indians how to live, Brother W. H. Lee, interpreter, having charge of the mission. The last named is familiar with the Indian tongue and the others are acquiring it.

Pleasant Green Dry-Farming.—This morning Brother L. N. Hardman, of Pleasant Green, near the Point of the Mountains west, exhibited to us some specimen products of this season's dry-farming in that Ward. One was a bunch of rye, about four feet eight inches high—the average of the crop—and another of barley, about three feet high. Both samples were beautifully headed out. He also stated that the condition of wheat in the same locality is equally satisfactory, being well headed. All were sown in the fall.

The rye is cut for hay, the farmers finding it most excellent for that purpose, being in reality a combination of hay and grain, and animals do finely on it.

The Work in Indiana.—By courtesy of President Joseph F. Smith we have been enabled to peruse a very interesting letter from Elders S. R. Marks and C. M. Squires, who are laboring in Indiana. The communication was written at Andersonville, Franklin County, and shows that an encouraging prospect is opening up in that place. A short time since a Baptist preacher announced his intention of preaching against the "Mormons" and "Mormonism." His meeting was to be at 11 a. m. and Elder Marks announced a meeting for 3 p. m. on the same day, at which he intended to make a reply. The Baptist made a great many confused, contradictory and ridiculous statements, resorting to slander in place of evidence and argument, laying himself open for the Elders. In the afternoon, Elder Marks replied, completely overturning the scurrilous discourse of the Baptist, the people being so gratified with the answer that the brethren were crowded with invitations to visit them at their homes and partake of their hospitality. Many friends were raised up on every hand, and there were excellent reasons for the expectation that the Elders would before long succeed in raising up a branch. They feel quite encouraged in their labors.

From England.—Yesterday we received a pleasant visit from Elder W. H. King, of Fillmore, who returned on Wednesday from a mission. He left this city in October, 1880, went to England, and received

an appointment to labor in the Nottingham Conference. He operated in that field for sixteen months, and during that time, in the Hucksall-Torkhard District of the Conference, the labors of himself and companion Elders resulted in one hundred additions to the Church by baptism. Elder King was next appointed to the London Conference, and labored mostly in the North London Branch, where forty new members were added, mostly baptized by himself. He made a tour through Scotland and the north of Ireland, in September 1882, and was decidedly of opinion that the latter country, among the Protestant portion of the population presented a good field for the Gospel, and had it not been for the breaking out of political troubles it was the intention of President Smith to have him labor there during the remaining portion of his stay in Europe.

Brother King crossed the ocean on the homeward trip in the company of Saints who sailed from Liverpool in April, left them at New York and spent the intervening time up to the date of his arrival here in visiting relatives in the East.

Carrington Caught.—Yesterday Deputy U. S. Marshal Greenman returned from the north, having in his custody Dr. Carrington. He was found in Georgetown, Bear Lake County, Idaho. He was taken before U. S. Commissioner Gilchrist, by whom he was held in bonds of \$2,500. Failing to find the required security he was conveyed to the Penitentiary. The scribbling falsifiers who applaud the imprisonment of "Mormon" women and their infants who are not even charged with any crime are whitewashing this unsavory individual; he certainly needs their assistance. No amount of twisting and squirming can alter the color of the case, which is precisely as we first stated it, and the coolness and unmistakable indifference about prosecuting him manifested by certain U. S. officials is in striking contrast with the extra-judicial proceedings of the same class against a woman of the "Mormon" faith, against whom there is no imputation of crime. No amount of rigor against Carrington now will wipe out that fact, after the officials see how broadly they "put their feet in it." As an evidence that he obtained a decree of divorce from his wife before marrying another, he exhibits an informal document, of which the following is a copy:

OFFICE OF CLERK OF COUNTY COURT, Davis County, U. T., April 16, 1883.

J. B. Carrington, Esq., Farmington.

Sir.—The Court has decided to grant a divorce, according to your prayer.

Respectfully, JOSEPH BARTON.

However much the Court may have decided to grant the decree it did not do so. If it were otherwise why is the poor man sent to the "pen," when at an examination of the case the record of the County Court for the County of Davis could at once manifest his innocence.

FROM MONDAY'S DAILY, JUNE 4.

Precinct Committees.—The various precinct Committees of the Peoples' Party, in this City and County, who acted at the election of last November, are expected to meet at the Council House to-morrow night, at 7 o'clock. Punctuality of attendance is particularly desired.

Another Assistant.—Heretofore, President George Q. Cannon has only had one assistant in his office of General Superintendent of the Deseret Sunday School Union—Brother George Goddard. On Friday last Elder John Morgan was appointed Second Assistant Superintendent, a selection that will at once commend itself as exceedingly judicious, Brother Morgan being well qualified for the position.

Had His Head Hurt.—Yesterday Joseph Foster, of the 21st Ward was swaying on the "big swing" at Fuller's Hill, when the upper bolt drew out of the frame, letting one side of the contrivance down, precipitating him to the ground. The bolt struck him on the head, cutting a gash about three inches in length. He was rendered insensible, and in that condition was taken to a doctor to have his wound dressed. The young man is about eighteen years old.

Another of the Same.—Yesterday a gentleman from East Mill Creek tied his team to a post near the U. C. R. R. depot, while he went upon the grounds to see about some matter of business. The snorting of a passing engine frightened the animals, which broke loose and ran eastward. On West Temple Street, on the west side of the Temple Block, the carriage collided with a telephone pole. The force of the shock broke off about eight feet of the lower portion of it, and caused the upper part to fly upwards a considerable distance. The vehicle was also considerably damaged. The horses did not appear to wish to proceed any further after that.

The Immigrants.—The second company of this season's emigration from Europe arrived in this city yesterday, (Sunday) morning at 9 o'clock, after a prosperous journey both by sea and land. The Saints were under the care of Elder Ben E. Rich, who, we understand, has gone north to Bear Lake Valley, Idaho, to see his father, whose health, as our readers are aware, has been in a precarious condition for a long time. He, assisted by the other returning Elders, displayed constant activity and energy in looking after the interests of the flock over which they had the oversight, their labors making the journey comparatively pleasant to the people.

Back from Norway.—This morning we were called upon by Elder N. H. Borrasan, of Spring City, Sanpete County. He returned on Sunday from a mission to Norway, for which country he left Utah on the 7th of August, 1881. He says the work has been making good progress in that country. His labors were largely connected with the Frond Hiam Branch, which is composed of excellent, but extremely poor people, who, on account of the scarcity of employment can hardly manage to live at all. They are praying day and night for deliverance, and Brother Borrasan thinks that the Norwegian brethren here could not do a more benevolent action than help them to gather home. Our opinion on the subject is identical with his.

A Marvelous Escape.—The other day as the immigrant company were coming along on the U. P. R. R., the train running at the time at the rate of about twenty miles an hour, a German boy, about twelve years old, fell out of the window of a car. The incident caused a sensation in the company, as a general idea prevailed that he was killed. The train could not be stopped until the station in advance was reached, from which point an engine was sent back, the expectation being that the fragments of the lad would be picked up from the line. The engine had only proceeded a short distance, however, when he was seen coming onward along the track on the full run, anxious to catch the train. He escaped with scarcely a bruise or scratch.

That Instant Death.—On Saturday we noted the fact of a woman having died suddenly on the morning of that day, at the house of Mr. John C. Young, at Granger, adjacent to the Sixth Ward Bridge. Coroner Taylor, accompanied by an officer, made the necessary inquiries into the case, and found that the body had been shipped to the parents of the deceased, who reside at Harrisville, Weber County. An inquiry developed the fact that the deceased had been subject to attacks of acute peritonitis, and an examination of the remains at Harrisville, by a physician, on their arrival there, showed that death resulted from that cause. The name of the young woman was Sophia E. Zelling. She was born in this city and was twenty years of age.

Providentially Protected.—The smashup of a portion of the train on which the company of Saints were traveling, occurred at half past eight o'clock on Friday morning, about two miles this side of Tie Siding, in Wyoming Territory. There were five freight cars on the front part, and by the breaking of an axle, all that part of the train was completely wrecked, the remarkable feature of the affair being that the ruin extended to the point of connection with the cars in which the Saints and their baggage were being conveyed, and there abruptly stopped. The people acknowledged the hand of God in their preservation, and Elder Ben E. Rich called them together, the whole company going into the adjacent mountains and returning thanks to the Lord for His

goodness. The company being of mixed nationality, prayer and hymns of praise were offered to the Most High in the English and German languages, that all the company might join intelligently in the exercises. The scene is described by those who witnessed it as an interesting and affecting spectacle.

Z. C. M. I. Superintendency.—The resignation of Hon. Wm. Jennings as superintendent of Z. C. M. I. has been before the Board of Directors for some time, but owing to a reluctance to accept of it and thus part with this gentleman's efficient services in that position, no action was taken in the matter until the afternoon of Saturday last. At a Directors' meeting then held Mr. Jennings' resignation was accepted and Gen. H. S. Eldredge appointed to fill the vacancy. While regret is felt at the retirement of the late incumbent, it is a matter for congratulation that so able a successor as Mr. Eldredge has been secured. Owing to his having occupied the office before he is familiar with all the details of its duties, and will have an able corps of assistants, among whom we understand is S. W. Sears, Esq., who will have a supervisory oversight of the Ogden Branch, and devote a portion of his time to assisting the Superintendent in the conduct of the affairs of the parent Institution in this city. Z. C. M. I. has prospered under Mr. Jennings' manipulation, and we believe it will also flourish under the management of his successor.

TERM OF THE SUPREME COURT.

PROCLAMATION. TERRITORY OF UTAH, EXECUTIVE OFFICE.

Know all men by these presents: That, whereas, it has been made to appear to me by His Honor P. H. Emerson, that a majority of the Judges of the Supreme Court of the Territory of Utah are absent from the Territory.

Now, therefore, I, Eli H. Murray, Governor of the Territory of Utah, by virtue of the authority in me vested, do hereby order and proclaim that the term of the Supreme Court of this Territory, heretofore fixed to be held on the first Monday in June, 1883, be, for this year, held at the City and County of Salt Lake on the third Monday of June, 1883, said term of Court to convene at the hour of 12 a. m.

In testimony whereof I have hereunto set my hand, and caused the Great Seal of the Territory to be affixed.

Done at Salt Lake City, Utah, this second day of June, A. D. 1883.

ELI H. MURRAY, Governor.

By the Governor: ARTHUR L. THOMAS, Secretary of Utah Territory.

How refreshing, how like a benediction, sleep comes to one who, for tiresome days and wearisome nights, has tossed about asking the rest he could not find, burning with fever or shaking with cold, utterly worn out and prostrated. Do you ask what wrought this wonderful change? Emil Freese's Hamburg Tea, the great blood purifier. It is wonderful in its effects, restoring the appetite, and the loss and waste caused by disease, like magic. Keep it by you.

LOST FAITH IN PHYSICIANS.

Why is it that so many persons use proprietary medicines, or patent medicines, as they are commonly called? Is it because people lose faith in their physicians? Well, this is, no doubt, frequently the case. There are innumerable instances where cures have been effected by Scovill's Sarsaparilla or Blood & Liver Syrup for all diseases of the blood, when they had been given over by their physicians. It is one of the best remedies ever offered to the public, and as it is prepared with the greatest care, as a specific for certain diseases, it is no wonder that it should be more effectual than hastily written and carelessly prepared prescriptions made by incompetent physicians. Take this medicine for all disorders arising from impure blood. It is endorsed by leading professional men as well as by eminent physicians and others. Try it.

Nervousness, peevishness, and fretting, so often connected with overworked peoples' lives, is rapidly relieved by Brown's Iron Bitters.
