——It is said that confusion prevails in the French National Assembly, and that both Right and Left consider dissolution imminent.

——For an important decision respecting mining locations, issued from the General Land Office, today, see Washington telegrams.

——Professor Marsh and party reached Cheyenne last night, from the exploration of the newly discovered fossil lands; many remains of extinct animals, new to science, have been discovered.

BLACK-HEARTED VILLAINY.

BEFORE us are three instances of seduction, as reported in our exchanges. This is a crime which can not be tolerated in any community that would be morally healthy, a crime which, in its more aggravated phases, deserves and sometimes receives condign and summary punishment without mercy.

According to the Detroit *Free Press*, one Archibald Bixby, with an *alias*, of that city, was engaged to be married to Annie Sherman, a Canadian girl of seventeen, daughter of a widowed mother. Before the appointed time for the marriage, Bixby proposed to the girl that she live with him as his mistress, a proposition which she indignantly scouted, and, on hearing of it his employer discharged him and advised the girl to have no more to do with him. However, after a time he became so very sorrowful and contrite that she restored him to favor, and he persuaded her to be married to him, which ceremony was performed by a man who was introduced to the girl as "Justice Thomas." After the ceremony the thus married couple went to stay at a "boarding house." The third day after, Bixby went away and sent the girl word that the marriage was a put up job, and that the best thing she could do was to keep silent and stay at the house, which really was one of ill-fame, similar to that concerning which the Third District Court in this city has just decided favorably. The regular inmates of the house laughed at the bogus marriage as a sharp trick and a good joke, and pressed the girl to stay, but she quickly left, leaving two of her dresses to pay for her board bill. Driven nearly frantic by the diabolical trick practised upon her, she probably would have destroyed herself, but for the interposition of friends. Bixby boasted of his conduct as a good joke, but it is likely that he and his confederate will be punished for their rascally conduct, as influential persons have taken the matter up.

In another instance, as recorded in the Sonora, Cal., *Independent*, one Adolph Parrou, a Frenchman of 50 years, residing at Columbia, was shot and instantly killed, Nov. 14, by Thomas Hays, for criminal intercourse with the latter's daughter, a girl of between 13 and 16 years of age. Parrou is described as one who had indulged his base passions until it had become a mania with him. He was "a moral monster, and more dangerous to be at large in the community than a wild beast. No home was safe from the terrible scourge of his presence, and the record of his crimes makes one blush for humanity." Under these circumstances, the community is well rid of his baleful presence.

The third instance is related by the *Union and Advertiser* of Rochester, New York. One Thomas Love courted, borrowed money of, promised marriage to, deferred the same, and ultimately seduced Annie Hoag, a prepossessing Irish girl of twenty-six years, under said promise of marriage. Love's love then cooled and he urged that he was too poor to marry.

Annie brought suit against him, and obtained judgment for $276 damages for breach of promise, and $124 for borrowed money, all his mean charges of previous lack of chastity on her part being overturned. Love was also sentenced by Judge Fuller to three years in the State Prison, the Judge "calling attention, in his remarks to the prisoner, to the fact that cases of seduction were becoming too common, and that the courts ought to set their faces rigidly against them."

A much heavier punishment was deserved.

Correspondence.

General Progress.

WILLARD, Box Elder Co., Dec. 2, 1874.

Editor Deseret News:

Our beautifully situated and peaceful village, or the inhabitants thereof, after a busy season of ploughing and sowing, reaping, harvesting, garnering, and building, are now turning their attention to the cause of mental improvement. Our Sabbath and day schools are in a very favorable condition, the public meetings are well attended, the Literary Institute flourishing of course, as ladies are admitted as members—what could flourish without their gentle influence? Our people are identified with the co-operative movement in Brigham City, and our co-operative store, under the able management of John T. Thain, is in a thriving condition notwithstanding the scarcity of greenbacks.

We have been visited by traveling catchpennies, but the taste of the people does not incline that way. What we need is visits from saints who are investing to impart and receive food for reflection; any such will find a friend in Bishop G. W. Ward and his associates.

Being situated on the line of travel of the U. N. R. R., we have many privileges not heretofore enjoyed, and the scientist, the lecturer, or the searcher for mineral wealth might find something worth his staying for one day in our schools, meetings, or mountains.

Mining is not neglected, as Messrs. Harding and Barker have been working extensively in the iron mine during the past season, and they now have thousands of tons of ore, ready to ship, and to order, within one mile of the U. N. R.R. track.

The health of the people is good, and last but not least a good spirit bears rule, and prosperity smiles with a benign influence over our peaceful abodes.

C. W.

Farmers' and Gardeners' Club—United Order.

RICHFIELD, Sevier Co., Nov. 29th, 1874.

Editor Deseret News:

Although all who have visited our settlement of late have testified of it as one of the most thriving towns in Utah, yet, we would hardly have realized it so well, had it not been for a little exhibition we had here a few days ago, at the annual election for our Farmers' and Gardeners' Club. The roots and vegetables exhibited there exceeded anything I have ever seen, at any fair, both in size and beauty. Some English kidney potatoes, imported from Canada, by Bro. Wm. H. Segmiller, and raised here by G. T. Wilson, were very fine. Bros. G. T. Wilson, Wm. Thompson and Michael Jensen's cabbages and different kinds of roots were especially praised. The officers elected for the ensuing year were as follows—for President, G. T. Wilson; Vice-President, Wm. Thompson; Directors, J. A. Helstrom, Gotlieb Ence, and —— Hertzfogel; Home and Corresp. Secretary, C. I. Kemp; Treasurer, Wm. Ogden. It was considered by Bp. A. K. Thurber, and Wm. Segmiller and other men of experience, that where the red sandstone soil is, it exceeds anything else in fruitfulness, both for vegetables and grain.

The U. O. is going along ander the new organization most excellently, and new additions to our strength are continually arriving from the North and from the South. We bid them welcome, and as many more as desire to come. Here is plenty of room for all who desire to serve God, and think more of building up his kingdom than of making money.

TO-DAY'S DISPATCHES

EASTERN.

The President's Message—Virginius Indemnity, &c.

WASHINGTON, 3.—The President has completed his message, and it will be read at the cabinet meeting to-morrow. It is longer this year than last, covering about eighty pages of foolscap.

It is known in diplomatic circles that Spain has paid Great Britain only a part of the indemnity on account of the *Virginius* affair, leaving the remainder and other questions to be hereafter adjusted.

No one doubts that the President will accept the resignation of District Judge Durell, of Louisiana, just tendered; Durell thus terminates the proposed impeachment pending in the House judiciary committee.

Report of Secretary of War.

The report of the Secretary of War will show a reduction in the expenses of the army, for the year ending June 30th, 1874, of nearly $4,000,000 over the previous fiscal year. The following are among the recommendations: The allowance of a monthly addition to the pay of officers acting as assistant quartermasters; a renewal of the recommendations for the purchase of sites of posts in Texas in accordance with the report previously made to Congress; the system of mileage and payment of officers and employees travelling on duty to be restored in view of actual expenses as now allowed, under the law of last year; that private soldiers be permitted to compete for the position of commissioned as well as non-commissioned officers, the exemption of subsistence stores from the operation of the law requiring the proceeds of the sales of public property to be covered into the treasury as miscellaneous, at the expiration of each fiscal year, the law to be so changed that the appropriations for subsistence stores can be made available prior to the commencement of the fiscal year for which they are appropriated; that provision be made for the publication of 50,000 additional copies of the medical and surgical history of the war. Attention is called to the recommendation of the chief of engineers for an additional appropriation for ammunition for target firing, and that much larger appropriations than heretofore be made annually for the manufacture of arms and an increased appropriation for arming and equipping the militia. Steps are to be taken to relieve the various States from indebtedness for arms charged to them during the rebellion. The sales of various arsenals such as Alleghany, Columbus, Detroit, Pikesville, Watertown and Washington are recommended; the Springfield armory, Frankfort arsenal, and a few others are recommended to be retained. The proceeds of those sold are to be applied to the erection of one grand arsenal for manufacturing purposes, to be established near New York. The proceeds of the sales of those named would be amply sufficient for that purpose, and there is no necessity for their retention.

Mining Decision.

The Commissioner of the General Land Office promulgated the following highly important ruling today:

"A mining claim upon which the amount of expenditure required by the mining act of 1872 shall have been expended at any time, since the 10th of May, 1872, and previous to January 1st, 1875, will not be subject to relocation if the location was made prior to the passage of said act of May 10th, 1872, but the yearly expenditure must be made thereafter."

Pardoned—Appointed Commissioner—Strikes.

NEW YORK, 3.—Cable dispatches report that Frederick A. Dockery has been pardoned by the Spanish government.

Senor Castelar has been appointed commissioner to represent Spain at the American Centennial.

It is reported that the weavers in Higgins & Co's carpet factory, Forty-third Street and Eleventh Avenue, have struck to the number of 1500 against a reduction of wages, that the factory is closed and that the operatives have been informed that work will be resumed when the terms offered them are accepted. One hundred women employed in a factory at the New Brunswick, N. J., Rubber Company, struck yesterday against a reduction of wages. The packing box makers of Brooklyn are on strike against a reduction of wages, and new hands have been employed.

The funeral of Mayor Havemeyer will take place on Saturday at 11 o'clock, from St. Paul's Methodist church, Fourth Avenue and Twenty-second Street; the Old Guard will form an escort to the hearse. Among the pall-bearers will be Governor Tilden, Peter Cooper, ex-Governor Morgan and Thurlow Weed.

Booth's Theatre Sold.

Booth's Theatre was sold to-day, by order of the Supreme Court, in a foreclosure; the property was bought by Oliver Ames, of Boston, for $385,000, and is subject to mortgages amounting to $276,000.

$350,000 Damage—Resigned—Selling his Property.

A Kingston, Jamaica, letter puts the damage to that Island, by the typhoon of November 1st, at $350,000.

A New Orleans dispatch says that Judge Durell has forwarded his resignation to the President, and that Walker Fearn is named as his successor; the same dispatch says that Kellogg is quietly disposing of his property in that State.

$50,000 Fire.

MEDINA, N. Y., 3.—The Methodist church was burned, and adjacent buildings damaged; loss $50,000.

Bill for a License Law.

COLUMBUS, O., 3.—In the State Senate this morning, a bill was introduced repealing all the existing liquor laws, and providing for a license law with various checks and safeguards.

Arkansas—Louisiana—Married.

CHICAGO, 3. — A Washington special says there is good authority for the statement that the President, in his message, will make no recommendations in the Arkansas case, but will content himself with a recital of the principal political occurrences in that State since 1868, and the announcement that application had been made to him to interfere; it is believed that, in this recital, he will for the most part follow the statements of the brief of the attorney of V. V. Smith, without drawing any inference relative to the legal portions of the brief or making any recommendations.

The supporters of the Kellogg government are assembling here in considerable numbers; Collector Casey and Attorney General Field are already here, and have stated that Governor Kellogg himself will certainly come. These gentlemen insist that Congress shall take some immediate definite action with regard to Louisiana; they wish an affirmative recognition of the Kellogg government, and represent that the result of delay will be another revolution and the delivery of the State to anarchy.

Wilbur F. Storey, editor and proprietor of the Chicago *Times*, was married last night to Mrs. Eureka Pearson.

Professor Marsh and Party.

CHEYENNE, Wy., 3.—Professor O. C. Marsh and his scientific party arrived here last evening from the Bad Lands south of the Black Hills. The expedition was very successful notwithstanding the extremely cold weather and the continued hostility of the Indians. The latter stopped the party twice on their way to the Bad Lands, and attempted a night attack on their camp, and otherwise molested them. The explorations were made under great difficulties, but resulted in important discoveries. About two tons of the remains of extinct tropical animals were collected, among them many new to science. This collection goes to Yale college, and will soon be described by Professor Marsh. The military escort of the expedition was under the command of Maj. A. S. Burt and Lt. W. L. Carpenter.

FOREIGN.

GREAT BRITAIN.

Kenealy's Case—England Intractable.

LONDON, 3.—The Lord Chancellor, Lord Cairns, has removed the name of Dr. Kenealy from the list of Queen's counsel.

The *Daily News* from Berlin, says it is reported that Great Britain has formally and finally refused to take part in the international law conference which Russia proposed to reopen at St. Petersburg.

FRANCE.

Confusion in the Assembly.

PARIS, 3.—The *La Rebublique Francais*, radical republican, says the greatest confusion exists among the various parties in the Assembly and both the right and left consider dissolution imminent. *La France* believes the plan of the renewal of the Assembly by successive party elections is gaining ground, and adds that a motion to that effect will shortly be introduced in the chamber.

SPAIN.

Serrano will take the Field.

MADRID, 3.—Serrano will leave this city on Saturday, for the north, for the purpose of directing military operations. In the selection of his staff particular pains were taken that none should be placed on it who are suspected of being a supporter of Prince Alphonso. The Carlist leaders Velario and Cucula have unsuccessfully attempted to enter the province of Murcia with troops.

TESTIMONIAL.

Editor Deseret News:

I had a son who appeared to be in ill health, being in a pining condition. I was unable to determine the nature of the disease which affected him. A few days since I placed him under the treatment of Dr. Plant, who, within a few hours, and without pain or inconvenience to the lad, freed the patient of a tapeworm about forty feet long, since which time the boy has been improving. I wish you to publish this circumstance, as much for the benefit of people afflicted similarly to my boy, as to award credit to Dr. Plant, whose skill in that line of complaints can be relied on, besides his charges are moderate.

NEW ADVERTISMENTS.

ANOTHER "OPEN LETTER."

Dear Public:

We have often observed how naturally, when you wish to purchase any article of comfort or necessity, you endeavor to procure it at the lowest possible price, cheapness generally constituting the most important point in favor of buying. This frequently proves mistaken economy, because low-priced goods must be made of inferior materials, consequently such goods invariably fail to give satisfaction; in perhaps no branch of trade is this fact more apparent than in Boots and Shoes. We are not advocating high prices, however, but take great pleasure in stating that the policy we have adopted of using only the best materials, and making none but good, "honest" *warranted* Boots and Shoes, has gained us hosts of customers, who, as evidence they are satisfied that our goods are well made and *truly cheap*, always come again and send their friends. Any defect in workmanship is repaired free of charge. Old Boots and Shoes are made "amaist as guid as new."

In addition to the goods of our own make, we keep a choice assortment of the best qualities of imported Boots and Shoes, including Rubbers, etc., suitable for the season.
