OGDEN NEWS.

OGDEN, UTAH, - SEPT. 16, 1901.

COMMEMORATIVE SERVICE.

In Honor of Pres. McKinley Jointly Held by Various Churches.

Residence of William Jones Burglarized—Laying of Library Corner Stone Postponed.

Memorial services were held last evening at the Methodist church for the expression of the great loss the nation has experienced in the death of President McKinley. The Baptist, Congregational, Presbyterian and Methodist churches joined in the service. Appropriate music was furnished by the church choirs, and addresses were delivered by Revs. Goshen, Evans, Carver and Taylor. They spoke at length on the noble character and upright life of the beloved President, and of the cruel manner in which his life was taken by an assassin. The services were largely attended, and many eyes were dampened with grief as the speakers closed their remarks.

RESIDENCE BURGLARIZED.

The residence of William Jones, an engineer, at No. 2885 Park avenue, was entered by burglars some time during Saturday night, and a gold watch and gold bracelet were taken. The burglars gained entrance through a window and once inside ransacked the entire house. The watch taken was a ladies' gold huntling case beautifully engraved. The bracelet was a plain gold. The police are investigating the matter, but have found no clue to the burglars.

WORK ON LIBRARY POSTPONED.

The laying of the corner stone of the new Carnegie library building, which was arranged for yesterday, was postponed for one week out of respect to the death of President McKinley. The services will be held next Sunday afternoon, Sept. 22nd, at 2 o'clock p. m. The foundation work of the building is almost completed and the laying of the walls and putting on of the roof will be pushed to completion before the stormy weather begins.

HOLD MEMORIAL SERVICES.

Utah County Farmers Object to the Raising of Utah Lake.

Mrs. Nelson's Funeral—Horse Thief Bound Over—Tore Down Quarantine Flag—Divorces.

Special Correspondence.

Provo, Utah, Sept. 15.—The citizens of Provo join with the rest of the people of the United States in deeply mourning the death of President McKinley. Flags on public and private buildings are at half mast, the columns at the entrance to the court house are draped in the National colors and craps, and many pictures of the dead President in public and private offices are framed in emblems of mourning.

The services at the Tabernacle and the various churches, yesterday, were largely memorial in their nature. The speakers at the Tabernacle were Elders J. E. Booth, Joseph B. Keeler, and George H. Brimhall, who each referred to the sad death of the President, and the great worth of the distinguished dead.

Memorial services will be held Thursday, in conformity with the proclamation of President Roosevelt, in the tabernacle at 10 o'clock. The students of the Brigham Young academy will attend in a body.

MRS. NELSON'S FUNERAL.

There was a large attendance at the funeral of Mrs. Sarah Nelson, held in the First ward meeting house yesterday afternoon. The following were the speakers: Elders J. R. Johnson, C. D. Glazier, O. H. Berg and Bishop Andrew Knudsen, who testified to the worthy life of the departed and spoke words of comfort to the surviving relatives. The grave was dedicated by Elder M. L. Pratt.

THE JORDAN RIVER WATER.

Judge Milner, of the Utah Lake commission, and some of the Provo farmers, went to the mouth of the Jordan river yesterday, for the purpose of making investigations in regard to the feasibility of the canal in Salt Lake City to obtain a larger supply of water from Utah lake by lowering the bar at the mouth of the Jordan. The farmers in Utah county, owning lands which will be affected by increasing the flow of water into Utah lake, which increases would result from the contemplated project of Salt Lake City and the Salt Lake Canal companies, to turn some of the water of Duchesne river into Provo river, would much prefer that the Salt Lake canal receive the needed increase of water by lowering the bar in the Jordan river if by doing so the water of the Duchesne river would be diverted to Provo river. It is not yet known whether a meeting will be called.

FORSTHE BOUND OVER.

Harper Forsythe, alias Rosebud Fuller, alias Texas Blockie, who is charged with stealing a horse and buggy from Geo. W. Gee, was taken before Justice Noon Saturday for preliminary examination. He waived examination and was bound over to the district court in default of which he is in the county jail. He is the man who escaped from the Ogden city jail about ten days ago, and was recaptured in Logan, being held by the Ogden officers on a burglary committed in Pennsylvania. The Pennsylvania officers, however, decided not to come after him, and after his release from Ogden he came down to Provo.

TORRE DOWN QUARANTINE FLAG.

Deputy Sheriff Henry, County Attorney Page and County Physician Robinson went to Benjamin and Lake Shore Saturday, and investigated scarlet fever cases. Deputy Sheriff Henry reports several cases of scarlet fever in Lake Shore, and several cases of smallpox in Benjamin. In Lake Shore Wilford Stewart was fined \$15 by Justice Hawkins for tearing down the quarantine flag at the residence of his uncle, Bishop Stewart.

FOUND A "CORPSE."

Sam Schwab, the Provo clothier, has a number of short iron men, full size, nailed up in various parts of the city for advertising purposes. One of them seems to have offended some one, and as a result the Schwab "drummer" was thrown into a creek north of town and a large rock placed on top of him. One of our Provo residents went to the creek to fish last week and saw the "corpse" in the river. He saw the feet of the drowned "man" sticking out of the water, and saw the rock on top of the body, and in consequence of the discovery, did not stop to catch any fish; but started for town and immediately notified the sheriff's office of his discovery. Deputy Sheriff Williams was sent to the creek to investigate, and preparatory to holding an inquest. No inquest was held, but a very urgent request was made by the discoverer of the corpse that nothing be said about the matter. Williams promises to keep his promise, but it appears that in his excitement the merchant first notified the marshal's office, who turned the case over to the sheriff, and the police officers, who had not been bound to secrecy, let the story out.

DIVORCES GRANTED.

Divorces have been granted in the Fourth district to Mary Catherine King of John Q. A. King, and to Dora M. Olsen from Edmund T. Olson.

DISTRICT COURT NOTES.

Draper and Carroll sentenced to four years in pen.

Ampti, Banpete Co., Sept. 14.—Yersey Judge Johnson sentenced Edward C. Draper, who had been found guilty of assault with intent to commit rape upon the person of Flossie Staker, to four years in the penitentiary. The case of J. C. Carroll was continued after the sentence of Draper, testimony being mostly for the defendant. Draper and Mrs. Carroll were the only witnesses against the state. Their stories were pretty nearly the same. Five witnesses for the state testified that defendant attempted and made threats to kill his wife. Mrs. Carroll showed nervousness and sobbed and cried but did not say anything that would show her husband was a desperate man. The arguments in this case were commenced before noon and were concluded in the afternoon, and were submitted to the jury, who brought in a verdict of guilty of assault with a deadly weapon with intent to do bodily harm, which was no little surprise to many, and more so later, when it was learned that only one hundred and fifty dollars was brought in by the jury. The sentence was postponed until this morning at 9 o'clock when the court sentenced Carroll to a term of four years in the penitentiary.

Mrs. Carroll is the daughter of Neil Gardner of Spanish Fork. Mr. Gardner was notified this morning and intends to come to court to see that his daughter, Mrs. Carroll spoke very feelingly last evening after the verdict, but would not say a word against her husband.

The case of A. J. Robbins vs. William Barsley, charged with malicious mischief, was also tried and disposed of yesterday. Barsley was charged with killing two pigs belonging to plaintiff. The jury rendered a verdict of "not guilty" in this case.

Judge Johnson will go to Richfield Tuesday to try some cases, and Judge McCarty of the Sixth district will be here to take his place.

SPANISH FORK

Gloom Over Nation's Loss.

Commencement of Schools—The Burning Water Question up Again.

Special Correspondence.

Spanish Fork, Utah Co., Sept. 14.—The shooting of President McKinley has been the main topic of conversation during the week, and the news of the death cast a gloom over the entire community. It seems so strange that in a country governed with so much leniency as this country, of one that its president officer should not be safe from the hands of the assassin, the hands of the anarchist.

COMMENCEMENT OF SCHOOL.

The schools of the city started up this morning.

ASTHMA CAN BE CURED.

A Noted Physician Will Prove This to Sufferers in Salt Lake Thursday.

The astonishing statement that Asthma can be cured, coming from so well known authority as Dr. Rudolph Schiffmann, will be of great interest to sufferers. The experience of most Asthmatics has been that little if any relief has been afforded them by the methods heretofore employed, and, in fact, the disease has up to now been regarded as incurable. This noted physician has, however, after a life-long study of Asthma and kindred diseases, discovered a remedy which not only instantly relieves the acute cases of Asthma, Hay Fever and Bronchitis, but has actually cured thousands whose cases had been pronounced incurable. So complete is Dr. Schiffmann's confidence in his remedy that he requests his paper to announce that all day Thursday, Sept. 19th, he offers a liberal sample box of "Schiffmann's Asthma Cure" free of charge to all persons applying at F. C. Schramm's drug store, corner Main and First South streets.

Dr. Schiffmann believes that an actual test will be the most convincing, and in fact the only way to overcome the natural prejudice of thousands of Asthmatics who have heretofore sought relief in vain. Persons living out of town will receive a package free by writing direct to Dr. R. Schiffmann, 370 Jackson street, St. Paul, Minn., between Sept. 21st, and enclosing a 3c. stamp.

week with a good corps of teachers. The principal teachers being the same as last year. We expect good results this year, indeed, to exceed that of last year, which was considered good.

THE BURNING WATER QUESTION.

The city council is considering the waterworks question. The citizens seem generally to favor bringing water from some springs near the mouth of the canyon to the city, which it is thought can be done by a moderate expenditure. It is hoped it can be done, for if there is anything wanted here it is pure water to drink.

Don't wait until you become chronically constipated but take DeWitt's Little Early Risers now and then. They will keep your liver and bowels in good order. Easy to take. Safe pills. F. C. Schramm, Prescription Druggist, McCormick building, corner Main and First South streets.

MORONI.

DIED AT SEVENTY-SEVEN.

Jens Jacobsen of Jutland has Passed Away—Wheat But Half a Crop.

Special Correspondence.

Moroni, Banpete Co., Sept. 14.—Jens Jacobsen, of Jutland, Denmark, died at his home here and will be buried on Monday next. Not all his mortal remains were interred here, for the good brother lost a leg in the Danish and Prussian wars of 1848-50. He was the proud possessor of a fine silver medal awarded him for gallantry on the field, and was a loving and faithful member of the Church of Jesus Christ of Latter-day Saints. Bishop Iron's health is failing, and in consequence is confined to his room at times.

The up-store, superintended by Andrew Anderson, Esq., is a success and holds the trade of Moroni and surrounding ranchers.

The yield of wheat is only about one-half of former years; the drought and grasshoppers have also reduced the lucerne yield.

Geo. W. Lane, Pawama, Mich., writes: "Your Kodol Dyspepsia Cure is the best remedy for indigestion and stomach trouble that I ever used. For years I suffered from dyspepsia, at times compelling me to stay in bed and causing me to lose my appetite. I am now cured by Kodol Dyspepsia Cure. In recommending it to friends who suffer from indigestion, I always offer to pay for it if it fails. So far I have never said so." F. C. Schramm, Prescription Druggist, McCormick building, corner Main and First South streets.

Special Correspondence.

CONVENTION OF EDUCATORS.

All the district school trustees of the county met in convention yesterday to be instructed in their duties by State Superintendent Nelson and County Superintendent Magby. A very large number of school trustees were present, and many subjects of importance pertaining to the welfare of the schools were treated.

At this convention a resolution was adopted commending with Mrs. McKinley in her crushing bereavement.

Our city is draped in mourning for the departed President of the United States. Perhaps the death of no one person has ever caused such universal sincere sorrow in this place. Every face wears a look of sadness and every voice is subdued.

A popular educational meeting was held at the Tabernacle last evening, and was largely attended by the pupils and patrons of the public school. Addresses were made by State Superintendent Nelson, County Superintendent Magby, Principal P. K. Seemiller, and other exercises of a recreative character were rendered.

OUR NEIGHBORS.

PARKER, IDAHO.

Thrill and Prosperity Manifest on Every Side.

Special Correspondence.

Parker, Fremont Co., Idaho, Sept. 12.—For pleasant rural sights this place cannot be excelled. The beautiful level wheat fields, bordered thickly with wheat shocks or covered with ripe and

waving grain, the stretches of green and curing alfalfa, and the musical hum of the mowing machine, combined with the hum of the threshers, making a scene that thrills the agriculturist with pleasure and satisfaction.

There are fields of grain here on subterranean land that are so heavy that the husbandmen can only take half a swath, while the bundles are thrown to the other over the whole field. Both hay and grain are yielding well. The great stacks of the former threaten to topple over the quantity that is being gathered. Potatoes will also yield well. The last two or three nights the frost has nipped the vines, and all tender fruits have suffered. This has been a remarkable season so far, and excellent gardens have been the rule.

Parker is growing in every way. We now have two good general merchants, and a new school house is under construction that will cost over three thousand dollars. Bishop Carbine is building a new home. Wm. L. Flint is just completing a neat five-roomed cottage opposite the meeting house, and improvements can be seen on every side. The prosperity of the people is apparent, as everybody rides in a buggy or carriage. It would be hard to find a richer place of country or more prosperous people.

Quite a number of people have bought in here recently and others are here looking at the country, charmed by the big canal full of water and the ease by which these great farms are irrigated.

OWEN, WYOMING.

Good Crops With a Good Market—Cumberland Coal Camp.

Special Correspondence.

Owen, Albany Co., Wyo., Sept. 13.—The rush of the farm work is nearly over. The last crop of hay is nearly harvested. Threshing has begun, but the grain crop will not be as heavy as last season, as the farmers are putting the most of their land in lucerne. The root crop is good and we have a fine market for it. Our produce at Cumberland, which has fair to become one of the biggest coal camps in the United States. At least one-half of the male population of Owen are engaged in work there.

Our meeting house is lathed and plastered and the stand is seated with chairs and presents a very neat appearance. We have had no frost yet, but the nights are quite chilly.

COLONIA DIAZ, MEXICO.

DEATH OF JACOB W. NORTON.

Bountiful Harvest—Water Rights Secured—More Colonists Wanted.

Special Correspondence.

Colonia Diaz, Chihuahua, Mexico, Sept. 11.—Our corn harvest has commenced and the yield is so bounteous that we are desirous that our friends in the north should hear about it.

Brother Charles Whiting told the writer a few days ago of some corn he had planted in the bottom below town, he plowed the land and planted the seed and that is all the work he had to do on it until now he is harvesting his crop, and he says he never saw finer corn in any country. This is without irrigation and we have thousands of acres of land just as good as his waiting for the husbandman.

Lucern gives us five good crops per year. Another Erastus Beck cut fifty loads of six acres in four days. He told the writer he had cut three hundred and he had raised over 200 bushels of small grain about 60 tons of lucerne besides 30 acres of very fine corn. The prospect is all favorable for us to secure about forty water rights in the Pala Tada ditch. If this is done, we will have the control of the water and can then offer better inducements to settlers.

We have organized a Farmers' and Stock Breeders' association, with John T. Moon as president; Charles Whiting as first, and Edson D. Porter as second vice president, and H. D. Harvey, secretary and treasurer.

Presidents A. W. Ivins and Holman Pratt came on the evening of the 6th and remained over Saturday and Sunday. They held meetings both days.

DEATH OF JACOB W. NORTON.

Jacob W. Norton, son of Warner and Dorothy Norton, passed away at 4 p. m. Friday, September 14, 1901, after an illness of over a year. He was born in Limestone county, Alabama, November 15, 1833. His parents joined the Church in his early youth. He, in connection with his wife, Mary, and his children, was instrumental in the trials incident to the expulsion of the Saints from Nauvoo. He was in many of the Indian wars in Utah and was one of the first who came to Mexico. He loved and loved his family, and his numerous friends to mourn his death. Funeral services were held at 2 p. m. on Saturday. The house was well filled with sympathizing friends and relatives. The services were held at the home of A. Little, President Ivins, President Pratt, Elder I. W. Pierce, Sr. and Bishop W. D. Johnson, Jr., all spoke of his sterling qualities and faithfulness.

We are now in the midst of fine rains, the range is in good shape and the cattle fat. Considerable wild hay is being put up.

The health of the people is generally good
