MEANS WHAT HE SAYS.

Though "confirmations" strong in proof of Holy Writ, and as numerous as the sands on the seashore, were produced to prove that the proprietor of Dr. Sage's Catarrh Remedy is in earnest, and means what he says when he offers \$500 reward for any case of Catarrh which he cannot cure, yet there would be some skeptics and fogies who would continue to doubt the efficacy of the remedy. It cannot be, because Dr. Himespun says Catarrh cannot be cured. Now, this Dr. Himespun is the identical god-forsaken old fellow who honestly believes and persists in declaring that this earth is not round or spherical, but as flat as a "slap-jack," and does not turn over, otherwise the water would all be spilled out of Deacon Bacon's mill pond. But astronomical science has positively demonstrated and proven that Dr. Himespun is wrong in supposing the earth to be flat and stationary, and medical science is daily proving the fact that the disease of Catarrh is not a "slap-jack," and does not turn over, but is a real and substantial ailment, the times in regard to the curability of Catarrh. In short it has been positively proven that this world moves, and that medical science is progressing—the opinion of Dr. Himespun to the contrary notwithstanding. That Dr. Sage's Catarrh Remedy will cure Catarrh, thousands who have used it attest.

Then buy it and use it, in doubt do not stand, You will find it in drug stores all over the land.

(From the Catechist Recorder of Nov. 15, 1871.)

A GOOD REMEDY.

We invite attention to the advertisement of Sage's Catarrh Remedy. Our readers will bear in mind that we never knowingly commend humbugs of any name or nature, and a large portion of patent medicines may safely be classed as impostures upon public credulity.

But having witnessed the beneficial effects of Sage's Remedy upon the members of our family and others, in catarrhal cases, we unqualifiedly pronounce it a valuable medicine, entitled to public confidence. The proprietor could easily obtain in Catechist many certificates of its merits.

A FEW MORE NEW Mexican ever-bearing Strawberry Plants for sale. They can be planted at any season of the year when the frost is not in the ground, and will bear fruit same season.

J. B. FURSTNER, Second South Street, opposite d157 3 a Great Western Hotel.

SILKWORM EGGS. I have some forty ounces of silk-worm eggs and a large number of mulberry trees, and the sisters who wish to raise silk are welcome to the eggs and to gather the leaves for feeding.

Those wanting the eggs are requested to call immediately.

PREF. BRIGHAM YOUNG.

LOCAL AND OTHER MATTERS.

THERMOMETER 63 degrees F. In the shade, at 1 p.m. to-day. Fine, some clouds, changeable.

Gooseberries.—Home raised gooseberries are becoming abundant in the fruit market.

Religious Services.—Meetings will be held as usual to-morrow in the New Tabernacle, at ten and two o'clock, and at the various Ward meeting houses in the evening.

Needing Repairs.—Third South Street, near the east end, is very much out of repair, one portion of it being washed away by water flowing across it.

Police Court.—During the last few days scarcely any criminal cases have been before the police court. The roughs appear to be "lying low" at present.

Windy.—During a considerable portion of last night a powerful wind prevailed here, but we have not heard that it was productive of much damage. It kept up a terrific howling and whistling for several hours.

Twentieth Ward.—We are requested to announce that the Teachers of the 20th Ward are desired to meet at the Schoolhouse immediately after the usual general meeting to-morrow (Sunday) evening, instead of Monday evening, as previously arranged.

Firemen Attention!—The members of Pioneer Engine Company No. 1 are requested to meet at Pioneer's Hall, Monday, June 1st, at 7:30 p.m.

C. M. DONALDSON, Jun., Secretary.

Another Closed Up.—Among others, the liquor dealers are feeling very sensibly the effect of the dull times, a part of it which nobody should feel sorry for. Another of those "liquid lightning" institutions closed up to-day, for want of custom. If all the others were to follow suit the community would be benefited.

Personal.—We have received a call from Mr. F. Phalan, who represents the house of Appleton, Noyes & Co., of St. Louis, wholesale manufacturers and dealers in boots and shoes. They have a large factory and employ several hundred hands. Their goods are made up under the immediate supervision of members of the firm. The St. Louis custom boots are becoming very popular with our community, and are extensively sold by Z. C. M. I. and other leading business houses. Mr. F. is staying at the Townsend House, where he will remain a few days.

Organization in the Second Ward.—We have received the following: Minutes of a meeting held in the 2nd Ward school house, May 28th, 1874, for the purpose of organizing a branch of the United Order.

Elder A. M. Munger, through solicitation of Bishop Leach, stated the object of the meeting.

The articles of agreement were then read by Rev. R. P. Pratt.

A motion was just read, suggesting that we organize as a branch of the United Order.

The following were then elected a nominating committee—James Jensen, R. Peterson, Wm. A. Pratt, E. Williams, Wm. H. Hart.

During the absence of the committee Elder Munger spoke in behalf of the Order.

The committee returned and the following were elected as officers: James Leach, President; Daniel Corbett, 1st Vice-President; Soren Iversen, 2nd Vice-President; Wm. L. Ball, Secretary; Wm. H. Hart, Treasurer; Charles Wilkins, Samuel Peterson, James Jensen, George Rees, Stephen Tucker, Directors.

Utah Southern Railroad.—For changes in the running of trains on this line, to take effect on and after June 1st, parties interested should examine the Company's advertisement, in another part of the paper.

No Paper.—As Monday will be observed as a general holiday in this City, and as all hands in this office do not care about being odd in the matter, and as they have probably as much respect for the departed heroes of the rebellion as any body else, and for other considerations, which it is useless to mention, we have concluded not to issue a paper on that day.

From England.—Elder James T. Little, who has been on a mission to England, reached home on Thursday night, after an absence of about a year. He crossed the Atlantic with the company of Saints expected to reach here tonight, but left them at New York and came on ahead. During Elder Little's stay in England he labored for the most part in the London Conference, but also visited various other parts of the European mission. He enjoyed himself very much and returns in good health and spirits.

The Final Terminals.—The Union Pacific and Central Pacific Railroad Companies' commissioners, appointed to determine the locality of the final terminus of the two lines, held a conference, at Ogden, yesterday, for the purpose of arriving at a definite conclusion in the matter. The Union Pacific Company was represented by Honorable Sidney Dillon and Oliver Ames and Messrs. Ripley, Eickles, S. H. Clark and O. H. Earle, and the Central Pacific by Hon. Leland Stanford, Messrs. Towne, Clement and Montague.

Last night no decision was reached and so the gentlemen named came down to this City by last evening's train. They returned to Ogden this morning, and it was fully expected that the matter would be definitely settled to-day.

Theatre.—Last evening the "Octoron" was excellently played, as it could hardly be otherwise with such an array of talent on the boards. Mr. Mestayer as "Jacob McCloskey" and Miss Corville as "Zoe" were especially good.

This evening the last of the engagement of Mr. W. A. Mestayer, and for the benefit of the Ladies' Library Association, the beautiful plays of "Don Cesar de Bazar" and "Robert Macaire" will be presented. Mr. Mestayer will appear as "Don Cesar de Bazar" and "Robert Macaire," Miss Corville as "Maritana," Miss Adams as "Leticia," Miss Cogswell as "Marie," Mrs. Douglas as "Countess De Bazar," Mrs. Crobie as "Marquis De Rotundo" and "Jacques Strop," Mr. Lindsey as "Charles the Second," Mr. Thorne as "Don Jose" and "Gormel."

On Monday evening Mr. George B. Chaplin will commence an engagement as "Captain Jack Point" in Robertson's elegant comedy of "School."

Decoration Day.—A general invitation has been extended to the citizens, by general H. A. Morrow, to be present at the ceremonies connected with the decorating of the graves of departed soldiers who fell in the cause of the Union, and it is probable that a large number of the people will visit Camp Douglas on the occasion. At one time it was feared that the ceremonies would not be grand by the general presence of General Morrow, which would be a great loss to the occasion, but it is now known that he will be present, and will participate in the proceedings, he having received orders from General Ord to visit Camp Beaver. He subsequently, however, received a dispatch that he had the privilege of delaying his visit south till after Monday, June 1st.

Several prominent gentlemen will make suitable speeches on the occasion, and for the accommodation of the public a line of omnibuses will run between Camp Douglas and the eastern terminus of the street railroad.

CENTREVILLE SCHOOL.

SALT LAKE CITY, May 30th, 1914.

Editor Deseret News:

By invitation of Mr. Geo. Chase, one of the trustees of the Centreville district, I attended the school there yesterday afternoon, and witnessed the regular monthly review. The exercises consisted of—

1st. A song—"Here's to the friends we love."

2nd. Reading lessons in all grades, from the first to the sixth.

Some of these classes, after having read, recited in concert some of the elements of reading, after which they took up word analysis, in which they arrived a very good knowledge, not only of the nature and use of the words, but also of their constituent phonetic elements.

3rd. Grammar classes were exercised in diagramming and analyzing sentences, in which Miss Kate Chase, Miss Emily, Thelma Randall and others acquitted themselves with honor, and reflected great credit on their teachers.

4th. The exercises in practical arithmetic were
