BOOK BINDING AND PAPER RULING

GEORGE Q. CANNON,
EDITOR & PUBLISHER.

BREVITIES.

John C. Heenan, it is said, has "got religion," his wife being a pious woman.

Spurgeon has dropped the "Rev." from his signature, and now signs himself "Pastor C. H. Spurgeon."

It is a curious fact that though the rain keeps thousands away from church on Sundays, it does not deter a single man from attending to his business on week-days.

An indignant St. Joseph, Mo., husband, whose wife has sued for a divorce, writes a protest to Judge Adams, in which he says, "This dam noble thing call divorce has in my opinion parted many a man and his wife."

A paper says, "The prettiest sights the human eye ever rested upon is gold in its liquid state." Whereupon another suggests that "the human eye in this vicinity would be satisfied if it could see any of the metal in a solid state."

The Kennebec (Me.) *Journal* has the following advertisement:

Found—On Saturday, September 30, an honest exile of Erin picked up in Augusta a physician's satchel containing medicine enough to fill a cemetery. It is at the *Journal* office."

A young man who had seen the Fourth of July was discovered by his mother on the fifth, sitting on the wood box in the yard, trying to pull off his boots. His mother held up her hands in horror at the sight, while he, endeavoring to stand erect, exclaimed, "I'm not drunk, mother, but a sicker child you never had."

"Doctor," said a wealthy patient to his physician, "I want you to be thorough. Strike at the root of the disease." "Well, I will," said the doctor, as he lifted his cane and brought it down hard enough to break into pieces a bottle and glasses which stood upon a sideboard. It was his last professional visit in that house.

Nine murderers were recently executed at Kiev, in Russia, by one hangman, who had no assistants with him. He strangled them one after another on a low gallows. The dreadful scene lasted two hours. The last man who was executed, and who witnessed the execution of the eight others, fainted away before his turn came.

A beautiful blond went into a Troy cigar store to make some purchases. When shaking her head to announce that the goods did not suit her, her auriferous tresses touched the patent cigar lighter, and instantly took fire. She pulled the wool off, and stamped out the fire to the amazement of the bystanders.

The deformity of woman's feet in consequence of the hideous styles of shoes now prevalent, is said by surgeons and shoemakers to be terrible. Bunions, corns and swelled joints are almost universal, and in many cases permanent deformity and lameness have resulted from the overstraining of muscles by the position in which the high heels hold the feet.

Specific for diptheria.—The Italian journals publish a letter from Dr. Giovanni Calligari, describing the remarkable success which has attended his treatment of diptheria with phenic acid. He relates the losses he formerly experienced among his patients when treating them with emollients, solvents, and cauterization with hydrochloric acid, and observes that this cauterization can no more eradicate the morbid principle than tearing the leaves off a plant will destroy the root. He now simply uses a gargle of phenic acid and distilled water, with external applications of new flannel; the food and drink to be taken cold. After the adoption of this treatment Dr. Calligari lost but one patient out of fifty-eight. He requested the Italian journals to publish his discovery. Phenic acid is the agent which is now being used in this country as a remedy for cancer, and seems likely to effect an immense saving of lives formerly hopelessly sacrificed to that disease.

In England, where experimental agriculture is carried to an extreme almost unknown with us, the invention of methods of irrigation has been very ingenious. At Stoke Park a tract of twenty acres is irrigated by artificial rain, the system being quite successful. The water was applied every night last summer in showers, excepting when natural rain made it unnecessary. The apparatus consists of pipes laid in the ground, supplied from the elevated reservoir, into which water was pumped by machinery. The financial exhibit made by the results of the experiment is said to be a good one. The interest on the money invested in the necessary machinery, and the cost of operating it, aggregated $95 per acre for the entire tract of twenty acres. Likewise the income per acre aggregated $200, being made up of the proceeds of one crop of grass and grazing in the autumn of 1870, and two crops of hay in 1871. The net profit was thus $105 per acre. On one of the same tract and same character used for the same purpose, but where the irrigation was omitted, the net profit per acre was but $45.

[SPECIAL TO THE DESERET NEWS.]

By Telegraph.

Per WESTERN UNION Telegraph Line

WASHINGTON.

WASHINGTON, 24.—A petition was received at the Executive Mansion, today, fifty feet long, signed by the women of Utah, protesting against polygamy and urging effective measures to suppress its practice in that Territory.

NEW YORK.

Mayor Hall.

NEW YORK, 24.—The grand jury today considered the subject of indicting mayor Hall for malfeasance in office. The witnesses examined were George Jones, of the New York *Times*, ex-sheriff O'Brien, Edward Baxter, furniture dealer, and Masterson and Palmer of the tenth national bank. The bill against the mayor was dismissed, but a bill of censure was passed on him for negligence in the discharge of the duties of his office.

The Lamar insurance company suspended to-day.

Workmen for Chicago.

A large party of workmen of various trades, will leave here for Chicago tomorrow.

Those Forest Fires.

POUGHKEEPSIE, 24.—The forests on the mountains in Ulster county are still burning.

SOUTH CAROLNA.

Presidential Nomination.

COLUMBIA, 24.—In a colored convention here to-day a resolution was offered favoring the nomination of President Grant, but a substitute declaring it impolitic to anticipate the action of the Republican party was adopted.

MARYLAND.

Religious.

BALTIMORE, 24.—In the Episcopal convention to-day, the committee on prayer book reported back four memorials on the following subjects: first, from public presbyters asking a canon granting leave to any clergyman to omit any words or passages in the liturgy which he believes conscientiously to be contrary to Holy Scriptures, or to certain doctrine which he is presumed cannot be proved thereby; second, asking a consideration of the difficulties entertained by many conscientious men with regard to the language in the baptismal service, and praying that the suggestions of nine bishops be adopted; third, requesting the convention to determine that wherever, throughout the book of common prayer, the word "priest" is used, it is to be understood as signifying presbytery; fourth, petitioning for the reinstatement of the canon repealed by the last convention, entitled, "Of persons not ministers in this church officiating in any church thereof." The committee reported that they did not deem any action on them now expedient. The report was adopted.

PENNSYLVANIA.

More Fires.

HARRISBURG, 24.—The mountains above Dauphin have been afire since Friday last. The operator at Dauphin says the fire extends two miles from the river and the entire breadth of Peter's mountain. The surrounding country is shrouded in smoke.

MICHIGAN.

A Touching Appeal.

DETROIT, 24.—The Michigan State relief committee has issued the following appeal:

"From twelve to fifteen thousand people, at least, in the State of Michigan, have lost their homes, food, clothing, crops, horses and cattle. On the night of the Chicago fire, 2,000 people on the east shore of lake Michigan, and 5,000 or 6,000 on the west shore of lake Huron, were reduced to almost absolute destitution. Within two or three weeks other small villages and settlements have been blotted out. The number of individual farm houses, barns and frontier dwellings, which have been destroyed by the all-pervading fire, cannot, from want of information, be accurately calculated in the aggregate. We know these fires are still burning. The area of ruin and devastation is daily increasing. The intensity and dramatic magnificence of the calamities which have overwhelmed other cities and villages, are wanting here, but the suffering exists. A long, hard, cold winter is approaching. Large numbers of these people are accessible only by water, and navigation will soon be closed. Scarcely a month or six weeks remain in which to feed, clothe and shelter them for the winter season, which extends far into the months of spring. They must be helped now or they will perish. They will need, too, in the early spring, seed, and implements for the harvest of next year. The greater portion of them must commence life entirely anew, without preparation, and at the beginning of winter their isolation from the avenues of commerce and the means of communication makes the problem of relief all the more difficult and all the more urgent. The people of Michigan have nobly responded to the appeals which this misery has made to their sympathy and generosity, but they are severely crippled indirectly in their business by the Chicago fire, and directly by the assistance they gave to the sufferers from that calamity before they were aware of the demands that would be made upon them at home. Many of them, too, have lost their resources by the fires which have occurred in this State. In their name, and in behalf of the victims already known, and of many whom we fear are yet unknown, we ask prompt and efficient aid from our benevolent fellow citizens every where. Money and supplies may be sent direct to the Michigan relief committee at Detroit or Grand Rapids."

FOREIGN NEWS.

GERMANY.

Fire.

DARMSTADT, 24.—The court theatre of this city took fire this evening, and is now wrapped in flames. A heavy easterly wind is blowing, and it is feared the flames will spread to adjacent buildings.

DARMSTADT, 8 p.m., 24.—The fire is rapidly spreading. The theatre is entirely destroyed, and a strong wind carries the flames and sparks westward into the upper town. The arsenal is in danger and the troops have evacuated it.
