SANPETE COUNTY BOADS.

MT. PLEASANT, Oct. 26.-The new law regulating the use of and collection of poil taxes, in this county, is working splendidly. Men are steadily employed, who are expected to "deliver the goods" and not "put in the time" as formerly, and more work is being done for the public highway.

A one-mill road tax has been levied instead of an appropriation for road improvements, and a gang of about 13 men and teams is at work with madern and up-to-date thois and graders. It is the policy of the county commissioners to follow out the suggestions given by the government expert, who attended the Good Roads convention in thait Luke City last spring. This is being done by grading the roads, put-
